Education Department,
Wellington, 26th March, 1920.

IN accordance with the provisions of the Education Act, 1914 (hereinafter called "the Education Act"), and with the powers thereunder, I, Francis Henry Dillon Bell, Minister of Education, do hereby, on the advice of the General Council of Education, approve of the following scheme for the Wellington College and Wellington Girls' College (hereinafter called "the schools"), which are established under the provisions of the Wellington College and Girls' High School Act, 1887.

1. The schools shall be controlled by the Board of Governors (hereinafter referred to as "the Board") constituted by the Wellington College and Girls' High School Act, 1887.

2. (1.) The schools shall provide a course of general secondary education and one or more vocational courses.

(2.) The programme of each pupil shall be determined by the Principal after consultation with the parents or guardian, but in all cases the programme of each girl shall include adequate instruction in elementary domestic science and hygiene, and in one or more of the domestic arts, extending in general over not less than two years of the secondary course provided. No pupil shall be compelled to take Latin or to take more than one language besides English.

(3.) The fees to be charged to those who are not holders of scholarships or free places shall be £4 8s. per term for senior pupils, £3 10s. 8d. per term for junior pupils (i.e., pupils under fourteen), and £3 10s. per term for pupils of the lower department, subject to a discount of 10 per cent. if paid within ten days from the first day of the term.

(4.) The school year shall consist of three terms of about thirteen weeks each, and the school holidays shall be arranged as far as possible so that schools are closed at the same time as the public schools of the district.

(5.) The headmaster or headmistress shall cause the school to be examined during each term; provided that it shall not be necessary for the school to be so examined in any term in which it is examined by some person appointed by the Minister or the Board; and provided further that it shall not be necessary to include in such examination pupils sitting for public examinations during the term.

3. Subject to the general direction and control of the Board, the headmaster shall have the following powers with respect to the boys' school, and the headmistress shall have similar powers with respect to the girls' school:—

(1.) He shall have control of the school buildings and premises, and of the apparatus and furniture thereof.

(2.) He shall have the power to recommend the appointment or dismissal of assistant teachers or of other officers of the school, and to allot their several duties; and no assistant teacher or other officer of the school shall be appointed until the headmaster has been consulted.

(3.) He shall have the power in cases of grave neglect of duty or of gross misbehaviour to suspend any assistant teacher or other officer, but shall forthwith report his action to the Board, which shall at its next meeting confirm or over-rule his action; but the action of the headmaster shall hold good until the Board has determined the matter.

(4.) He shall be supreme over the discipline, and may suspend any pupil, reporting his action to the Board at its next meeting, and the action of the headmaster shall hold good until the Board has come to some determination in regard to the matter. He shall not expel any pupil without the sanction of the Board.

(5.) He shall regulate all text-books, methods, and organization, and, subject to clause 2 hereof and to the regulations under the Education Act, he shall determine the course of study for each pupil; provided that when any change is made in the text-books used by junior free pupils the books shall be selected from a list approved by the Minister of Education.

4. The Board may establish or license hostels or boarding-houses for the accommodation of pupils who have to live away from home, and may place such hostels or boardinghouses under the charge of teachers of the schools or other suitable persons, and shall provide for the inspection of such hostels or boardinghouses by some person appointed by the Board.

5. The schools shall be open to inspection as provided by section 96 of the Education Act.

The block is situated near Lake Rotoma, and is distant about twenty-eight miles by road from Rotorua, fourteen miles from Matata, and five miles and a half from Te Teko. Provision is being made for the construction of the necessary roads of access. The altitude ranges from about 300 ft. to 400 ft. above sea-level at the eastern end of the block, and about 1,200 ft. to 1,300 ft. at the western end. The larger portion of the sections lying to the north and east of Lake Rotoma are undulating to hilly, with flat valleys between the hills and covered with heavy mixed bush and dense undergrowth, the milling-timber being of limited quantity and scattered. The sections lying near Te Teko are partly heavy bush and partly fern land, and are of a more or less rough nature. The soil generally is pumice loam of fair quality resting on pumice and sandstone, and covered with a sprinkling of black volcanic ash. Dairying is being carried on by settlers in the vicinity, and the smaller sections towards the north and west should be adaptable to this class of farming, the larger areas to the east and south being more suitable for grazing. The following sections are watered by creeks or streams: Sections 12, 13, and 18, Block VII, Sections 7, 8, 9, 11, and 13, Block VIII, and Sections 4 and 8, Block XI. The remaining sections are either without water-supply or poorly provided, and artificial means will be required to secure or augment the necessary supply. There is a good rainfall in the locality.
