Present:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

IN pursuance and exercise of the power and authority conferred upon him by the Electric-power Boards Act, 1918, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby make the following regulations as to the election of members of Electric-power Boards in combined districts.

REGULATIONS.

(1.) SUBJECT to the express provisions of these regulations, the election of representatives of a combined district shall be held under the provisions of the Local Elections and Polls Act, 1908, and that Act shall apply accordingly as if such combined district were a district within the meaning thereof.

(2.) Every candidate at any such election of representatives of a combined district shall at the time of his nomination deposit the sum of £3 with the Returning Officer; and if that candidate does not receive one-eighth of the votes received by the successful candidate or, as the case may be, by the successful candidate receiving the fewest votes, the deposit shall be forfeited to the principal local authority of the combined district, and applied towards the cost of the election; but otherwise, or if the candidate duly withdraws his nomination before the election, or is elected without a poll, the deposit shall be returned to him.

(3.) The Returning Officer of each principal local authority of a combined district, or, where there is more than one Returning Officer, the Returning Officer for the subdivision of the district in which or nearest to which the public office of that local authority is situated, shall be the Returning Officer for the election of representatives of the combined district.

of such combined districts; provided that every elector on such rolls shall have only one vote at the election.

(5.) The local authority of each constituent district in a combined district shall, on or before the day fixed for nominations, supply the Returning Officer with as many copies of the electors roll of its district as may be required for the purposes of the election.

(6.) In the case of any constituent district comprising only part of a borough, county, town district, or road district, the Clerk of any such borough, county, town district, or road district shall prepare from the existing roll thereof a list of the electors whose qualifications as such arise within or relate to the part of the borough, county, town district, or road district forming the constituent district, and such list of electors when certified by the Clerk preparing the same shall form and be the electors roll for such constituent district; and it shall be the duty of the Clerk preparing any such roll to supply to the Returning Officer, on or before the day fixed for nominations, as many copies of such roll as he may require for the purposes of the election, and the cost of preparing such separate roll shall be part of the cost of the election.

(7.) The cost of any election within a combined district shall be borne and paid by the several local authorities of the constituent districts included in such combined district in the proportion which the unimproved value of the constituent district bears to the total unimproved value of the combined district.

(8.) The Returning Officer shall provide such polling-booths throughout the combined district as he considers necessary, and shall appoint as many Deputy Returning Officers and poll-clerks as are required for the effective taking of the poll at every such polling-booth.

(9.) The poll shall close throughout the combined district at the hour at which it closes for an election in the district of the principal local authority.

(10.) As soon as conveniently may be after ascertaining the result of any election, the Returning Officer therefor shall notify the Minister of Public Works of the result.
