Such order shall be in the form No. 11A printed hereunder.

161B. The affidavit in compliance with any order made under Rule 161A shall be filed within ten days after the service of such order, but the Court or a Judge thereof may extend the time for filing such affidavit on the application of the party against whom such order shall have been made.

An order to arrest under section 55 of the Judicature Act, 1908, shall be made upon affidavit and *ex parte*, but the defendant may at any time after arrest apply to the Court or a Judge thereof to rescind or vary the order, or to be discharged from custody, or for other relief as may be just.

385B. The order to arrest shall be in the form No. 33A printed hereunder, with such variations as circumstances may require. 385i. 385j. Proof of the means of the debtor, or other matters specified in the subsections of section 5 of the said Act, shall, whenever practicable, be given by affidavit; but if it appear to the Judge, either before or at the hearing, that a *viva voce* examination, either of the debtor or of any other person, or the production of any document, is necessary or expedient, an order may be made commanding the attendance of any such person before the Judge, at a time and place to be therein mentioned, for the purpose of being examined on oath touching the matter in question, and (where the production of any document is necessary or expedient) for the production of any such document, subject to such terms and conditions as to the Judge may seem fit. ISLINGTON, Governor.

ORDER IN COUNCIL.

At the Government Buildings, at Wellington, this first day of November, 1911.

Present :

THE RIGHT HONOURABLE SIR J. G. WARD, BART., PRESIDING IN COUNCIL.

WHEREAS by Orders in Council dated the seventeenth day of January, one thousand nine hundred and ten, the twenty-ninth day of April, one thousand nine hundred and ten, the fifth day of December, one thousand nine hundred and ten, the twelfth day of June, one thousand nine hundred and eleven, and the seventeenth day of July, one thousand nine hundred and eleven, and published in the *New Zealand Gazette* of the eighteenth day of January, one thousand nine hundred and ten, the twelfth day of May, one thousand nine hundred and ten, the eighth day of December, one thousand nine hundred and ten, the twenty-third day of June, one thousand nine hundred and eleven, and the twentieth day of July, one thousand nine hundred and eleven respectively, regulations were made under the authority of the Post and Telegraph Act, 1908 (hereinafter termed "the said Act"), *inter alia*, for the management and control of telephone exchanges, telephone bureaux, and private lines, prescribing the charges to be levied for connection with a telephone exchange, fixing and determining telephone-bureau charges, and fixing rates and fees for the construction, supply, and maintenance of private telephone lines by the Post and Telegraph Department, under the titles "Telephone Exchanges," "Telephone Bureaux," and "Private Lines": And whereas it is desirable to revoke such regulations and charges and to make others in lieu thereof:

Now, therefore, His Excellency the Governor of the Dominion of New Zealand, in pursuance and exercise of the power and authority conferred upon him by the said Act, and of all other powers and authorities in that behalf enabling him, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby revoke the regulations and the rates and charges hereinbefore mentioned for the purposes specifically set forth above, and in lieu thereof doth hereby make the regulations and fix the rates and charges for the same purposes set forth in the Schedule hereto, and doth order that such regulations, rates, and charges shall have effect on and from the first day of January, one thousand nine hundred and twelve.

SCHEDULE.

TELEPHONE EXCHANGES.

1. WHERE a telephone exchange is established, the Department is prepared to receive applications from intending subscribers, subject to the conditions and regulations set forth hereunder, or any amendments or extensions thereof.

2. Every person desiring to hire any telephone instruments or set of telephones connected with a telephone exchange shall make application to the Secretary, General Post Office, on the form supplied for that purpose by the Department.

3. In addition to the tabulated rates, an entrance fee of £1 must accompany all first applications. Subsequent applications for additional connections to the same exchange will be exempt from the entrance fee, providing a pre-existing connection is simultaneously held for one year after the date of the additional connection.

4. Subscribers at each exchange will be furnished with a list of persons with whom they may communicate by telephone, and as new subscribers are connected with the system from time to time notification of the fact will be given by the Department.

5. The Minister of Telegraphs may refuse to connect with the telephone exchange any place of business, house, or premises which in the opinion of the Minister is or are used for any illegal, immoral, or improper purpose, and may, either with or without previous notice, exclude from the telephone exchange any subscriber who allows the telephone instruments in his custody or control to be damaged or destroyed, or put to any improper use, and may remove or cause to be removed any instruments allotted to the use of such subscriber. No person shall have any claim for damages or otherwise whatsoever in consequence of the refusal of the said Minister to connect any place of business or house with the exchange for any of the causes aforesaid, or in consequence of the removal of any instruments, or the exclusion of any subscriber as aforesaid.

6. All charges payable in respect of the hire of any telephone instruments shall be paid half-yearly in advance, but for distances over three miles the charges may, if desired by the subscriber, be paid quarterly in advance, the first payment to commence from the date when the connection with the telephone exchange is completed, and to cover the then current quarter or half-year.

7. If such payment is not made within one week after demand, the connection with the exchange may be discontinued without prejudice to any proceedings for the recovery of any moneys then due or otherwise.

8. Telephones connected with exchanges are to be used on the business of the subscriber or that of his employees, family, or guests only.

9. No extra telephones, special instruments, or appliances other than those provided and maintained by the Department will be allowed to be used by any subscriber in connection with an exchange wire.

10. It shall be optional on the part of the Minister of Telegraphs to permit any premises of any public hospital, or public benevolent or charitable institution duly acknowledged as such by the Minister, to be connected with a telephone exchange at half the business rates (other than the entrance fee) as detailed in clause 11. Such institutions will be required to bear the cost of any line-construction beyond 1 mile from the exchange in order to qualify for the reduced rental beyond the mile.

CHARGES.

11. In addition to the entrance fee of £1, the charge per annum payable in respect of the hire of any telephone instrument connected with a Government telephone exchange is as follows:—

For an exclusive circuit,—	Per Annum.
At exchanges which are open continuously—	£
Business establishments	7
Private residences	5
Or if two-thirds of the total number of subscribers at any time express in writing, addressed to the Secretary of the Post and Telegraph Department, their desire in that behalf	
For each subscriber at the rate of	6
Such expression as aforesaid shall be deemed to be operative until reversed by an expression of the desire of at least two-thirds of the subscribers that the annual rates be £7 and £5 respectively.	
At exchanges which are not open continuously—	
Business establishments and private residences	5
Additional exchange connections to the same premises, £1 per annum less.	

12. The above rates are for business connections not exceeding half a mile, or for private residences not exceeding one mile, from the exchange. Business connections comprise warehouses, stores, shops, or any premises which bear *prima facie* evidence of being utilized for business purposes or are advertised as such.

13. On existing lines, for every additional quarter mile or fraction thereof up to three miles, the charge is 10s. per annum; beyond three miles, 15s. per annum. If a special line of poles has to be erected beyond three miles, the charge will be £1 per annum for each quarter mile or fraction thereof beyond the three miles. For maximum distances over which lines will be erected by the Department see clause 21.

14. Extension telephones, not fitted for internal communication, are charged for at £1 per annum each, in addition to the cost of switching-devices, material, and fitting. Extension telephones fitted for intercommunication, in addition to exchange facilities, are charged for at £2 per annum each, except the annunciator telephone, the subscriber to pay the cost of the annunciator and of erection. The annunciator telephone is provided by the Department. An extension telephone is one which is placed within the same premises as that in which the original connection is placed.

15. Subscribers will have to sign a bond to hold the connection for one year for each two miles or fraction thereof of circuit wholly provided by the Department. Thus, for a distance up to two miles, one year; over two miles and not exceeding four miles, two years; over four miles and not exceeding six miles, three years.

16. Temporary connections (for a period less than one year) will be granted, provided the applicant pays the net cost of giving the connection, and a rental of 10s. for the first fortnight or fraction thereof, and 5s. for every subsequent week. In the event of the temporary subscriber ultimately deciding to have the temporary connection converted to an ordinary permanent one, the usual bond must be given, and the regular charges will take effect from the date of the completion of the bond. In such a case the cost of making the connection will be refunded.

17. Where subscribers have already paid for the cost of construction beyond the three-mile limit, the charge for such extension will be 10s. per quarter mile, whether a special line of poles is constructed or not.

18. Printing additional names or designations in the telephone list in connection with the same number will be charged for at 10s. for each additional entry.

Party Lines.

19. In cases where from two to six subscribers use the same circuit, the following charges will be made :—

	Each, per Annum.
	£ s. d.
For 2 subscribers, 1 mile or less from the exchange	3 10 0
" 3 " " 1½ " "	3 0 0
" 4 " " 2 " "	3 0 0

Only one entrance fee is required for each circuit.

For each business connection on a party line—
At an exchange open continuously, £2 extra per annum.
At exchanges not open continuously, £1 extra per annum.

Where continuous service is provided—
For each party line, for three subscribers or less, £1 per annum additional.
For each subscriber beyond three, 5s. per annum.

20. Beyond the distances detailed above, the additional charges will be in accordance with clause 13.

21. The Department will extend any line, whether an exclusive or a party line, beyond the three-mile limit for a further distance of one mile for each subscriber on the circuit. If a line is required beyond these extended limits, the Department will extend the line for a further distance of one mile for each subscriber on the circuit, on the condition that the subscribers contribute half the cost of doing so. For any further extension, the subscribers must pay the whole cost of construction. Where the Department may have spare wires, either cable or aerial, the maximum distances specified may be exceeded to the extent to which such wire is available.

22. It will be optional for subscribers to erect and maintain their own lines beyond the distances for which the minimum charges are made.

23. The following are the hours of attendance observed at telephone exchanges, according to the number of paying subscribers connected therewith :—

TELEPHONE BUREAUX.

1. A "telephone bureau" means any ordinary telegraph or telephone office which is mentioned as a bureau in the list of telegraph-offices published in the Post and Telegraph Guide for the time being, as well as any such bureau specifically constituted.

2. The following are the charges to be paid by the public for the use of Government telephones at a telephone bureau in New Zealand:—

For communications on toll lines over twenty-five miles long, between 8 p.m. and 8 a.m., half the above charges are to be paid—for example, 3d. instead of 6d., 4d. instead of 9d. Half-rates apply only at telephone exchanges which are open after 8 p.m.

A toll line is any Departmental line (as distinct from a subscriber's line) connecting two places or exchanges, for the use of which a charge is made. Until further defined, all lines, except subscribers' lines are toll lines.

3. Any subscriber who has a telephone exchange connection may have the name of the person making each forwarded bureau communication inserted in his weekly account, provided that he makes written application and agrees to pay a minimum charge of 6d. on all bureau communications from his connection.

4. Owners of private telephone lines led into a bureau may use the departmental lines when available for speaking purposes through such bureau. The charges for this service are the same as those payable by non-subscribers, the distance being calculated from the telephone bureau.

5. When a message to the effect that any person is required to attend at a telephone bureau is sent to such bureau for delivery beyond the premises in which the bureau is situated, 3d. will be charged for delivery. These charges must be paid by the sender. Messages for addresses outside the ordinary delivery limits are subject to special charges for delivery, according to the extra expense thereby incurred.

6. Any one person may use the wire for six minutes only at a time—that is to say, if another person requires the wire, at the end of six minutes it must be given up. Should the wire not be asked for, then the person using it may continue to do so at tariff rate. On Sundays ordinary rates only are charged.

LONG-DISTANCE COMMUNICATIONS.

7. The following are the charges for the use of Government telephones, when prearranged by "reply-paid" telegram or otherwise, for the purpose of conversing over long-distance wires on Sundays or at other times approved by the Minister, usually between midnight and 8 a.m.:—

(a.) When the conversation takes place through exchanges which are open continuously, or through other exchanges or bureaux during the ordinary hours of attendance of switchboard or bureau attendants: For a period not exceeding six minutes, 2s. 6d.; and a further charge of 5d. for every additional minute or fraction thereof.

(b.) When the special attendance of an officer is required for the reopening of any office for the purpose of obtaining a long-distance bureau communication, a reopening fee of 1s. must be paid by the person making the request.

If officers are required to remain in attendance for any time longer than that taken for the actual transmission of the communication, such extended attendance must be paid for as overtime at the rate fixed by the Department's regulations.

(c.) When special attendance of switchboard or bureau attendants out of ordinary hours of attendance is required, then for each switchboard or bureau attendant called upon to make the necessary wire-connections: For every hour or less, 2s. 6d., in addition to the charges set forth in paragraph (a).

8. No free conversations on public service are permitted over long-distance circuits.

9. The long-distance circuits are: Dunedin-Christchurch, Wellington-Napier, Wellington-Auckland, and Napier-Auckland.

10. A long-distance communication is a communication made by telephone over one of the Morse (telegraph) circuits named above.

11. Communications under these regulations may also be obtained at intermediate offices on any of the above-named long-distance circuits or over a portion or the whole of any two of them if circumstances permit.

PRIVATE LINES.

CONDITIONS UNDER WHICH LINE WILL BE CONSTRUCTED, SUPPLIED WITH INSTRUMENTS AND MAINTAINED.

1. Application should be made direct to the Secretary, General Post Office, Wellington, for any information regarding the cost of construction and the conditions under which private lines will be constructed or supplied with instruments.

2. The erection of private lines is not permissible on telegraph or telephone poles, nor may such lines be connected with departmental earth-wires, except as specified in clause 3.

3. Private wires between places of business or other premises within towns where there are telephone-poles available, which in the opinion of the Secretary, General Post Office, may be used for carrying such private wires without detriment to the Department's business, may be erected on such telephone poles at the cost of the applicant, and maintained by the Department at the following rates, payable yearly in advance:—

For the first mile or fraction thereof, £2 per annum, and 10s. per annum for every additional quarter of a mile or fraction thereof.

4. If a private line or any portion thereof cannot be erected on any existing telephone-poles, and therefore necessitates the erection of new poles, then for such new line the maintenance will be at the rate of £4 per annum for the first mile or fraction thereof, and £1 per annum for every additional quarter of a mile or fraction thereof.

5. The applicant must use the line for his own *bona fide* business only, and must on no account, directly or indirectly, allow the line to be used for any purpose which might be construed as an attempt to defraud the Department of its revenue.

6. The Department may construct private telephone-lines on behalf of the owners, but will not license any person to construct his own telephone-line.

7. The construction of a line erected by its owner and at his risk is subject to the consent of the County Council, Road Board, or other local body; but such consent will not abrogate the claims of the Department to the right of road. Any private line interfering with the construction or maintenance of any departmental line will be liable to removal on the order of the Minister.

8. Private lines intended to be connected with a telephone bureau must be equipped with bridging-bell telephones supplied by the Department, the cost of which, including battery, is £5 each. Any other apparatus or material required for the construction of a private line may also be purchased from the Department, provided it can be spared by the Department and cannot be obtained from any dealer in such goods.

9. The Department does not maintain private lines or telephones constructed as indicated in clauses 6, 7, and 8.

10. A private line may be connected with a telephone-office at which there is no telephone exchange on the following conditions:—

(a.) The line must be led into the office under the supervision of a departmental lineman to a lightning-guard, switch, and telephone. The owner will be charged with the lineman's time and expenses while engaged in the work.

(b.) The telephone at the telephone-office must be of the bridging-bell pattern if there is more than one telephone on the line, but it may be an Edison-Bell telephone if there is only one telephone on the line. It is furnished, together with the fittings, at the expense of the owner of the private line.

11. When a private line is connected with a telephone-office in charge of a permanent officer a switching-fee, to be paid in advance, of £1 10s. per annum for each telephone, is to be charged for switching the private line to another private line. The service of switching the private line to the bureau, and the transmitting and receiving of telegrams on the private line, will be given free of charge; but the usual charges for use of the bureau, and the cost of the transmission of telegrams over the public line from the bureau, must be paid.

12. Non-permanent telephonists may fix a fee to be charged for their services in switching one private line to another private line. Approximately the charge is about £1 10s. per annum per telephone, but non-permanent telephonists may charge only the usual bureau fees and the cost of transmitting messages for switching to a departmental line.

13. Where a telephone exchange has been established in a country town private lines may be connected with the same on the owners signing the prescribed form of application and paying the entrance fee of £1 and the charges set out in clause 14. Only one entrance fee is required for each line.

14. When a private line is joined up to a telephone-exchange connection, either through a subscriber's wire or direct to the exchange by a departmental wire the rates in addition to the entrance fee shall be in accordance with those specified for exclusive and party lines.

15. The Department supplies a telephone free of charge to each subscriber, and, where necessary, an earth-plate, and, in the case of a long line, a lightning-guard; but these remain the property of the Department, and are not installed or maintained by the Department except at the expense of the subscriber and when the Department can conveniently spare the services of a lineman. Neither does the Department maintain any part of the private line. The Department will, however, supply material for renewing batteries, and will also repair or replace a defective telephone if it is sent in to the telephone exchange by the subscriber. Otherwise such subscribers have all the privileges of ordinary subscribers.

Clerk of the Executive Council.
