Present :

THE HONOURABLE JAMES CARROLL PRESIDING IN COUNCIL.

And whereas the voting-papers used at the poll for the said loan by a clerical error stated that the sinking fund to be created for the redemption of the said loan was three pounds (£3) per centum per annum, in place of one pound (£1) per centum per annum, the latter being the amount of the sinking fund intended to be created :

And whereas it appears that the ratepayers have not been misled by such irregularity :

*Regulations under the Stone-quarries Act, 1910.*

ISLINGTON, Governor.  
ORDER IN COUNCIL.

At the Government Buildings, at Wellington, this twenty-ninth day of May, 1911.

Present:

THE HONOURABLE JAMES CARROLL PRESIDING IN COUNCIL.

IN pursuance and exercise of all powers and authorities conferred upon him by the Stone-quarries Act, 1910, His Excellency the Governor of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby make the following regulations, and prescribe that such regulations shall come into force on the date of the publication thereof in the *New Zealand Gazette*.

REGULATIONS.

The following rules shall be observed, so far as is reasonably practicable, in every quarry :--

I. SAFETY OF THE QUARRY.

1. The working of the sides, tops, or overburden of the quarry shall be carried on so as to prevent dangerous falls.
2. The overburden or "tops" of the quarry, and all loose ground or material, shall be cleared far enough back from the edge of the quarry to prevent danger to the persons employed.
3. When the quarry is worked in steps or "galleries," these shall be of sufficient breadth in comparison with their height to insure safety. When the quarry is worked without steps or galleries, sufficient support to the sides shall be left to insure safety to those employed.
4. There shall be a clear space between the outside rails of tramways and the edges of galleries sufficient to prevent both the falling of stones from the wagons and the falling of the men themselves to galleries below. Where such a space is impracticable the edges shall be securely fenced.
5. The top of the quarry, if dangerous, and the top of every shaft, shall be securely fenced.
6. All bridges shall, if dangerous, be securely fenced.
7. If work is carried on at night, it shall be under special supervision, and sufficient light shall be provided.

II. ACCESS TO THE QUARRY.

8. Secure means of access shall be provided by which workmen can go to and from their working-places.
9. A ladder permanently used for the ascent and descent of persons in the quarry shall not be fixed in a vertical or overhanging position, and shall be inclined at the most convenient angle; and every such ladder shall have substantial platforms at intervals of not more than 10 yards.
10. All tunnels used as a regular means of access to working-places shall be kept sufficiently lighted and drained, and where the space between the side of the wagon and the side of the tunnel is less than 3 ft. places of refuge shall be provided at intervals not exceeding 100 yards.
11. Persons shall not be raised or lowered in cages, tubs, buckets, or wagons unprovided with guides, except in sinking shafts; and no timber, tools, rails, sprags, or other material, except for repairing the shaft, shall be placed in the same cage in which men are being lowered or raised. In any shaft exceeding 20 ft. in depth, in which cages are not used, no person shall descend or ascend by the aid of machinery unless (in addition to the use of the loop, crossbar, or other appliance) he is securely stayed to the rope employed for lowering or raising in such shaft by a strap or other fastening passing round the body under the arms, and such method of staying shall be used by every person who finds it necessary. in the execution of his duty, to descend or ascend a shaft on top of the cage-covers.
12. Where machinery is used for raising or lowering persons, further regulations shall be made to suit the special circumstances of the case, copies of which shall be kept constantly affixed in the quarry office and in a convenient place adjacent to the said machinery.

III. MACHINERY AND PLANT.

13. No person shall remain under the rope or chain of an aerial incline whilst a wagon or load is ascending. Whilst a load is being moved on the landing-table no person shall remain immediately beneath it; and no person shall be allowed, without special permission from the manager or other official, to ascend or descend by means of an aerial incline.

*Notice to Shipowners, Shipmasters, and Ships' Cooks.*

**CERTIFICATED COOKS FOR SHIPS.**

Marine Department,  
Wellington, 29th May, 1911.

**T**HE attention of shipowners, shipmasters, and ships' cooks is drawn to the following extract from the Shipping and Seamen Amendment Act, 1909, which came into force on the 1st instant:—

15. (1.) After the expiration of six months from the commencement of this Act every British foreign-going ship of not less than a thousand tons gross tonnage going to sea from any place in New Zealand shall be provided with and carry a duly certificated cook who is able to prove one month's service at sea in some capacity.

(2.) A cook shall not be deemed to be properly certificated within the meaning of this section unless he is the holder of a certificate of competency in cooking granted by the Board of Trade, or by the Marine Department, or by some school of cookery or other institution approved for the purpose by that Board or by the Minister, or is the holder of certificates of discharge showing at least two years' service as cook at any time before the expiration of the said period of six months, or is the holder of a certificate of service granted under this section.

(3.) The cook shall be rated in the ship's articles as ship's cook, or in the case of ships of not more than two thousand tons gross tonnage, or ships in which the crew or the majority of the crew provide their own provisions, either as ship's cook or as cook and steward.

(4.) If any such ship goes to sea from any port in New Zealand without conforming to the requirements of this section, the owner and master of the ship shall be severally liable to a fine not exceeding twenty-five pounds, unless it is proved that there was some sufficient reason for the failure to conform to those requirements.

(5.) On the application, within one year after the commencement of this Act, of any person who proves to the satisfaction of the Minister that at any time before the expiration of the aforesaid period of six months he has

served for two years as cook on board any foreign-going ship or ships, the Minister may, if he thinks fit, grant to that person a certificate of service as cook, which shall have the same effect, and may be cancelled or suspended, in the same manner as a certificate of competency in cooking granted by the Marine Department under the foregoing provisions of this section.

(6.) The Minister may from time to time make rules as to the examination by the Marine Department of candidates for certificates of competency in cooking, and as to the qualifications of such candidates, and as to the fees payable by them for examination, and as to the issue, cancellation, or suspension of such certificates.

With regard to subsections (2) and (6), it is not at present proposed by the Department to conduct examinations and issue certificates in cooking, but to recognize as valid for the purposes of the Act certificates in cooking granted by the Technical Schools under the control of the Education Department or Education Boards in the Dominion. Cooks desiring to obtain such a certificate should therefore make the necessary application to the directors of such schools.

With regard to subsection (5), cooks having the necessary qualifications, and desiring to obtain a certificate of service, should make application at any time before the 1st May, 1912, to the Secretary, Marine Department, Wellington, through the Superintendent of Mercantile Marine at the port where the application is made. Applications should be accompanied by discharges or testimonials to prove at least two years' service prior to the 1st November, 1911, as cook on board any foreign-going ship or ships, and also by a testimonial as to the character or sobriety of the applicant for at least twelve months immediately preceding the date of application.

\* These remaining suburbs do not lie within borough boundaries, and particulars respecting them have not been obtained for the Vital Statistics. Closely correct annual statements of population outside boroughs are not obtainable.

In the above table are given the deaths and death-rates for each of the four cities, for the suburban boroughs severally, and for each city with its suburban towns. As regards Auckland and Christchurch, the whole of the area usually recognized as suburban has not yet been brought under municipal government, and the vital statistics do not deal with such portions as still remain in road districts. But the omission is not very important, for there are in either case quite enough suburbs included within borough boundaries to give a fair idea of the death-rate of Greater Auckland and Greater Christchurch. As further boroughs are formed the vital statistics will be made to include them.

Deaths occurring at hospitals, of persons not residents of the borough wherein the hospital is situated, have been allotted in each case to the borough where the disease was contracted, and not to that in which the death actually took place.

The inclusion of the suburban boroughs tends to lower the rate at Auckland, Wellington, and Dunedin; Christchurch is slightly higher.

	Death-rates per 1,000 of Population.	
Auckland City .. .. .	1.02	
and seven suburban boroughs .. .. .		0.77
Wellington City .. .. .	0.45	
and three suburban boroughs .. .. .		0.43
Christchurch City .. .. .	0.75	
and three suburban boroughs .. .. .		0.76
Dunedin City .. .. .	0.85	
and five suburban boroughs .. .. .		0.80

Including the suburbs, the rate at Dunedin is the highest, and at Wellington the lowest.

Compared with April, 1910, the results are,—

	1910.	1911.
Auckland and suburbs .. .. .	0.84	0.77
Wellington and suburbs .. .. .	0.68	0.43
Christchurch and suburbs .. .. .	0.93	0.76
Dunedin and suburbs .. .. .	1.28	0.80

The total births in the four chief cities and their suburban boroughs amounted to 588, against 589 in March—a decrease of 1. The deaths in April were 198—a decrease of 62 as compared with last month. Of the total deaths, males contributed 102, females 96. Forty-three of the deaths were of children under five years of age.

There were 71 deaths of persons of 65 years and upwards in the four chief cities and their suburban boroughs:—

The major portion of the timber on the western section is situated along the banks of the Paremata Stream and its numerous tributaries. The remainder is situated on the banks of the Taparahahe Stream and its small tributaries. The best way of working this timber is by the erection of a large timber dam on the Taparahahe Stream above the junction of the Paremata Stream, and driving by the aid of freshes. Where the timber is situated in small branches it will in all cases be necessary to drive to the main stream by small dams, which, owing to the nature of the country and the rocky formation of the creeks, will be of moderate expense. The main stream is free from falls with one exception, but as this is a series of large boulders for about half a mile the timber can be brought safely over if the large dam on the Taparahahe Stream is erected.

The whole of the timber on the eastern section is situated on the two branches of the Mokau Stream, and will be drawn out to the coast, a distance of about five miles, by the aid of dams and freshes. The country on which this timber stands is rough, but the creeks are all well adapted for driving purposes.

CONDITIONS.

1. Intending tenderers are expected to visit the locality and to satisfy themselves on all matters relating to their tender.

2. The aforementioned quantities, qualities, and kind as to the said timber shall be taken as sufficiently accurate for the purpose of this sale, and no contract for purchase shall be voidable, nor shall the successful tenderer be entitled to any abatement in price, by reason of the said timber being of less quantity, quality, and kind than as stated herein or in any advertisement having reference to the said timber, nor shall any extra sum be claimed by the Tokerau District Maori Land Board if for any reason the quantity of timber is found to be in excess of that stated herein.

3. No tender will be considered wherein a less royalty is offered for the timber than the upset prices stated herein.

4. The licensee shall make and deliver, on a date to be fixed by the President, a statement of the number and contents of trees felled during the preceding period, together with total quantity of timber felled as from the commencement of the term of his timber-cutting license, and such statement shall be accompanied by a statutory declaration as to the correctness thereof.

5. The quantities stated are estimated measurement only.

6. Should any dispute arise as to the boundaries, the decision of the President of the said Maori Land Board shall be final.

7. If at any time during the currency of the license any person duly authorized by the President of the Tokerau District Maori Land Board shall report, or it otherwise appears, that the timber on the said area is being improperly cut, or for any other reason, the said President may, by notice in writing to the licensee, suspend his license pending investigation, and the President may cancel such license if it is found that the conditions herein have been infringed, without prejudice to any proceeding for damage done, recovery of amounts due on promissory notes, or otherwise.

8. It shall be unlawful for the licensee to transfer, assign, or in any way dispose of his license, or of the timber, or of his interest therein, to any other person until after the expiration of two years from the date at which the tender was accepted: Provided, however, that where the licensee proposes to sell the timber with his mill, plant, and appliances in their entirety, he may do so with the written approval of the President first obtained; and in such case the license may be transferred accordingly on payment of a fee of £1 ls. to the said Maori Land Board. Such approval may be given or refused in the discretion of the Board.

9. No bleeding of kauri-trees included in this sale will be permitted without the express written consent of the said Maori Land Board.

10. A license will be issued in due course, subject to the foregoing conditions.

11. In the event of the lots not being disposed of, applications may be received and dealt with at any time within three months from the above date of closing tenders (unless previously formally withdrawn); providing, however, that the amount is not less than the upset prices stated herein.

12. Tenders must be submitted on forms which will be supplied on application, and envelopes enclosing the same to be marked "Tender for Timber," and addressed to the President of the Tokerau District Maori Land Board, Auckland, New Zealand.

13. The highest or any tender not necessarily accepted.

14. All puriri timber on the land is reserved from sale.

TERMS.

The timber will be offered in two lots, and tenders must be accompanied by a deposit of 5 per cent. on the amount of tender, in cash, marked cheque, or post-office order; the balance to be paid, if tender accepted, as under:—

1. Payment for timber shall be made by the successful tenderer either wholly in cash on acceptance of tender, or partly in cash and partly in instalments as follows: One-third in cash within fourteen days after date of notice of acceptance of tender (the deposit of the successful tenderer will be retained as part-payment of this), together with £1 ls. license fee, and one-third within one year, and the balance within two years from date of acceptance of tender.

2. All such instalments shall bear interest at the rate of 5 per cent. per annum as from the date of acceptance of tender, and, with the interest, shall be secured by promissory notes payable on demand, and made and indorsed by two or more indorsers, as required by and to the satisfaction of the President of the Tokerau District Maori Land Board.

3. In case where payment is to be made by instalments, the following special provisions shall apply:—

- (1.) The property in all timber, whether standing, felled, or in logs, shall remain the property of the Tokerau Maori Land Board until all the instalments are paid.
- (2.) The value of the timber cut shall at no time exceed the total amount actually paid.
- (3.) In any case where the President is satisfied that timber has been cut in excess of limit fixed by the last preceding paragraph he shall appraise the quantity and value of timber so cut in excess, and demand payment from the licensee of the amount of such appraisal. The amount paid shall be in or toward satisfaction of the accruing instalments in the order in which they accrue due, and shall accordingly be credited to the same, as also the promissory notes securing the same. In default of payment of such amount for the

space of fourteen days, the whole of the unpaid instalments shall be payable forthwith, and payment may be enforced accordingly.

Deposits of unsuccessful tenderers will be returned.

WALTER DINNIE,  
President, Tokerau District Maori Land Board.

## SECOND SCHEDULE.

## CONDITIONS OF SALE.

1. The leases are offered at the upset rentals shown opposite to each section described in the First Schedule hereto.

2. The highest bidder shall be the purchaser of the lease of each lot. In the event of any lots not being disposed of at first offering, the Board may put any of them up again either separately or in groups. Any lots not disposed of at the auction sale shall remain open for selection at the upset rental.

3. In the event of any disputed bid, the lot in dispute may be put up again at the last undisputed bid.

4. The purchaser of a lease immediately after the sale shall sign an agreement hereon to complete his lease according to these conditions, and shall pay to the Board's representative a half-year's rent at the rate bid by him, together with a fee of £3 18s. to cover the cost of preparation, stamping, and registration of his lease. The lease will be prepared by the Board. One or more sections may, at the option of the lessee, be included in one lease.

5. The successful bidder will be required, within fourteen days from the date on which the lease shall be tendered to him by the Board for execution, sign the lease in triplicate. In the event of his failure to do so, the Board may forfeit the rent and lease fee paid by him, and again offer the lease for sale at the upset rent, freed from any obligations to the defaulting purchaser.

6. The bidding shall be advanced by such sum as the auctioneer may agree to accept, and no bidding shall be retracted.

7. The purchaser of a lease of any lot on which a valuation for improvements is payable, being the amount set opposite such lot in the seventh column of the First Schedule hereto, shall pay the amount of such valuation to the Board before obtaining his lease. The Board may forego this provision in the event of the purchaser being the person recognized by the Board as having an equitable claim to such improvements, or in the event of the person recognized by the Board as being the equitable owner of such improvements removing the same within one month from the date of sale.

Nothing in this clause shall operate or be construed as conferring on any present occupier a right to set up title as against the Board or any lessee of the Board.

No occupier or any other person shall, unless the section now in occupation by him is leased within one month from the date of sale, have any right to any improvements thereon.

## CONDITIONS OF LEASE (ABRIDGED).

8. The term of the lease shall be twenty-three years from 1st July, 1911, at the rent bid, with a right of renewal for one further term of twenty-three years at a rental assessed at five per centum on the unimproved value of the land at the time of renewal, such valuation in the event of dispute to be determined by arbitration. Compensation for substantial improvements shall be allowed to the lessee at the expiration of the second term of the lease, as provided in section 263 of the Native Land Act, 1909.

9. (a.) Rent shall be payable half-yearly in advance.

(b.) Lessee will not assign the lease without the consent of the Board.

(c.) Lessee will cultivate the land in a husbandlike manner and keep the land free of noxious weeds.

(d.) Lessee will keep fences and buildings in repair.

(e.) The lessee will fence, without any right of resort to the Board for contribution on account of the Board owning or occupying adjacent land; but this provision shall not deprive the lessee of any rights he may have against any subsequent occupier (other than the Board) of such adjacent land.

(f.) The lease of Section 6, Block VI, and Sections 5, 6, 8, 9, and 10, Block V, shall be subject to the right of the Board or its lessee or agents to use and occupy the tramway running through the said sections (subject to the conditions now affecting the users of the said tramway) so long as it shall be required for the transmission of timber or logs or any kindred purpose.

(g.) The lessee and his assigns must make the declaration required from a lessee of Native land that he is not the owner or occupier of 3,000 acres of third-class land, or its equivalent in other classes of land.

(h.) A copy of the lease can be inspected at the post-offices, Ohakune East, Ohakune West, and Raetihi, at the office of the Under-Secretary, Native Department, Wellington, and at the Board's office, Wanganui.
