2. If the Registrar entertains the application he shall advertise it in the *Journal*, and the applicant shall forthwith, after the publication of the first advertisement in the *Journal*, publish in not less than four daily newspapers circulating respectively in the Cities of Auckland, Wellington, Christchurch, and Dunedin an advertisement in the form No. 2 in the Schedule hereto.

3. At any time within two months from the first of such advertisements in the *Journal* any person may give to the Registrar notice of opposition, on the form No. 5 in the Second Schedule to the regulations made under the Patents, Designs, and Trade-marks Act, 1911, and published in the *Gazette* of the 8th June, 1912, at page 1855. A copy of such notice shall forthwith be transmitted by the Registrar to the applicant.

4. Where such notice is given the opponent shall, within fourteen days after leaving the notice, leave at the office of the Registrar one or more statutory declarations in support of his opposition, and shall also deliver to the applicant copies of the said declarations.

5. Upon such declarations being left and delivered as aforesaid the provisions of Regulations 29, 32, and 33 of the regulations hereinbefore referred to shall apply to the case, and the further proceedings in respect of the opposition to the sealing of the patent shall be regulated in accordance with such provisions as if they were herein repeated.

Every patent granted in pursuance hereof shall further provide that, if any person within one year after the date of the actual sealing thereof applies to the Registrar for compensation in respect of money, time, or labour expended by the applicant upon the subject-matter of the patent in the *bona fide* belief that the patent had not and would not be sealed, it shall be lawful for the Registrar, after hearing the parties concerned or their agents, to assess the amount of such compensation if in his opinion the application ought to be granted, and to specify the party or parties by whom and the day on which such compensation shall be paid. If default is made in payment of the sum so awarded, then the said patent shall become void, but the sum awarded shall not in that case be recoverable as a debt or damages.

Notice to Mariners No. 29 of 1914.

NAUTICAL PUBLICATION.

Marine Department,
Wellington, N.Z., 13th March, 1914.

NOTICE is hereby given that the Marine Department has just published a small book entitled "Modern Up-to-date Navigation: Position-finding by the Improved Sumner Method contrasted with the New Navigation (Marcq St. Hilaire System) and the Old 'Sumner' Method, together with a few Special Star Reduction and Azimuth Tables," by H. S. Blackburne, Principal Examiner of Masters and Mates in New Zealand, and Nautical Adviser to the Government. Published by direction of the Hon. the Minister of Marine.

The book contains some nautical tables of great value for ready position-finding from observations of two stars out of the meridian. They also give by simple inspection the true bearing within certain limits of a few bright stars, and the calculated reduction to the meridian up to about an hour or a little over from the meridian, enabling a navigator to determine his latitude and position-line from a single observation of a star, with little more trouble than when the star is on the meridian. The book also contains several fully worked-out examples showing the use of the tables, with some well-executed diagrams illustrating the problems; the different methods of determining the ship's position by the "Old Sumner Method," the "Improved Sumner Method," and the "New Navigation Method" are contrasted, and the author clearly exposes some of the fallacious claims which have been made by one or two recent writers for the so-called "New Navigation," or "Marcq St. Hilaire" system of dealing with observations for position-finding.

The book is sold in New Zealand at the shipping offices and Customhouses, and by nautical-book sellers. Price, 1s. 6d.

Aden.—*Storm-warning Signals established.*

Position.—At flagstaff on Ras Marbut (Steamer Point). Lat. 12° 47 $\frac{1}{4}$ ' N., long. 44° 58 $\frac{1}{2}$ ' E.

I. Cautionary Signal.—The square flag W of the International Code, hoisted as a cautionary signal, indicates the existence of disturbed weather off some part of the west coast of India or in the neighbourhood of the port, or the advance of a cyclonic storm across the Indian Peninsula from the Bay of Bengal, which may hence shortly cross the Western Ghats of India, and give squally or stormy weather in the Arabian Sea. The disturbed conditions may, in any of these cases, pass away without giving stormy cyclonic weather to the ports on the west coast of India or to the adjacent parts of the Arabian Sea, in which case the cautionary signal will be taken down as soon as it is certain that stormy weather will not shortly follow.

If, however, the disturbed weather be the first indication of the probable formation or approach of a cyclonic storm, this cautionary signal will be followed by one of the ordinary storm signals, indicating the probable position, character, and track of the approaching storms. This signal would be hoisted if the disturbing conditions were thought likely to affect either Aden or the tracks of vessels leaving Aden.

II. Warning-signal.—The warning-signal—viz., a ball by day and a *red* light by night—will be hoisted (a) when a storm has formed and is threatening to advance towards Aden, though still at a considerable distance; or (b) when a storm has formed and is not likely to affect Aden, but to cross the tracks of vessels leaving Aden.

III. Danger-signals.—(1.) By day a cone, apex downwards, or by night a red light vertically above a white light, indicates that a cyclonic storm (probably of slight to moderate intensity) may affect the port, and that its centre will probably pass considerably to the southward of the port in a westerly direction.

(2.) By day a cone, apex upwards, and by night a red light vertically below a white light, indicates that a cyclonic storm (probably of slight to moderate intensity) may affect the port, and that its centre will probably cross considerably to the north-east of Aden.

(3.) By day a drum, and by night two red lights in a vertical line, indicates that a cyclonic storm (probably of slight to moderate intensity) will probably cross the coast over or near the port.

No contract for purchase shall be voidable, nor shall the licensee be entitled to any abatement in price, by reason of the said timber being of less quantity, quality, and kind than as stated herein; nor shall any extra sum be claimed by the Crown if for any reason the quantity of timber is found to be in excess of that stated herein.

3. The successful bidder shall purchase the whole of the timber, and shall, on the fall of the hammer, pay in cash a deposit of one-half of the amount bid, together with £1 ls. license fee, and shall also deposit a promissory note for the balance, payable on demand, and endorsed by two persons to be approved by the Commissioner; such promissory note shall bear interest at the rate of 5 per centum per annum as from date of sale in accordance with clause 86 of the regulations. 5. The timber shall be cut in a face, and the Crown reserves the right of following up the mill-workings by felling and grassing such areas as from time to time will have been cleared of milling-timber or of disposing of the land. Sufficient timber shall be left for fencing and general farming purposes.

6. The licensee shall not put, throw, or place, or allow to be put, thrown, or placed, into any river, stream, or watercourse, or into any place where it may be washed into any river, stream, or watercourse, any sawdust or other sawmill refuse.

7. In the event of the above not being disposed of, applications may be received and dealt with at any time within six months from the above date of sale (unless previously formally withdrawn), provided, however, that the amount offered is not less than the upset price stated herein.

SCHOOL FOR THE DEAF, NEAR SUMNER, CHRISTCHURCH.

UNDER THE CONTROL AND SUPERVISION OF THE EDUCATION DEPARTMENT.

Director: MR. J. E. STEVENS.

FOR Deaf Children of sound intellect. The pupils are taught to understand and use ordinary speech. The full charge for board and education is £40 a year, but less is accepted from parents who cannot afford to pay this amount. In case of necessity admission is free.

By the Education Act it is compulsory for deaf children to come under instruction at the age of six, and to continue until the age of twenty-one unless the Education Department previously grants exemption. Though a child is, as a rule, best fitted to begin the school course at the age of six, advice should be obtained as soon as any sign of deafness is observed.

The following classes of deaf children are admitted to the School for the Deaf (sound intellect being always a necessity):—

1. Children born deaf, or who have lost their hearing before learning to speak.
2. Children who can hear a little, but are too deaf to be taught in a public school.
3. Children who have lost their hearing after having learned to speak.

The Act imposes upon every parent, teacher of a school (either public or private), constable, or officer of a charitable or kindred institution who is aware of the place of residence (either temporary or permanent) of a deaf child, and the householder in whose house any such child resides, an obligation to send notification of the fact to the Minister of Education, giving the name, age, and address of the child; and any neglect or failure to comply with this provision involves liability to a fine.

Information and advice may be obtained from the Director, or from

THE SECRETARY FOR EDUCATION,
Wellington.
