License authorizing the Wanganui Borough Council to erect Electric Lines from the Tramway Power-house along Ridgway Street to Victoria Avenue, and from Corner of Victoria Avenue and Taupo Quay across Bridge to the Hotel Braeburn on River-bank Road.

LIVERPOOL, Governor.
ORDER IN COUNCIL.

At the Government House at Wellington, this eleventh day of October, 1915.

Present :

HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

WHEREAS by section two of the Public Works Amendment Act, 1911, it is provided that no person shall lay, construct, put up, place, or use any electric line except under the authority of a license issued to him by the Governor in Council under that Act :

And whereas the Wanganui Borough Council (hereinafter referred to as "the licensee") desires to erect electric lines from the tramway power-house along Ridgway Street to Victoria Avenue, and from the corner of Victoria Avenue and Taupo Quay across the bridge over the Wanganui River to Hotel Braeburn, River-bank Road, all in the Borough of Wanganui (hereinafter referred to as "the said electric lines"), and it is expedient accordingly to issue a license in respect thereof under the said section :

Now, therefore, in pursuance and in exercise of the powers conferred on him by the said section, and of all other powers in anywise enabling him in this behalf, His Excellency the Governor of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth, subject to the conditions set forth in the Schedule hereto, hereby authorize the said licensee to erect and maintain the said electric lines for the purpose of supplying electrical energy, such electric lines and the position of the premises being indicated on the plan marked P.W.D. 38435, deposited in the office of the Minister of Public Works at Wellington, in the Wellington Provincial District.

SCHEDULE.

CONDITIONS.

1. In this license the following words and phrases shall have the meanings hereby attached to them respectively :—

"Earthed" means connected to the general mass of earth in such a manner as to ensure at all times an immediate and safe discharge to earth of electric energy.

"Electric line" means any wire, wires, conductor, or other means used for conveying, transmitting, or distributing electricity for power, lighting, or heating purposes; and includes any instrument, insulator, casing, tubing, pipe-covering, or post enclosing or supporting an electric line, or anything connected therewith.

"Inspecting Engineer" means and includes any Inspecting Engineer appointed by the Minister to inspect the works to be constructed or maintained by virtue of electric-line licenses issued under the Public Works Act, 1908, and any or all of its amendments, or under any one or more of such amendments only, or any Act or Acts passed in amendment thereof or substitution therefor.

"Minister" means Minister of Public Works.

"Telegraph" includes telephone.

"Telegraph line" has the same meaning as "electric line" in the Post and Telegraph Act, 1908, and also includes all telegraph, telephone, and electric signaling wires belonging to the Government Railways Department.

2. The conductors shall not be less than 37/14 S.W.G. hard-drawn copper wires along Ridgway Street to Victoria Avenue, and not less than 19/14 S.W.G. hard-drawn copper from Taupo Quay to Hotel Braeburn, River-bank Road, firmly attached to porcelain insulators, and erected on supports placed not more than 150 ft. apart. The positive conductor shall be covered throughout, and the covering may consist of vulcanized indiarubber or of triple braiding thoroughly impregnated with weatherproof compound. The negative conductor may be bare.

3. The conductors shall be carried on substantial and durable supports, which shall be designed to have a factor of safety of four in the case of steel, iron, or ferro-concrete, and five in the case of wood, calculated upon the ultimate strength of the material, assuming the wind-pressure to be 20 lb. per square foot upon a plane surface, and 12 lb. per square foot upon a diametral plane upon a cylindrical surface.

4. The conductors shall not in any part thereof be at a less height than 18 ft. from the surface of the ground.

5. A single-pole fuse cut-out shall be inserted in the positive conductor, and arranged to operate with an overload of 100 per cent. above the rated full load of the circuit. Such fuse cut-out shall be placed in a suitable locked or sealed receptacle of fireproof construction fixed at a convenient height on the pole nearest the point where the positive conductor leaves the trolley-wire or feeder. At the distributing-point of a lighting circuit there shall be inserted in the positive conductor a single-pole switch, together with a fuse arranged to operate with an overload of 50 per cent. above the rated full load of such circuit. In a motor circuit there shall be provided, in the immediate vicinity of each motor connected thereto, a double-pole switch and fuse cut-out or circuit-breaker arranged to operate with an overload of 50 per cent. above the rated full load of the motor so controlled. Each motor shall be fitted with a no-volt release and a series resistance.

6. The negative conductor shall, in a lighting circuit, be continuous throughout its length from the lamps to the tramway-rail, to which it shall be effectively bonded, and in a motor circuit from the switch terminal to the tramway-rail, to which it shall be effectively bonded.

7. At telegraph-line crossings the conductors shall pass over or under, as may be decided by the Minister of Telegraphs. In every crossing-span the maximum tension in any conductor shall not exceed one-half the elastic limit of the conductor under the conditions of a minimum temperature of 20° F. and wind-pressure as specified in clause 3 occurring simultaneously. Efficiently earthed guard-wires, to the satisfaction of the Minister of Telegraphs, shall be erected where such protection may be considered necessary by the Minister of Telegraphs, and earth-wires where led down poles shall be protected by a casing for a distance of 8 ft. from the ground. Guard-wires shall be carried on substantial supports at a height of 2 ft. above the said electric lines if the telegraph lines pass over the said electric lines, or 2 ft. above the telegraph lines if they pass under the said electric lines. In addition to the above precautions, telegraph lines shall be suitably insulated if deemed necessary by the Minister of Telegraphs. The cost of all necessary guard-wires and special provisions required to comply with this clause, or deemed to be necessary as a protection to telegraph lines generally, shall be borne by the licensee when the telegraph lines are erected before the said electric lines. In cases where the said electric lines are erected before the telegraph lines, the licensee, on receipt of notice from the district Telegraph Engineer of the Post and Telegraph Department, or his deputy, that it is proposed to run a telegraph line along the route, shall forthwith make the necessary changes required to comply with this clause at any points at which the said electric lines already cross such routes, the cost of such changes being borne by the Post and Telegraph Department.

8. No work of any nature shall be erected or constructed upon, over, or under any part of the New Zealand Government Railways until the licensee has obtained the consent of the Minister of Railways thereto, as required by section 4 of the Government Railways Amendment Act, 1910 (No. 2).

9. The construction of the works hereby authorized shall be substantially commenced on or before the 1st day of November, 1915, and shall be completed on or before the 31st day of December, 1915.

10. The licensee shall, prior to the completion of the said works, give to the Minister at least seven days' notice in writing of the estimated date of such completion.

11. The licensee shall not use the said electric lines, or permit the same to be used, until the Minister has given notice in writing to the licensee that he has received from the Inspecting Engineer a certificate that the work hereby authorized has been satisfactorily carried out.

12. The said electric lines shall be duly and efficiently supervised and maintained by the licensee as regards both electrical and mechanical conditions, and shall not be permitted by the licensee to remain erected after they have ceased to be used for the supply of electricity.

13. This license, and the benefits and obligations hereunder, shall not be assigned by the licensee without the expressed consent in writing of the Minister first had and obtained; but such consent shall not be withheld if it is proved to the satisfaction of the Minister that the transferee is financially and otherwise able to carry out the obligations specified in this license.

14. The Minister may at any time order an inspection to be made of the said electric lines. If any defect is found to exist it must be remedied forthwith; and if, in the opinion of the officer or person inspecting, such defect is serious the Minister may, on receipt of the report, direct the licensee to at once cease transmitting energy either over the whole of the said electric lines or over any specified part thereof until such defect is repaired or remedied. In default of the licensee remedying the defect or ceasing to transmit energy the licensee shall be liable to a penalty of £20 for each day during

which the defect remains if energy is transmitted, such penalty to be recoverable by or on behalf of the Minister as a debt due to the Crown. The cost of such inspection shall be borne by the licensee.

15. If the licensee fails to comply with any of the conditions of this license the Minister may, by notice in writing, require the licensee within thirty days to remedy the default specified in that notice; and if the licensee fails to comply with the terms of the notice within the said period, the licensee shall be liable to a penalty not exceeding £20, to be recoverable by or on behalf of the Minister as a debt due to the Crown.

16. Notwithstanding anything in the last preceding clause of these conditions, if the licensee fails to comply with the terms of any such notice for ninety days after the receipt thereof, the Governor in Council may thereupon revoke this license without further notice.

17. For the purpose of ascertaining whether the conditions of this license are being faithfully complied with by the licensee, the Minister, or any person appointed by him in that behalf, may at all reasonable times enter on the lands and works and inspect the said works.

18. Nothing in this license shall be deemed in any way to interfere with, affect, or abridge any rights or powers vested in His Majesty the King, or in the Governor on his behalf, authorizing the construction, management, or working of any public works; nor shall any compensation be payable to or on behalf of the licensee for injury done to the works herein authorized by the construction, management, or working of any such public works as aforesaid, or for the loss occasioned thereby, or for the exercise of any such right or power as aforesaid.

19. The regulations made under section two of the Public Works Amendment Act, 1911, and published in the *New Zealand Gazette* dated 29th day of April, 1915, shall not apply to this license.

20. This license shall, unless sooner determined in accordance with the provisions hereinafter expressed, continue in force for a period of forty-two years from the date hereof. Upon expiry of the said term, or upon sooner determination of this license by revocation or otherwise, all rights hereby granted to the licensee shall thereupon cease and determine; but such expiration or determination shall not relieve the licensee of any liability theretofore incurred under this license.

And whereas the special roll was not deposited for public inspection in accordance with the provisions of the above-mentioned Act and the regulations thereunder, inasmuch as in the public notification of the deposit the time within which objections to the special roll would be received was erroneously stated to be within seven days from the first day of the deposit of the special roll, instead of within seven days from the last day of the deposit of the special roll :

And whereas it appears that the ratepayers have not been misled by such irregularities or defects, and it is expedient to validate the said proceedings :

Now therefore, His Excellency the Governor of the Dominion of New Zealand, in pursuance and exercise of the powers and authorities conferred on him by section one hundred and eleven of the Local Bodies' Loans Act, 1913, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby validate the said proceedings, and doth hereby declare that the proceedings in connection with the said loan shall not be called into question by reason only of the irregularities aforesaid.

* These remaining suburbs do not lie within borough boundaries, and particulars respecting them have not been obtained for the Vital Statistics. Closely correct annual statements of population outside boroughs are not obtainable.

In the above table are given the deaths and death-rates for each of the four cities, for the suburban boroughs severally, and for each city with its suburban towns.

Deaths occurring at hospitals, of persons not residents of the borough wherein the hospital is situated, have been allotted in each case to the borough where the disease was contracted, and not to that in which the death actually took place.

The inclusion of the suburban boroughs lowers the rate at Auckland, Wellington, and Christchurch, but raises it at Dunedin.

	Death-rates per 1,000 of Population.	
Auckland City	0.92	
" and seven suburban boroughs		0.82
Wellington City	0.99	
" and four suburban boroughs		0.94
Christchurch City	1.01	
" and five suburban boroughs		0.94
Dunedin City	1.19	
" and five suburban boroughs		1.20

Including the suburbs, the rate at Dunedin is the highest and at Auckland the lowest.

Compared with September, 1914, the results are—

	1914.	1915.
Auckland and suburbs	0.76	0.82
Wellington and suburbs	0.99	0.94
Christchurch and suburbs	0.86	0.94
Dunedin and suburbs	0.94	1.20

The total births in the four chief cities and their suburban boroughs amounted to 563, against 575 in August—a decrease of 22. The deaths in September were 303—an increase of 30 as compared with the previous month. Of the total deaths males contributed 159, females 144. Sixty-eight of the deaths were of children under five years of age, being 22.44 per cent. of the whole number; 49 of these were under one year of age.

There were 96 deaths of persons of 65 years and upwards in the four chief cities and their suburban boroughs, as against 88 in August. The following table shows the classification:—

SCHOOL FOR THE DEAF. NEAR SUMNER. CHRISTCHURCH.

UNDER THE CONTROL AND SUPERVISION OF THE EDUCATION DEPARTMENT.

Director: Mr. J. E. STEVENS.

FOR Deaf Children of sound intellect. The pupils are taught to understand and use ordinary speech. The full charge for board and education is £40 a year, but less is accepted from parents who cannot afford to pay this amount. In case of necessity admission is free.

By the Education Act it is compulsory for deaf children to come under instruction at the age of six, and to continue until the age of twenty-one unless the Education Department previously grants exemption. Though a child is, as a rule, best fitted to begin the school course at the age of six, advice should be obtained as soon as any sign of deafness is observed.

The following classes of deaf children are admitted to the School for the Deaf (sound intellect being always a necessity):—

1. Children born deaf, or who have lost their hearing before learning to speak.
2. Children who can hear a little, but are too deaf to be taught in a public school.
3. Children who have lost their hearing after having learned to speak.

The Act imposes upon every parent, teacher of a school (either public or private), constable, or officer of a charitable or kindred institution who is aware of the place of residence (either temporary or permanent) of a deaf child, and the householder in whose house any such child resides, an obligation to send notification of the fact to the Minister of Education, giving the name, age, and address of the child; and any neglect or failure to comply with this provision involves liability to a fine.

Information and advice may be obtained from the Director, or from

THE SECRETARY FOR EDUCATION,
Wellington.
