ORDER IN COUNCIL.

At the Government Buildings at Wellington, this twenty-sixth day of April, 1915.

Present:
THE RIGHT HONOURABLE W. F. MASSEY, P.C., PRESIDING
IN COUNCIL.

WHEREAS, there being no Harbour Board empowered to grant the license hereinafter mentioned under the Harbours Act, 1908 (hereinafter called "the said Act"), George Peters (hereinafter called "the licensee") has applied to the Governor in Council for a license under the said Act to occupy a part of the foreshore of Porirua Harbour, in order to erect and maintain a house and outbuildings thereon; and, in accordance with the one-hundred-and-fiftieth section of the said Act, has deposited a plan in the office of the Marine Department at Wellington (marked M.D. 4419), showing the area of foreshore intended to be occupied, and the manner in which it is proposed to erect the said house and outbuildings:

And whereas it has been made to appear to the Governor in Council that the proposed work will not be or tend to the injury of navigation, and the said plan has, prior to the making of this Order in Council, been approved by the Governor in Council:

And whereas it is expedient that a license should be granted and issued to the licensee under the said Act for the purpose aforesaid, on the terms and conditions hereinafter expressed:

Now, therefore, His Excellency the Governor of the Dominion of New Zealand, in pursuance and exercise of the power and authority vested in him by the said Act, and of all other powers and authorities enabling him in that behalf, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby approve of the object for which the said license is required by the licensee as aforesaid; and, in further pursuance and exercise of the said power and authority, and with the like advice and consent as aforesaid, doth hereby license and permit the licensee to use and occupy that part of the foreshore on which the said house and outbuildings are to be erected, as shown on the plan so deposited as aforesaid, such license to be held and enjoyed by the licensee upon and subject to the terms and conditions set forth in the Schedule hereto.

SCHEDULE.

1. In these conditions the term "Minister" means the Minister of Marine as defined by the Shipping and Seamen Act, 1908, and includes any officer, person, or authority acting by or under the direction of such Minister.

3. In consideration of the concessions and privileges granted by this Order in Council the licensee shall, on being supplied with a copy thereof, pay to the Minister an annual sum of £2 payable in advance, dating from the date hereof, the first of such payments to be made on the licensee being supplied with a copy of this Order in Council.

IN pursuance and exercise of the power and authority conferred upon me by section 189 of the Shipping and Seamen Act, 1908, I, William Herbert Herries, Minister of Marine, do hereby define the Riverton limits within which restricted-limit steamships and ships propelled by gas, oil, fluid, electricity, or any mechanical power other than steam, and to which restricted-limit certificates are issued, may ply to be those set forth herein, and I do divide such limits into river and extended-river limits.

*Notice to Mariners No. 37 of 1915.***NOUMEA.—SOUNDINGS IN GRAND BAY.**

Marine Department,
Wellington, N.Z., 26th April, 1915.

THE following Notice to Mariners, received from the Government of New Caledonia, is published for the information of mariners and others:—

The commander of the "Kersaint" notifies that soundings made in the Grand Bay of Noumea have not found the depth of 4 meters shown on Chart No. 1939, about 850 meters N. 15° W. of the upper line of beacons of Nou Island (position bordering on L. 22° 16' 22.5", G. 164° 5' 31" E. of Paris), but on the contrary have discovered a sandbank on which the least depth found is from 4 m. 80 gr. to 720 meters N. 24° 10' W. of the same line of beacons.

The zone in which are found depths of less than 10 meters around this point is about 120 meters in diameter. There is every reason to believe that this sandbank should be shown further north on the chart.

A second sandbank with a depth of 4 m. 80 cor. has been discovered 1,280 meters N. 11° 45' W. of the same upper line of beacons of Nou Island. The zone in which are found depths of less than 10 meters around this point is about 60 metres in diameter.

The above information has been placed by the commander of the "Kersaint" on the chart of the port authorities, where mariners and pilots may consult it.

NORTH ATLANTIC OCEAN.

U.S.A. Ice Patrol Service.

Former Notice: No. 417 of 1914; hereby cancelled.

For the purpose of carrying on the ice observations and ice patrol service provided for by the International Convention for the Safety of Life at Sea, London, 1913-1914, the U.S. Coastguard Cutter "Seneca" left New York on 15th February, to proceed to the Grand Banks of Newfoundland, to locate the icefields and icebergs, and make such observations as practicable on the quantity of ice, its kind, extent and drift, and obtain any other information that may seem to be of value.

The object of the patrol is primarily to ascertain the location and progressive movement of the limiting lines of the regions in which icebergs and field ice exist in the vicinity of the Grand Banks of Newfoundland, and to disseminate this information for the guidance and warning of Mariners. Co-ordinately with these primary duties the "Seneca" will make such oceanographical and meteorological observations as will contribute toward an explanation of the causes why the limiting lines assume their observed locations.

During the period of ice observations the "Seneca" will be the only vessel employed on this duty; but when the ice has moved southwards so as to make a constant patrol necessary, an additional vessel will be detailed for that purpose.

The experience of previous years has shown that a continuous ice patrol should be established about 1st April annually, and continued throughout the season of dangerous ice conditions.

Upon getting in touch with the ice the "Seneca" will send a report daily to the Branch Hydrographic Office, New York City, at 4 a.m., 75th meridian time, addressed "Hydrographic, New York." An endeavour will be made to communicate direct with coast wireless-telegraph stations, but should the "Seneca" be unable to communicate with any of these stations the message will be relayed through any vessel within reach.

The ice information will be given in as plain and concise a form as practicable, and will state the following: (a) Ice (berg or field), (b) date, (c) time (75th meridian), (d) latitude, (e), longitude, (f) other data as may be necessary.

While on this duty, the patrol vessel will endeavour by means of daily wireless messages to keep ships at sea advised of the limits of the icefields, &c.

The "Seneca's" call letters are NRE, and she uses wavelengths of 300, 600, and 750 metres.

SCHOOL FOR THE DEAF, NEAR SUMNER, CHRISTCHURCH.

UNDER THE CONTROL AND SUPERVISION OF THE EDUCATION DEPARTMENT.

Director: Mr. J. E. STEVENS.

FOR Deaf Children of sound intellect. The pupils are taught to understand and use ordinary speech. The full charge for board and education is £40 a year, but less is accepted from parents who cannot afford to pay this amount. In case of necessity admission is free.

By the Education Act it is compulsory for deaf children to come under instruction at the age of six, and to continue until the age of twenty-one unless the Education Department previously grants exemption. Though a child is, as a rule, best fitted to begin the school course at the age of six, advice should be obtained as soon as any sign of deafness is observed.

The following classes of deaf children are admitted to the School for the Deaf (sound intellect being always a necessity) :—

1. Children born deaf, or who have lost their hearing before learning to speak.
2. Children who can hear a little, but are too deaf to be taught in a public school.
3. Children who have lost their hearing after having learned to speak.

The Act imposes upon every parent, teacher of a school (either public or private), constable, or officer of a charitable or kindred institution who is aware of the place of residence (either temporary or permanent) of a deaf child, and the householder in whose house any such child resides, an obligation to send notification of the fact to the Minister of Education, giving the name, age, and address of the child; and any neglect or failure to comply with this provision involves liability to a fine.

Information and advice may be obtained from the Director, or from

THE SECRETARY FOR EDUCATION,
Wellington.
