*Warrant authorizing the Southland County Council to construct a Bridge over the New River Estuary (together with Approaches thereto), and apportioning the Cost.*

LIVERPOOL, Governor-General.

WHEREAS by section one hundred and nineteen of the Public Works Act, 1908 (hereinafter termed "the said Act"), it is, *inter alia*, enacted that in any case where the local authority of any district desires to construct a bridge or to establish a ferry or ford in any position that will, in its opinion, be of advantage and benefit to the whole or any considerable portion of the inhabitants of an adjacent district as well as to the inhabitants of its own district, and where it is, in the opinion of such local authority,

reasonable that the local authority of such adjacent district should contribute to the cost of constructing or establishing the said bridge, ferry, or ford, the provisions of the said section shall have effect:

And whereas the Southland County Council has given notice and taken the steps required by the said Act, and has made application to the Governor-General to authorize the construction of a bridge over the New River Estuary (together with approaches thereto), and to apportion the cost of constructing and establishing such work between the Southland County Council, the Invercargill Borough Council, and the South Invercargill Borough Council:

And whereas it is also provided in the said Act that the Governor-General (with the view of determining whether or not the work should be done, or what proportion, if any, of the cost of same should fairly be borne by any local authority, or what local authority should do the work) may direct any Magistrate or other person to be a Commissioner to inquire into and report to him on the matter:

And whereas by section four of the Public Works Amendment Act, 1908, the said section one hundred and nineteen of the Public Works Act, 1908, was amended so as to enable the Governor-General to authorize the work to be executed either as originally proposed or with such alterations as are agreed on between the local authorities concerned, or as are recommended by the Commissioner:

And whereas a Commissioner was appointed and an inquiry was duly held in the manner provided by the said Act in respect to the work proposed to be executed, and in respect also to the apportionment of the cost of constructing such work:

And whereas such Commissioner did report to the Governor-General, after due inquiry, his opinion as to the matters respecting which he was appointed to report, and recommended that instead of the work originally proposed the work described in the Schedule hereto, and hereinafter referred to as "the said work," should be carried out:

And whereas the Invercargill Borough Council has consented to the issue of a Warrant authorizing the construction of the said work, and agreed with the Southland County Council as to the proportion of the cost of the said work which each shall have to pay:

And whereas I am of opinion that the said work should be done, and it is expedient to make provision under the said Act for the purposes and in the manner hereinafter set forth:

Now, therefore, I, Arthur William de Brito Savile, Earl of Liverpool, the Governor-General of the Dominion of New Zealand, in pursuance and exercise of the powers vested in me by the said Act, and of all other powers and authorities in anywise enabling me in this behalf, do hereby authorize the Southland County Council to execute the said work; and I do hereby declare that the cost of the actual structural part of the said bridge extending over the channel of the New River Estuary shall be borne by the Southland County Council and the Invercargill Borough Council in the following proportions—viz., the Southland County Council to bear seventeen twenty-seconds and the Invercargill Borough Council to bear five twenty-seconds of such cost respectively; and I do hereby further declare that the Southland County Council shall bear the whole cost of the remainder of the said work.

And I do hereby further direct that any contribution hereby required to be made as aforesaid by the Invercargill Borough Council shall be paid from time to time out of the funds of the said borough within a period of one month after demand in writing made by or on behalf of the Southland County Council as the work proceeds, and all such payments for and on account of the said Invercargill Borough Council shall be made to the Clerk of the Southland County Council.

This Warrant is subject to the Order in Council authorizing the Invercargill-Otatara tramway, except as to the structural part of the bridge across the channel, which shall be free from the said Order in Council, and over which there shall not be any right to lay, construct, or maintain any tramway.

And whereas by the said section one hundred and twenty it is, *inter alia*, provided that the Governor-General may, with the view of determining what proportion (if any) of the cost of maintaining, repairing, improving, or reconstructing any such bridge should be borne by any local authority or local authorities, direct any Magistrate or other person to be a Commissioner to inquire and report to him upon any matter which he shall deem necessary to enable him to determine any such question as aforesaid:

And whereas a Commissioner was appointed for the purpose as aforesaid, and an inquiry duly held:

And whereas such Commissioner did report to the Governor-General, after due inquiry, his opinion thereon:

And whereas the Governor-General is of opinion that it is equitable that the cost of maintaining, repairing, improving, or reconstructing the bridge mentioned in the Schedule hereto should be provided and paid in the manner hereinafter set forth:

Now, therefore, I, Arthur William de Brito Savile, Earl of Liverpool, the Governor-General of the Dominion of New Zealand, in pursuance and exercise of the powers and authorities vested in me by the said Act, and of every other power and authority in anywise enabling me in this behalf, do hereby direct that the bridge described in the Schedule hereto (and hereinafter called "the said bridge") shall, from and after the date of gazetting hereof, be under the exclusive care, control, and management of the Kairanga County Council; and, in further pursuance and exercise of the powers aforesaid, I do hereby fix and determine that the cost of maintaining, repairing, improving, or reconstructing the said bridge shall be borne by the Kairanga County Council.

NOTE.—A cloudy and unsettled month, with moderate to strong southerly winds prevailing. Total bright sunshine 125 hours 41 minutes, and three sunless days. Hail fell on the 27th and 28th, and thunder on the 28th. Mean earth-temperature at 1 ft. was 51.1°; and 55.3° at 3 ft. Mean dew-point, 42.3°; mean elastic force of vapour, 0.28 in.; and mean relative humidity, 77 per cent. of saturation.

SUMMARY FOR THE MONTH OF MAY, 1920.

The May rainfall was below the average in all but the northern and southernmost districts and in parts of North Canterbury. The weather, however, was very unsettled, particularly during the last half of the month, when some very intense and extensive westerly disturbances accounted for a prevalence of strong west to southwest winds and squally, showery conditions.

From the 10th to the 13th, while a cyclone passed in the North, dull misty weather was experienced with occasional heavy rain in the northern and East Coast districts.

Anticyclonic conditions ruled between the 4th and 9th, and this was the only period during which fair weather prevailed over the whole Dominion.

There are several horse and foot tracks which traverse different parts of the block, and a stock-bridge has been erected over the Ongarue River leading to the sections. The country is mostly undulating to hilly and broken, and (with the exception of Sections 1, 2, and 3, Block V, Hurakia Survey District) is more or less well watered by streams. The altitude ranges from about 700 ft. to about 2,700 ft. above sea-level.

The balance of the sections are either partly or wholly covered with heavy bush, comprising chiefly tawa, rata, totara, matai, rimu, and kahikatea, with heavy undergrowth of mahoe, makomako, konini, &c., the soil being fair to good pumice loam resting on sandstone or rhyolite forma-

tion. The open country contains numerous ploughable flats, which should be suitable for growing turnips or winter feed, and the land should make good sheep and cattle country when cleared and grassed.

**SPECIAL CONDITION.**

Public right of use of all existing tracks is reserved until the surveyed roads have been opened for traffic.

Sale posters and full particulars may be obtained at this office.
