SUMMARY FOR THE MONTH OF JULY, 1920.

The July rainfall totals were generally above the average in the southern half of the South Island, but nearly all other parts of the Dominion recorded a deficiency. The first half of the month was characterized by unsettled, mild, dull, and wet weather, chiefly the effect of a prolonged westerly low-pressure area. On the 17th an anti-cyclone overspread the Dominion, and continued until the close of the month. During this period fair weather ruled, though at times easterly winds brought cold, changeable conditions along the east coast of the North Island. The last half of the month was remarkable for the number of frosts in places where they are unusual, and many stations reported the hardest frosts experienced for many years.

## New Zealand Clearing Office Announcement.—German Debts.

Wellington, 30th August, 1920.

THE Controller of the Clearing Office desires to warn the public that the Imperial authorities advise attempts are being made by German agents or principals to obtain direct settlement or payment of their pre-war debts from their British creditors.

By the terms of the Treaty of Peace Order, 1920, it is unlawful for any person to pay or accept payment of a debt coming within the provisions of Article 296 of the Treaty of Peace of Versailles, and communication between the parties interested as debtor or creditor is forbidden. Any person contravening this provision is liable to be proceeded against and punished as if he had been guilty of the offence of trading with the enemy. Severe penalties are similarly imposed by German law on German nationals contravening this provision of the Treaty.

Persons or firms to whom overtures have been or may be made for the settlement of pre-war debts except through the Clearing Office are requested to communicate immediately full particulars to the Controller of the New Zealand Clearing Office, Public Trust Office, Wellington.

New Zealand nationals who are creditors of German nationals in respect of pre-war debts, and who have not yet notified their claims to the Clearing Office, should do so before the 30th September, 1920, after which date no such claims will be considered.

ROBERT TRIGGS,  
Controller, New Zealand Clearing Office.

METHOD OF EXPRESSING ASTRONOMICAL TIME IN NAUTICAL ALMANAC.—INTENDED CHANGE.

Attention is drawn to the following information with regard to the method of expressing Greenwich mean time in the Nautical Almanac, and intended change therein.

In both the abridged and complete Nautical Almanac the times styled G.M.T. are at present reckoned from noon, corresponding to 12 hours (civil time); but from the year 1925 inclusive and thenceforward the times styled G.M.T. in these publications will be given commencing at midnight, to conform with civil time; the term "Greenwich mean time" will then be considered to be the standard time of the meridian of Greenwich, commencing at midnight and reckoned throughout the twenty-four hours.

Printed slips drawing attention to the above will shortly be available, and may be obtained from J. D. Potter (agent for the sale of Admiralty Charts) or his sub-agents. These slips are intended to be pasted in Nautical Almanacs already for sale, and the information on the slip will be printed in editions of the Nautical Almanac now preparing.

Further notices will be issued illustrating or referring to the manner in which Nautical Almanacs of 1925 and onwards will differ from those relating to previous years.
