GENERAL DESCRIPTION.

The Otamauri Settlement is situated about thirty-one miles from Napier and twenty-eight miles from Hastings by good metalled motor-roads. It joins the Sherenden Settlement on the east, and Glenross and Whanawhana Estates on the north and west.

It consists mainly of low rolling ridges and small flats; the larger portion has been ploughed and laid down in English grasses.

The soil is of a sweet loamy nature, on papa and shingle.

The settlement as a whole is well watered, and by constructing dams in hollows and streams an ample supply can be obtained. At the same time care has been taken to give every section a supply of water that remained permanent through the dry weather last season.

Many of the fences are new, and all are in good order and of good material. Belonging to the settlement is a large wool-shed capable of housing 1,000 sheep, with stands for

eight shearers, large well-built yards, and good concrete dip. This stands on a reserve of 8 acres, which will give ample accommodation at shearing and dipping times.

THE RIGHT HONOURABLE W. F. MASSEY, P.C., PRESIDING IN COUNCIL.

that a license should be granted and issued to the licensees under the said Act for the purpose last aforesaid on the terms and conditions hereinafter expressed :

Now, therefore, His Excellency the Governor of the Dominion of New Zealand, in pursuance and exercise of the power and authority vested in him by the said Act, and of all other powers and authorities enabling him in that behalf, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby approve of the object for which the said license is required by the licensees as aforesaid; and, in further pursuance and exercise of the said power and authority, and with the like advice and consent as aforesaid, doth hereby license and permit the licensees to use and occupy that part of the foreshore on which the said yard is to be erected, as shown on plan M.D. 4583 so deposited as aforesaid, for the purpose of erecting and maintaining the said yard in accordance with the said plan; such license to be held and enjoyed by the licensees upon and subject to the terms and conditions set forth in the Schedule hereto.

SCHEDULE.

1. In these conditions the term "Minister" means the Minister of Marine as defined by the Shipping and Seamen Act, 1908, and includes any officer, person, or authority acting by or under the direction of such Minister.

7. Nothing herein contained shall authorize the licensees to do or cause to be done anything repugnant to or inconsistent with any law relating to the Customs, or any regulation of the Minister of Customs, or with any provisions of the Harbours Act, 1908, or its amendments, or any regulations made thereunder, and that are now or may hereafter be in force.

Any such notice shall be sufficient if given by the Minister, and delivered at or posted to the last known address of the licensees in New Zealand.

GENERAL DESCRIPTION.

Situated between Takapau and Ormondville Townships and Railway-stations, with good metalled-road access to each. The south-eastern portion of the block is bounded by the Takapau—Ormondville Road and Napier—Wellington Railway. The north-eastern corner of the block is some two miles and a half from Takapau, and the south-eastern end is close to the Whenuahou Railway-siding. All the roads giving access to the various sections are formed, and the metalling of same is now being pushed forward. The land, originally covered with more or less heavy milling-bush, now cut out, is carrying native and exotic grasses. The altitude varies from 800 ft. to 900 ft. above sea-level. The country generally is level and undulating, and nearly all ploughable when stumped. Good loamy soil, mixed with shingle, overlying clay and papa. The block is not well

watered, and in many cases a supply will have to be obtained by sinking, or erecting artificial dams. There is an up-to-date cheese-factory erected on the ground in full swing, with some fifteen suppliers at the present time. Water has been found on the factory-site by sinking to a depth of 27 ft. below the surface of the ground, and a good flow obtained and pumped by a windmill. The factory is connected by telephone with Takapau. A portion of this block has already been settled, and results prove that the land is well adapted for close settlement, being the centre of a flourishing dairying district.
