Now, therefore, His Excellency the Governor of the Dominion of New Zealand, in pursuance and exercise of the power and authority conferred by the said Act, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby make the following regulations for the purposes of the said section, and declare that those regulations shall come into force on the day of the publication thereof in the *New Zealand Gazette*.

REGULATIONS.

1. In these regulations—

"Occupier" means the person by whom or on whose behalf any property which is liable to be rated under the said Act is actually occupied, if that person is in occupation by virtue of a tenancy which was for not less than six months certain; and as to property so rateable and occupied by virtue of a tenancy not coming within the above description, and also in the case of unoccupied property so rateable, means the owner of the same; and as to Crown lands, whatever may be the term of the tenancy thereof, means the lessee or licensee thereof, or where there is no such lessee or licensee means the Minister of Lands.

2. A roll of all occupiers shall be prepared by and kept in the office of the Commissioner of Crown Lands for the Auckland Land District, and the said Commissioner shall from time to time amend the same so as to insure that all changes of occupation are duly recorded therein.

3. No occupier who acquires his interest in any land subject to the said Act after the compilation of the roll in accordance with the last preceding regulation shall be entitled to vote at any election of an arbitrator as hereinafter provided unless he notifies the Commissioner of Crown Lands at Auckland of the acquisition of his interest at least one month prior to the date of that election: Provided that if the said Commissioner has entered the name of the new occupier upon the aforesaid roll, that occupier shall be entitled to vote notwithstanding that he has not given the prescribed notice.

4. When the Minister proposes to obtain an advance from the Superintendent under the New Zealand State-guaranteed Advances Act, 1909, for the purpose of constructing or carrying on such works as are authorized by the said Act, he shall deposit a full description of the proposed works, together with such specifications and plans as he deems necessary, at the Te Teko Post-office, and at such other place as he thinks fit, and shall notify by advertisement in some newspaper circulating in the district that such description and other particulars are available for inspection by all occupiers of land within the area subject to the said Act.

5. In the aforesaid advertisement the Minister shall call upon the occupiers to hold a public meeting at such time and place as he therein appoints, being not less than thirty days after the date on which the said advertisement first appears in the said newspaper, to elect an arbitrator.

And for the better enabling you, the said Commission, to carry these presents into effect you are hereby authorized and empowered to make and conduct any inquiry under these presents at such times and places in the said Dominion as you deem expedient, with power to adjourn from time to time and from place to place as you think fit, and to call before you and examine on oath or otherwise, as may be allowed by law, such person or persons as you think capable of affording you information in the premises; and you are also hereby empowered to call for and examine all such books, documents, plans, maps, or records as you deem likely to afford you the fullest information on the subject-matter of the inquiry hereby directed to be made, and to inquire of and concerning the premises by all lawful means whatsoever.

Wellington, N.Z., 9th March, 1911.

THE following extracts from Notices to Mariners, received from the United States Hydrographic Office, at Washington, are published for general information.

J. A. MILLAR.

CHILE.

MAGELLAN STRAIT.—JENTE GRANDE BAY.—HYDROGRAPHIC INFORMATION.—S. C. Loveland, master of the American steam-yacht "Alcedo," reports that he entered Jente Grande Bay, Magellan Strait, drawing 17 ft., and found it easy of access, and a clean body of water, deep, and with no tide-rips of consequence. He further states that the beacon on Quartermaster Island was easily distinguished from a long distance, and was of assistance.

Captain Loveland recommends the southern channel, the shoals on the southern side of which are generally made out by the change in the colour of the water rather than by kelp. Serpiente Shoal, on the northern side, is always distinguishable either as a sand bar or by tide-rips.

Approximate position of Quartermaster Island beacon: Latitude 52° 57' S., longitude 70° 21' 50" W.

INFORMATION CONCERNING AIDS TO NAVIGATION.—The following information has been received concerning the aids to navigation in Magellan Strait:—

There are two range beacons on Malvinas Point which serve as a guide to the anchorage off that point. When in line these beacons bear 288°.

Baxta Point beacon is surmounted by 2 red balls instead of one.

Barranca Point beacon is painted white and surmounted by 2 balls, and not red and white, with a cage.

The red conical buoy marking Triton Bank has a conical topmark and not a cage.

## CALIFORNIA.

PIGEON POINT LIGHT-STATION.—INTENDED CHANGE IN FOG-SIGNAL.—About 1st March, 1911, the 12-inch steam-whistle at Pigeon Point Light-station, sea-coast of California, will be replaced by a first-class compressed-air siren.

SAN FRANCISCO BAY.—FORT POINT LIGHT-STATION.—FOG-SIGNAL TO BE CHANGED.—About 1st March, 1911, the second-class Daboll trumpet at Fort Point Light-station, San Francisco Bay entrance, California, will be replaced by a second-class compressed air siren, which will sound blasts of 2 seconds duration every 20 seconds—thus, blast 2 seconds, silent interval 18 seconds.

Approx. position: Lat. 37° 48' 32" N., long. 122° 28' 39" W.

## SOUTH PACIFIC OCEAN.

SOLOMON ISLANDS.—NON-EXISTENCE OF IMBERHORNE REEF.—Information has been received that an unsuccessful search has been made for Imberhorne Reef, Solomon Islands, South Pacific Ocean. Soundings obtained by H.B.M. surveying-vessels on two occasions, while searching for this shoal, show depths of not less than 2,000 fathoms within a radius of 12 miles around the position of this reported danger. It is therefore not considered to exist within the limits searched, and will be expunged from the charts.

Approx. position: Lat. 12° 5' S., long. 162° 39' E.

(See Notice to Mariners No. 25 (543) of 1898.)

The captain states that at the time of striking he felt the ship tremble, but thought it might be due to an earthquake shock, but that upon examination of the ship's bottom, when docked, conclusive evidence was obtained that the vessel had touched a reef.

ELLICE GROUP.—NIUTAO ISLAND.—CORRECTED POSITION.—The commander of the German man-of-war "Scharenhorst" reports that Niutao Island, Ellice Group, South Pacific Ocean, is located four miles 270° from its charted position.

\* Interest and sinking fund on buildings valued at £481, payable in cash or in fourteen years by half-yearly instalments of £24 5s. 10d. Total half-yearly payment, £78 5s. 10d.

GENERAL DESCRIPTION.

This settlement is situated on the south branch of the Waihaio River, about two miles north-westerly from the Waihaio Forks Railway-station, about ten miles from Waimate and fourteen miles from Studholme Junction, on the Christchurch-Dunedin Main Trunk Railway. Agricultural sections, ranging in altitude from about 500 ft. to 800 ft. above sea-level, comprising undulating and easy sloping spurs, level terraces, and river-flats. The soil is generally good, rich in places, on a clay subsoil, slightly stony on some of the river-flats. The property is at present carrying grass, oat and wheat stubble, rape and turnips, with a few patches of unbroken land in tussock and English grasses. The greater portion of each section is ploughable.

All of the sections are watered by the Waihaio River, with the exception of Section No. 5, which is watered by Stony Creek and springs. There are also several small streams which are liable to dry up during dry seasons. The dwellinghouse and stables on Lot 4 are supplied with good water from a bore and windmill on Stony Creek, and good water can probably be found by boring on any of the sections.

All the sections have road-access. A new road has been laid out through Sections 1, 2, and 3 (which will be formed) giving access to good homestead-sites.

Reserves for school and creamery sites have been provided.

IMPROVEMENTS.

The improvements which are not included in the price of the sections, but which have to be paid for separately, are the buildings on Lot 4, consisting of a six-roomed cottage; eight-stalled stable, wool-shed, and feed-house combined; men's hut of three rooms; and old hut and stable. The whole of these improvements are valued at £481, to be paid for in cash, or by half-yearly instalments of £24 5s. 10d. for a period of fourteen years.

The improvements which are included in the price of the sections are as follows: Section 1—134 chains of boundary-fencing, £56 7s. 6d. Section 2—122 chains of boundary and subdivision fencing, £77 16s. Section 3—99 chains of boundary-fencing, £53 4s.
