NOTICE is hereby given that on and after Thursday, 15th June, 1911, the Wigham unwatched fixed white light at present shown from the beacon at Dieffenbach Point will be changed for an Acetone acetylene light. The character of the new light is adjusted to 0.3 seconds of light and 2.7 seconds darkness; or, in other words, the light will give 20 flashes of 0.3 of a second duration every minute.

The light should be visible all round the horizon for a distance of five miles, except when obscured by the land.

Notice to Mariners.—No. 72 of 1911.

Marine Department,
Wellington, N.Z., 13th June, 1911.

THE following Notice to Mariners, received from the Department of Navigation, Sydney, N.S.W., is published for general information.

J. A. MILLAR.

PORT OF NEWCASTLE.

In pursuance of the preliminary notice given on the 3rd instant, it is now hereby notified that on and after Wednesday next, the 31st May, 1911, the dredge "Hunter" will be at work day and night in the fairway at the entrance of Newcastle Harbour, deepening the bar.

Masters of vessels entering or leaving that port must pass the dredge slowly and on the northern side, unless otherwise indicated by the usual dredge-signals. Should the master or pilot in charge of a vessel about to pass the dredge consider it necessary for her to heave out of the fairway, a prolonged blast of the steam-whistle of either the steamship or tug should be sounded as soon as the vessel is fairly in sight of the dredge. Great care should be taken to avoid fouling either the dredge or its moorings.

By order of the Acting-Superintendent,
JOHN S. D'ARCY,
Department of Navigation, Acting-Secretary,
New South Wales,
Sydney, 27th May, 1911.

Authorizing the Laying-off of Coven Road, in the Town of Coven, of a Width of not less than 66 ft.

IN pursuance of the power and authority conferred upon me by section 15 of the Land Act, 1908, I, David Buddo, Acting Minister of Lands, do hereby authorize the laying-off of Coven Road, in the Town of Coven, Canterbury Land District, of a width of not less than 66 ft. instead of 99 ft.

D. BUDDO,
Acting Minister of Lands.

Regulations for the Entry of Naval Cadets.

Education Department,
Wellington, 30th May, 1911.

THE Regulations for the Entry of Naval Cadets, as contained in the *New Zealand Gazette* of the 4th March, 1909, are herein reprinted for general information, together with a revised "Special Notice for New

Zealand Candidates," as amended with the assent of the Lords Commissioners of the Admiralty.

GEO. FOWLDS,
Minister of Education.

REGULATIONS FOR ENTRY OF NAVAL CADETS.

1. ALL Naval Cadets enter the Service under identical conditions, and are trained together until they pass for the rank of lieutenant.

2. After passing for the rank of lieutenant they may be required to serve either as general service officers or in one of the special branches, undertaking either engineering, gunnery, torpedo, navigation, or marine duty.

3. As far as possible officers selected for special service will be allowed to choose the branch in which they will qualify, subject to the proviso that all branches are satisfactorily filled.

Parents or guardians of candidates for appointment as Naval Cadets must undertake for them that they are prepared to serve in any branch if required.

4. Parents or guardians are required to declare in writing their intention that the candidate, if he obtains a cadetship, shall adopt the Navy as his profession in life; and it is subject to this undertaking that candidates are selected for cadetships. Every cadet who enters the Royal Naval College must therefore be prepared to continue his training so long as the Admiralty are satisfied with his progress, and parents are not at liberty to withdraw their sons at will.

On the entry of a cadet, parents or guardians will be required to undertake that, in the event of his withdrawing or being withdrawn from the college, or from the Navy before being confirmed as a sub-lieutenant, they will pay to the Admiralty, if demanded, the sum of £25 per term in respect of each term passed by him at the R.N. Colleges, Osborne and Dartmouth, from the date of his entry to the date of his withdrawal, as a contribution towards the balance of the cost of his training and maintenance not covered by the annual payment of £75 mentioned in paragraph 12.

This undertaking does not apply to cadets withdrawn at the request of the Admiralty under paragraphs 15-18.

5. Candidates must be of pure European descent, and the sons either of natural-born or of naturalized British subjects. In doubtful cases the burden of clear proof will rest upon the parents or guardians of candidates.

6. Every candidate (except candidates who are being educated in the colonies, and have received special colonial recommendations under paragraph 7) will be required to present himself before a committee, which will interview each applicant separately.*

Appointments to Naval Cadetships are made by the First Lord from among candidates recommended by the committee, and all such appointments are subject to the candidate passing a qualifying literary examination in educational subjects (*vide* paragraph 11) and a medical examination (*vide* paragraph 10).

The fact, however, of a candidate being invited to appear before this committee is not to be understood as in any degree implying that he will necessarily be chosen to attend the qualifying examination.

The Interviewing Committee will sit shortly before the date fixed for each qualifying literary examination.

7. Members of the Board of Admiralty (other than the First Lord) have the privilege of specially recommending one candidate each time.

A flag officer or commodore (first class) appointed to the chief command of a naval station, or to a separate command, and a captain, R.N., on receiving his first appointment to the command of a ship in commission with full crew, is allowed to recommend specially one candidate, provided the privilege is exercised within six months of appointment, and that the candidate recommended is not less than twelve years of age at the time.

The Governments of certain colonies are allowed to recommend specially (through the Secretary of State for the Colonies) a certain number of candidates annually from among boys belonging to families resident in the colonies.

All the specially recommended candidates (with the exception of colonial candidates actually residing out of the United Kingdom) must be also recommended by the Interviewing Committee, and all such candidates, without exception, must pass the qualifying educational examination.

8. The qualifying examinations are held in March, July, and December, and the appointments date from the 15th May, 15th September, 15th January following respectively.

* Applications should be addressed to the Assistant Private Secretary to the First Lord, and should not be made until the candidate has reached twelve years of age. The applications must be received at the Admiralty—for the March examination, before 1st January; for the July examination, before 1st May; for the December examination, before 1st October. (See also special notice for New Zealand candidates as given below.)

9.* Candidates are eligible only for one interview and qualifying examination.

Candidates for examination in—

March	must not be less than twelve years and eight months nor more than thirteen years of age on the following ...	15 May.
July	ditto	15 Sept.
Dec.	ditto	15 Jan.

10. Every candidate must be in good health, and free from any physical defect of body, impediment of speech, defect of sight or hearing, and also from any predisposition to constitutional or hereditary disease or weakness of any kind, and be in all respects well developed and active in proportion to his age. Before undergoing the qualifying examination he is required to pass the medical examination according to the prescribed regulations, and must be found physically fit for the Navy.

It should be particularly noted that full normal vision—as determined by Snellen's tests—is required. A memorandum is issued by the Admiralty which gives details of the physical requirements of candidates.

11.† The qualifying examination is in the following subjects:—

- (1.) English (including writing from dictation, simple composition, and reproduction of the gist of a short passage twice read aloud to the candidates).
- (2.) History and geography, with special reference to the British Empire.
- (3.) Arithmetic and algebra (two-thirds of the questions in this paper will be on arithmetic. The use of algebraic symbols and processes will be allowed).

Arithmetic: The simple and compound rules, avoirdupois weight, linear and square and cubic measures, the elementary mensuration of rectangular surfaces and volumes, measure of capacity (pints, quarts, gallons), the metric system (the metre, gramme, and litre, with their multiples and sub-multiples), money (including the relationship of the cent to the dollar and the centime to franc), reduction, simple proportion, factors, the addition, subtraction, multiplication, division and simplification of vulgar fractions, and non-recurring decimal fractions.

Algebra: The meaning of algebraical symbols, substitution of values, easy identities, factors, fractions, equations of the first degree, including simultaneous equations, verification of the solution of equations, problems leading to simple equations.

- (4.) Geometry: The paper will consist of questions both on practical and on theoretical geometry.

All candidates must be provided with a ruler graduated in inches and tenths and also in centimetres and millimetres, a small set square, a protractor, pencil compasses, and a hard pencil.

Any proof of a proposition will be accepted which appears to the Examiner to form part of a systematic treatment of the subject.

Proofs of the validity of constructions will not as a rule be expected, but they may be asked for. Candidates will be expected to write descriptions of the constructions they give.

Practical Geometry: Bisection of angles and straight lines, construction of perpendiculars to straight lines, construction of triangles with three parts given, formation of such angles as 60°, 30°, 45°, 22½°, without the use of the protractor, construction of angles equal to a given angle, construction of squares, rectangles, and parallelograms, construction of parallels to a given straight line, division of straight lines into a number of equal parts.

Theoretical Geometry: Definitions of the principal terms used either in practical or in theoretical geometry within the limits of the syllabus. The substance of the theorems contained in Euclid, Book I, Propositions 4-6, 8, 13-16, 18, 19, 26-30, 32-34. Very simple deductions from these theorems. The order in which the theorems are stated is not imposed as the sequence of their treatment.

- (5.) French or German, with an oral examination to which importance will be attached.

* Should any case occur where a selected candidate is prevented by illness from attending the qualifying examination, the Admiralty will consider whether special arrangements can be made for him to be examined by the Headmaster of the Royal Naval College, Osborne, at the beginning of the ensuing term.

† NOTE.—Copies of the papers set at one of the examinations held in each year are published by the Oxford and Cambridge Schools Examination Board, and may be obtained from the following: Clarendon Press Depository, 116 High Street, Oxford; Henry Frowde, Amen Corner, London; Cambridge University Press, Warehouse, Fetter Lane, London; Deighton, Bell, and Co., Trinity Street, Cambridge.

- (6.) Latin (easy passages for translation from Latin into English and from English into Latin, and simple grammatical questions).

The list of successful candidates will be published in alphabetical order.

12. For all cadets entered under these regulations the payment will be at the rate of £75 per annum for the period under training at the Colleges, to be paid in sums of £25 every term in advance to the cashier of the Bank of England on receipt of claim from the Accountant-General of the Navy. But the Lords Commissioners of the Admiralty reserve the power of selecting from among the cadets entered at each examination a limited number, being sons of officers of the Navy, Army, or Marines, or of civil officers under the Board of Admiralty, with respect to whom the annual payment will be £40 only. In this selection their Lordships will have regard solely to the pecuniary circumstances of the cadet.

Applications for the reduced scale must be received at the Admiralty not later than 1st January, 1st May, and 1st September.

Parents or guardians are further required to make a private allowance of £50 per annum to cadets from the time they leave the Royal Naval College at Dartmouth until they reach the rank of acting sub-lieutenant.

13. In addition to the annual payments mentioned in the foregoing paragraph, the parent or guardian is charged with the cost of outfit and the personal expenses incurred by the cadet for washing, repairing boots and clothes, pocket-money, instruments, school-books, sports, &c.

14. The period of training is four years and eight months (i.e., two years at the Royal Naval College, Osborne, two years at the Royal Naval College, Dartmouth, and two terms in the Training Cruiser). The three terms of each year are approximately as follows: 15th January to 15th April, 7th May to 7th August, 15th September to 15th December.

The vacations are four weeks at Christmas, three weeks at Easter, and six weeks at midsummer.

15. It is to be distinctly understood that the period of training, including the time spent in the Training Cruiser, is a time of probation, and the parent or guardian of every cadet is required to sign a declaration on the admission of the cadet to the effect that he shall be immediately withdrawn on the receipt of an official request for his withdrawal. The Lords Commissioners of the Admiralty reserve to themselves full discretion to request the withdrawal of any cadet from training, if after a sufficient trial he is in their opinion, for any reason, unsuitable for the Naval Service. This discretion will, as a rule, be exercised at the end of the first year, but the proficiency and progress of the cadets will be periodically determined, and they may be required, if necessary, to withdraw at a later stage.

16. In all subjects of instruction the principle will be followed of giving merit marks for current work. At the end of each term the cadet's proficiency and progress will be determined, partly by examination and partly by the marks gained for current work.

17. Cadets who fail to reach a certain standard, or who, for any reason, are considered unsuitable for the Naval Service, may be required to withdraw at any time.

This rule will apply to those who do not show an aptitude for Naval life, as well as to those who make insufficient progress, or whose constitution is weak, although no disease may have developed.

18. Cadets whose conduct is unsatisfactory may at any time be required to withdraw.

19. The parent or guardian of every cadet is required to provide outfit under the regulations in force.

20. No pay is allowed by Government to cadets in the training establishments, except in the case of Cadet Captains, who receive a small weekly allowance. The pocket-money allowed to cadets is charged to the parents.

By command of their Lordships,

Admiralty, March, 1908.

C. I. THOMAS.

SPECIAL NOTICE FOR NEW ZEALAND CANDIDATES.

Two nominations are reserved in each year for New Zealand candidates, but not more than one of these nominations will be made at one time.

These nominations are open to boys, otherwise qualified, who belong to families resident in the Dominion and are being educated in the Dominion, or, in default of such candidates, to boys, otherwise qualified, who belong to families resident in the Dominion and are for the time being receiving their education in the United Kingdom. The names of approved candidates will be submitted to the Secretary of State by His Excellency the Governor of New Zealand.

Candidates for nomination by the Government of New Zealand must comply with all the conditions required in

the case of other candidates; except that, (a) in respect of the date and method of application, and (b) (unless the candidate is being educated in the United Kingdom) in respect of the qualifying examination, the following provisions will hold:—

(1.) Such candidates must forward their applications for nomination so as to reach the Inspector-General of Schools, Wellington, on or before the 1st January, the 15th April, and the 1st August in each year; but no nomination can be made in August if both the nominations allotted to the Dominion in that year have already been filled. For candidates receiving their education in the United Kingdom the application in each case must be made three months earlier. Applications to be entertained must be made in all cases within the twelve months preceding the required date of entry at Osborne.

Each application for nomination must be accompanied by a declaration from the parent of the boy that he is willing to comply with all the conditions that apply to boys admitted to the Royal Naval College; by certificates of good character from the headmaster of the school attended by the candidate and from some other well-known person; and also by a certificate of birth showing that he will not be less than twelve years eight months and not more than thirteen years of age at the date (15th May, 15th September, or 15th January, as the case may be) on which he would, if his nomination is accepted by the Lords of the Admiralty, enter the Royal Naval College at Osborne. The application should also state whether, in addition to the subjects prescribed for the Junior National Scholarship Examination as conducted by the New Zealand Education Department, the candidate has received any instruction in algebra, geometry, French, German, or Latin.

(2.) If the candidate's application is accepted, he will be required to pass a medical examination by a medical officer approved by the Minister of Education, at a time and place of which he will be duly advised.

(3.) Candidates for nomination will be expected to sit for the Junior National Scholarship Examination of the year preceding. They will be required to give sufficient evidence of intelligence and of general attainment in the examination to warrant further consideration. Subsequently they will be further examined, if need be, in writing, or orally, or in both ways, by an officer appointed by the Education Department. Of the time and place of such further examination due notice will be given in each case.

(4.) In cases where an applicant recommended by the New Zealand Government is being educated in the United Kingdom, the candidate, in lieu of passing a literary examination in New Zealand, will be required to present himself in due course before the Interviewing Committee of the British Admiralty for a further recommendation, and must pass the physical test and the qualifying examination as prescribed by the General Regulations (Clauses 10 and 11) in all respects as if the application on his behalf had been made in the first instance directly to the Admiralty under ordinary conditions.

Candidates within the Dominion who are nominated must be prepared to proceed to England as soon as they are informed of their nomination, so as to enter the Royal Naval College on the 15th May, 15th September, or 15th January next ensuing, as the case may be.

NOTE.—The Junior National Scholarship Examination is conducted at various centres in New Zealand in November or December of each year. Applications to be examined are receivable by the Education Board of the district on or before the 15th September preceding. Copies of a pamphlet containing papers set in the examination may be obtained from the Stationery Department, Government Printing Office, Wellington (price 1s.). Further information of the subjects of examination may be obtained from the Inspector-General of Schools, Wellington.

PHYSICAL REQUIREMENTS FOR CANDIDATES FOR COMMISSIONS IN THE ROYAL NAVY.

WITH a view to preventing candidates who may be physically unfit for His Majesty's Service from incurring the inconvenience and expense of preparing for commissions in the Royal Navy, it is suggested that they undergo examination by the medical adviser of the family, or any other qualified medical practitioner, to whom the following list of defects which cause rejection may be submitted for guidance.

It is to be understood that this private examination is merely suggested as a guide for intending candidates and to lessen the chances of disappointment, and that it is by no means intended to take the place of, or to influence in any way, the regular official physical examination.

1. A weak constitution, imperfect development, physical weakness, either hereditary or from chronic disease, wounds, or injuries.

2. Skin-disease, unless temporary or trivial.
 3. Malformation of the head, deformity from fracture or depression of the bones of the skull, impaired intellect, epilepsy, paralysis, or impediment of speech.
 4. Blindness or defective vision, imperfect perception of colours, fistula lachrymalis, or any chronic disease of the eyes or eyelids. Candidates for Naval Cadetships must possess full normal vision as determined by Snellen's tests, each eye being separately examined. For candidates for other branches of the Royal Navy full normal vision is not required, but any defect of vision must be due to errors of refraction which can be corrected to normal by glasses, and vision without glasses must in any case be not less than $\frac{5}{8}$ with each eye, and the candidate must also be able to read D=0, six of Snellen's test types.
 5. Impaired hearing, or discharge from one or both ears, or any disease of the external, middle, or internal ear.
 6. Disease of the bones of the nose or of its cartilages, nasal polypus, or disease of the naso-pharynx.
 7. Disease of the throat, tongue, palate, or tonsils; many unsound teeth,* unhealthy gums, disease of the glands of the throat or neck, external cicatrices, if at all extensive, and especially if adherent.
 8. Functional or organic disease of the heart or blood-vessels, deformity or contraction of the chest, or any symptom of lung-disease or tendency thereto.
 9. Undue swelling or distension of the abdomen, obesity, disease or enlargement of the abdominal organs. Rupture, weakness or distension of the abdominal rings; any disease of the bladder or incontinence of urine.
 10. The existence of any defect of the genital organs, or of varicocele.
 11. Paralysis, weakness, impaired motion, or deformity of the upper or lower extremities, from whatever cause; a varicose state of the veins, especially of the leg. Bunions, distortion or malformation of the hands, feet, fingers, or toes.
 12. Distortion of the spine, of the bones of the chest, or pelvis, from injury or constitutional defect.
- No person will be admitted into His Majesty's Service unless he has been vaccinated. Revaccination will also be required if considered necessary.
- Admiralty, June, 1908.

* *I.e.*—Seven teeth defective or deficient in persons under seventeen years of age on the date of entry, ten defective or deficient teeth in persons above the age of seventeen—a tooth being considered as defective when it cannot be made permanently serviceable by dental repair. Credit is also given for teeth which have not erupted. Candidates must, however, possess some sound opposing molars and incisors. The numbers given above are intended as a general guide, and are not necessarily strictly adhered to, provided the general condition of the teeth is good.

* These remaining suburbs do not lie within borough boundaries, and particulars respecting them have not been obtained for the Vital Statistics. Closely correct annual statements of population outside boroughs are not obtainable.

In the above table are given the deaths and death-rates for each of the four cities, for the suburban boroughs severally and for each city with its suburban towns. As regards Auckland and Christchurch, the whole of the area usually recognized as suburban has not yet been brought under municipal government, and the vital statistics do not deal with such portions as still remain in road districts. But the omission is not very important, for there are in either case quite enough suburbs included within borough boundaries to give a fair idea of the death-rate of Greater Auckland and Greater Christchurch. As further boroughs are formed the vital statistics will be made to include them.

Deaths occurring at hospitals, of persons not residents of the borough wherein the hospital is situated, have been allotted in each case to the borough where the disease was contracted, and not to that in which the death actually took place.

The inclusion of the suburban boroughs tends to lower the rate at Auckland, Christchurch, and Dunedin, Wellington remaining the same.

	Death-rates per 1,000 of Population.	
Auckland City	0.88	
and seven suburban boroughs		0.81
Wellington City	0.97	
and three suburban boroughs		0.97
Christchurch City	1.04	
and three suburban boroughs		0.96
Dunedin City	0.91	
and five suburban boroughs		0.73

Including the suburbs, the rate at Wellington is the highest, and at Dunedin the lowest.

Compared with May, 1910, the results are,—

Auckland and suburbs	1910. 0.76	1911. 0.81
Wellington and suburbs	0.56	0.97
Christchurch and suburbs	0.91	0.96
Dunedin and suburbs	0.69	0.73

The total births in the four chief cities and their suburban boroughs amounted to 582, against 588 in April—a decrease of 6. The deaths in May were 251—an increase of 53 as compared with last month. Of the total deaths, males contributed 148, females 103. Sixty-five of the deaths were of children under five years of age.

There were 86 deaths of persons of 65 years and upwards in the four chief cities and their suburban boroughs as against 71 in April. The following table shows the classification:—

Time for removal of timber: Three (3) years. Any timber which has been felled and not removed at the end of the term, owing to there being no fresh, or for any other valid reason, may be removed at any time within six months from such date; provided that the consent of the Tokerau District Maori Land Board is obtained, it being satisfied that the non-removal of the timber is not due to any negligence or fault on the part of the purchaser.

DESCRIPTION OF TIMBER.

The block is divided into two divisions, the dividing line being a high dividing-range running north and south of the block, thus putting the timber in the Paremata and Taparahahe Watersheds into the western section, and all the timber in the Mokau Watershed into the eastern section.

The major portion of the timber on the western section is situated along the banks of the Paremata Stream and its numerous tributaries. The remainder is situated on the banks of the Taparahahe Stream and its small tributaries. The best way of working this timber is by the erection of a large timber dam on the Taparahahe Stream above the junction of the Paremata Stream, and driving by the aid of freshes. Where the timber is situated in small branches it will in all cases be necessary to drive to the main stream by small dams, which, owing to the nature of the country and the rocky formation of the creeks, will be of moderate expense. The main stream is free from falls with one exception, but as this is a series of large boulders for about half a mile the timber can be brought safely over if the large dam on the Taparahahe Stream is erected.

The whole of the timber on the eastern section is situated on the two branches of the Mokau Stream, and will be drawn out to the coast, a distance of about five miles, by the aid of dams and freshes. The country on which this timber stands is rough, but the creeks are all well adapted for driving purposes.

CONDITIONS.

1. Intending tenderers are expected to visit the locality and to satisfy themselves on all matters relating to their tender.

2. The aforementioned quantities, qualities, and kind as to the said timber shall be taken as sufficiently accurate for the purpose of this sale, and no contract for purchase shall be voidable, nor shall the successful tenderer be entitled to any abatement in price, by reason of the said timber being of less quantity, quality, and kind than as stated herein or in any advertisement having reference to the said timber, nor shall any extra sum be claimed by the Tokerau District Maori Land Board if for any reason the quantity of timber is found to be in excess of that stated herein.

3. No tender will be considered wherein a less royalty is offered for the timber than the upset prices stated herein.

4. The licensee shall make and deliver, on a date to be fixed by the President, a statement of the number and contents of trees felled during the preceding period, together with total quantity of timber felled as from the commencement of the term of his timber-cutting license, and such statement shall be accompanied by a statutory declaration as to the correctness thereof.

5. The quantities stated are estimated measurement only.

6. Should any dispute arise as to the boundaries, the decision of the President of the said Maori Land Board shall be final.

7. If at any time during the currency of the license any person duly authorized by the President of the Tokerau District Maori Land Board shall report, or it otherwise

appears, that the timber on the said area is being improperly cut, or for any other reason, the said President may, by notice in writing to the licensee, suspend his license pending investigation, and the President may cancel such license if it is found that the conditions herein have been infringed, without prejudice to any proceeding for damage done, recovery of amounts due on promissory notes, or otherwise.

8. It shall be unlawful for the licensee to transfer, assign, or in any way dispose of his license, or of the timber, or of his interest therein, to any other person until after the expiration of two years from the date at which the tender was accepted: Provided, however, that where the licensee proposes to sell the timber with his mill, plant, and appliances in their entirety, he may do so with the written approval of the President first obtained; and in such case the license may be transferred accordingly on payment of a fee of £1 ls. to the said Maori Land Board. Such approval may be given or refused in the discretion of the Board.

9. No bleeding of kauri-trees included in this sale will be permitted without the express written consent of the said Maori Land Board.

10. A license will be issued in due course, subject to the foregoing conditions.

11. In the event of the lots not being disposed of, applications may be received and dealt with at any time within three months from the above date of closing tenders (unless previously formally withdrawn); providing, however, that the amount is not less than the upset prices stated herein.

12. Tenders must be submitted on forms which will be supplied on application, and envelopes enclosing the same to be marked "Tender for Timber," and addressed to the President of the Tokerau District Maori Land Board, Auckland, New Zealand.

13. The highest or any tender not necessarily accepted.
14. All puriri timber on the land is reserved for sale.

TERMS.

The timber will be offered in two lots, and tenders must be accompanied by a deposit of 5 per cent. on the amount of tender, in cash, marked cheque, or post-office order; the balance to be paid, if tender accepted, as under:—

1. Payment for timber shall be made by the successful tenderer either wholly in cash on acceptance of tender, or partly in cash and partly in instalments as follows: One-third in cash within fourteen days after date of notice of acceptance of tender (the deposit of the successful tenderer will be retained as part-payment of this), together with £1 ls. license fee, and one-third within one year, and the balance within two years from date of acceptance of tender.

2. All such instalments shall bear interest at the rate of 5 per cent. per annum as from the date of acceptance of tender, and, with the interest, shall be secured by promissory notes payable on demand, and made and indorsed by two or more indorsers, as required by and to the satisfaction of the President of the Tokerau District Maori Land Board.

3. In case where payment is to be made by instalments, the following special provisions shall apply:—

- (1.) The property in all timber, whether standing, felled, or in logs, shall remain the property of the Tokerau Maori Land Board until all the instalments are paid.
- (2.) The value of the timber cut shall at no time exceed the total amount actually paid.
- (3.) In any case where the President is satisfied that timber has been cut in excess of limit fixed by the last preceding paragraph he shall appraise the quantity and value of timber so cut in excess, and demand payment from the licensee of the amount of such appraisal. The amount paid shall be in or toward satisfaction of the accruing instalments in the order in which they accrue due, and shall accordingly be credited to the same, as also the promissory notes securing the same. In default of payment of such amount for the space of fourteen days, the whole of the unpaid instalments shall be payable forthwith, and payment may be enforced accordingly.

Deposits of unsuccessful tenderers will be returned.

WALTER DINNIE,
President, Tokerau District Maori Land Board.

SECOND SCHEDULE.

CONDITIONS OF SALE.

1. The leases are offered at the upset rentals shown opposite to each section described in the First Schedule hereto.
2. The highest bidder shall be the purchaser of the lease of each lot. In the event of any lots not being disposed of

at first offering, the Board may put any of them up again either separately or in groups. Any lots not disposed of at the auction sale shall remain open for selection at the upset rental.

3. In the event of any disputed bid, the lot in dispute may be put up again at the last undisputed bid.

4. The purchaser of a lease immediately after the sale shall sign an agreement hereon to complete his lease according to these conditions, and shall pay to the Board's representative a half-year's rent at the rate bid by him, together with a fee of £3 18s. to cover the cost of preparation, stamping, and registration of his lease. The lease will be prepared by the Board. One or more sections may, at the option of the lessee, be included in one lease.

5. The successful bidder will be required, within fourteen days from the date on which the lease shall be tendered to him by the Board for execution, sign the lease in triplicate. In the event of his failure to do so, the Board may forfeit the rent and lease fee paid by him, and again offer the lease for sale at the upset rent, freed from any obligations to the defaulting purchaser.

6. The bidding shall be advanced by such sum as the auctioneer may agree to accept, and no bidding shall be retracted.

7. The purchaser of a lease of any lot on which a valuation for improvements is payable, being the amount set opposite such lot in the seventh column of the First Schedule hereto, shall pay the amount of such valuation to the Board before obtaining his lease. The Board may forego this provision in the event of the purchaser being the person recognized by the Board as having an equitable claim to such improvements, or in the event of the person recognized by the Board as being the equitable owner of such improvements removing the same within one month from the date of sale.

Nothing in this clause shall operate or be construed as conferring on any present occupier a right to set up title as against the Board or any lessee of the Board.

No occupier or any other person shall, unless the section now in occupation by him is leased within one month from the date of sale, have any right to any improvements thereon.

CONDITIONS OF LEASE (ABRIDGED).

8. The term of the lease shall be twenty-three years from 1st July, 1911, at the rent bid, with a right of renewal for one further term of twenty-three years at a rental assessed at five per centum on the unimproved value of the land at the time of renewal, such valuation in the event of dispute to be determined by arbitration. Compensation for substantial improvements shall be allowed to the lessee at the expiration of the second term of the lease, as provided in section 263 of the Native Land Act, 1909.

9. (a.) Rent shall be payable half-yearly in advance.
(b.) Lessee will not assign the lease without the consent of the Board.

(c.) Lessee will cultivate the land in a husbandlike manner and keep the land free of noxious weeds.

(d.) Lessee will keep fences and buildings in repair.

(e.) The lessee will fence, without any right of resort to the Board for contribution on account of the Board owning or occupying adjacent land; but this provision shall not deprive the lessee of any rights he may have against any subsequent occupier (other than the Board) of such adjacent land.

(f.) The lease of Section 6, Block VI, and Sections 5, 6, 8, 9, and 10, Block V, shall be subject to the right of the Board or its lessee or agents to use and occupy the tramway running through the said sections (subject to the conditions now affecting the users of the said tramway) so long as it shall be required for the transmission of timber or logs or any kindred purpose.

(g.) The lessee and his assigns must make the declaration required from a lessee of Native land that he is not the owner or occupier of 3,000 acres of third-class land, or its equivalent in other classes of land.

(h.) A copy of the lease can be inspected at the post-offices, Ohakune East, Ohakune West, and Raetihi, at the office of the Under-Secretary, Native Department, Wellington, and at the Board's office, Wanganui.

1. To repeal section five (5) of the Guardian Trust and Executors Company Act, 1883, and substitute therefor the following clause:—

"In all cases in which any Court of justice, or any person or persons, or any company or corporation having authority or power to appoint a trustee or trustees under any deed or will, or a liquidator for any joint-stock company under any law now in force or hereafter to be in force in the Dominion relating to joint-stock companies, or a guardian, or trustee, or a receiver, or a committee of the estate under any law now in force or hereafter to be in force in the Dominion relating to lunatics, or an assignee, or a supervisor, or a trustee or trustees, under any law now in force or hereafter to be in force in the Dominion relating to bankruptcy or to insolvent debtors, shall see fit to appoint the said company as trustee under any such deed or will, or as liquidator under any such law relating to joint-stock companies, or as guardian, or as trustee, or as receiver, or as committee of the estate under which any such law relating to lunatics, or as assignee, or as supervisor, or as trustee under any such law relating to bankruptcy or insolvent debtors, it shall be lawful for the said company to be so appointed, and to act until removed from such office as such trustee, liquidator, guardian, receiver, committee, assignee, or supervisor, and to perform and discharge all acts and duties pertaining to the position of trustee (under any such deed or will, or under any such law as aforesaid), liquidator, guardian, receiver, committee, assignee, or supervisor; and the capital of the said company both paid and unpaid, and all other assets of the company, shall be liable for the proper discharge of the duties committed to the said company; and so soon as the said paid-up capital of the company shall amount to the sum of ten thousand pounds, such sum being invested in securities in the Dominion to be approved of by and deposited with the Public Trustee, such liability of the capital and other assets of the company shall be deemed sufficient security for the discharge of such duties, in place of the bond required from private persons when appointed as trustee, liquidator, receiver, committee, or assignee."

2. To add to and incorporate with the Guardian Trust and Executors Company Act, 1883, the following clause:—

"The provisions of section 100 of the Property Law Act, 1908, shall extend and apply to every power of attorney by which the said company is appointed by any person, company, or corporation, and a statutory declaration, made at the time prescribed by the said section, by the manager and any director, or by any two directors of the said company, that the said company has not, to the best of the knowledge and belief of the persons making such declaration, received any notice or information of the revocation by death or otherwise of any such power of attorney shall have the same force and effect as the declaration mentioned in the said section as when made by a private individual acting under power of attorney."

And notice is hereby given that copies of the said Bill will be deposited in the Examiner's office within fourteen days after the commencement of the said session.
