WHEREAS by the Public Works Amendment Act, 1909, it is enacted that if at any time after the issue or making of any Proclamation taking land under the Public Works Act, 1908, and before the payment or award of any compensation in respect of the taking thereof, it is found that the land or any part thereof is not required for the purpose for which it was taken, or that any error in form or substance exists in or in relation to that Proclamation, or the making or gazetted thereof, the Governor may, by a subsequent Proclamation gazetted, revoke the former Proclamation, either wholly or so far as he thinks necessary:

Licensing the Kauri Timber Company (Limited) to use and occupy a Part of the Foreshore and Land below Low-water Mark on the Whenuakite River, Coromandel County, as a Site for Timber-booms.

ISLINGTON, Governor.

ORDER IN COUNCIL.

At the Government House, at Wellington, this tenth day of October, 1911.

Present:

HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

WHEREAS, there being no Harbour Board empowered to grant the license hereinafter mentioned, the Kauri Timber Company (Limited), of Auckland (hereinafter called "the company"), has applied to the Governor in Council for a license under the Harbours Act, 1908 (hereinafter called "the said Act"), to occupy a part of the foreshore and land below low-water mark on the Whenuakite River, Coromandel County, in order to construct and maintain thereon timber-booms; and, in accordance with the one-hundred-and-fiftieth section of the said Act, has deposited a plan in the office of the Marine Department, at Wellington (marked M.D. 3743), showing the place where it is intended to construct such timber-booms, the area of foreshore and land below low-water mark intended to be occupied for such purpose, and the manner in which it is proposed to carry out the work: And whereas it has been made to appear to the Governor in Council that the proposed work will not be or

tend to the injury of navigation, and the said plan has, prior to the making of this Order in Council, been approved by the Governor in Council: And whereas it is expedient that a license under the said Act, for the purpose aforesaid, should be granted and issued to the company on the terms and conditions hereinafter expressed:

Now, therefore, His Excellency the Governor of the Dominion of New Zealand, in pursuance and exercise of the power and authority vested in him by the said Act, and of all other powers and authorities enabling him in that behalf, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby approve of the purpose or object for which the said license is required by the company as aforesaid; and, in further pursuance and exercise of the said power and authority, and by and with the like advice and consent as aforesaid, doth hereby license and permit the company to use and occupy that part of the foreshore and land below low-water mark which is particularly shown and delineated on the plan so deposited as aforesaid, for the purpose of constructing thereon timber-booms in accordance with the said plan, such license to be held and enjoyed by the company upon and subject to the following terms and conditions, that is to say:—

1. In these conditions the term "Minister" means the Minister of Marine, as defined by the Shipping and Seamen Act, 1908, and includes any officer, person, or authority acting by or under the direction of such Minister.

2. The concessions and privileges conferred by this Order in Council shall extend and apply only to the part of the foreshore and land below low-water mark necessary for the construction of the timber-booms, as shown on plan M.D. 3743.

3. In consideration of the concessions and privileges granted by this Order in Council the company shall, on being supplied with a copy thereof, pay to the Minister the sum of two pounds ten shillings, and thereafter an annual sum of one pound in advance, such annual payments to date from the date hereof, the first of such annual payments to be made on the company being supplied with a copy of this Order in Council.

4. The rights, powers, and privileges conferred by this Order in Council shall continue in force up to and including the thirty-first December, one thousand nine hundred and thirteen, unless in the meantime such rights, powers, and privileges shall be altered, modified, or revoked by competent authority; and the company shall not assign, charge, or part with any such right, power, or privilege without the previous written consent of the Minister first obtained.

5. His Majesty or the Governor, and all officers in the Government service acting in the execution of their duty, shall at all times have free ingress, passage, and egress into, through, over, and out of the said timber-booms without payment.

6. The said rights, powers, and privileges may be at any time resumed by the Governor, and the company may be required to remove the timber-booms at its own cost, without payment of any compensation whatever, on giving to the company three months' previous notice in writing. Any such notice shall be sufficient if given by the Minister and delivered at or posted to the last known address of the company in New Zealand.

7. The company shall maintain the above-mentioned timber-booms in good order and repair; and shall at all times exhibit therefrom, and maintain at its own cost, any lights that may be required by the Minister: Provided that no light shall be exhibited until after it has been approved of by the Minister.

8. Any person authorized by the Minister may at all reasonable times enter upon the said timber-booms and view the state of repair thereof; and upon such Minister leaving at or posting to the last known address of the company a notice in writing of any defect or want of repair in such timber-booms, requiring it, within a reasonable time, to be therein prescribed, to repair the same, it shall with all convenient speed cause such defect to be removed or such repairs to be made.

9. The company shall be liable for any injury which may be sustained by any vessel or boat in passing the timber-booms, or by contact therewith, and which may be occasioned by any default or neglect on the company's part.

10. In case the company shall—

- (1.) Commit or suffer a breach of the conditions hereinbefore set forth, or any of them;
- (2.) Cease to use or occupy the said timber-booms for a period of thirty days;
- (3.) Fail to pay the sums specified in clause three of these conditions; or
- (4.) Be in any manner wound up or dissolved,—

then and in any of the said cases this Order in Council, and every, right, power, or privilege, may be revoked and determined by the Governor in Council without any notice to the company or other proceeding whatsoever; and publication in the *New Zealand Gazette* of an Order in Council containing such revocation shall be sufficient notice to the

company, and to all persons concerned or interested, that this Order in Council, and the rights and privileges thereby conferred, have been revoked and determined; and upon such revocation the Minister may cause the said timber-booms to be removed, and may recover the costs incurred by any such removal from the company.

11. The construction of the timber-booms shall be deemed to be an acceptance by the company of the conditions of this Order in Council.

Warrant vesting Control of the Whangarei-Kamo Road in the Whangarei County Council and the Whangarei Borough Council, and apportioning the Cost of Maintenance.

ISLINGTON, Governor.

WHEREAS by section one hundred and nine of the Public Works Act, 1908, it is provided that in any case where a road in one district is largely used by or for the purpose of traffic to or from any other district or districts, and affords access to or from such districts, and the Governor is of opinion that it is equitable that the latter district or districts should contribute towards the cost of constructing or maintaining the whole or any portion of such road in the former district, the Governor may from time to time apportion the cost of constructing or maintaining the whole or any part of such road among the local authorities of the respective districts as he thinks fit; and for that purpose, and to enable effect to be given hereto, the provisions of section one hundred and twenty hereof shall, *mutatis mutandis*, apply in the case of the maintenance of the road:

And whereas by section twelve of the Public Works Amendment Act, 1909, it is provided that where a road or street lies along the boundary of two or more districts, whether that road or street is wholly within one or is partly within one and is partly within another of those districts, or is within none of those districts, the Governor may from time to time by Warrant under his hand and gazetted, direct which of the local authorities of those districts shall have control of the road or street, or any part thereof, and may also in like manner determine from time to time whether any of those local authorities shall contribute towards the cost of the construction or maintenance of that road or street, and, if so, in what proportions:

And whereas a dispute has arisen as to which local authority should have control of the portions of road described in the Schedule hereto (hereinafter referred to as "the said portions of road"), and what proportion of the cost of maintaining the said portions of road should be borne by the local authorities affected:

And whereas an inquiry was duly held and a report was made in respect to the matter:

And whereas the Governor is of opinion that provisions should be made under the hereinbefore-in-part-recited Acts, for the purposes hereinafter mentioned:

Now, therefore, I, John Poynder Dickson-Poynder, Baron Islington, the Governor of the Dominion of New Zealand, in pursuance and in exercise of the powers and authorities vested in me by the Public Works Act, 1908, and the Public Works Amendment Act, 1909, and of every other power and authority in anywise enabling me in this behalf, do hereby direct that the portions of the said road, being the portions firstly and secondly described in the Schedule hereto, shall be under the exclusive care, control, and management of the Whangarei Borough Council; and that the portions of the said road being the portions thirdly and fourthly described in such Schedule shall be under the exclusive care, control, and management of the Whangarei County Council; and, in further pursuance and exercise of the powers aforesaid, I do hereby fix and determine that the cost of maintaining, repairing, improving, or reconstructing the said portions of road is to be borne by the local authorities hereinafter mentioned in the following proportions—viz., the Whangarei Borough Council to bear the whole of such cost in respect to that piece of road firstly described in the Schedule hereto, the Whangarei Borough Council and the Whangarei County Council to each bear one-half of such cost in respect to that piece of road secondly described in the Schedule hereto, the Whangarei County Council to bear the whole of such cost in respect to that portion of road thirdly described in the Schedule hereto, and the Whangarei County Council and the Kamo Town Board to each bear one-half of such cost with respect to the piece of road fourthly described in the Schedule hereto:

And I do also hereby further direct that such matters as the kerbing, repairing, or constructing of footpaths, and channelling in respect to the two pieces of road secondly and fourthly described in the Schedule hereto shall, if required, be undertaken independently by each local body in respect of its own side of such pieces of roads, and that the general cost of maintenance, repairs, improvements, and reconstruction of the road shall be kept distinct from expenditure in connection with these matters:

And I do hereby direct that any contribution hereby required to be made as aforesaid by the Whangarei County Council shall be paid from time to time in the proportions hereinbefore prescribed out of the funds of the said Council within a period of thirty days after demand in writing made by or on behalf of the Council of the Borough of Whangarei, and such payments shall be made from time to time to the Clerk of the said Borough Council for and on account of the Whangarei County Council:

And I do also hereby direct that any contribution hereby required to be made as aforesaid by the Kamo Town Board shall be paid from time to time in the proportions hereinbefore prescribed out of the funds of the said Town Board within a period of thirty days after demand in writing made by or on behalf of the Council of the County of Whangarei, and such payments shall be made from time to time to the Clerk of the said County Council for and on account of the Kamo Town Board.

REFERRING to General Notice to Mariners dated 1st August, 1907, page 102, and more particularly to subsequent notice dated 9th December, 1909, mariners are hereby notified that the two leading-beacons have been shifted westward back to their former positions, and are in line on a bearing of about N. $\frac{1}{2}$ ° W. Such beacons are painted white, the front one showing a triangular-shaped top, and the inner or rear beacon an inverted triangular-shaped top.

Mariners are also notified that the eastern spit at the turning-point inside Point Norman has worked out to the westward so as to overlap the line of beacons, and they are therefore advised to keep the beacons slightly open to the west after entering, so as to avoid the outer extremity of such spit.

Mariners are also notified that the main channel through Anderson's Inlet from Pound Creek Jetty to the mouth of the Tarwin River has been beaconed off, the port-hand beacons being distinguished by a cross-piece near the top.

West Channel.—Port Phillip.

With reference to General Notice to Mariners dated 1st August, 1907, page 74, regarding No. 12 gas-buoy at the elbow of the West Channel having a white fixed light, mariners and others are hereby notified that on or about the 8th November next such gas-buoy will be altered to exhibit a double-flashing white light having flashes of three-tenths of a second duration, with a minimum interval of nine-tenths of a second between the flashes in a period of six seconds.

Care should be taken not to confuse this light with that on Woodman's Point, the occulting periods of which are bright 27 seconds, eclipsed three seconds.

Vessels over 22 ft. draught should pass to the eastward of the buoy.

WIRELESS TELEGRAPHY ON OCEAN PASSENGER STEAMERS.

Marine Department,
Wellington, N.Z., 6th October, 1911.

THE following copy of a circular issued by the United States Department of Commerce and Labour regarding wireless telegraphy on ocean passenger steamships is published for general information.

J. A. MILLAR.

The following is a copy of a circular issued by the U.S. Department of Commerce and Labor on June 15, 1911, to the collector of customs and others concerned in an Act approved June 24, 1910:—

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the first day of July, nineteen hundred and eleven, it shall be unlawful for any ocean-going steamer of the United States, or of any foreign country, carrying passengers and carrying fifty or more persons, including passengers and crew, to leave or attempt to leave any port of the United States unless such steamer shall be equipped with an efficient apparatus for radio-communication, in good working order, in charge of a person skilled in the use of such apparatus, which apparatus shall be capable of transmitting and receiving messages over a distance of at least one hundred miles, night or day: *Provided,* That the provisions of this Act shall not apply to steamers plying only between ports less than two hundred miles apart.

Sec. 2. That for the purpose of this Act apparatus for radio-communication shall not be deemed to be efficient unless the company installing it shall contract in writing to exchange, and shall, in fact, exchange, as far as may be physically practicable, to be determined by the master of the vessel, messages with shore or ship stations using other systems of radio-communication.

Sec. 3. That the master or other person being in charge of any such vessel which leaves or attempts to leave any port of the United States in violation of any of the provisions of this Act shall, upon conviction, be fined in a sum not more than five thousand dollars, and any such fine shall be a lien upon such vessel, and such vessel may be libelled therefor in any district court of the United

States within the jurisdiction of which such vessel shall arrive or depart, and the leaving or attempting to leave each and every port of the United States shall constitute a separate offence.

SEC. 4. That the Secretary of Commerce and Labor shall make such regulations as may be necessary to secure the proper execution of this Act by collectors of customs and other officers of the Government.

REGULATIONS.

I. ADMINISTRATION.

1. The Department will appoint three wireless ship inspectors, whose districts shall be:

NORTH ATLANTIC, from New York to the Canadian boundary;

MIDDLE ATLANTIC AND GULF, from Philadelphia to Galveston, including Porto Rico;

PACIFIC, from Puget Sound to San Diego, including Alaska and Hawaii.

2. These inspectors are authorized to communicate directly in their respective districts with collectors of customs, and to co-operate with them in the enforcement of the law.

3. Collectors of customs and wireless ship inspectors, as far as practicable, shall visit ocean passenger steamers subject to the Act, before they leave port, and ascertain if they are equipped with the apparatus in charge of the operator prescribed by the first section of the act.

4. Where an ocean passenger steamer subject to the act is without the apparatus and the operator prescribed, or either of them, and is about to attempt to leave port, the customs officer or wireless ship inspector visiting the vessel shall—

(a) Notify the master of the fine to which he will be liable, and of the particulars in respect of which the law has not been complied with;

(b) Notify at once the collector of customs, if necessary, by telephone;

(c) Prepare in writing a report of his action, stating particulars as in (a), to be transmitted to the collector of customs. The collector will transmit a copy to the United States attorney for the district in which the port is situated.

5. The act does not authorize the refusal of clearance in case of violation of its provisions, but specifically provides for the imposition of a fine in a sum not more than five thousand dollars upon conviction by the court. The collector of customs, accordingly, when advised that an ocean passenger steamer subject to the act is attempting to leave port in violation of its requirements, shall at once notify the United States attorney. Subsequently he shall report the case briefly to the Secretary of Commerce and Labor.

6. The act does not apply to a vessel at the time of entering a port of the United States. Customs officers and wireless ship inspectors may, however, accept as evidence of the efficiency of the apparatus and the skill of the operator wireless messages shown to have been transmitted and received by him over a distance of at least one hundred miles, by night or day, during the voyage to the United States.

7. In cases of violations of the act the efficiency of the apparatus and the skill of the operator will be determined by the court (see section 3 of the act). Collectors of customs and wireless ship inspectors, accordingly, are enjoined that the reports required by paragraph 4 (c) of these regulations must be precise statements of the facts as the basis for proceedings by the United States attorney.

II. OPERATORS.

1. Paragraphs 3 and 4 of Article VI of the Service Regulations, annexed to the Berlin International Radiotelegraphic Convention, provide:

(3.) The service of the ship station must be carried on by a telegraphist holding a certificate issued by the Government to whose authority the ship is subject. This certificate testifies to the technical proficiency of the telegraphist as regards—

(a) The adjustment of apparatus;

(b) Transmission and sound-reading at a speed which must not fall short of twenty words a minute;

(c) Knowledge of the regulations applicable to the exchange of radio-telegraphic traffic.

(4.) In addition, the certificate testifies that the Government has bound the telegraphist to the obligation of preserving the secrecy of correspondence.

The Berlin Convention has been ratified by the following nations, dominions, and provinces: Great Britain, Canada, Australia, British South Africa, India, and New Zealand, Germany and all German protectorates, France, Norway, Japan, the Netherlands and Dutch Indies, Russia, Sweden, Austria-Hungary, Spain, Denmark, Bel-

gium, Brazil, Turkey, Portugal, Roumania, Mexico, Bulgaria, Persia, and Tunis.

Wireless operators holding valid certificates issued by the Governments named above will be recognized by this Department as persons "skilled in the use of such apparatus" within the meaning of the act unless in the case of a specific individual there may be special reason to doubt the operator's skill and reliability. Such certificates should be ready at hand for the inspection of customs or other officers before the steamer departs from the United States.

2. (a) The Commissioner of Navigation will issue operators' certificates of skill (see Appendix A) in radio-communication, and operators holding them will be recognized as persons "skilled in the use of such apparatus" within the meaning of the act, unless in the case of a specific individual there may be special reason to doubt the operator's skill and reliability. Such certificates should be ready at hand for the inspection of customs or other officers before the ship departs from the United States.

(b) To secure a certificate an operator will pass an examination in the adjustment of apparatus, correction of faults, change from one wave length to another, transmission and sound reading at a speed of not less than fifteen words a minute American Morse, or twelve words Continental, as the operator may elect. Operators are advised to learn as soon as practicable the Continental system, recognized by the Berlin Convention and employed by the United States Navy.

(c) The examinations will be held at the United States navy yards at Boston, Mass., Brooklyn, N. Y., Philadelphia, Pa., Washington, D. C., Norfolk, Va., Charleston, S. C., New Orleans, La., Mare Island (San Francisco), Cal., Puget Sound, Wash.; at the naval stations at Key West, Fla., San Juan, P. R., and Honolulu, Hawaii, and also at the Bureau of Standards, Washington, D. C. Applicants for certificates should communicate in writing with the commandants of the navy yards or stations named, or with the Director of the Bureau of Standards, to ascertain the day and hour when they can be examined. The certificates will be delivered at the places named.

(d) After an applicant has secured a certificate he should go before a notary public to take the usual oath for the preservation of secrecy of messages received in the line of duty.

(e) These examinations for the present will be open to—

(1) Operators actually employed as such by a wireless or steamship company, including shore operators;

(2) Operators seeking employment as such by a wireless or steamship company, including shore operators; and such applicants shall present letters from the company with which they seek employment;

(3) Applications for examination of operators of either class may be made by the wireless or steamship company in behalf of a number of operators by name.

3. Additional provision will be made later for the examination of operators by wireless ship inspectors at the New York and San Francisco customhouses and at other customhouses hereafter to be designated.

4. A wireless ship operator not possessing a certificate of skill as provided herein may present for the consideration of the visiting customs officer or wireless inspector other competent evidence of skill, or the wireless inspector may examine him, if practicable. If such examination be satisfactory, the wireless inspector will issue a certificate.

III. APPARATUS.

1. When the efficiency of the wireless apparatus is certified by a foreign government, such certificate will be recognized by this Department, but the customs officer or wireless ship inspector may, if he deem it necessary or desirable, satisfy himself that the apparatus is in good working order.

2. Whenever practicable, the customs officer or wireless ship inspector shall satisfy himself on his visit before the departure of a passenger steamer subject to the act that the apparatus is efficient and in good working order within the meaning of the act, and, if satisfied, he shall issue a certificate in the form in Appendix B. Duplicates of such certificates shall be retained in the files of the collector of customs.

3. When inspection of the apparatus by a customs officer or wireless inspector is not practicable, the master of the steamer may furnish to the visiting customs officer a certificate in the form in Appendix C. Such certificate shall be retained in the files of the collector of customs.

4. The current necessary to transmit and receive messages shall at all times while the steamer is under way be available for the wireless operator's use.

5. A storage battery or some other auxiliary which will produce sufficient power to operate the transmitting apparatus for four hours, ordinary sending, should be suit-

ably installed and ready for use in case of accident disabling the electric plant of the vessel. After January 1, 1912, vessels will be required to carry such battery or auxiliary.

6. One extra pair of head telephones and three sets of extra cords and one extra detector should always be kept on hand.

IV. ADDITIONS OR AMENDMENTS.

Additional or amendatory regulations will be issued from time to time as they may appear necessary.

Acting Secretary.

A rock off the N.W. end of Motuihi Island, with 2½ fathoms at L.W.S.T., has been recently discovered by the sweeping operations conducted there. South extreme Motu Tapu bearing S. 79½° W. mag.; west extreme Brown's Island bearing S. 30½° W. mag. Variation used, 15° E.

BLUFF HARBOUR.—ROCK IN FAIRWAY AT HARBOUR-ENTRANCE.

Marine Department,
Wellington, N.Z., 16th October, 1911.

THE Bluff Harbour Board has notified that a dangerous patch of rock has been discovered near the fairway at the entrance to Bluff Harbour; least depth of water over it, 20 ft. low-water springs; the patch of rock is about 50 ft. long by 20 ft. wide.

It lies about 100 ft. south of the line of green and white beacon-lights, with the outer pile beacon bearing from it N. 26° E., distant 400 ft.

A notice of this rock was published in August, 1890, but as notices of blasting operations to remove it were issued in 1897 and 1904, and no trace of it was found in the "Penguin's" survey of 1904, it was presumed that it had been entirely removed.

CONDITIONS OF SALE.

1. The right to cut and remove the timber on each lot will be sold generally in accordance with the provisions of the Land Act, 1908, the timber regulations made thereunder, and the following conditions, and may contain such additional conditions as the Commissioner in his discretion considers necessary in the interests of the Crown or of the public.

2. The quantities of the various timbers set forth in the above Schedule are approximate only, and are furnished for the information of intending purchasers, who are expected, previous to the sale, to make their own estimate of the quantity of timber on each lot. No contract for purchase shall be voidable, nor shall the licensee be entitled to any abatement in price, by reason of the said timber being of less quantity, quality, and kind than as stated herein, nor shall any extra sum be claimed by the Crown if for any reason the quantity of timber is found to be in excess of that stated herein.

3. The successful bidder shall purchase the whole of the timber in a lot, and shall, on the fall of the hammer, pay in cash a deposit of 10 per centum of the amount bid, together with £1 1s. license fee, and shall also deposit eight promissory notes, each for one-eighth of the balance of purchase-money, each payable on demand, and indorsed by two persons to be approved by the Commissioner. These promissory notes will be presented, the first at an interval of nine months from the date of sale, and the others at subsequent intervals of six months, but they may be presented for payment at earlier dates if more than a due proportion of timber is found to be cut, or should any breach of the conditions occur, or if in the opinion of the Commissioner the interest of the Crown is jeopardized.

4. The purchaser of each lot shall have the right to cut all timber thereon during a period of five years from the date of sale. The license shall be only for the cutting and removal of the timber, and shall give no right to the use of the land.

5. The timber in each lot shall be cut in a face, and the Crown reserves the right of following up the mill-workings by felling and grassing such areas as from time to time will have been cleared of milling-timber. Sufficient timber shall be left on each section for fencing and general farming purposes.

6. The Land Board may authorize the laying-down and working of tram-lines through these lots by other persons than the licensees of the particular lots affected.

7. The licensee shall not put, throw, or place, or allow to be put, thrown, or placed, into any river, stream, water-course, or into any place where it may be washed into any river, stream, or watercourse, any sawdust or other saw-mill refuse.

8. If the timber on any lot is unsold at auction the right to cut it at the upset price will remain open for application until further notice.

9. Each lot will be sold generally in accordance with the area and boundaries as shown on the sale map at the District Lands Office, Wellington.

10. No compensation will be given nor shall any be claimed for any error, discrepancy, or misdescription whatever in respect of any lot or in these conditions.

Commissioner of Crown Lands.
