And whereas it is found that portion of the land taken by a Proclamation made under the Public Works Act, 1905, dated the sixteenth day of March, one thousand nine hundred and seven (hereinafter termed "the said Proclamation"), and published in the *New Zealand Gazette* No. 26, pages 971 and 972, of the twenty-first day of the same month, is not now required for the purpose for which it was taken :

At the Government House, at Wellington, this twentieth day of October, 1913.

Present:

HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

WHEREAS the Governor, by Order in Council dated the twenty-ninth day of July, one thousand nine hundred and twelve, and published in the *New Zealand Gazette* of the first day of August, one thousand nine hundred and twelve, did declare the Auckland Industrial, Agricultural, and Mining Exhibition, 1913, to be an exhibition within the meaning of the Exhibitions Act, 1910:

Now, therefore, in pursuance and exercise of the powers in this behalf conferred upon him by the said Act, His Excellency the Governor of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby order and declare that the provisions of the Customs Law Act, 1908, and of the Immigration Restriction Act, 1908, are modified, suspended, altered, or negatived, and that the duties of Customs imposed by the Customs Duties Act, 1908, are remitted or reduced, to the extent and subject to the conditions mentioned in this Order, that is to say,—

MODIFICATION OF THE CUSTOMS LAW ACT, 1908, AND DUTIES OF CUSTOMS.

1. Goods imported from places outside of New Zealand for exhibition in the Auckland Industrial, Agricultural, and Mining Exhibition, 1913, shall be received into and delivered from the Exhibition Buildings known as the Exhibition Bond on conditions prescribed by this Order.
2. Warehousing entries for such goods shall be presented and duplicate invoices containing the detailed descriptions and values thereof shall be produced. These invoices will be stamped by the Customs, and one copy will be returned to the exhibitor and the other retained by the Customs.
3. Such goods shall be unpacked only in the presence of or by permission of the Customs officers.
4. Duty shall be deposited on such goods intended for sale before they are either exhibited or sold.
5. Jewellery and other valuable goods intended for exhibition, and not for sale, may be exhibited in show cases, secured under Customs seal.
6. At the close of the Exhibition all dutiable goods shall be packed in the presence of a Customs officer, who shall require all goods entered for the Bond to be accounted for.
7. The Customs officers will be present simply as revenue officers, and will not be in any way responsible for the goods stored in the Exhibition buildings.
8. No bonded-warehouse duty shall be chargeable upon the Exhibition Bond.
9. The Collector of Customs at Auckland may allow goods imported for the purposes of the Exhibition to be cleared without payment of duty in any of the following cases, that is to say:—

- (a.) Pictures, statuary, and works of art exhibited at the Exhibition and subsequently purchased by any public institution (meaning thereby any public institution or art association registered as a corporate body, or any public school, college, or university) for display in the buildings of such institution, and not to be sold or otherwise disposed of by such institution:
- (b.) Samples of small value distributed free of charge within the Exhibition buildings or grounds by exhibitors:
- (c.) Handbills, circulars, posters, show-cards, calendars, postcards, and other advertising matter and articles relating to exhibits from beyond New Zealand and distributed or displayed free of charge within the Exhibition buildings or grounds:
- (d.) Stationery *bona fide* used in the Exhibition buildings or grounds by exhibitors in connection with their exhibits.

10. Where any picture, statuary, or work of art exhibited at the Exhibition is subsequently purchased by any person and duty is payable thereon, the Collector may assess the value for duty at one-half the price paid by the purchaser, and in such case the duty shall be payable accordingly.

11. Where show-cases, stands, fittings, or materials imported for the purpose of the Exhibition and used in the Exhibition buildings or grounds by any exhibitor are sold, removed, or disposed of for use or consumption in New Zealand, the Collector shall assess them at a fair value for duty after making allowance for depreciation in value through use, and the duties of Customs shall be paid on them in accordance with such assessment, which shall be final.

12. Where an exhibitor's goods are destroyed or injured in the process of judging by juries of awards, the Collector may remit the whole or any part of the duty payable thereon:

Provided that where the whole of the duty on any such goods is remitted the goods shall be abandoned to the Crown under the next succeeding clause hereof.

13. (1.) In lieu of paying duty on any article (whether an exhibit, or any stand, fitting, show-case, or material used by him for the purposes of his exhibits) the exhibitor may abandon the article to the Crown on giving the Collector three days' previous notice of abandonment and delivering the article to such person as the Collector appoints.

(2.) All articles so abandoned shall be sold by auction at such times and in such manner as the Collector directs, and the net proceeds of the sale (less expenses of and in-

cidental to the sale) shall be paid into the Public Account as part of the Consolidated Fund.

(3.) If in the opinion of the Collector the abandoned article is not worth selling as aforesaid it shall be destroyed, or otherwise disposed of as the Minister of Customs directs.

14. If by any fraud, misrepresentation, or deceit any person obtains or attempts to obtain in respect of any goods any concession of duty under this Order to which he is not properly entitled, he shall be liable to the penalties provided in that behalf by the Customs Law Act, 1908, and the Acts incorporated therewith, and in addition thereto the full duty shall be payable and the goods shall be liable to forfeiture.

15. Before granting any concessions of duty under any of the foregoing provisions in that behalf, the Collector must be satisfied by declaration of some responsible and reputable person, and by such other evidence as he thinks fit to require, that the case comes properly within such provision and that the concession should be made.

16. All declarations and certificates required by the Collector shall be in such form as he prescribes, and shall be deemed to be made under the Customs Law Act, 1908, and the Acts incorporated therewith.

MODIFICATION OF IMMIGRATION RESTRICTION ACT, 1908.

17. The provisions of the Immigration Restriction Act, 1908, are hereby suspended in the case of persons who desire to enter New Zealand as visitors to or exhibitors at the Auckland Industrial, Agricultural, and Mining Exhibition, 1913, and who comply with the following conditions:—

- (a.) The person claiming to enter New Zealand under this Order shall, on or before landing, make and deliver to the Collector at the port of landing a declaration in such one of the forms in the Schedule hereto as is applicable:

19. No person shall be entitled to enter New Zealand under this Order after the 28th day of February, 1914.

LIVERPOOL, Governor.

ORDER IN COUNCIL.

At the Government House, at Wellington, this twentieth day of October, 1913.

Present:

HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

WHEREAS it is enacted by section fifty of the Shipping and Seamen Amendment Act, 1909, that the Governor may from time to time by Order in Council make regulations requiring ships registered in New Zealand, and carrying passengers, to be provided with apparatus for transmitting messages by means of wireless telegraphy, and may by such regulations prescribe fines not exceeding fifty pounds for any breach thereof by the owner or master of a ship: And whereas it is desirable to make such regulations:

Now, therefore, His Excellency the Governor of the Dominion of New Zealand, in exercise of the hereinbefore-recited power and authority, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby make the following regulations, and doth hereby order that they shall come into force on the first day of July one thousand nine hundred and fourteen:

Provided that, if in his opinion the circumstances justify it the Minister of Marine may exempt any steamship from the operation of these regulations, and may limit the time for which any such exemption shall be in force.

REGULATIONS.

1. EVERY steamship registered in New Zealand, and carrying passengers, which is engaged in the foreign or intercolonial trade, except steamships trading to the Chatham, Auckland, Campbell, and Antipodes Islands, and every home-trade steamship which is authorized by her ordinary survey certificate to carry not less than 150 passengers at sea, shall not leave or attempt to leave any port in New Zealand unless such steamship is equipped with an efficient apparatus for radio communication in good working-order, to be operated by a person skilled in the use of such apparatus, which apparatus shall be capable of transmitting and receiving messages over a distance of at least one hundred miles, day or night.

2. Ships required by these regulations to carry the apparatus prescribed above shall be placed in the third-class as defined by Article XIII of the Detailed Service Regulations appended to the International Radio-telegraph Convention, 1912—that is, they are not bound to perform any regular listening service.

3. The Minister of Marine may appoint Inspectors for the purposes of these regulations, and such Inspectors and Superintendents of Mercantile Marine may visit any steamship required by these regulations to be equipped with apparatus

for radio communication before they leave port, and ascertain if they are equipped with such apparatus the operation of which shall be carried out by a telegraphist holding a certificate as prescribed by Article X of the Detached Service Regulations attached to the International Radio-telegraphic Convention.

4. Where a passenger steamship subject to these regulations is without the apparatus and the operator prescribed, and is about to attempt to leave port, an Inspector or Superintendent shall—

- (a.) Notify the master of the fine to which he will be liable, and of the particulars in respect of which the law has not been complied with;
- (b.) Notify at once the Collector of Customs, who may thereupon withhold the vessel's clearance until the requirements of these regulations are complied with;
- (c.) Prepare a report in writing of his action and transmit it to the Collector of Customs, who shall forward a copy to the Secretary of the Marine Department.

5. An Inspector or Superintendent may, at any time before a vessel subject to these regulations leaves port, require the master to give him a certificate, in the form set forth in the Appendix hereto, that the wireless apparatus of his ship is efficient and in good working-order, and the master shall give such certificate before the vessel leaves port.

6. The power necessary to transmit signals shall at all times, while the vessel is under way, be available for the wireless operator's use.

7. Subject to the above regulations, the installation and operation of the apparatus required by them to be fitted shall be in conformity with the requirements of the Post and Telegraph Act, 1908, and its amendments, and the regulations made thereunder.

8. Any master or owner of a steamship committing a breach of these regulations is liable to a fine not exceeding £50.

UNION CONVENTION OF PARIS ON MARCH 20, 1883, FOR THE PROTECTION OF INDUSTRIAL PROPERTY.

REVISED AT BRUSSELS ON DECEMBER 14, 1900,
AND AT WASHINGTON ON JUNE 2, 1911.

Article I.

The Contracting Countries constitute themselves into a Union for the protection of Industrial Property.

Article II.

The subjects or citizens of each of the Contracting Countries shall, in all the other countries of the Union, as regards patents, utility models, industrial designs or models, trade-marks and trade-names, indications of origin, and the suppression of unfair competition, enjoy the advantages that their respective laws now grant or may hereafter grant to their own subjects or citizens. Consequently they shall have the same protection as the latter, and the same legal remedy against any infringement of their rights, provided they observe the conditions and formalities imposed on native subjects or citizens. No obligation as to the possession of a domicile or establishment in the country where protection is claimed shall be imposed on those who enjoy the benefits of the Union.

Article III.

Subjects or citizens of countries not forming part of the Union who are domiciled or have real and effective industrial or commercial establishments in the territory of any of the countries of the Union shall be assimilated to the subjects or citizens of the Contracting Countries.

Article IV.

(a.) Any person who has duly applied for a patent, the registration of a utility model, industrial design or model, or trade-mark in one of the Contracting Countries, or his legal representative or assignee, shall enjoy for the purposes of registration in other countries, and reserving the rights of third parties, a right of priority during the periods hereinafter stated.

(b.) Consequently, subsequent registration in any of the other countries of the Union before the expiration of these periods shall not be invalidated through any acts accomplished in the interval, either, for instance, by another registration, by publication of the invention or by the working of it by a third party, by the sale of copies of the design or model, or by use of the trade-mark.

(c.) The above-mentioned periods of priority shall be twelve months for patents and utility models, and four months for industrial designs and models and trade-marks.

(d.) Any person desiring to take advantage of the priority of a previous application must make a declaration giving particulars as to the date of such application and the country in which it was made. Each country will determine for itself the latest date at which such declaration must be made. The particulars referred to shall be stated in the publications issued by the competent authority and in particular in the patents issued, and the specifications relating thereto. The Contracting Countries may require any person making a declaration of priority to produce a copy of the application (with the specification, drawings, &c.) previously made, certified as correct by the authority by whom it was received. Such copies shall not require any legal authentication. They may also require that the declaration shall be accompanied by a certificate from the proper authority showing the date of the application, and also by a translation. No other formalities may be required for the declaration of priority at the time of application. Each of the Contracting Countries shall decide for itself what consequences shall follow the omission of the formalities prescribed by the present Article, but such consequences shall in no case be more serious than the loss of the right of priority.

(e.) At later stages further proof in support of the application may be required.

Article IV (bis).

Patents applied for in the various Contracting Countries by persons admitted to the benefits of the Convention in the terms of Articles II and III shall be independent of the patents obtained for the same invention in the other countries whether such countries be or be not parties to the Union.

This stipulation must receive a strict interpretation; in particular, it shall be understood to mean that patents applied for during the period of priority are independent, both as regards the grounds for refusal and for revocation, and also as regards their normal duration.

The stipulation shall apply to all patents already existing at the time when it shall come into effect.

The same stipulation shall apply in the case of the accession of new countries, to patents in existence, either on one side or the other, at the time of accession.

Article V.

The introduction by the patentee into the country where the patent has been granted of objects manufactured in any of the countries of the Union shall not entail forfeiture.

Nevertheless, the patentee shall remain bound to work his patent in conformity with the laws of the country into which he introduces the patented objects, but with this reservation: that the patent shall not be liable to revocation on account of failure to work it in any country of the Union until after the expiration of three years from the date of application in that country, and then only in cases where the patentee cannot show reasonable cause for his inaction.

Article VI.

Every trade-mark duly registered in the country of origin shall be admitted for registration and protected in the form originally registered in the other countries of the Union.

Nevertheless, the following marks may be refused or cancelled:—

(1.) Those which are of such a nature as to prejudice rights acquired by third parties in the country in which protection is applied for.

(2.) Those which have no distinctive character, or which consist exclusively of signs or indications which serve in trade to designate the kind, quality, quantity, destination, value, place of origin, or date of production, or which have become customary in the current language, or in the *bona fide* and unquestioned usages of the trade, of the country in which protection is sought.

In arriving at a decision as to the distinctiveness of the character of a mark all the circumstances of the case must be taken into account, and in particular the length of time that such a mark has been in use.

(3.) Those which are contrary to morality or public order.

That country shall be deemed the country of origin where the applicant has his chief seat of business.

If this chief seat of business is not situated in one of the countries of the Union, the country to which the applicant belongs shall be deemed the country of origin.

Article VII.

The nature of the goods on which the trade-mark is to be used can, in no case, form an obstacle to the registration of the trade-mark.

Article VII (bis).

The Contracting Countries undertake to allow the registration of and to protect trade-marks belonging to associations the existence of which is not contrary to the law of the country of origin, even if such associations do not possess an industrial or commercial establishment.

Nevertheless, each country shall be the sole judge of the particular conditions on which an association may be allowed to obtain protection for its marks.

Article VIII.

A trade-name shall be protected in all the countries of the Union without necessity of registration, whether it form part or not of a trade-mark.

Article IX.

All goods illegally bearing a trade-mark or trade-name shall be seized on importation into those countries of the Union where this mark or name has a right to legal protection.

If the law of any country does not admit of seizure on importation, such seizure shall be replaced by prohibition of importation.

Seizure shall be effected equally in the country where the mark or name was illegally applied, or in the country to which the article bearing it may have been imported.

The seizure shall take place at the request either of the proper Government Department or of any other competent authority, or of any interested party, whether individual or society, in conformity with the domestic law of each country.

The authorities are not bound to effect the seizure of goods in transit.

If the law of any country does not admit either of seizure upon importation, of prohibition of importation, or of seizure within the country, these measures shall be replaced by the remedies assured in such case to natives by the law of such country.

Article X.

The stipulations of the preceding Article shall be applicable to every production which may falsely bear as indication of origin the name of a specified locality, when such indication shall be joined to a trade-name of a fictitious character or used with intent to defraud.

Any producer, manufacturer, or trader engaged in the production, manufacture, or trade of such goods, and established either in the locality falsely designated as the place of origin or in the district where the locality is situated, is to be deemed a party concerned.

Article X (bis).

All the Contracting Countries undertake to assure to those who enjoy the benefits of the Convention effective protection against unfair trade competition.

Article XI.

The Contracting Countries shall, in conformity with the legislation of each country, accord temporary protection to patentable inventions, to utility models, and to industrial designs or models, as well as to trade-marks, in respect of products which shall be exhibited at official or officially recognized international exhibitions held in the territory of one of them.

Article XII.

Each of the Contracting Countries agrees to establish a special Government Department for industrial property, and a central office for communication to the public of patents, utility models, industrial designs or models, and trade-marks.

This Department shall, as far as possible, publish an official periodical paper.

Article XIII.

The International Office, established at Berne under the name "Bureau International pour la Protection de la Propriété Industrielle," is placed under the high authority of the Government of the Swiss Confederation, which is to regulate its organization and supervise its working.

The International Office will centralize information of every kind relating to the protection of Industrial Property, and will bring it together in the form of a general statistical statement, which will be distributed to all the Administrations. It will interest itself in all matters of common utility to the Union, and will edit, with the help of the documents supplied to it by the various Administrations, a periodical paper in the French language, dealing with questions regarding the object of the Union.

The numbers of this paper, as well as all the documents published by the International Office, will be circulated among the Administrations of the countries of the Union in the proportion of the number of contributing units as mentioned below. Such further copies as may be desired, either by the said Administrations or by societies or private persons, will be paid for separately.

The International Office shall at all times hold itself at the service of members of the Union in order to supply them with any special information they may need on questions relating to the international system of Industrial Property. It will furnish an annual report on its working, which shall be communicated to all the members of the Union.

The official language of the International Office will be French.

The expenses of the International Office will be borne by the Contracting Countries in common. In no case may they exceed the sum of 60,000 francs per annum.

To determine the part which each country should contribute to this total of expenses, the Contracting Countries, and those which may afterwards join the Union, shall be divided into six classes, each contributing in the proportion of a certain number of units, namely:—

1st class	25 units.
2nd "	20 "
3rd "	15 "
4th "	10 "
5th "	5 "
6th "	3 "

These coefficients will be multiplied by the number of countries in each class, and the sum of the result thus obtained will supply the number of units by which the total expense has to be divided. The quotient will give the amount of the unit of expense.

Each of the Contracting Countries shall designate at the time of its adherence the class in which it wishes to be placed.

The Government of the Swiss Confederation will superintend the expenses of the International Office, advance the necessary funds, and render an annual account, which will be communicated to all the other Administrations.

Article XIV.

The present Convention shall be submitted to periodical revisions with a view to the introduction of amendments calculated to improve the system of the Union.

For this purpose Conferences shall be held successively in one of the Contracting Countries between the delegates of the said countries.

The Administration of the country in which the Conference is to be held will make preparation for the transaction of that Conference with the assistance of the International Office.

The Director of the International Office will be present at the meetings of the Conferences, and will take part in the discussions, but without the privilege of voting.

Article XV.

It is agreed that the Contracting Countries respectively reserve to themselves the right to make separately as between themselves special arrangements for the protection of Industrial Property in so far as such arrangements do not contravene the provisions of the present Convention.

Article XVI.

Countries which are not parties to the present Convention shall be allowed to accede to it upon their request.

The accession shall be notified through the diplomatic channel to the Government of the Swiss Confederation, and by the latter to all the other countries.

It shall entail, as a matter of right, accession to all the clauses, as well as admission to all the advantages stipulated in the present Convention, and shall take effect one month after the despatch of the notification by the Government of the Swiss Confederation to the other countries of the Union, unless a subsequent date has been indicated by the acceding country.

Article XVI (bis).

The Contracting Countries have the right of acceding to the present Convention at any time on behalf of their Colonies, Possessions, Dependencies, and Protectorates, or of any of them.

For this purpose they may either make a general declaration including all their Colonies, Possessions, Dependencies, and Protectorates in the accession, or may expressly name those included, or may confine themselves to indicating those which are excluded therefrom.

This declaration shall be notified in writing to the Government of the Swiss Confederation, and by the latter to all the other countries.

Under the same conditions the Contracting Countries may denounce the Convention on behalf of their Colonies, Possessions, Dependencies, and Protectorates, or of any of them.

Article XVII.

The execution of the reciprocal engagements contained in the present Convention is subordinated, in so far as necessary, to the observance of the formalities and rules established by the Constitutional laws of those of the Contracting Countries, who are bound to procure the application of the same, which they engage to do with as little delay as possible.

Article XVII (bis).

The Convention shall remain in force for an unlimited time, till the expiry of one year from the date of its denunciation.

This denunciation shall be addressed to the Government of the Swiss Confederation. It shall only affect the denouncing country, the Convention remaining in operation as regards the other Contracting Countries.

Article XVIII.

The present Act shall be ratified, and the ratifications deposited at Washington not later than April 1, 1913. It shall come into force, as between the countries which ratify it, one month after the expiration of that period.

This Act, with its Final Protocol, shall replace as regards relations between the countries who ratify it: the Convention of Paris of March 20, 1883; the Final Protocol annexed to that Act; the Protocol of Madrid of April 15, 1891, regarding the endowment of the International Office; and the Additional Act of Brussels of December 14, 1900. The above-mentioned Acts shall, however, remain in force as regards relations with countries which have not ratified the present Act.

Article XIX.

The present Act shall be signed in a single copy, which shall be deposited in the archives of the Government of the United States. A copy, certified as correct, shall be forwarded by the latter to each of the Governments of the Union.

In witness whereof the respective Plenipotentiaries have signed the present Act.

Done at Washington in a single copy, the 2nd June, 1911.

FINAL PROTOCOL.

On proceeding to the signature of the Act concluded this day, the undersigned Plenipotentiaries have agreed as follows:—

To Article I.

The words "Industrial Property" are to be taken in their broadest sense: they extend to all productions of the agricultural industries (wines, corn, fruits, cattle, &c.) and of the mining industries (minerals, mineral waters, &c.).

To Article II.

(a.) Under the word "patents" are comprised the various kinds of industrial patents recognized by the legislation of each of the Contracting Countries, such as importation patents, improvement patents, &c., whether for processes or for products.

(b.) It is understood that the provision of Article II which exempts the subjects or citizens of the Union Countries from the obligation as to the possession of a domicile and establishment is of the nature of an interpretation, and is consequently to apply to all rights resulting from the Convention of March 20, 1883, before the present Act comes into operation.

(c.) It is understood that the provision of Article II does not affect the legislation of each of the Contracting Countries as regards the procedure to be followed before the Tribunals and the competence of those Tribunals, as well as provisions as to the election of domicile or appointment of an authorized agent which may be laid down in laws as to patents, utility models, trade-marks, &c.

To Article IV.

It is understood that when an industrial design or model is registered in a country in virtue of a right of priority based on the registration of a utility model, the period of priority shall not exceed that fixed by Article IV for industrial designs and models.

To Article VI.

It is understood that the provision of the first paragraph of Article VI does not exclude the right of requiring from the person registering the mark a certificate proving due registration in the country of origin, issued by the competent authority.

It is understood that the use of public armorial bearings, insignia, or decorations, unless authorized by the competent authorities, or the use of official hall-marks or signs indicating an official warranty which may be adopted by a Union Country, may be regarded as contrary to public order in the sense of No. 3 of Article VI.

Marks containing a reproduction of public armorial bearings, decorations, or insignia with the authorization of the competent authorities shall not, however, be considered as contrary to public order.

It is understood that a mark cannot be considered as contrary to public order solely on the ground that it does not conform to some provision of the Trade-marks Laws, unless such provision itself relates to public order.

The present Final Protocol, which shall be ratified at the same time as the Act concluded on this day, shall be considered as forming an integral part of and shall have the same force, validity, and duration as the said Act.

In witness whereof the respective Plenipotentiaries have signed this Protocol.

Done at Washington in a single copy, June 2, 1911.

**ARRANGEMENT OF MADRID OF APRIL 14, 1891,
FOR THE PREVENTION OF FALSE INDICATIONS OF ORIGIN ON GOODS.**

AS REVISED AT WASHINGTON ON JUNE 2, 1911,
BETWEEN BRAZIL, CUBA, SPAIN, FRANCE, GREAT
BRITAIN, PORTUGAL, SWITZERLAND, AND TUNIS.

The undersigned, duly authorized by their respective Governments, have drawn up in common accord the following text, which shall be substituted for the Arrangement signed at Madrid on April 14, 1891, that is to say,—

Article I.

All goods bearing a false indication of origin in which one of the Contracting Countries, or a place situated therein, shall be directly or indirectly indicated as being the country or place of origin shall be seized on importation into any of the said countries.

The seizure shall also take place either in the country where the false indication of origin has been applied, or in that into which the goods bearing the false indication may have been imported.

If the law of any country does not permit seizure on importation, such seizure shall be replaced by prohibition of importation.

If the law of any country does not permit seizure in the interior, such seizure shall be replaced by the remedies assured in such case to natives by the law of such country.

Article II.

The seizure shall take place at the request either of the proper Government Department, or of any competent authority, such, for example, as the Customs Administration, or of an interested party, whether individual or society, in conformity with the domestic law of each country.

The authorities are not bound to effect the seizure of goods in transit.

Article III.

The present stipulations are not intended to prevent the vendor from indicating his name or address upon goods coming from a country other than that where the sale takes place; but in such case the address or the name must be accompanied by a clear indication in legible characters of the country or place of manufacture or production.

Article IV.

The Tribunals of each country will decide what appellations, on account of their generic character, do not fall within the provisions of the present Arrangement, regional appellations concerning the origin of products of the vine being, however, not comprised in the reserve specified by the present Article.

Article V.

Countries which are parties to the Union for the Protection of Industrial Property and who have not adhered to the present Arrangement shall be allowed to accede on demand in the manner prescribed by Article XVI of the General Convention.

Article VI.

The present Arrangement shall be ratified, and the ratifications shall be deposited at Washington not later than April 1, 1913.

It shall come into force one month after the expiration of this period, and shall have the same force and duration as the General Convention.

In witness whereof the respective Plenipotentiaries have signed the present Arrangement.

Done at Washington in a single copy, the 2nd June, 1911.

Section 50—Half-share in 42 chains of subdivisional drain on western and northern boundaries, and also full share in 10 chains of drain on southern boundary.

GENERAL DESCRIPTION.

All the sections are situated at the edge of the foot-hills lying to the west of the Piako River. The road access is from Morrinsville Railway-station, distant about twenty-four miles by the Morrinsville-Waitakaruru Road, which is formed for dray traffic for the whole distance. The Waikaka Tramway Road, which is at the present time under construction,

leads to the Piako River, one mile and thirty chains from the eastern boundary of the block. At this point on the river there is a wharf, to which launches from Thames (about twenty-three miles down the river) deliver goods at regular intervals. The road to Waitakaruru, twenty miles from the Waikaka Tramway Road, is formed for dray traffic for about eight miles, after which there is a riding-track for about four miles, the balance being formed dray-road. The gap of four miles of unformed road is at the present time under construction, and the major part will probably be completed during the year.

The land consists of partially drained swamp land and several dry spurs. The spurs are situated along the Morrinsville-Waitakaruru Road, and have a light soil, resting on a clay subsoil. Adjacent to the spurs are several rich alluvial flats, which are covered with cabbage-trees, manuka, and flax; but the majority of the sections consist of good and inferior peaty swamp, varying in depth at the present time from a few inches to several feet, and resting on timber and a clay subsoil. The sections are all situated above flood-level, and average from 10 ft. to 80 ft. above sea-level.

Sections 31 and 32 are covered with flax, rushes, and small manuka, the formation being rich peat on Section 31 and inferior on the frontage of Section 32. Sections 33 to 36 and 23 to 30 are covered with flax, manuka, kamaka, cabbage-trees, and scrub, the soil being of a rich peaty nature, resting on a clay subsoil on timber. On Sections 33, 34, and 35 there is a small patch of kahikatea and pukatea bush. The frontage to the Patetonga Road of Sections 37 to 41 is good, consisting of shallow peat, resting on clay and timber, whilst the back of these sections runs into deeper peat country. The vegetation on these sections consists of flax, raupo rushes, and scrub. Sections 42 to 50 are of excellent quality, the frontages to the Patetonga Road being all shallow peaty soil, resting on a clay subsoil and timber. Further back the country is alluvial, whilst the frontage to the main Morrinsville Road consists of several low-lying easy spurs, covered with fern and manuka, the soil being light, on a clay subsoil. With the exception of Sections 46 and 50, all the sections have a small area of kahikatea and pukatea bush, the balance of the sections, except the spurs, being covered with manuka, flax, cabbage-trees, makaka, and rushes.

All the necessary main drains and roads to sections have either been constructed or are under construction, and the same applies to all necessary bridges and culverts. There are main outlet drains along each road, whilst in addition there are two large outlet drains, one being situated on the reserve along northern boundary of Section 37, and the other along the southern boundary of Section 41. In addition there is a small drain along the southern boundaries of Sections 42 and 43 and 44 and 45; also along the western and southern boundaries of Section 50. It is intended to construct drains on the southern boundaries of Sections 38 and 40.

The Waikaka Outlet Drain, on the reserve between Sections 36, 31, 32, and 37, carries good water from the Waikaka Stream all the year round; consequently a good supply of water can be obtained for stock. In addition, good water can also be obtained from the subdivisional drain on the southern boundary of Section 50, as this drain taps a creek rising in the hills.

At Waikaka there is a store and post-office, known as Patetonga, which has telegraphic communication with Thames over a private line. The nearest school and creamery is at Tahuna, some eight miles distant by formed road. A village (to be known as Patetonga) is now being laid out in the vicinity of the lands to be offered, and in due course will be put up for public auction. Creamery and school sites are laid off in this vicinity.

SPECIAL CONDITIONS.

The lands are offered for selection subject to the following special conditions:—

- (1) Sections must be ring-fenced by the successful applicants before stocking, and all drains made by the Department securely fenced off, so as to prevent damage to drains or road by stock. The right is reserved to at any time enter and make and deepen drains through any section without payment of compensation.
- (2) The successful applicant for any section shall himself maintain all boundary, catchment, or surface drains within his section; but the Department will maintain all road-drains or drains that its officers may deem to be outlets or portions thereof until such time as the maintenance rating clauses of the Hauraki Plains Act come into force.
- (3) The Department reserves the right from time to time to take any timber necessary for culverts, tram-lines, &c., from any section, and also to take any manuka, &c., for fascines.

Full particulars may be ascertained and plans obtained at this office.

GENERAL DESCRIPTION.

The settlement was formerly the property of Matthew Henry, Esq., and is situated about five miles from Waitoa Railway-station, on the Morrinsville—Te Aroha line. The access to every section on the estate is by formed road from this station, and the general quality of the land is first class. The average height above sea-level is about 40 ft. The soil throughout is rich loam, resting on a clay formation, and all the sections are surface-watered. In most cases the boundaries are either fenced or are formed by drains. The land on the western side of the estate is mostly surface-sown, and is rather low-lying, but a new drain is now being cut through this part by the Department, and this will effectually remove any surplus water. There is a large outfall drain on the eastern side of the estate, which gives a good outlet for all drains on that side. A creamery has just been erected on the north-west corner of the estate by the Te Aroha Co-operative Dairy Company, which operates largely throughout the surrounding district.

Full particulars may be ascertained and plans obtained at this office.

Commissioner of Crown Lands.

- The respective lots shall be offered by public auction on the dates specified.
- The bidder of the highest rent shall be declared to be the lessee, and if any dispute arises as to the last or highest bid at any auction for any lot the lot in dispute shall be put up again at the last preceding bid.
- The highest bidder for any lot shall upon the fall of the hammer pay to the auctioneer the first half-year's rent in advance by way of deposit, which shall represent the half-year's rent as from the 1st January, 1914, and shall also deposit the sum of £1 for the lease fee.
- The second half-year's rent shall become payable on the 1st July, 1914, and thenceforth the rent shall be paid half-yearly in advance.

- The lease will provide for renewal from time to time for successive periods, not exceeding in each case twenty-one years, at rentals to be fixed by valuation or by arbitration; and it will also provide for payment by the incoming tenant for improvements made by the outgoing tenant, the value of such improvements to be ascertained by arbitration.
- In cases where any of the allotments are subject to the payment of the value of the improvements by the provisions of an expiring lease or otherwise, such value shall be paid at the same time and in the same manner as the deposit heretofore mentioned, unless some other arrangement is assented to in writing by the outgoing lessee or person interested.

SCHOOL FOR THE DEAF, NEAR SUMNER,
CHRISTCHURCH.

UNDER THE CONTROL AND SUPERVISION OF THE EDUCATION DEPARTMENT.

Director: MR. J. E. STEVENS.

FOR Deaf Children of sound intellect. The pupils are taught to understand and use ordinary speech. The full charge for board and education is £40 a year, but less is accepted from parents who cannot afford to pay this amount. In case of necessity admission is free.

By the Education Act it is compulsory for deaf children to come under instruction at the age of six, and to continue until the age of twenty-one unless the Education Department previously grants exemption. Though a child is, as a rule, best fitted to begin the school course at the age of six, advice should be obtained as soon as any sign of deafness is observed.

The following classes of deaf children are admitted to the School for the Deaf (sound intellect being always a necessity):—

1. Children born deaf, or who have lost their hearing before learning to speak.
2. Children who can hear a little, but are too deaf to be taught in a public school.
3. Children who have lost their hearing after having learned to speak.

The Act imposes upon every parent, teacher of a school (either public or private), constable, or officer of a charitable or kindred institution who is aware of the place of residence (either temporary or permanent) of a deaf child, and the householder in whose house any such child resides, an obligation to send notification of the fact to the Minister of Education, giving the name, age, and address of the child; and any neglect or failure to comply with this provision involves liability to a fine.

Information and advice may be obtained from the Director or from

THE SECRETARY FOR EDUCATION,
Wellington.
