Clerk of the Executive Council.

Incorporating the Blairgowrie Land Settlement Association.

LIVERPOOL, Governor.
ORDER IN COUNCIL.

At the Government Buildings, at Wellington, this seventeenth day of June, 1913.

Present:

THE HONOURABLE W. H. HERRIES PRESIDING IN COUNCIL.

WHEREAS by section seven of the Land Settlement Finance Act, 1909 (hereinafter referred to as "the said Act"), it is provided that as soon as practicable after the complete execution of any agreement under the said Act, application in the prescribed form shall be made to the Governor by or on behalf of the purchasers for an Order in Council confirming the agreement in pursuance of the said Act: And whereas by sections eight and nine of the said Act it is further provided that upon receipt of such application the Minister of Finance shall refer the same, together with the agreement, to the Board of Land Purchase Commissioners for its report thereon, and if the Board reports that the agreement is fit and proper to be so confirmed the Governor may, if he thinks fit, by Order in Council confirm the agreement accordingly: And whereas under the provisions of the said Act an agreement, bearing date the first day of March, one thousand nine hundred and thirteen, has been entered into between Robert Beatson Ross, vendor, of the one part, and Henry Thomas William Antrobus, Charles Sydney Moule, Robert Ness, James Boyte, David Bishop, Charles Harper Gray, James Martin Tweedie, Alexander Milne, and James Ramsay Scobie, and William Emanuel

Pickford (as tenants in common in equal shares), purchasers, of the other part, for the purchase of the land therein described, and the said purchasers therein agreed to become incorporated as the Blairgowrie Land Settlement Association: And whereas application has been made in the prescribed form for the issue of an Order in Council confirming the said agreement: And whereas the said application, together with the said agreement, was referred to the Board of Land Purchase Commissioners for its report, and the Board has reported that the sum of eight hundred pounds is reasonably required to be expended by the said association as roading money in order to form and metal the roads dedicated by the association, and to construct bridges, culverts, and other requisite appurtenances to these roads, and that the said agreement is fit and proper to be so confirmed:

Now, therefore, in pursuance and exercise of the powers and authorities conferred on him by the said Act, His Excellency the Governor of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby confirm the said agreement dated the first day of March, one thousand nine hundred and thirteen, and doth hereby direct that the sum of eight hundred pounds, as determined by the report of the Board of Land Purchase Commissioners, shall be expended by the said association as roading money.

J. F. ANDREWS,
Clerk of the Executive Council.

License authorizing the Invercargill Borough Council to erect Electric Lines within the Borough of Invercargill, Portion of the Borough of South Invercargill, and Portion of the Southland County.

LIVERPOOL, Governor.
ORDER IN COUNCIL.

At the Government Buildings, at Wellington, this seventh day of June, 1913.

Present:

THE HONOURABLE W. F. MASSEY PRESIDING IN COUNCIL.

WHEREAS by section two of the Public Works Amendment Act, 1911, it is provided that no person shall lay, construct, put up, place, or use any electric line except under the authority of a license issued by the Governor in Council under that Act: And whereas the Invercargill Borough Council (hereinafter referred to as "the said Council") desires to erect electric lines within the Borough of Invercargill, portion of the Borough of South Invercargill, and portion of the Southland County, and it is expedient accordingly to issue a license in respect thereof under the said section:

Now, therefore, in pursuance and exercise of the powers conferred upon him by the said section, and of all other powers enabling him in that behalf, His Excellency the Governor of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth, subject to the conditions set forth in the Schedule hereto, hereby authorize the said Council to erect and maintain electric lines for lighting and power purposes within the area enclosed by red, green, and yellow lines on the plan marked P.W.D. 32362, deposited in the office of the Minister of Public Works, at Wellington, in the Wellington Provincial District.

SCHEDULE.

CONDITIONS.

IN this license the following words and phrases shall have the meanings hereby attached to them respectively:—

- (a.) "Minister" means the Minister of Public Works.
- (b.) "Inspecting Engineer" means the engineer or other officer appointed by the Minister for the purpose of inspecting the works to be constructed or maintained by the Council under the authority of this license.
- (c.) "Electric line" or "line" means a wire or wires, conductor, or other means used for conveying, transmitting, or distributing electricity for power, lighting, or heating purposes, and including any instrument, insulator, casing, tubing, pipe covering, or post enclosing or supporting an electric line or anything connected therewith.
- (d.) "Pressure" means difference of electric potential.
- (e.) "Earthed" means, when applied to any metallic body, that it shall be connected to the general mass of the earth in such a manner as will ensure at all times an immediate discharge of electrical energy without danger.

(f.) "Consumer's wires" means any electric lines on the consumer's premises which are connected with the said Council's electric lines.

(g.) "Street" includes road.

(h.) "Telegraph" includes telephone.

1. Supply shall be on the following systems:—

(a.) For general supply, three-phase 50 cycle alternating current, at 230 and 400 volts, four-wire system.

(b.) For special motor supply, 550 volts direct current.

(c.) For street lighting, constant-current alternating-series system up to a maximum of 3,000 volts, and direct current 550 volts from trolley-wire.

(d.) For supplying outlying districts, single-phase alternating current, 50 cycles, transmitted at a pressure of from 2,300 to 2,500 volts and transformed to 230 volts for distribution.

2. The said Council shall, before the erection or construction of any part of the work hereby authorized is begun, submit for the approval of the Minister such plans and other information showing and describing such work as he may require. In the case of any alteration involving departure from the method of construction shown on the deposited plans, the said Council shall submit plans showing such alterations for the Minister's approval, and with such approval the alterations may be duly carried out.

The neutral wire of the three-phase system shall be earthed at the power-station, and otherwise insulated throughout its length. The earth connection shall be made through a low-reading ammeter, the readings of which shall be recorded daily.

3. At the generating-station a properly equipped non-inflammable switchboard mounted upon a substantial iron frame shall be provided. All conductors must be so guarded that no unauthorized person can under any circumstances come in contact therewith.

4. The distribution may be carried out either by underground or overhead conductors; provided that if at any time it is deemed by the Minister to be detrimental to the public safety for the conductors or any particular class of conductors to be overhead, they shall, on receipt of notification to that effect from the Minister, and within nine months of such notification, be laid underground, and all consequent and necessary alterations made by and at the cost of the said Council.

Transformers shall be placed either on poles or in substations. The cases of all transformers shall be earthed by means of a copper conductor at least 0.22 square inch in section. Within substations all high-tension conductors shall be thoroughly insulated, or otherwise protected from accidental contact; the walls shall be lined with sheet asbestos or other insulating material. A substantial insulating rubber mat and rubber gloves shall be supplied, and the sub-station shall be entirely inaccessible to unauthorized persons.

5. Overhead conductors shall be of stranded hard-drawn copper or aluminium wire of not less than 0.012 square inches in sectional area, provided that service wires of short span may be not less than 0.007 square inches in sectional area.

All wires at a pressure over 600 volts shall be concentric, and shall be suspended from suitable steel bearer-wires. The outer conductor shall be triple braided, and shall be earthed at the generating-station.

All wires at a pressure below 600 volts shall be covered with a triple braiding of jute thoroughly impregnated with insulating compound; provided that the neutral conductor of the three-phase system may be bare.

The stress in overhead conductors shall not exceed 28,000 lb. per square inch for copper and 15,000 lb. per square inch for aluminium in the extreme case of a temperature of 12° Fahr. and a wind-pressure of 18 lb. per square foot of diametrical plane occurring simultaneously. The span between supports and the sag shall be determined to conform with the above limiting stresses.

No overhead electric lines shall come within 3 ft. of any other aerial wires or cables, except where it may be permitted to pass the lines between other wires at a pole or support.

6. All overhead wires shall be carried at a minimum height of 20 ft. over road crossings, and 18 ft. elsewhere.

All aerial wires shall be attached to suitable insulators carried on cross-arms of suitable material and cross-section, and they shall be so attached to the insulators or guarded that they cannot fall away from the support. Conductors covered with insulating material shall be so attached that their insulation will not be impaired where they are secured to the insulator.

Every support for an aerial line shall be of durable material and properly strengthened against force due to wind-pressure, change of direction of line, and unequal length of span. The factor of safety of such supports shall be at least 4 if of iron, steel, or reinforced concrete, and

6 if of wood, taking into consideration all possible stresses, including wind-pressure at 30 lb. per square foot on plane surfaces and 18 lb. per square foot of diametrical plane for cylindrical surfaces.

7. Except by permission of the Minister of Telegraphs, all overhead electric-light pole lines shall be placed on the opposite side of the streets to that on which any telegraph lines exist, and where the erection of the electric-light wires necessitates the alteration of any existing telegraph wires, and such alteration is approved by the Minister of Telegraphs, the expense of the alteration shall be borne by the said Council.

Where the electric-light wires are on one side of the street and the telegraph wires on the other, and service is required to be given from either to the other side of the street, the said Council and the Minister of Telegraphs shall give to each other reasonable facilities as far as possible to effect supply.

In running the lines authorized by this license through streets where no telegraph line exists the said Council shall keep to the one side of the street, and in running wires to the opposite side of the street the said Council shall arrange so as to interfere as little as possible with the route of any future telegraph line.

8. Where electric lines cross telegraph lines they shall be insulated and protected in such manner as is required by the Minister of Telegraphs.

Where wires are run on the telegraph poles the number of such wires shall be limited to one circuit of not more than four wires. Wires shall be supported as far as possible on a bracket-arm on one side of the pole. Where the wires are placed on both sides of the pole a space of 3 ft. in the clear shall be left between the group of wires on the one side of the pole and the group of wires on the other side of the pole. The neutral wire shall be placed nearest the pole. Wires at a pressure of 600 volts and under shall be covered with a triple braiding of jute thoroughly impregnated with insulating compound. Wires at a pressure of over 600 volts shall be concentric, and shall be suspended from suitable steel bearer-wires. The outer conductor shall be triple braided, and earthed at the generating-station. The neutral conductor of the three-phase system may be bare.

Notice of any change or alteration to be made to the electric lines shall be given to the District Engineer of the Telegraph Department. If required, by notice in writing from the District Engineer of the Telegraph Department, to remove any electric line or lines from any telegraph pole, the Council shall remove such line or lines within thirty days of the receipt of such notice.

9. If the Minister of Telegraphs so requires, efficient guard-wires shall be erected in a manner to meet with the approval of that Minister at all crossings and places where either transmission or distribution electric-lighting wires intersect telegraph wires. The said Council shall bear the expense of such guard-wires in all cases where an electric-lighting wire intersects a telegraph wire previously existing.

10. Where any portion of an electric line or any support for an electric line is exposed in such a position as to be liable to injury from lightning, it shall be efficiently protected against such liability.

11. Service lines from aerial lines shall be led as directly as possible to insulators firmly attached to some portion of the consumer's premises which is not accessible to any person without the use of a ladder or other special appliance. Every portion of any service line which is outside a building but is within 7 ft. from any part of the building shall be rubber-insulated.

12. No work of any nature shall be erected or constructed in pursuance of this license upon, over, or under any part of the New Zealand Government railways until the said Council has obtained the consent of the Minister of Railways thereto, as required by section 4 of the Government Railways Amendment Act, 1910 (No. 2).

13. Every aerial line, including its supports, its conductors, and their insulating covering, and all the structural parts and electrical appliances and devices belonging to or connected with the line, shall be duly and efficiently supervised and maintained as regards both electrical and mechanical conditions.

14. An aerial line shall not be permitted to remain erected after it has ceased to be used for the supply of energy, unless the said Council intends within a reasonable time again to take it into use.

15. All metal pipes or coverings containing any electric line or wire shall be efficiently connected with earth, and shall be so jointed as to make good electrical connection throughout their whole length.

16. Underground conductors shall be thoroughly insulated, and shall be protected from mechanical damage by a wooden boxing or earthenware or stoneware conduit. They shall be laid wherever possible under the footpaths,

and with a cover of at least 12 in. from the surface of the pavement. Where laid under the roadway this cover shall be increased to 2 ft.

17. All conduits, pipes, casings, and street boxes used as receptacles for electric lines shall be constructed of durable material, and shall be of ample strength to prevent damage from heavy traffic, and reasonable means shall be taken to prevent the accumulation of gas in such receptacles.

18. Where any underground line crosses or is in proximity to any metallic substance special precaution shall be taken against the possibility of any electrical charging of the metallic substance from the line or from any metallic conduit, pipe, or casing enclosing the line.

19. All underground metal conduits, pipes, or casings containing an electric line shall be efficiently earthed, and shall be so jointed and connected across all street boxes and other openings as to make good electrical contact throughout their whole length.

20. The covers of street boxes shall be so secured that they cannot be opened except by means of a special appliance. Street boxes shall be either filled solid with cable compound, or, if not so filled, shall be inspected from time to time for the presence of gas, and suitable action shall be taken to check its influx and accumulation.

21. Every main either overhead or underground shall be tested for insulation after having been placed in position and before it is used for the purpose of supply, the testing pressure being at least 500 volts; and the said Council shall duly record the results of the tests of each main or section of a main, and forthwith forward a report thereof to the Resident Engineer of Public Works at Invercargill.

The insulation of every complete circuit used for the supply of energy, including all machinery, apparatus, and devices forming part of or in connection with such circuit, shall be so maintained that the leakage current shall not under any conditions exceed one-thousandth part of the maximum supply current. Every leakage shall be remedied without delay. Every such circuit shall be tested for insulation at least once every week, and the Council shall duly record the results of the tests, and forward a report thereof at the end of each week to the Resident Engineer of Public Works at Invercargill.

22. The said Council shall be responsible for all electric lines, fittings, and apparatus belonging to it, or under its control, which may be upon a consumer's premises, being maintained in a safe condition and in all respects fit for supplying energy.

23. In delivering the energy to a consumer's terminals the said Council shall exercise all due precautions so as to avoid risk of causing fire on the premises.

24. The maximum working-current in any conductor shall not be sufficient to raise the temperature of the conductor, or any part thereof, to such an extent as to materially alter the physical condition or specific resistance of the insulating covering, if any, or in any case to raise such temperature to a greater extent than 130° Fahr. The cross-sectional area and conductivity at joints must be sufficient to avoid local heating, and the joints must be carefully made, resin being used as a flux, and must be protected against corrosion. The sectional area of all conductors on the consumer's premises from the main switchboard or from any distribution-board must be maintained throughout the circuit, and joints should be made only when branching off a circuit, and should be at least 8 in. distant from a joint in any other conductor.

25. All electric lines and apparatus on a consumer's premises, excepting such parts as are required to be connected to earth, shall be highly insulated, and be suitable for the voltage at which supply is being given. They shall be thoroughly protected against injury to the insulation or access of moisture, and any metal forming part of the electric circuit shall not, unless efficiently connected with earth, be exposed so that it can be touched. All electric lines shall be so fixed and protected as to prevent the possibility of electrical discharge to any adjacent metallic substance.

26. The said Council shall fix, where their service mains for lighting purposes terminate on any premises, double-pole well-protected fuses of at least 2 in. clear break. The consumer shall also place, in an accessible position, as near to the entrance-fuses as may be practicable, double-pole main switches of ample carrying-capacity, well insulated, with quick break of sufficient clearance to prevent arcing.

27. The wiring shall be done from distributing-boards, which shall be of incombustible material. Suitable fuses on each pole fitted to engage in spring clips shall be placed on these boards, so that it shall be possible to disconnect any or all circuits from the supply. If double-pole switches are used on the distributing-board circuits, fuses need not then be of the type to engage in spring clips. Not more than 3 amperes shall be controlled by each subswitch.

28. There must be an approved porcelain bridge or other efficient insulation between the terminals of lamp-holders,

and where lamp-holders are liable to be handled by persons making good earth contact they should be provided with non-conducting covers.

29. The insulation of conductors used for interior wiring shall be of vulcanized rubber of not less than 600-megohm-per-mile grade, or of other approved material suitably protected. - All interior conductors carrying current to apparatus at 400 volts shall be run in strong metal casing.

30. All arc lamps shall be so guarded as to prevent pieces of ignited carbon or broken glass falling from them, and shall not be used in situations where there is any danger of the presence of explosive dust or gas.

31. Arc lamps used in any street for public lighting shall be so fixed as not to be in any part at a less height than 10 ft. from the ground.

32. Arc lamps used in any street for private lighting shall be so fixed as not to be in any part at a less height than 8 ft. from the ground, and shall be so screened as to prevent risk of contact with persons.

33. Arc lamps must be insulated from earth, and be fixed so that they cannot swing into contact with any substance, metallic or otherwise, that might connect them to earth. They may be run in series, and at any available voltage up to 500 volts. Resistances for the regulation of arc lamps, if exterior to the lamp, shall be mounted on incombustible bases, shall be so placed that they cannot by conduction or radiation set fire to any contiguous materials, and shall be of ample size to safely carry the maximum current that will normally flow through them. Each arc-lamp circuit shall be provided with a fuse on each pole. Interior arc lamps shall also be provided with a switch on each circuit.

34. The frame of all motors supplied at 230 or 400 volts shall be connected to an efficient earth by a copper conductor, which shall have an area of not less than 0.023 square inches. All metal casings of switches, resistances, fuses, cables, and wires shall be efficiently earthed in a similar manner.

35. Every three-phase motor must be controlled by an efficient triple-pole quick-break switch, suitable to prevent arcing, and conveniently placed so that the person in charge of the motor can cut off wholly the supply from the motor, and all devices in connection therewith.

Every direct-current motor supplied from the tramway circuit shall be provided with a single-pole switch and cut-out, which shall be inserted in the positive side. The negative conductor shall be permanently connected to the negative terminal of the motor.

36. Efficient single-pole fuses or other automatic cut-out must be provided to efficiently protect the conductors on each pole from excess of current.

37. Every precaution shall be taken in choosing positions for and in the wiring and setting-up of motors, and the necessary devices in connection therewith, so that there shall be no danger of fire being caused by their normal or abnormal action, or of shock being sustained in the ordinary handling thereof.

38. Terminals of motors supplied at 230 or 400 volts must be so guarded that they cannot be accidentally touched or short-circuited.

39. The insulation resistance of each motor-circuit, including all devices necessary for the working of the motor, shall be not less than 1 megohm to earth when all metal parts that are required to be connected to earth are so connected.

40. The said Council shall not connect the wires and fittings on a consumer's premises with its mains, or, in the case of premises already connected, continue the supply from its mains, unless it is reasonably satisfied that the requirements of this license are complied with, that the wiring and fittings are suitable for the voltage at which supply is being given, and that the connection or continuance of supply would not cause a leakage from those wires and fittings exceeding one ten-thousandth part of the maximum supply current to the premises; and where the said Council declines to make such connection or to continue to supply it shall serve upon the consumer a notice stating its reasons for so declining.

41. If the said Council is reasonably satisfied, after making all proper examination by testing or otherwise, that the wiring and fittings are not suitable for the voltage being employed, that a leakage exists at some part of a circuit of such extent as to be a source of danger, and that such leakage does not exist at any part of the circuit under its control, or that any other requirements of this license are not complied with, then and in such case any officer of the said Council duly authorized by it in writing may, for the purpose of discovering whether the leakage exists at any part of a circuit within or upon any consumer's premises, or whether the wiring is suitable and the general requirements of this license are complied with, by notice require the consumer, at some reasonable time after the service of the notice, to permit him to inspect and test the wires and fittings belonging to the consumer and forming part of the circuit.

If on such testing and inspection the officer discovers a leakage from the consumer's wires exceeding one thousandth part of the maximum supply current to the premises, or that the requirements of this license are not properly conformed to, or if the consumer does not give all due facilities for inspection and testing, the said Council shall forthwith discontinue the supply of energy to the premises in question, giving immediate notice of the discontinuance to the consumer, and shall not recommence the supply until it is reasonably satisfied that the leakage has been removed and that the installation is in conformity with these regulations.

42. If any consumer is dissatisfied with the action of the said Council in refusing to give, or in discontinuing, or in not recommencing the supply of energy to his premises, the wires and fittings of that consumer may, on his application to the Minister, and on payment of the cost of such inspection, be inspected and tested for the existence of leakage by the Inspecting Engineer.

This provision shall be indorsed on every notice given under the provisions of either of the two last preceding clauses hereof (Nos. 40 and 41).

43. From and after the time when the said Council commences to supply energy through any distributing-main it shall, during such portion of each day as it from time to time determines, maintain sufficient power for the use of all the consumers for the time being entitled to be supplied from such main; provided that, for any purposes connected with the efficient working of the undertaking, the Minister may give permission to the said Council to discontinue the supply at such intervals of time and for such periods as he thinks expedient. When the supply is so discontinued, public notice shall be given, when practicable, of such discontinuance, and of the probable duration thereof.

44. The variation of pressure at any consumer's terminals shall not under any conditions exceed 4 per cent. above or below the normal pressure at which he is being supplied.

45. The construction of the works hereby authorized shall be substantially commenced on or before the 1st day of July, 1913, and shall be completed on or before the 1st day of July, 1914.

46. The said Council shall, prior to the completion of the said works, give to the Minister at least one month's notice in writing of the estimated date of such completion.

47. The said Council shall not use the said electric lines, or permit the same to be used, for any purposes until the Minister has given notice in writing to the Council that he has received from the Inspecting Engineer a certificate that the works have been satisfactorily carried out.

48. The Minister may at any time order an inspection to be made of the works, lines, and wires used by the said Council for electric lighting and power purposes. If any defect is found to exist it must be remedied forthwith, and, if serious in the opinion of the Inspecting Engineer, the Minister may, on receipt of his report, direct the Council to at once cease transmitting energy either over the whole of its lines and wires or over any part thereof, as to him may seem fit, until such defect is repaired or remedied. The cost of such inspections shall be borne by the Council.

49. After the supply of energy has been begun, not less than fourteen days' notice in writing shall be given to the Resident Engineer of Public Works at Invercargill, or such other officer as the Minister from time to time directs, of each further extension that the said Council is about to make.

50. The said Council shall, upon receipt of an application from the occupier of any premises within 60 ft. of any of the Council's electric lines, supply such premises with electrical energy on the same terms on which any other consumer is entitled under similar circumstances to a corresponding supply, provided that the Council's plant is of sufficient power to supply the electrical energy required by such occupier.

51. If the said Council makes default in complying with any of the provisions of this license it shall be liable to a penalty not exceeding £20 for every such default, to be recoverable by any person authorized by the Minister in that behalf as a debt due to the Crown; but the said Council shall not be held to have committed default for any failure to maintain power during the hours that it shall have determined to supply energy if such failure is due to the breakdown of machinery or other accident, unless such breakdown or accident shall be proved to be due to negligence on the part of the said Council.

52. The recovery of a penalty under this license shall not affect the liability, if any, of the said Council to make compensation in respect of any damage or injury which may be caused by reason of the default.

Clerk of the Executive Council.

Licensing the Hobson County Council to use and occupy a Part of the Foreshore at Mapuna, in Kaipara Harbour, as a Site for a Wharf.

LIVERPOOL, Governor.

ORDER IN COUNCIL.

At the Government House, at Wellington, this twelfth day of June, 1913.

Present :

HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

WHEREAS, there being no Harbour Board empowered to grant the license hereinafter mentioned under the Harbours Act, 1908 (hereinafter called "the said Act"), the Hobson County Council (hereinafter called "the Council") has applied to the Governor in Council for a license under the said Act to occupy a part of the foreshore and land below low-water mark at Mapuna, in Kaipara Harbour, in order to erect and maintain a wharf thereon; and, in accordance with the one-hundred-and-fiftieth section of the said Act, has deposited a plan in the office of the Marine Department, at Wellington (marked M.D. 4052), showing the area of foreshore and land below low-water mark intended to be occupied, and the manner in which it is proposed to erect the said wharf: And whereas it has been made to appear to the Governor in Council that the proposed work will not be or tend to the injury of navigation, and the said plans have, prior to the making of this Order in Council, been approved by the Governor in Council: And whereas it is expedient that a license should be granted and issued to the Council under the said Act for the purpose last aforesaid, on the terms and conditions hereinafter expressed:

Now, therefore, His Excellency the Governor of the Dominion of New Zealand, in pursuance and exercise of the power and authority vested in him by the said Act, and of all other powers and authorities enabling him in that behalf, and by and with the advice and consent of the Executive Council of the said Dominion, doth hereby approve of the object for which the said license is required by the Council as aforesaid; and, in further pursuance and exercise of the said power and authority, and with the like advice and consent as aforesaid, doth hereby license and permit the Council to use and occupy that part of the foreshore and land below low-water mark on which the said wharf is to be erected, as shown on the plan M.D. 4052 so deposited as aforesaid, for the purpose of erecting and maintaining the said wharf; such license to be held and enjoyed by the Council upon and subject to the terms and conditions set forth in the Schedule hereto.

SCHEDULE.

1. In these conditions the term "Minister" means the Minister of Marine as defined by the Shipping and Seamen Act, 1908, and includes any officer, person, or authority acting by or under the direction of such Minister.

2. The concessions and privileges conferred by this Order in Council shall extend and apply only to the part of the foreshore and land below low-water mark adjacent thereto, necessary for the erection of the said wharf, as shown on the plan marked M.D. 4052.

3. All persons shall, at all reasonable times, upon payment of the proper dues, have free and full liberty to use the said wharf, and all rights of ingress and egress thereon and therefrom.

4. His Majesty or the Governor, and all officers in the Government service acting in the execution of their duty, shall at all times have free ingress, passage, and egress into, through, and out of the said wharf without payment.

5. The Council shall maintain the above-mentioned wharf in good order and repair; and shall at all times exhibit from the wharf and maintain at its own cost suitable and necessary lights for the guidance of vessels; provided that no light shall be exhibited until after it has been approved of by the Minister.

6. Any person authorized by the Minister may, at all reasonable times, enter upon the said wharf and view the state of repair thereof; and upon such Minister leaving at or posting to the last known address of the Council in New Zealand a notice in writing of any defect or want of repair in such wharf, requiring it within a reasonable time, to be therein prescribed, to repair the same, it shall with all convenient speed cause such defect to be removed or such repairs to be made.

7. Nothing herein contained shall authorize the Council to do or cause to be done anything repugnant to or inconsistent with any law relating to the Customs, or any regulation of the Minister of Customs, or with any provisions of the Harbours Act, 1908, or its amendments, or any regulations made thereunder, and that are now or may hereafter be in force.

8. The ballast of all vessels loading at the said wharf shall be taken away by the Council and deposited above high-water mark, or at such place as may be approved of by the Minister, or by any person appointed by the Minister for that purpose.

9. The rights, powers, and privileges conferred by or under this Order in Council shall continue to be in force for fourteen years from the date thereof, unless in the meantime such rights, powers, and privileges shall be altered, modified, or revoked by competent authority; and the Council shall not assign, charge, or part with any such right, power, or privilege without the previous written consent of the Minister first obtained.

10. The said rights, powers, and privileges may be at any time resumed by the Governor, without payment of any compensation whatever, on giving to the Council three calendar months' previous notice in writing. Any such notice shall be sufficient if given by the Minister, and delivered at or posted to the last known address of the Council in New Zealand.

11. The Council shall be liable for any injury which the said wharf may cause any vessel or boat to sustain through any default or neglect on its part.

12. In case the Council shall—

- (1.) Commit or suffer a breach of the conditions hereinbefore set forth, or any of them; or
- (2.) Cease to use or occupy the said wharf for a period of thirty days,—

then and in either of the said cases this Order in Council, and every right, power, or privilege, may be revoked and determined by the Governor in Council without any notice to the Council or other proceedings whatsoever; and publication in the *New Zealand Gazette* of an Order in Council containing such revocation shall be sufficient notice to the Council, and to all persons concerned or interested, that this Order in Council, and the license, rights, and privileges thereby granted and conferred, have been revoked and determined.

13. The erection of the said wharf shall be sufficient evidence of the acceptance by the Council of the terms and conditions of this Order in Council.

Making Rules under the Administration Act, 1908.

LIVERPOOL, Governor.

ORDER IN COUNCIL.

At the Government Buildings, at Wellington, this seventh day of June, 1913.

Present :

THE HONOURABLE W. F. MASSEY PRESIDING IN COUNCIL.

IN pursuance and exercise of the powers and authorities conferred by the fortieth section of the Administration Act, 1908, His Excellency the Governor of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council thereof, and with the concurrence of Their Honours the Judges of the Supreme Court of the said Dominion, doth hereby make the rules contained in the Schedule hereto; and doth declare that the said rules set out in the said Schedule shall come into force and take effect as and from the first day of August, one thousand nine hundred and thirteen.

SCHEDULE.

1. EVERY application to the Court under the provisions of the 20th section of the Administration Act, 1908, for the allowance to the executors, administrators, or trustees of the estate of any deceased person of a commission or percentage shall be made by petition in the form numbered 1 in the Schedule hereto.

2. Every such petition shall set forth the date of the death of the deceased person, and the date of the grant of probate of the will or letters of administration of the estate of such deceased person to the petitioners.

If the petitioners are executors or trustees of the will of the deceased person, a copy of such will, duly verified by affidavit, must be lodged in support of the application.

3. Every such petition shall set forth the name, postal address, and occupation of every person who is or may be affected by such application, and shall show whether such persons are of full age or not. If any of such persons is an infant, the petition must also set forth the names, postal addresses, and occupations of his or her parents and guardians, or of some person or persons standing to such infant *in loco parentis*.

4. Every such petition shall be supported by full and detailed accounts showing clearly the gross amounts realized from the sale, calling-in, and collection of the estate of the deceased person, and all disbursements made and liabilities incurred in connection therewith, and all other information necessary to show clearly the result of the administration of such estate. Where auctioneers, commission agents, brokers, or other agents or servants have been employed in the sale, getting-in, collection, or administration of the estate of the deceased person or of any part of it, it shall not be sufficient for the petitioners to bring into account the net moneys which have been paid over to the petitioners by such auctioneers, commission agents, brokers, or other agents or servants, but the whole of the gross sums received by such auctioneers, commission agents, brokers, or other agents or servants so employed must be brought into account as moneys received by the petitioners, and the sums (if any) deducted by such auctioneers, commission agents, brokers, or other agents or servants from the gross sums so received by them must be shown upon the face of the accounts as disbursements made by the petitioners.

5. Every such petition shall, in addition to the accounts mentioned in the last paragraph, be supported by a statement in writing of the petitioners in the form numbered 2 of the Schedule hereto, so far as the same is applicable to the circumstances of the particular case.

6. In order to enable the Court to ascertain how much of the work connected with the realization, getting-in, and collection of the estate of the deceased person, and the collection of the rents and profits thereof, has been done by the petitioners personally, every such account must be supported by the solicitor's bills of costs, auctioneers' and agents' bills, and all other vouchers for every item of disbursement appearing in such account. Such vouchers must be duly verified by affidavit in the form numbered 3 of the Schedule hereto.

7. Every such petition must aver that the petitioners have not, nor has either or any of them, nor has any partner, relative, or servant of the petitioners, or either or any of them, either directly or indirectly derived any profit, benefit, or advantage from or in connection with the realization or administration of the estate of the deceased person; or if any such profit, benefit, or advantage has been derived by the petitioners, or either or any of them, or by any such person as is hereinbefore mentioned, then such petition shall set forth the full particulars thereof.

8. Every such petition must set forth explicitly the amount which the petitioners pray to be allowed to them out of the estate of the deceased person as a commission or percentage for their pains or trouble, and must show the basis or principle by which the same is arrived at.

9. Every such petition may, at the option of the petitioners, contain such further details as the petitioners may consider necessary or desirable to enable the Court to judge as to the amount of the pains and trouble to which they have been put or which they have incurred.

10. The allegations of fact contained in every such petition, and the accounts and statement required by Rules 4 and 5, must be verified by affidavit of each of the petitioners; but as to any allegation of fact to which the petitioners or any of them shall be unable personally to depose, it shall be sufficient if the petitioners shall as to such allegation depose that they are informed and verily believe that it is true and correct in every particular. As to every such allegation to which none of the petitioners can personally depose, the affidavit of some other person or persons who can personally depose to the truth thereof must be filed in support of the petition. An affidavit of the petitioners verifying the petition generally is insufficient for the purposes of this rule, and shall not be accepted.

11. Subject to the provisions of rules numbered 13 and 14, notice of every application under these rules must be served by the petitioners upon every person who is or may be affected by such application. Such notice shall be in the form numbered 4 in the Schedule hereto. With every such notice there shall be served a copy of the petition and of all accounts, statements, and affidavits required by these rules to be filed in support thereof (but not of the vouchers required by Rule No. 6). Such copy, petition, accounts, statement, and affidavits shall for the purposes of these rules be deemed to be part of such notice.

12. The period to elapse after such notice has been served shall be the same as if the proceeding were by writ to be served upon the persons to whom such notice is required to be given.

13. If any of the persons to whom such notice is required to be given is an infant, such notice shall be given to such infant or to his or her parents or guardians, or to such other person as the Court may appoint upon an *ex parte* application made by the petitioners for such purpose shall direct.

14. The Court may, at its discretion, and subject to such conditions (if any) as it shall think fit, and upon a prior *ex parte* application by the petitioners for such purpose, dispense with notice to any person or persons beyond the Dominion.

15. Notice to the Court upon a prior application made by the petitioners *ex parte* for that purpose shall allow some other mode of service, service of all notices required by these rules shall be effected in the like manner as the service of a writ; but the Court may, if it shall so think fit, allow such service to be effected by registered letter or in any manner which the Court may consider sufficient.

16. Any person whose interests are or may be affected by any application made under these rules, or, if such person is a minor, any parent or guardian of any such person, may file affidavits in opposition to such application, and, if such person so desires, shall be heard in person or by counsel in opposition thereto.

17. Unless upon the hearing of such application the Court shall be satisfied that the petitioners are not entitled to any commission or percentage out of the assets of the deceased person, the Court shall refer such application to the Registrar for inquiry and report.

18. The Court may upon the hearing of such application, if requested so to do by any person whose interests are or may be affected by such application, or if any such person is an infant or is absent from the Dominion, then of its own motion, direct that a solicitor to be named by the Court shall attend the proceedings on such application on behalf of the persons whose interests are or may be so affected; and may further direct that the costs and charges of such solicitor shall be paid by the petitioners out of the assets of the deceased person, and shall be allowed to them as a disbursement on the final passing of their accounts.

19. Notice of the Registrar's appointment to proceed with the inquiry directed by Rule No. 16 shall be served upon all such persons, and in like manner and for the like period, before such inquiry as in the circumstances of the particular case notice of the hearing of the petition has been required to be served under the foregoing rules.

20. All persons whose interests are or may be affected by the application shall be entitled to be present, and be heard, and to call witnesses upon the inquiry by the Registrar, and either in person or by solicitor or agent.

21. The evidence of witnesses called on the inquiry before the Registrar shall be taken down in writing by the Registrar

and signed by each such witness, and shall accompany the Registrar's report to the Court.

22. Costs at the rate of 2d. for every folio of seventy-two words for all copies of petitions, notices, accounts, and affidavits required by these rules to be served by the petitioners, and all Court fees in connection with proceedings under these rules, shall be allowed to the petitioners out of the assets of the deceased person if any sum is allowed to them by the Court under their petition as commission or percentage out of the assets of the deceased person, but otherwise no costs of or in connection with any such petition shall be allowed to the petitioners except in special circumstances and by special order of the Court.

23. The forms contained in the Schedule hereto are obligatory, and shall be varied only in so far as the exigencies of the particular case may require.

24. The Court or a Judge thereof, upon motion made before or after the filing of the petition, and upon sufficient grounds, may by order dispense with the observance of all or any of the foregoing rules. Such motion, if made before the filing of the petition, may in the first instance be made *ex parte*, but the Court or Judge may require notice thereof to be given to such person or persons and in such manner as the Court or Judge shall direct.

Now, therefore, the Commissioner, in pursuance and exercise of the said authority, and with the approval of the Governor in Council, doth hereby make the following amendments and additions to the Regulations made under the said Act on the 31st day of March, 1913, and published in the *New Zealand Gazette* of the 1st day of April, 1913, and doth hereby order that the Regulations hereby made shall be read as part of the said principal Regulations, and shall, except where specially mentioned, come into force on the day of the gazetting hereof.

ADDITIONAL REGULATIONS.

8A. EVERY officer shall perform public duty beyond the usual hours when required; but in special cases the Commissioner may, on the application of the Permanent Head, authorize special payment for such extra service. This regulation shall be deemed to have been in force on and from the 1st day of April, 1913.

53A. The Permanent Head may at any time grant an officer leave of absence without pay for any period not exceeding one month if in his opinion there are special circumstances justifying such a course. The grant of such leave shall be reported to the Commissioner. Where more than one month's leave is desired, application shall be made through the Permanent Head to the Commissioner.

Regulation No. 110 of the principal Regulations is revoked, and the following regulation substituted in lieu thereof:—

110. The allowance shall be for each day of twenty-four hours. For any portion of a day the rate shall be one twenty-fourth of the full daily rate for each hour's absence: Provided that, when the absence does not exceed six hours, actual and reasonable expenses only shall be paid. In all cases the day shall be deemed to commence immediately after midnight.

130A. In the case of a new appointment the Commissioner may allow such sum as in his opinion is reasonable to cover the cost of conveyance of the officer to his destination.

A certificate from the Permanent Head that the officer has been so employed, and that there is sufficient machine-work to justify his being so employed, shall be required in each case.

SCHOOL FOR THE DEAF, NEAR SUMNER,
CHRISTCHURCH.

UNDER THE CONTROL AND SUPERVISION OF THE EDUCATION DEPARTMENT.

FOR Deaf Children of sound intellect. The pupils are taught to understand and use ordinary speech. The full charge for board and education is £40 a year, but less is accepted from parents who cannot afford to pay this amount. In case of necessity admission is free.

By the Education Act it is compulsory for deaf children to come under instruction at the age of six, and to continue until the age of twenty-one unless the Education Department previously grants exemption. Though a child is, as a rule, best fitted to begin the school course at the age of six, advice should be obtained as soon as any sign of deafness is observed.

The following classes of deaf children are admitted:—

1. Children born deaf, or who have lost their hearing before learning to speak.
2. Children who can hear a little, but are too deaf to be taught in a public school.
3. Children who have lost their hearing after having learned to speak.

Parents and other persons acquainted with such cases above the age of four are invited to communicate with the Director, or with

THE SECRETARY FOR EDUCATION,
Wellington.
