*Regulations regarding the Disposal of Crown Land situated within a Kauri-gum District for the Systematic Recovery of Kauri-gum and other Valuable Products pursuant to the Provisions of Section 3 of the Kauri-gum Industry Amendment Act, 1915.*

LIVERPOOL, Governor.

ORDER IN COUNCIL.

At the Government House at Wellington, this first day of March, 1916.

Present :

HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

IN pursuance and exercise of the powers conferred upon him by section three of the Kauri-gum Industry Amendment Act, 1915 (hereinafter referred to as "the said Act"), His Excellency the Governor of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby make the following regulations with respect to the disposal of Crown land within a kauri-gum district for the systematic recovery of kauri-gum and other valuable products contained therein; and doth hereby declare that these regulations shall come into force on the date of the publication thereof in the *New Zealand Gazette*.

REGULATIONS.

1. In these regulations—

"Board" means the Land Board of the Auckland Land District.

"Commissioner" means the Commissioner of Crown Lands for the Auckland Land District.

2. On application in that behalf the Board may provisionally grant to any person or persons a lease (in the form in the Schedule hereto) over any land set apart under section 3 of the said Act (not exceeding 3,000 acres in any case), entitling such person or persons to work the land comprised in such lease for the recovery of kauri-gum and other valuable products contained in the said land.

3. Within one month from the date of notification of the provisional granting of any application as aforesaid the applicant shall lodge with the Commissioner a fee of 1s. per acre for every acre applied for. Such money shall, in the event of the granting of a lease, be credited on account of rent; and if the application be not granted, such money shall be refunded.

4. Within three months of the notification of the provisional granting of the application the applicant shall submit to the Commissioner, or the officer nominated by him for the purpose—

(a.) A scheme outlining the details of the proposed operations; and

(b.) A scheme for the drainage of the whole of the land comprised in the application.

5. The Commissioner, or officer nominated by him, may request the applicant to alter, amend, or extend the scheme of the proposed drainage-works; and, in the event of the application being granted, all drainage-work shall be carried out in strict accordance with such scheme.

6. As soon as the applicant complies with the foregoing conditions the Board shall consider the application, and may grant the same; and every lease granted shall be subject to such special conditions in regard to the method of working the land and the drainage thereof as the Board may deem necessary in order to ensure that the land will be left in a condition suitable for farming operations.

7. Prior to the issue of the lease the lessee shall be required to execute a bond to an amount not exceeding £1 per acre for every acre comprised in the lease, as a guarantee of the due fulfilment of the conditions of the lease.

8. The land comprised in the lease shall be worked on a face, in blocks not exceeding 200 acres in area.

9. If the Commissioner, or officer nominated by him for the purpose, is satisfied that the working of any one block is being proceeded with in a proper manner, he may authorize the lessee to commence operations on another block not exceeding 200 acres, and so on until the whole of the land comprised in the lease has been worked out; provided that the working of not more than 400 acres shall be in operation at any one time.

10. Upon the completion of the working of every area of 50 acres the lessee shall distribute on the land so worked agricultural lime of good quality to the amount of not less than one ton to the acre, and, within one month of being requested so to do, shall sow the said land in such grasses as may be approved by the Commissioner, or the officer nominated by him for the purpose; provided that the lessee will not be required to sow any mixture of grass-seeds the cost of which will exceed the sum of 20s. an acre for each acre to be sown in grass.

11. Upon the completion of the working of every area of 200 acres to the satisfaction of the Commissioner, or officer nominated by him for the purpose, the said area shall be excluded from the lease by the Board and the rental shall be reduced proportionately:

Provided that the lessee shall have the right of reasonable access to the adjoining blocks over any such area or areas as may from time to time be excluded from the lease, and the right to use any road or tramway made or erected by the lessee thereon shall be protected:

Provided also that the lessee may select and retain an area not exceeding 100 acres on which to erect plant, machinery, and buildings, and for other purposes incidental to the working and occupation of the land; and the area so selected shall not be liable to resumption under the foregoing provisions of this clause.

12. The lessee shall, within one year from the date of his lease, commence the erection of the machinery and plant required in connection with the working of the land for the purpose for which the lease is granted, and if he fails so to do his lease may be forfeited by the Board.

13. The lessee shall complete the erection of the machinery and plant, and shall commence operations within such time as may be specified in the lease, or as the Commissioner or officer nominated by him for the purpose thinks reasonable.

14. If the lessee fails without proper cause to keep the plant working, or to work and use the demised land in a manner satisfactory to the Board, the Board may cancel the lease after not less than three months' notice to the lessee of the intention to do so; provided that the lessee shall be entitled, within such time as the Board may determine, to remove all machinery, plant, and buildings erected by him from the land.

15. If payment of rent is not made within thirty days of the same becoming due, the Board shall have the power to forfeit the lease without payment of compensation to the lessee therefor.

16. The lease shall contain a provision to the effect that the Minister of Lands shall have the right, in priority to all other persons, to purchase all kauri-gum obtained by the lessee from the demised land at not less than the current market price.

\* These remaining suburbs do not lie within borough boundaries, and particulars respecting them have not been obtained for the Vital Statistics. Closely correct annual statements of population outside boroughs are not obtainable.

In the above table are given the deaths and death-rates for each of the four cities, for the suburban boroughs severally, and for each city with its suburban towns.

Deaths occurring at hospitals, of persons not residents of the borough wherein the hospital is situated, have been allotted in each case to the borough where the disease was contracted, and not to that in which the death actually took place.

The inclusion of the suburban boroughs lowers the death-rate at Auckland, Wellington, and Dunedin, but raises it at Christchurch.

	Death-rates per 1,000 of Population.	
Auckland City .. .. .	1.24	
and seven suburban boroughs .. .. .		1.10
Wellington City .. .. .	0.80	
and four suburban boroughs .. .. .		0.79
Christchurch City .. .. .	0.61	
and five suburban boroughs .. .. .		0.63
Dunedin City .. .. .	1.04	
and three suburban boroughs .. .. .		0.93

Including the suburbs, the rate at Auckland is the highest and at Christchurch the lowest.

Compared with January, 1915, the results are—

	1915.	1916.
Auckland and suburbs .. .. .	0.54	1.10
Wellington and suburbs .. .. .	0.64	0.79
Christchurch and suburbs .. .. .	0.78	0.63
Dunedin and suburbs .. .. .	0.92	0.93

The total births in the four chief cities and their suburban boroughs amounted to 602, against 597 in December—an increase of 5. The deaths in January were 286—a decrease of 5 as compared with the previous month. Of the total deaths males contributed 142, females 144. Fifty-five of the deaths were of children under five years of age, being 19.23 per cent. of the whole number; 30 of these were under one year of age.

There were 117 deaths of persons of 65 years and upwards in the four chief cities and their suburban boroughs, as against 110 in December. The following table shows the classification:—

Maniototo County.—Upper Taieri and Upper Taieriside Survey District.

RUN 308M: Area, 3,985 acres; half-yearly rental, £50; valuation for improvements, £159.

The steeper easterly spurs are somewhat bare, but the vegetation improves towards the western boundary, where the country is clad with good tussock and native grasses. Access is by good roads. The distance from Ranfurly Railway-station is about eighteen miles, from Waihiata Railway-station about sixteen miles, and from Patearoa Post-office about eight miles and three-quarters. The improvements consist of half value of 70 chains of fencing on Linnburn freehold boundary, at £1 per chain, £35; half value of 152 chains of fencing on western boundary, at 7s. per chain, £26 12s.; full value of 36 chains of subdivisional fencing at 7s. 6d. per chain, and of 42 chains (at sheep-yards) at 9s. per chain, £32 8s.; sheep-yards, £25; hut, £40; total, £159.

*Description of Pastoral Runs.*—High, unsafe country, suitable only for summer grazing. The altitude is from 3,200 ft. to 3,800 ft. above sea-level. The road surveyed through the runs from north-east to south-west is along the top of the highest ridge, and represents the road from Ida Valley to the Serpentine Diggings. The country to the north-west of the road has a good aspect, and contains many sharp spurs from which the heavy snow disappears within a reasonable time. The tops and the country lying to the south-east of the road probably retain the snow until the season is well advanced. The runs are well watered, and carry good vegetation consisting of good tussock and native grasses. There are roads from Ida Valley and Maniototo Plains. The north-east corner of Run 261Q is about eight miles from Ida Valley, and the south boundary of Run 261V is about twelve miles from Linnburn Station.

SCHOOL FOR THE DEAF, NEAR SUMNER,  
CHRISTCHURCH.

UNDER THE CONTROL AND SUPERVISION OF THE EDUCATION  
DEPARTMENT.

Director: Mr. J. E. STEVENS.

**F**OR Deaf Children of sound intellect. The pupils are taught to understand and use ordinary speech. The full charge for board and education is £40 a year, but less is accepted from parents who cannot afford to pay this amount. In case of necessity admission is free.

By the Education Act it is compulsory for deaf children to come under instruction at the age of six, and to continue until the age of twenty-one unless the Education Department previously grants exemption. Though a child is, as a rule, best fitted to begin the school course at the age of six, advice should be obtained as soon as any sign of deafness is observed.

The following classes of deaf children are admitted to the School for the Deaf (sound intellect being always a necessity) :—

1. Children born deaf, or who have lost their hearing before learning to speak.
2. Children who can hear a little, but are too deaf to be taught in a public school.
3. Children who have lost their hearing after having learned to speak.

The Act imposes upon every parent, teacher of a school (either public or private), constable, or officer of a charitable or kindred institution who is aware of the place of residence (either temporary or permanent) of a deaf child, and the householder in whose house any such child resides, an obligation to send notification of the fact to the Minister of Education, giving the name, age, and address of the child; and any neglect or failure to comply with this provision involves liability to a fine.

Information and advice may be obtained from the Director, or from

THE SECRETARY FOR EDUCATION,  
WELLINGTON.
