Special Licensing Poll to be taken on 10th April, 1919.—Notice to Returned Soldiers.

Chief Electoral Office,  
Wellington, 20th February, 1919.

EVERY member of the Expeditionary Forces who has already returned to New Zealand should make application for enrolment on the regular electoral roll of the district in which he resided before he left New Zealand. He has not lost his right to be so enrolled by reason of his absence

on military service. If on the day of the poll he expects to be resident out of that district, he can obtain an absent voter's permit.

The rolls for the special licensing poll close finally on the 6th of March, and application for enrolment must be made on or before that date.

Returned soldiers who have already been discharged, or whose discharges will become final before the 10th of April, must observe that inasmuch as they have ceased, or will have ceased, to be members of the Expeditionary Forces they can only vote on the 10th of April as electors of a district, and cannot have their votes recorded under the special provisions permitted by the law for existing members of the Expeditionary Forces. The above applies to all returned soldiers who have already arrived, and to all returned soldiers who may arrive before the 3rd of March next.

Members of the Expeditionary Forces who arrive on or after the 3rd of March and before the 10th of April will not be finally discharged until the 11th of April, and will remain members of the Expeditionary Forces and be entitled to record their votes as such under the special regulations provided in that behalf.

J. HISLOP,  
Chief Electoral Officer.

BIRTHS AND DEATHS IN 1918.

Both birth and death rates for 1918 are abnormal, the former on account of the war, the latter owing to the unprecedented influenza epidemic of the last quarter of the year.

The number of births registered during 1918 (25,867) is the lowest recorded in any year since 1907, and the rate (23.45 per 1,000) is the lowest in the history of registration in New Zealand, the next lowest being that for 1899 (25.12 per 1,000).

On the other hand, the number of deaths registered in 1918 (16,364) is easily a record, being 5,768 or over 50 per cent. more than in 1916, which previously ranked highest. The rate (14.84 per 1,000), though greatly above the normal of recent years, was nevertheless exceeded on several occasions prior to 1875.

The numbers and rates of births and deaths for the last ten years are as under:—

**SCHEDULE.**

**MARLBOROUGH LAND DISTRICT.**

CLASS A.—Pastoral lands, being lands suitable exclusively for pasturage and not capable of being used with profit in areas of a carrying-capacity of less than 5,000 sheep:—

County of Awatere—			
Run 15 (Crown land)	..	..	296 acres.
.. 16A (national endowment)	..	..	8,700 "
.. 16B	..	..	6,300 "
County of Marlborough—			
Run 138 (Crown land)	..	..	132 "
.. 141	..	..	2,213 "
.. 142	..	..	1,670 "
.. 145	..	..	712 "

*Descriptions of Runs.*

Run 15.—Area, 296 acres (B. J. Chapman, lessee). Altitude, 1,300 ft. All low hill country, practically covered in scrub, and capable of considerable improvement. Accommodation-house situated on the run. In the event of prohibition being carried this run will probably be abandoned, unless the area can be increased by adding portions of Run 16A (500 acres approximately) and from Run 16B (3,000 acres approximately), making an approximate area of 3,800 acres. This will not materially affect either Run 16A or 16B. We consider this course necessary in order to secure the continuation of the accommodation-house, which is indispensable.

Run 16A.—Area, 8,700 acres (Lewis Green, lessee). Altitude ranges from about 1,000 ft. to 5,000 ft. Lower portion consists of easy spurs covered in manuka scrub, but capable of considerable improvement. Tops consist of about one-third of practically useless country which is not likely to improve. Not suitable for further subdivision.

Run 16b.—Area, 6,300 acres (Alexander McRae, lessee). Altitude ranges from about 1,000 ft. to 5,000 ft. Lower portion mostly easy spurs covered in manuka scrub, which are capable of very considerable improvement. Tops consist of about one-third of practically useless wind-swept country, rocky and shingly, which is not likely to improve. Not suitable for further subdivision.

Run 138.—Area, 132 acres (William Adams, lessee). Consists of broken country, principally burnt bush, about one-third carrying good pasture. Not suitable for subdivision, but should be included in adjoining L.I.P. country.

Run 141.—Area, 2,213 acres (William Adams, lessee). Altitude, 1,000 ft. to 2,000 ft. Broken bush country; about one-third green bush, balance fern, scrub, and dead bush. Portion over main watershed adjoining S.G.R. 155, through which the fire has been, would be better added to the adjoining lands, making a better fencing boundary. Not suitable for subdivision in itself, but would recommend that consideration of subdivision be held over until expiry of lease of adjoining Run 140.

Run 142.—Area, 1,670 acres (William Adams, lessee). Altitude, about 1,000 ft. to 2,000 ft. Broken country, covered in green bush, fern, and manuka scrub, cold and shady. Not suitable for subdivision.

Run 145.—Area, 712 acres (Mary Ward, lessee). Extremely broken country, practically covered in bush, rocky and shady; useless for grazing. Not suitable for subdivision.
