SUMMARY FOR THE MONTH OF MARCH, 1919.

Fine, warm days ruled during March, but the nights were often cold, particularly in the beginning and towards the close of the month, when anticyclonic pressures were in evidence. Rainfall was again much below the mean of previous years over the whole Dominion, and on this account vegetable growth was very backward, especially in the East Coast districts.

The two chief disturbances were of the westerly type, and they were effective between the 14th and 18th and the 20th and 26th respectively. Somewhat squally conditions were experienced in various parts of the country during these two periods, and on the 16th a severe south-west gale raged in Canterbury, and was responsible for a considerable amount of damage to trees, crops, &c.

JAPAN.

REGULATIONS AND SIGNALS WITH RESPECT TO SUBMARINES.

In order to avoid risk of collisions, &c., arising from the difficulty of recognizing submarines operating in the vicinities of seas adjacent to Japan, vessels navigating or operating in the localities where submarines might be met with are warned to take notice of the following signals:—

(i.) During the operations of submarines two B flags of the International Code are displayed at the masthead or yardarm of the vessel accompanying the submarines, indicating that such submarines are operating within the radius of 5 sea miles. If necessary the direction with respect to the parent vessel will be indicated by signals in the International Code.

(ii.) When vessels recognize any such parent ship exhibiting the above-described signal it will be necessary to observe closely her movements and any further signals exhibited by that vessel, and moreover to keep a sharp look-out over the surface of the sea.

(iii.) As submarines usually avoid the channels most used by navigation (except where this is impracticable), vessels should therefore, as far as possible, endeavour not to proceed outside such usual channels.

SCHOOL FOR THE DEAF, NEAR SUMNER, CHRISTCHURCH.

UNDER THE CONTROL AND SUPERVISION OF THE EDUCATION DEPARTMENT.

Director: Mr. J. E. STEVENS.

FOR Deaf Children of sound intellect. The pupils are taught to understand and use ordinary speech. The full charge for board and education is £40 a year, but less is accepted from parents who cannot afford to pay this amount. In case of necessity admission is free.

By the Education Act it is compulsory for deaf children to come under instruction at the age of six, and to continue until the age of twenty-one unless the Education Department previously grants exemption. Though a child is, as a rule, best fitted to begin the school course at the age of six, advice should be obtained as soon as any sign of deafness is observed.

The following classes of deaf children are admitted to the School for the Deaf (sound intellect being always a necessity):—

1. Children born deaf, or who have lost their hearing before learning to speak.
2. Children who can hear a little, but are too deaf to be taught in a public school.
3. Children who have lost their hearing after having learned to speak.

The Act imposes upon every parent, teacher of a school (either public or private), constable, or officer of a charitable or kindred institution who is aware of the place of residence (either temporary or permanent) of a deaf child, and the householder in whose house any such child resides, an obligation to send notification of the fact to the Minister of Education, giving the name, age, and address of the child; and any neglect or failure to comply with this provision involves liability to a fine.

Information and advice may be obtained from the Director, or from the

SECRETARY TO THE
EDUCATION DEPARTMENT.
