1. The lease is granted for the purpose of making wood-pulp for paper-manufacture only, and on the distinct understanding that the lessee accepts all responsibility for the suitability of the timber for wood-pulping purposes. The lessee shall have the right to cut timber for the purposes aforesaid, and for use in connection with buildings or any other purposes in connection with the manufacture of wood-pulp, but shall have no right, except as provided in the regulations, to remove or sell any such timber except in the form of wood-pulp.

2. The lessee shall, within one year from the date of the lease, commence the erection of the machinery required, failing which the lease shall be forfeited.

3. The lessee shall complete the erection of the mill within such time as the Commissioner of Crown Lands thinks reasonable.

4. The rent payable may be remitted by the Governor, on the recommendation of the Land Board, for the whole or any portion of the time that may elapse before the lessee shall have manufactured 500 tons of wood-pulp.

5. Royalty at the rate of 1s. per ton weight on timber cut and manufactured into wood-pulp during the preceding six months shall be payable on the first days of January and July in each and every year; the timber to be weighed in its raw state before being converted into pulp; but so often as the royalty payable exceeds the rent such rent for the period for which that royalty was payable shall be remitted, and shall be credited as part-payment of royalty for such period; provided that the Governor, on the recommendation of the Land Board, may remit the royalty on the whole or part of the timber utilized in the manufacture of the first 500 tons of wood-pulp.

6. The lessee shall, on the first days of January and July in each and every year forward to the Commissioner of Crown Lands a statement showing the total amount of timber cut and wood-pulp manufactured during the preceding six months, accompanied by a declaration made and signed before a Justice of the Peace certifying to the correctness of such statement.

7. Such statement shall show—

(b.) The quantity of timber purchased either from sawmill-owners or from freeholders;

(c.) The quantity of wood-pulp manufactured.

8. The lessee shall keep a book or books in which he shall record each day the quantity in weight of timber cut under the lease, or purchased, and the amount of wood-pulp manufactured; and such book or books shall at all reasonable times be available for inspection by the Commissioner of Crown Lands or other officer appointed by him.

9. If the lessee fails to keep the plant working continuously or to work and use the timber on the land held under lease by him in a manner satisfactory to the Land Board the Governor may, on the recommendation of the Board, cancel the lease after not less than three months' notice to the lessee of the intention to do so; provided that the lessee shall be entitled, within such time as the Board may determine, to remove all machinery, plant, and buildings erected by him.

10. On application in like manner, as provided in the Mining Act, 1908, to the Warden (if the land is situated in a mining district), or to the Commissioner of Crown Lands (if the land is outside a mining district), the lessee may be

granted the right to utilize the water-power of any stream within the total area held under lease and certificate of reservation for any term not exceeding the unexpired balance of the term of his lease, including, in addition to the unexpired balance of the term of his existing lease, the aggregate of the terms of all leases subsequently granted to the lessee over areas reserved for him.

11. The lessee shall not have any right to depasture stock on any part of the area included in the lease, except with the written permission of the Land Board, and for purposes in connection with the manufacture of wood-pulp.

12. The lessee shall not have any right to minerals found on the area leased, nor to the use of the surface-soil.

13. The lessee shall prevent by all means in his power the destruction by his servants, agents, workmen, and employees of timber on the land held by him under lease or certificate of reservation, otherwise than is provided in the regulations.

14. Free right of access shall be reserved to the public over such portion of the area held under lease and certificate of reservation as is not included in any area selected by the lessee as a mill-site in terms of the regulations; provided that all persons entering upon the area over which the lessee is for the time being entitled to cut timber shall be liable to the lessee for any damage done by them to any tramways, railways, roads, or other works constructed by the lessee on any part of the land.

15. The holders of miners' rights shall have the right to prospect over the area granted under lease or certificate of reservation, and the Warden may grant mining privileges over such portion of the area as is not included in any area selected by the lessee as a mill-site; provided that the mining operations shall not prejudice or interfere with the work or operations of the lessee, and, further, that the lessee shall not, except for negligence, be responsible or liable for any damage of injury caused or done to the holders of such mining privileges by reason of the lessee's operations.

16. The right shall be reserved to the Crown or local authorities to take roads, &c., through the area leased, and to cut any timber required in connection with such roads, &c., without any right to compensation accruing to the lessee.

17. On the recommendation of the Land Board the Governor may at any time resume from the area reserved for the lessee such land as may in his opinion be required for settlement or for any public purpose, and no compensation shall be payable to the lessee by reason of such resumption; provided that such resumption shall not prevent the lessee from using all the tramways, roads, and railways then constructed and in use at the time of such resumption.

18. The lessee shall have the right to construct and maintain on any portion of the whole area leased such roads and tramways as are required in connection with the systematic working of the area.

19. The property leased shall at all reasonable times be open to inspection by any person duly authorized by the Commissioner of Crown Lands; and the lessee shall give to the person making such inspection all such information and assistance as may be required to enable a full report to be given to the Commissioner or Land Board, as the case may be.

20. If payment of rent or royalty is not made within thirty days of its becoming due, the Board shall have power to forfeit the lease without payment of compensation to the lessee therefor.

21. The lessee shall prevent the growth and spread of noxious weeds upon the areas held by him under lease.

* These remaining suburbs do not lie within borough boundaries, and particulars respecting them have not been obtained for the Vital Statistics. Closely correct annual statements of population outside boroughs are not obtainable

In the above table are given the deaths and death-rates for each of the four cities, for the suburban boroughs severally, and for each city with its suburban towns.

Deaths occurring at hospitals, of persons not residents of the borough wherein the hospital is situated, have been allotted in each case to the borough where the disease was contracted, and not to that in which the death actually took place.

The inclusion of the suburban boroughs lowers the rate at Auckland, Wellington, and Christchurch, but raises it at Dunedin.

	Death-rates per 1,000 of Population.	
Auckland City	0.95	
" and seven suburban boroughs		0.92
Wellington City	0.95	
" and four suburban boroughs		0.91
Christchurch City	1.00	
" and five suburban boroughs		0.93
Dunedin City	0.85	
" and five suburban boroughs		0.90

Including the suburbs, the rate at Christchurch is the highest and at Dunedin the lowest.

Compared with May, 1914, the results are—

Auckland and suburbs	1914.	1915.
Wellington and suburbs	0.69	0.92
Christchurch and suburbs	0.63	0.91
Dunedin and suburbs	0.78	0.93
	0.89	0.90

The total births in the four chief cities and their suburban boroughs amounted to 636, against 615 in April—an increase of 21. The deaths in May were 290—an increase of 33 as compared with the previous month. Of the total deaths males contributed 155, females 135. Forty-three of the deaths were of children under five years of age, being 14.83 per cent. of the whole number; 30 of these were under one year of age.

There were 104 deaths of persons of 65 years and upwards in the four chief cities and their suburban boroughs, as against 98 in April. The following table shows the classification:—

Notice to Mariners No. 49 of 1915.

PILOTAGE STATIONS AT CERTAIN PORTS IN UNITED KINGDOM, AND CAUTION WHEN APPROACHING BRITISH PORTS.

Marine Department,
Wellington, 11th June, 1915.

THE following Notices to Mariners, received from the Secretary of State for the Colonies, are published for the information of masters of vessels leaving for the United Kingdom.

W. H. HERRIES,
Minister of Marine.

UNITED KINGDOM.

PILOTAGE STATIONS ESTABLISHED AT CERTAIN PORTS ON ACCOUNT OF DEFENSIVE MINEFIELDS.

Former Notice.—No. 154 of 1915; hereby cancelled.

With reference to the extension of the system of mine defence, notice is hereby given that pilotage is now compulsory at the following ports for all vessels (including fishing-vessels) which have a draught of over 8 ft., and that it is highly dangerous for any vessel to enter or leave such ports without a pilot. Fishing and other small vessels having a draught of over 8 ft. are to assemble at the pilotage stations, and will be conducted into and out of port in groups.

(1.) FIRTH OF FORTH.—All incoming vessels are only permitted to enter the Firth of Forth during daylight hours; they are to pass between the Isle of May and Anstruther Wester, thence they must steer a direct course for Kinghorn Ness. On approaching Inchkeith, the pilot-vessel in the North Channel is to be closed, and a pilot embarked.

Vessels are warned that they should on no account pass to the southward of a line joining the north point of the Isle of May and Kinghorn Ness, until in the longitude of 3° W., when course may be shaped for the centre of North Channel.

Outward bound vessels should steer to pass the longitude of 3° W. in latitude 56° 6' 30" N., then shape course to pass between Anstruther Wester and the Isle of May.

The above orders apply to vessels proceeding to any port in the Firth of Forth, whether to the eastward of Inchkeith or not.

(2.) MORAY FIRTH.—All vessels bound to Cromarty or Inverness must call for a pilot at Wick or Burghhead.

Outgoing vessels are to discharge their pilots at one or the other of these places.

It is dangerous for any vessel to be under way to the south-westward of a line joining Findhorn and Tarbetness without a pilot.

(3.) SCAPA FLOW.—All entrances are dangerous, and entry is absolutely prohibited by any of them except as provided in succeeding paragraphs.

Examination services have been established in the entrances to Hoxa and Hoy Sounds; vessels wishing to enter must communicate with the examination-vessel and follow the instructions received from her very carefully.

The only vessels permitted to enter Hoy Sound from the westward are those bound for Stromness; vessels cannot enter Scapa Flow from Stromness.

Vessels are not permitted to enter Hoxa or Hoy Sounds by night.

Passage through Cantick Sound is entirely prohibited.

NOTE.—This notice is a repetition of Notice No. 154 of 1915, with additions to paragraph (3.).

Authority.—The Lords Commissioners of the Admiralty.

By Command of their Lordships,

J. F. PARRY,
Hydrographer.

Hydrographic Department,
Admiralty, London, 10th April, 1915.

CAUTION WHEN APPROACHING BRITISH PORTS.

PART I.—CLOSING OF PORTS.

Former Notices.—Nos. 1 and 101 of 1915; hereby cancelled.

(1.) My Lords Commissioners of the Admiralty having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give notice that on approaching the shores of the United Kingdom or any of the ports or localities of the British Empire referred to in Part III of this notice, a sharp lookout should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2.) If entrance to a port is prohibited, three red vertical lights by night, or three red vertical balls by day, will be exhibited in some conspicuous position in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this notice.

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3.) At all the ports or localities at home or abroad referred to in Part III of this notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp lookout for the signals indicated in paragraph (2) above when search-lights are observed to be working.

PART II.—EXAMINATION SERVICE.

(4.) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad referred to in Part III of this notice.

(5.) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Examination Anchorage. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6.) As the institution of the Examination Service at any port will never be publicly advertised, especial care

should be taken in approaching the ports, by day or night, to keep a sharp lookout for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all-round lamps, two red and two white, are kept available for use.

(7.) By day the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign. Also, three red vertical balls if the port is closed.

By night the steamer will carry—

- (a.) Three red vertical lights if the port is closed.
- (b.) Three white vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8.) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the distinguishing signal of their vessel ready to hoist immediately the Examination Steamer makes the signal.

(9.) Masters are warned that before attempting to enter any of these ports when the Examination Service is in force they must in their own interests strictly obey all instructions given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

Whilst at anchor in the Examination Anchorage, masters are warned that they must not lower any boats (except to avoid accident), communicate with the shore, work cables, move the ship, or allow any one to leave the ship, without permission from the Examination Steamer.

(10.) In case of fog, masters are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(11.) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12.) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART IV.—SWEEPING OPERATIONS.

H.M. vessels are constantly engaged in sweeping operations off ports in the United Kingdom.

Whilst so engaged, they work in pairs connected by a wire hawser, and are consequently hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which these vessels are engaged, they will show the following signals:—

A black ball at the foremast head and a similar ball at the yardarm, or where it can best be seen, on that side on which it is dangerous for vessels to pass.

For the public safety, all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying this signal, and should especially remember that it is dangerous to pass between the vessels of a pair.

NOTE.—This notice is a repetition of Notice No. 101 of 1915, with the addition of paragraph (8).

Authority.—The Lords Commissioners of the Admiralty.
By Command of their Lordships.

SOUTH PACIFIC OCEAN.—DANGEROUS BREAKERS REPORTED.

Marine Department,
Wellington, N.Z., 16th June, 1915.

CAPTAIN A. T. Norton, commanding the s.s. "Wairuna" on a voyage from Vancouver, B.C., to Wellington, N.Z., reports that he sighted at 5.30 p.m. on 23rd May heavy breakers, being abeam of them at 5.55 p.m. about two miles off. The approximate position of them is latitude 5° 27' S., longitude 162° 1' W. There was a heavy S.E. swell running at the time, with fresh breeze. The breakers appeared to extend for about 200 yards in a N.E. by E. and S.W. by W. direction, and were plainly visible several miles away. They were breaking very heavily and continuously, and he had them in sight for nearly an hour altogether. Unfortunately Captain Norton was only able to give an approximate position of this very dangerous shoal, as he had no sun at noon, nor was he able to fix his position during the afternoon or evening by double altitudes of either sun or stars, and for the following three days he had no sights at all. He had, however, good a.m. sights for longitude on that day when the sun was not far from the prime vertical, and he has confidence therefore that the longitude cannot be far out.

Possibly the reef is the one which is charted Victoria Island (E.D.) in latitude 6° 45' S., longitude 160° 40' W., that being S. 46° E. 127 miles from the shoal sighted.

MOTUEKA HARBOUR.—CAUTION re MOORING-PILES FOR DREDGE AND DREDGE-MOORINGS.

Marine Department,
Wellington, N.Z., 16th June, 1915.

MASTERS of vessels approaching or leaving the present Motueka Harbour or Moultere Lagoon are warned to keep clear of mooring-piles, and as the dredge is again work-

ing at the eastern end of the new channel masters of vessels are requested to give warning when approaching the dredge, so that mooring-lines will be lowered to allow vessels to pass, and steamers must stop their propellers when passing over moorings to the dredge. Mooring-piles can be clearly seen at daytime, and a white light from each is shown at night.

It is expected that after two or three weeks the dredge will be clear of the entrance to the channels, when the piles and moorings will be removed.

Charts, &c., affected: Admiralty Chart No. 2616; "New Zealand Pilot," eighth edition, 1908, Chapter 6, page 192.

Secretary.

GENERAL DESCRIPTION.

Rangitoto A 18a 2 is situated about twenty miles from Otorohanga by a well-made road down the Waipa Valley, and a wagon can be got from the Waipa to Section 5, Block XVI, by crossing and recrossing the Tauraroa Stream. The formation is volcanic, with rhyolite outcrops in places. The land to the north of the Tauraroa Stream is inclined to be jumbled up, and the soil rather light. South of the Tauraroa the soil is better quality: the ranges are better defined. This portion of the block will make first-class sheep-country. The sections are well watered. The elevation would run from about 500 ft. to 2,000 ft. The forest timber is of no value, and fencing-timber is scarce.

Rangitoto A 18b 2 and A 21b 2 are situated about fifteen miles from Otorohanga Railway-station by a formed wagon-road, and a wagon can be got on to each section.
