W. FRASER,
Minister of Public Works.

GOD SAVE THE KING!

Authorizing the Heathcote County Council to erect Electric Lines in the Cashmere and St. Martin's Ridings.

LIVERPOOL, Governor.

ORDER IN COUNCIL.

At the Government House at Wellington, this tenth day of August, 1914.

Present:

HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

WHEREAS by section two of the Public Works Amendment Act, 1911, it is provided that no person shall lay, construct, put up, place, or use any electric line except under the authority of a license issued to him by the Governor in Council under that Act:

And whereas the Heathcote County Council (hereinafter referred to as "the Council") desires to erect electric lines in the Heathcote County within the area indicated by a distinctive green border on P.W.D. 35361 (hereinafter referred to as "the area of supply"), and it is expedient accordingly to issue a license in respect thereof under the said section:

Now, therefore, in pursuance and exercise of the powers conferred on him by the said section, and of all other powers in anywise enabling him in this behalf, His Excellency the Governor of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth, subject to the conditions set forth in the Schedule hereto, hereby authorize the Council to erect and maintain, for lighting, heating, and power purposes within the said area of supply, the electric lines indicated by red and blue lines on the plan marked P.W.D. 35361, deposited in the office of the Minister of Public Works at Wellington, in the Wellington Provincial District, and such further lines as may from time to time be required within the said area of supply.

SCHEDULE.

CONDITIONS.

 - "Consumer's wires" means any electric lines on the consumer's premises which are connected with the Council's electric lines.
 - "Council" means the Heathcote County Council.
 - "Distribution line or lines" means that portion of the system to which service wires are connected for the purpose of supplying consumers.
 - "Earthed" applied to any conductor means that such conductor shall be so connected to the general mass of earth as to ensure at all times an immediate and safe discharge to earth of electric energy.
 - "Electric line" means any wire, wires, conductor, or other means used for conveying, transmitting, or distributing electricity for power, lighting, or heating purposes, and includes any instrument, insulator, casing, tubing, pipe, covering, or post enclosing or supporting an electric line or anything connected therewith.
 - "Electric telegraph line" means any wire, wires, cables, or supports belonging to the Post and Telegraph Department, or erected under authority granted by the Minister of Telegraphs.
 - "High pressure" means pressures over 600 volts and up to 3,300 volts.

"Inspecting Engineer" means the Engineer or other officer appointed by the Minister for the purpose of inspecting the works to be constructed or maintained under this license.

"Low pressure" means pressures up to 600 volts.

"Minister" means the Minister of Public Works.

"Pressure" means difference of electric potential between any two conductors through which supply of energy is given, or between any part of either conductor and the earth.

"Street" includes road.

"Telegraph" includes telephone.

SYSTEM OF SUPPLY.

2. Electrical energy shall be generated at a pressure not exceeding 460 volts direct current for distribution on the three-wire system with 460 volts between the two outers and 230 volts between each outer and the neutral.

Three-phase alternating current shall also be received from the Lake Coleridge supply at a pressure not exceeding 2,200 volts. This shall be stepped down by transformers to 400 volts between phases and 230 volts between each phase and the neutral for distribution on the three-phase four-wire system.

The supply to private consumers for lighting purposes shall be at a pressure not exceeding 230 volts.

CAPACITY OF APPARATUS.

3. All apparatus and conductors for all pressures shall be sufficient in size and power for the work they are called upon to do, and so constructed, installed, protected, worked, and maintained as to prevent danger as far as is reasonably practicable.

NEUTRAL TO BE EARTHED.

4. The connection with earth of the neutral conductor of the three-phase system shall be made at one point only on each distinct circuit, namely, at the generating-station, substation, or transformer, and the insulation of the circuit shall be efficiently maintained at all other parts.

In the case of direct current, the current from the intermediate conductor to earth shall be continuously recorded by means of a low-reading ammeter, reading to a maximum of 5 amperes.

In all cases a link switch shall be provided for disconnecting the earth connection for testing.

No fuse shall be employed in the neutral wire of either system.

The earth shall not be used as a return in place of a neutral wire.

DISTRIBUTION.

5. The distribution may be carried out either by underground or overhead conductors. Provided that, if at any time it is deemed by the Minister to be detrimental to the public safety for the conductors or any particular class of conductors to be overhead, such conductors shall, on receipt of notification to that effect from the Minister, and within ten months of such notification, be laid underground, and all consequent and necessary alterations made by and at the expense of the Council.

REGULATION OF PRESSURE.

6. The pressure shall be maintained within 4 per cent. on lighting-distributing circuits above or below the declared pressure at the consumers' terminals. The licensee shall supply a suitable recording voltmeter for this service, and on complaint by any consumer that the variations in voltage exceed these limits, or on the instructions of the Inspecting Engineer, the Council shall connect a recording voltmeter to record the pressure between the lines at their entrance to the consumers' premises, and shall supply to the Inspecting Engineer a chart showing the variations in voltage between the lines at this point for a period of seven consecutive days. If the variations thus recorded exceed the above limits, the Council shall take immediate steps to comply with this regulation. If after thirty days a similar chart shows that the above limits of variation in voltage are not complied with, a breach of these regulations shall be deemed to have been committed. If the accuracy of the Council's recording voltmeter is questioned by the consumer, a standard instrument shall be supplied by the Inspecting Engineer, the reading of which shall be accepted as final.

SWITCHBOARDS.

7. All switchboards shall be made of and mounted on material that is not inflammable, and the maximum permissible current in any switchboard conductor or conductor

leading thereto shall not exceed the values permitted under the rules of the Institution of Electrical Engineers. No conductor at a pressure above 600 volts shall be exposed on the front of any switchboard, and the back of any switchboard carrying exposed conductors at a pressure over 600 volts shall be screened off and accessible only to authorized persons.

CIRCUIT-BREAKERS.

8. All outgoing feeders and distributors from any generating station or substation shall be provided with automatic circuit-breakers or fuses set to open at 50 per cent. excess current over the rated full load of such feeder or distributor, with a time-limit not exceeding ten seconds.

OVERHEAD ELECTRIC LINES.

9. The diameter of any conductor in any electric line laid or erected for the supply of electrical energy shall not be less than 0.104 inches diameter (No. 12 S.W.G. or 7/20 S.W.G.). If the material of the conductor is aluminium the conductor shall be stranded.

The stress in overhead conductors shall not exceed 25,000 lb. per square inch for copper, 12,000 lb. per square inch for aluminium, 34,000 lb. per square inch for steel, and 22,500 lb. per square inch for iron in the extreme case of a temperature of 32° Fahr. and a wind-pressure of 18 lb. per square foot of diametrical plane occurring simultaneously. The span between supports and the sag shall be determined to conform with the above limiting stresses.

No overhead electric lines shall come within 2 ft. of any other aerial wires or cables, except where it may be permitted to pass either set of wires between other wires at a pole or support.

Electric lines carried on poles shall be at least 18 ft. from the ground, and not less than 5 ft. measured horizontally nor 7 ft. measured vertically from any part of any building or erection other than a support for the wire, except where led to transformers or brought into a building for the purpose of supply.

Electric lines at low pressure shall be insulated throughout with double jute braiding impregnated with waterproof compound; provided that, where circumstances permit, the lines may, with the consent of the Minister, be bare.

Electric lines at high pressure shall be covered with vulcanized rubber of at least 600-megohms grade; provided that where circumstances permit the lines may, with the consent of the Minister, be bare.

Earthed neutrals may in all cases be bare.

SUPPORTS FOR OVERHEAD ELECTRIC LINES.

10. All overhead electric lines at low pressure shall be carried at a minimum height of 18 ft. above the ground.

All overhead lines at high pressure shall be carried at a minimum height of 20 ft. above the ground.

At road crossings the foregoing minimum heights shall be increased in each case by 2 ft.

All aerial wires shall be attached to suitable insulators carried on cross-arms of suitable material and cross-section, and they shall be so attached to the insulators or guarded that they cannot fall from the support. Conductors covered with insulating material shall be so attached that their insulation shall not be impaired where they are secured to the insulator.

Every support for an aerial line shall be of durable material, and properly strengthened against forces due to wind-pressure, change of direction of line, and unequal length of span. The factor of safety of such supports shall be such that the moment resulting from a wind-pressure of 30 lb. per square foot of plane surface and 18 lb. per square foot of diametrical plane upon a cylindrical surface upon the lines and supports shall not exceed one-half of the applied moment which is sufficient to cripple the support if of iron, steel, or ferro-concrete, and shall not exceed one-fourth of the breaking-stress in the case of wood.

The distance between supports shall not exceed 200 ft., except by approval of the Minister.

LOCATION OF OVERHEAD LINES.

11. Except by permission of the Minister of Telegraphs, or subject to an agreement between the Post and Telegraph Department and the licensee, all overhead electric lines shall be placed on the opposite side of the street to that on which any telegraph lines exist; and where the erection of the electric lines necessitates the alteration of any telegraph lines, and such alteration is approved by the Minister of Telegraphs, the cost of the alteration shall be borne by the Council.

In running the lines authorized by this license through or along any street where no telegraph line exists the Council shall keep to one side of the street, and in running service

wires to the opposite side of the street the Council shall arrange so as to interfere as little as possible with the route of any future telegraph lines.

RAILWAY CROSSINGS.

12. No work of any nature shall be erected or constructed upon, over, or under any part of the New Zealand Government railways until the Council has obtained the consent of the Minister of Railways thereto, as required by section 4 of the Government Railways Amendment Act, 1910 (No. 2).

PROTECTION OF POST AND TELEGRAPH LINES.

13. At telegraph crossings the electric lines shall pass over or under the telegraph wires or cables as may be decided by the Minister of Telegraphs, and shall be at least 2 ft. distant. Where it is impracticable to cross above or below, the electric lines may be taken through; but when permitted to be taken through, the crossing shall be made at a pole in manner to be approved by the Minister of Telegraphs.

Where the electric lines intersect telegraph lines, the latter shall be suitably insulated if deemed necessary; and when the crossing is above and near a pole the spans on each side of the pole may also be insulated.

Where high-pressure electric lines intersect telegraph lines the former shall be insulated with not less than 600-megohms grade of vulcanized rubber, and the low-pressure wires with weather-proofed insulation as prescribed in clause 9.

Where deemed necessary efficient guard-wires, effectively earthed, shall be erected in a manner to meet with the approval of the Minister of Telegraphs at all crossings or places where electric lines intersect telegraph lines, or at any place where such protection may be considered necessary.

The cost of all necessary guard-wires and special provisions required to comply with this clause, or deemed to be necessary as a protection to telegraph or telephone wires generally, shall be borne by the Council in all cases where the telegraph lines are erected before the electric lines. In other cases the Council, on receipt of notice from the local Telegraph Engineer of the Telegraph Department that it is proposed to run a telegraph line along the route, shall forthwith make the necessary changes required to comply with this clause at any points at which electric lines already cross such routes.

Earth-wires where led down poles shall be encased for a distance of 8 ft. from the ground, and a test shall be made of all earths once every three months, or oftener if required, to ensure that the earth-wire is intact and that the earth is effective.

The permission to place electric light and power wires on the Telegraph Department's poles shall be restricted as far as possible, and in no case shall such wires be attached to the Telegraph Department's poles without the approval of the Minister of Telegraphs being first obtained.

ELECTRIC LINES ON TELEGRAPH POLES.

14. Where electric lines are permitted to be supported on telegraph poles all details of the supports and of the insulation shall be approved by the Minister of Telegraphs, who may, on giving to the Council reasonable notice in that behalf, require the Council to remove such electric lines at any time from such telegraph poles, and without payment of any compensation to the Council.

LINE NOT IN COMMISSION.

15. An aerial line shall not be permitted to remain erected after it has ceased to be used for the supply of energy unless the Council intends within a reasonable time to again take it into use.

ANGLE OF CROSSING THOROUGHFARES.

16. Where an aerial line crosses a street the angle between the line and the direction of the street at the place of crossing shall not be less than 60 degrees, and the span shall be as short as possible.

LINE CROSSING METALLIC SUBSTANCES.

17. Where an aerial line crosses or is in proximity to any metallic substance precautions shall be taken by the Council against the possibility of the line coming into contact with the metallic substance by breakage or otherwise.

SERVICE CONNECTIONS FACILITIES.

18. Where electric lines are on one side of the road and electric telegraph lines on the other, and service is required to be given from either to the other side of the road, the Council and the Minister of Telegraphs shall give to each other reasonable facilities as far as possible to effect supply.

SERVICE CONNECTIONS FROM AERIAL LINES.

19. Service lines shall be taken direct from line-insulators to insulators supported and firmly attached to some portion

of the consumer's premises which is not accessible to any person without the use of a ladder or other special appliance. Every portion of any service line which is outside a building and is within 7 ft. of any part of the building shall be rubber-insulated.

MAINTENANCE.

20. Every aerial line, including its supports, its conductors, and their insulating covering, and all structural parts and electrical appliances and devices belonging to or connected with the line, shall be duly and efficiently maintained as regards both electrical and mechanical conditions.

TRANSFORMERS.

21. Where high-pressure transformers are attached to poles they shall be placed so as to be inaccessible except by the use of a ladder or other special appliance. Where high-pressure transformers are placed in sub-stations, all high-tension conductors shall be thoroughly insulated or protected from accidental contact; and the sub-station shall be entirely inaccessible to unauthorized persons. Where high-tension transformers are placed on consumers' premises, the whole of the apparatus shall be enclosed or rendered inaccessible except to authorized persons. The cases of all transformers shall be earthed by means of a copper conductor at least 0.022 square inch in section.

LIGHTNING-ARRESTERS.

22. Where any portion of any electric line or support for an electric line is exposed to such a position as to be liable to injury from lightning, it shall be efficiently protected against such liability.

UNDERGROUND CONDUCTORS.

23. Underground conductors shall be thoroughly insulated, and shall be protected from mechanical damage by steel armouring or by wooden boxing or earthenware, stoneware, concrete, iron, or fibre conduits or pipes. They shall be laid wherever possible under the footpaths and with a cover of at least 12 in. from the surface of the pavement. Where laid under any other part of the street such cover shall be increased to 2 ft.

All conduits, pipes, casings, and street boxes used as receptacles for electric lines shall be constructed of durable material, and they shall be of ample strength to prevent damage from heavy traffic, and reasonable means shall be taken to prevent the accumulation of gas in such receptacles.

Where any underground line crosses or is in proximity to any metallic substance, special precaution shall be taken against the possibility of any electrical charging of the metallic substance from the line or from any metallic conduit pipe or casing enclosing the line.

EARTHING CONDUITS.

24. All metallic conduits, pipes, or casings containing an electric line shall be efficiently earthed, and shall be so jointed and connected across all street boxes and other openings as to make good electrical contact throughout their whole length.

STREET BOXES.

25. The covers of street cable-boxes shall be so secured that they cannot be opened except by means of a special appliance. Street boxes shall be either filled solid with cable compound or oil, or if not so filled shall be inspected from time to time for the presence of gas, and suitable action shall be taken to check its influx and accumulation.

INSULATION OF ELECTRIC MAINS.

26. Every main, either overhead or underground, shall be tested for insulation after having been placed in position and before it is used for the purposes of supply, the testing pressures being at least 500 volts; and the Council shall duly record the results of the tests of each main or section of a main, and forthwith forward a report thereon to the Resident Engineer of the Public Works Department at Christchurch.

The insulation of every complete circuit used for the supply of energy, including all machinery, apparatus, and devices forming part of or in connection with such circuit, shall be so maintained that the leakage current shall not under any conditions exceed one-thousandth part of the maximum supply current. Every leakage shall be remedied without delay. Every such circuit shall be tested for insulation at least once in every month, and the Council shall duly record the results of the tests.

SERVICE CONNECTIONS.

27. The Council shall be responsible for all electric lines or wires, fittings, and apparatus belonging to it or under its control, which may be upon a consumer's premises, being maintained in a safe condition and in all respects fit for supplying energy.

In delivering the energy to a consumer's terminals the Council shall exercise all due precautions so as to avoid risk of causing fire on the premises.

A suitable safety-fuse or other automatic circuit-breaker shall be inserted in each service line within a consumer's premises as close as possible to the point of entry, and contained within a suitable locked or sealed receptacle of fire-proof construction.

All electric wires and apparatus on a consumer's premises, except such parts as require to be earthed, shall be highly insulated and suitable for the voltage at which the supply is given. They shall be thoroughly protected against injury to the insulation or access of moisture. All electric wires shall be so fixed and protected as to prevent the possibility of electrical discharge to any adjacent metallic substance.

The maximum permissible current in any conductor shall not exceed the values permitted under the rules of the Institution of Electrical Engineers.

SUPPLY TO CONSUMERS.

28. The owner or occupier of any premises within the area of supply included in the license shall be entitled to a supply of electrical energy on the following conditions:—

(a.) If such premises are situated within 60 ft. of the building-line of any street on which an electric distribution-line belonging to the licensee exists, the service shall be made free of cost.

(b.) If such premises are more than 60 ft. distant from the building-line of such street, the Council shall run the necessary service mains for a distance of 60 ft. free of charge, and the consumer shall pay the cost of the service wires for the balance of the distance.

(c.) If the plant or mains of the Council are insufficient to supply the applicant with electrical energy the service may, with the consent of the Minister, be postponed for a period not exceeding twelve months. Otherwise service shall be made within twenty-eight days of application.

(d.) Every consumer within any part of the area included in the license shall be entitled to a supply of electrical energy on the same terms on which any other consumer in such part of the area is entitled under similar circumstances to a corresponding supply.

(e.) If the nature of the proposed consumption of energy by any applicant is such as is likely to seriously interfere with the maintenance of a constant pressure on the lines in accordance with clause 6, the Council may, with the approval of the Minister, require the consumer to install such apparatus as shall enable the conditions of clause 6 to be complied with.

(f.) The Council may require services to be wired or installed by competent tradesmen, but no preference shall be given to services wired or installed by any individual contractor or firm of contractors.

(g.) If payment by the consumer is delayed more than thirty days after the date of rendering a correct account, the supply of electricity to such premises may be cut off without notice, and need not be restored until all arrears are paid.

INSTALLATION ON CONSUMER'S PREMISES.

29. The Council shall not connect the wires and fittings on a consumer's premises with its mains, or in the case of premises already connected continue the supply from its mains, unless it is reasonably satisfied that the requirements of this license are complied with, that the wiring and fittings are suitable for the voltage at which supply is given, that the installation is generally in accordance with the requirements of good practice, and that the connection or continuance of supply would not cause a leakage from those wires exceeding one ten-thousandth part of the maximum supply current to the premises.

For the purposes of satisfying itself that the requirements of this license are being observed, in so far as they apply to wires on a consumer's premises, the Council may require that notice must be served upon it of the intention to install wires, fittings, lamps, motors, or other apparatus on any such premises, and may inspect and test the same during any reasonable hours while the installation of such is in progress.

TESTING CONSUMER'S INSTALLATION.

30. If the Council is reasonably satisfied, after making all proper examination on the completion of the installation, by testing or otherwise, that the wiring and fittings are not suitable for the voltage being employed, or that a leakage exists at some part of a circuit of such extent as to be a source of danger, and that such leakage does not exist at any part of the circuit belonging to the Council, or that any other requirements of this license are not being complied with, then and in such case any officer of the Council, duly authorized by it in writing, may, for the purpose of discovering whether the leakage exists at any part of a circuit within or upon any consumer's premises, or whether the wiring is suitable and the general requirements of the license are com-

plied with, by notice require the consumer, at some reasonable time after the service of a notice, to permit him to inspect and test the wires and fittings belonging to the consumer forming part of the circuit.

If on such testing and inspection the officer discovers a leakage from the consumer's wires exceeding one ten-thousandth part of the maximum supply current to the premises, or that the requirements of this license are not properly conformed to, or if the consumer does not give all due facilities for inspecting and testing, the Council shall either not commence the supply or shall forthwith discontinue the supply of energy to the premises in question, giving immediate notice to the consumer of its reasons for not commencing or for discontinuing the supply, and in either case supply shall not be given until the Council is reasonably satisfied that the installation is in conformity with the requirements of this license.

If any consumer is dissatisfied with the action of the Council in refusing to give, or in discontinuing, or in not recommencing the supply of energy to his premises, the wires and fittings of that consumer may, on his application to the Minister and on payment of the cost, be inspected and tested by the Inspecting Engineer. This provision shall be endorsed on every notice given under the provisions of either of the two last paragraphs.

NOTICE OF COMPLETION.

31. The Council shall, prior to the completion of the said works, or any separate portion thereof, give to the Minister at least one month's notice in writing of the estimated date of such completion.

CONTINUITY OF SUPPLY.

32. From and after the time when the Council commences to supply energy in pursuance of this license, it shall maintain continuously, during the period of the day for which it has agreed with any consumer to supply energy, sufficient power for the use of all such consumers for the time being entitled to be supplied; provided also that, for any purposes connected with the efficient working of the undertaking, the Minister may give permission to the Council to discontinue the supply at such intervals of time and for such periods as he may think expedient. When the supply is so discontinued public notice shall be given, when practicable, of such discontinuance and of the probable duration thereof.

NOTICE OF EXTENSIONS, ETC.

33. Such notice shall be accompanied by a plan showing the location of the proposed electric lines.

INSPECTION OF WORKS.

35. The Minister may at any time order an inspection to be made of the works, lines, and wires of the Council used for electric lighting and power purposes. If any defect is found to exist it must be remedied forthwith, and if such defect is, in the opinion of the Inspecting Engineer, serious the Minister may, on receipt of the report, direct the Council to at once cease transmitting energy either over the whole of the Council's lines and wires or over any specified part thereof until such defect is repaired or remedied. The cost of such inspection shall be borne by the Council.

ASSIGNMENT.

37. This license, and the benefits and obligations hereunder, shall not be assigned by the Council without the express consent in writing of the Governor in Council first had and obtained; but such consent shall not be withheld if it is proved to the satisfaction of the Governor that the transferee is financially and otherwise able to carry out the obligations specified in this license.

38. If the Council fails to comply with any of the conditions of this license the Minister may, by notice in writing, require the Council within thirty days to remedy the default specified in that notice, but it shall not be held to have committed default for any failure to maintain power continuously if such failure is due to the breakdown of machinery or other accident, unless such breakdown or accident is proved to be due to negligence on the part of the Council; and if the Council fails to comply with the terms of the notice within the said period it shall be liable to a penalty of £20, to be recoverable by or on behalf of the Minister as a debt due to the Crown. The recovery of a penalty under this license shall not affect the liability (if any) of the Council to pay or make compensation in respect of any damage or injury which may be caused by reason of the default.

REVOCATION OF LICENSE.

39. Notwithstanding anything in the last preceding clause of these conditions, if the Council fails to comply with the terms of any such notice for ninety days after the receipt thereof, the Governor in Council may thereupon revoke this license without further notice.

Nothing herein contained shall be deemed in any way to interfere with, affect, or abridge any rights or powers vested in His Majesty the King, or in the Governor on his behalf, or the Minister, or any other person under any Act of the General Assembly authorizing the construction, management, or working of any public works. Nor shall His Majesty, or the Governor, or the Minister, or any other person be liable to pay to the Council any compensation for injury done to the works herein authorized by the construction, management, or working of any such public work as aforesaid, or for the loss occasioned thereby, or for the exercise of any such right or power as aforesaid.

3. In consideration of the concessions and privileges granted by this Order in Council the company shall, on being supplied with a copy thereof, pay to the Minister the sum of £2 10s., and thereafter an annual sum of £1 in advance, dating from the date hereof, the first of such annual payments to be made on the company being supplied with a copy of this Order in Council.

4. The rights, powers, and privileges conferred by this Order in Council shall continue in force for fourteen years from the date hereof, unless in the meantime such rights, powers, and privileges shall be altered, modified, or revoked by competent authority; and the company shall not assign, charge, or part with any such right, power, or privilege without the previous written consent of the Minister first obtained.

My LORD,—With reference to my despatch, No. 192, of the 2nd of June, 1911, I have the honour to transmit to Your Excellency, for the information of your Ministers, copies of new regulations respecting foreign orders and medals, which have recently received His Majesty's approval.

I have, &c.,
L. HARCOURT.

Governor His Excellency the Right Hon. the Earl of
Liverpool, K.C.M.G., &c.

A.

REGULATIONS RESPECTING FOREIGN ORDERS AND MEDALS APPLICABLE TO PERSONS IN THE SERVICE OF THE CROWN.

Orders.

1. It is the King's wish that no subject of His Majesty in the Service of the Crown shall accept and wear the Insignia of any Foreign Order without having previously obtained His Majesty's permission to do so, signified either:

- (a.) By Warrant under the Royal Sign-Manual, or
- (b.) By private permission conveyed through His Majesty's Private Secretary.

2. Permission given by Warrant under the Royal Sign-Manual will enable the Insignia of the Foreign Order to be worn at all times and without any restriction.

Private permission will only enable the Insignia to be worn on the occasions specified in the terms of the letter from the King's Private Secretary conveying the Royal sanction.

3. Full and unrestricted permission by Warrant under the Royal Sign-Manual is contemplated in the following cases:—
For a Decoration conferred—

On an Officer in His Majesty's Naval or Military Forces lent to a Foreign Government; on an Officer in His Majesty's Naval or Military Forces attached by his Government to a Foreign Navy or Army during hostilities; or on any British Official lent to a Foreign Government and not in receipt of any emoluments from British public funds during the period of such loan.

4. Private or restricted permission is contemplated for Decorations which have been conferred in recognition of personal attention to the Head of a Foreign State, and which are therefore of a more or less complimentary character, and will, as a rule, only be given on exceptional occasions when in the public interest and for political reasons it is deemed expedient that the acceptance of a Foreign Decoration should not be declined. Private permission will generally be given in the following cases:—
For a Decoration conferred—

(1.) On British Ambassadors or Ministers abroad when the King pays a State visit to the country to which they are accredited;

(Note.—A State visit is defined as one on which the King is accompanied by a Minister or High Official in attendance.)

(2.) On Members of Deputations of British Regiments to Foreign Heads of States;

(3.) On Members of Special Missions when the King is represented at a Foreign Coronation, Wedding, or Funeral; or on any Diplomatic Representative when specially accredited to represent His Majesty on such occasions; and such Members of his Staff who actually attend the ceremonies in their official capacity;

(4.) On Naval and Military Attachés only after completion of five years' service at the post to which they are appointed in that capacity.

5. Private or restricted permission will not be given to—

- (1.) British Ambassadors or Ministers abroad when leaving;
- (2.) Members of British Missions announcing the Accession of a Sovereign;
- (3.) British Officers attending Foreign Manœuvres;
- (4.) Naval Officers of British Squadrons visiting Foreign Waters.

6. The desire of the Head of a Foreign State to confer upon a British subject in the Service of the Crown the Insignia of an Order must be notified to His Majesty's Principal Secretary of State for Foreign Affairs either through the British Diplo-

matic Representative accredited to the Head of the Foreign State, or through his Diplomatic Representative at the Court of St. James.

7. When His Majesty's Principal Secretary of State for Foreign Affairs shall have taken the King's pleasure on any such application, and shall have obtained His Majesty's permission for the person in whose favour it has been made to wear the Insignia of a Foreign Order, he shall signify the same to His Majesty's Principal Secretary of State for the Home Department, in order that he may cause a Warrant, if it be a case for the issue of a Warrant as defined in Rule 2, to be prepared for the Royal Sign-Manual.

When such Warrant shall have been signed by the King, a notification thereof shall be inserted in the "Gazette," stating the service for which the Foreign Order has been conferred.

Persons in whose favour such Warrants are issued will be required to pay to His Majesty's Principal Secretary of State for the Home Department a stamp duty of 10s.

8. The Warrant signifying His Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms. Every such Warrant as aforesaid shall contain a clause providing that His Majesty's licence and permission does not authorize the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of His Majesty's Realms.

9. When a British subject in the Service of the Crown has received the Royal permission, full or private, to accept and wear the Decoration of a Foreign Order, he will not be allowed to accept and wear the Decoration of a higher class of the same Order without His Majesty's approval, which will only be given if the higher honour is being conferred in circumstances contemplated by these Regulations.

Medals.

10. Medals which constitute a particular class of a Foreign Order are subject in all respects to the Regulations in the same manner as higher grades of the Order, except that permission to wear will be given by Letter and not by Royal Warrant.

11. The King's unrestricted permission to accept and wear a Foreign Medal will only be given in the case of a Foreign Medal conferred by the Head or Government of a Foreign State for saving or attempting to save life at sea or on land.

12. The King's unrestricted permission to accept and wear a Foreign War Medal will only be given to (1) Officers of His Majesty's Military or Naval Forces if serving with a Foreign Army or Navy with His Majesty's licence, and (2) Military or Naval Attachés or other Officers officially attached to Foreign Armies or Navies during hostilities.

13. In exceptional cases, when for special reasons it is deemed expedient that the acceptance of the Medal should not be declined, His Majesty will grant restricted permission. Such cases will be judged on their merits, and the circumstances in which the Medal may be worn will be specified in the Letter conveying His Majesty's permission.

14. The term "person in the Service of the Crown" includes persons in receipt of a salary or pension from Public Funds, or holding a Royal Commission in any part of His Majesty's Dominions, Protectorates, or Possessions.

15. Ladies are subject to the Regulations in all respects in the same manner as men.

Foreign Office, March 10, 1914.

B.

REGULATIONS RESPECTING FOREIGN ORDERS AND MEDALS APPLICABLE TO PERSONS NOT IN THE SERVICE OF THE CROWN.

Orders.

1. It is the King's wish that no subject of His Majesty shall wear the Insignia of any Foreign Order without having previously obtained His Majesty's permission to do so, signified either:

- (a.) By Warrant under the Royal Sign-Manual, or
- (b.) By private permission conveyed through His Majesty's Private Secretary.

2. Permission given by Warrant under the Royal Sign-Manual will enable the Insignia of the Foreign Order to be worn at all times and without any restriction.

Private permission will only enable the Insignia to be worn on the occasions specified in the terms of the letter from the King's Private Secretary conveying the Royal sanction.

3. The full and unrestricted permission by Warrant under the Royal Sign-Manual is designed to meet cases where the Decoration may be said to have been earned by some valuable service rendered to the Head of the State conferring it, or to the State itself. Application will be made to His Majesty for full permission by His Majesty's Principal Secretary of State

for Foreign Affairs on behalf of any person who, not being at the time in the Service of the Crown, is either in the salaried employment of a Foreign State or has rendered valuable services within the period of two years immediately preceding the notification of the Decoration to His Majesty's Government as prescribed under Rule 5.

The expression "valuable services" must be construed as meaning some service rendered to a Foreign Head of State or Government specifically, and must be indisputably valuable in the strict sense of the word. Though such services need not necessarily be gratuitous, as in the case of a person actually in the employ of a Foreign Government, they must be unconnected with any transaction of a commercial or financial character brought about in the ordinary course of business. The term "valuable services" does not therefore, as a general rule, apply to services connected with the fulfilment of Government or Municipal contracts, the financing of Government or Municipal loans. It also does not include Red Cross Services, presentation of objects of value to Public Museums and Institutions, pecuniary donations or endowments, personal performances, services in connection with Exhibitions and Industrial Congresses, services in the domain of art, literature, science, education, and agriculture, services rendered by British subjects in the capacity of honorary foreign Consular Officers.

4. Private or restricted permission is contemplated for Decorations which have been conferred in recognition of personal attention to the Head of a Foreign State or Member of a Reigning House, and which are therefore of a more or less complimentary character. Private permission is as a rule only given on exceptional occasions, when in the public interest and for political reasons it is deemed expedient that the acceptance of a Foreign Declaration should not be declined.

5. Both in the case of full and in that of private permission the matter will be submitted to the King by His Majesty's Principal Secretary of State for Foreign Affairs.

The desire of the Head of a Foreign State to confer upon a British subject the Insignia of an Order, or the fact that he has done so, must be notified to His Majesty's Principal Secretary of State for Foreign Affairs either through the British Diplomatic Representative accredited to the Head of the Foreign State, or through the Diplomatic Representative of the latter at the Court of St. James. His Majesty's Principal Secretary of State for Foreign Affairs shall be under no obligation to consider claims that are not brought to his notice through one of these channels.

6. When His Majesty's Principal Secretary of State for Foreign Affairs shall have taken the King's pleasure on any such application, and shall have obtained His Majesty's permission for the person in whose favour it has been made to wear the Insignia of a Foreign Order, he shall signify the same to His Majesty's Principal Secretary of State for the Home Department, in order that he may cause a Warrant, if it be a case for the issue of a Warrant as defined in Rule 2, to be prepared for the Royal Sign-Manual.

When such Warrant shall have been signed by the King, a notification thereof shall be inserted in the "Gazette," stating the service for which the Foreign Order has been conferred.

Persons in whose favour such Warrants are issued will be required to pay to His Majesty's Principal Secretary of State for the Home Department a stamp duty of 10s.

7. The Warrant signifying His Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms. Every such Warrant as aforesaid shall contain a clause providing that His Majesty's licence and permission does not authorize the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of His Majesty's Realms.

8. When a British subject has received the Royal permission, full or private, to accept and wear the Decoration of a Foreign Order, he will not be allowed to accept the Decoration of a higher class of the same Order without His Majesty's approval. His Majesty will in such cases grant permission only if the promotion in the Order is conferred for fresh services which come within these Regulations.

9. These Regulations apply only to Orders of Chivalry. Decorations conferred by Private Societies and Decorations of a purely academic nature, and all Decorations not being Orders of Chivalry, may be accepted without His Majesty's permission, but must not be worn.

Exception is made in the case of a few Foreign Orders, which, though not in strictness Orders of Chivalry, yet are of such a high distinction that, for the purpose of these Regulations, they are to be considered and treated as Orders of Chivalry.

10. Ladies are subject to the Regulations in all respects in the same manner as men.]

Medals.

11. Medals which constitute a particular class of a Foreign Order are subject in all respects to the Regulations in the same manner as higher grades of the Order, except that permission to wear will be given by Letter and not by Royal Warrant.

12. Medals for saving or attempting to save life at sea or on land conferred on behalf of the Head or Government of a Foreign State may be accepted without His Majesty's special permission, and may be worn at Court.

13. Medals conferred by Private Societies or Institutions and Commemorative Medals may be accepted without permission, but none of these Medals can be worn.

14. The King's permission must be obtained for any other Medal to be worn. No permission is needed to accept a Foreign Medal if it is not intended to be worn.

15. His Majesty will not grant permission to wear any Foreign War Medal if the person on whom it is to be or has been conferred was during the war acting in contravention of the Foreign Enlistment Act.

If these signals are displayed, vessels must proceed to the position marked "Examination Anchorage" on the Admiralty Charts Nos. 1970 Auckland Harbour, 1423 Port Nicholson, 1999 Port Lyttelton, and 2411 Otago Harbour. These anchorages are all clearly marked on the latest Admiralty Charts, and the Auckland and Port Nicholson anchorages are also marked on the plans in the "New Zealand Nautical Almanac" for 1914. They will be found respectively as follows:—

Approaches to Auckland Harbour: Just north of the lighted buoys, and east of Takapuna Head.

Port Nicholson: Off Worsler Bay.

Port Lyttelton: Between Ripa Island and Camp Bay.

Otago Harbour: North of the shoal off Taiaroa Head.

AUCKLAND HARBOUR.—DREDGING.

Marine Department,
Wellington, N.Z., 10th August, 1914.

THE Auckland Harbour Board has notified that the suction dredge No. 1 will commence work in a few days dredging the berths round Nelson Wharf and Hobson Street Reclamation.

In connection with this work a pipe line will leave Julian's Wall at a point 520 ft. from the north-east corner of the reclamation, will slope down until it meets the bottom of the harbour 250 ft. out from the wall, and will then run in an easterly direction towards the Hobson Street Reclamation until it meets the suction dredger.

The diameter of this pipe line is 1 ft. 6 in., and the top of the pipes will therefore be 1 ft. 6 in. above the bottom of the harbour.

Masters of vessels are warned to use great caution when crossing this pipe line, which should be crossed only by vessels of suitable draft at or near high water.

The line of pipes will be marked by two beacons in line on Julian's Wall, and these beacons will be triangular in shape, the eastern or low one white in colour, and the western or high one black in colour.

Charts, &c., affected: Admiralty Chart No. 1970; "New Zealand Pilot," eighth edition, 1908, Chapter ii, page 39.

SUMMARY FOR THE MONTH OF JUNE, 1914.

Although showery conditions were frequent, on the whole the weather was propitious for the season of the year. In both the East Coast districts especially, with the exception of a few short unsettled and squally periods, fair weather was the predominating feature. In consequence, in those parts vegetation has been plentiful, and everything has been favourable to agricultural and pastoral pursuits.

No severe storms were experienced, but numerous depressions of varying intensity passed over or in the neighbourhood of the Dominion. These were mostly of the westerly low-pressure type bringing westerly winds with their approach, and southerlies with the passing of the trough to the eastward. A lagging of the barometric minimum about East Cape after the passage of these depressions was also a factor in causing a prevalence of strong and cold southerly winds during the month.

The total rainfall was below normal in nearly all parts of the Dominion; in the North Island this deficiency averaged about 40 per cent., and in the South Island 26 per cent.

SCHOOL FOR THE DEAF, NEAR SUMNER,
CHRISTCHURCH.UNDER THE CONTROL AND SUPERVISION OF THE EDUCATION
DEPARTMENT.

Director: Mr. J. E. STEVENS.

FOR Deaf Children of sound intellect. The pupils are taught to understand and use ordinary speech. The full charge for board and education is £40 a year, but less is accepted from parents who cannot afford to pay this amount. In case of necessity admission is free.

By the Education Act it is compulsory for deaf children to come under instruction at the age of six, and to continue until the age of twenty-one unless the Education Department previously grants exemption. Though a child is, as a rule, best fitted to begin the school course at the age of six, advice should be obtained as soon as any sign of deafness is observed.

The following classes of deaf children are admitted to the School for the Deaf (sound intellect being always a necessity):—

1. Children born deaf, or who have lost their hearing before learning to speak.
2. Children who can hear a little, but are too deaf to be taught in a public school.
3. Children who have lost their hearing after having learned to speak.

The Act imposes upon every parent, teacher of a school (either public or private), constable, or officer of a charitable or kindred institution who is aware of the place of residence (either temporary or permanent) of a deaf child, and the householder in whose house any such child resides, an obligation to send notification of the fact to the Minister of Education, giving the name, age, and address of the child; and any neglect or failure to comply with this provision involves liability to a fine.

Information and advice may be obtained from the Director, or from

THE SECRETARY FOR EDUCATION,
Wellington.
