PURSUANT to section 12 of the Local Bodies' Loans Act, 1913, I hereby give notice that at the poll of ratepayers of the Ashley County held on the 19th day of October, 1920, the following were the number of valid votes recorded: For the proposal, 39 votes; against the proposal, 126 votes.

I hereby declare the said proposal not carried.

Dated this 23rd day of October, 1920.

JOHN S. HIATT,  
 Chairman, Ashley County Council.

Subsidies to Public Libraries in Country Districts.

Education Department,  
 Wellington, 30th October, 1920.

NOTICE is hereby given that the sum of £3,000 has been voted by Parliament for distribution to public libraries in country districts.

The distribution will take place about the 1st March, 1921, and no claim will be entitled to consideration that is not sent in in due form and received by the Secretary, Education Department, Wellington, on or before the 25th January, 1921.

1. A library to be entitled to a subsidy must be public in the sense of belonging to the public, and of not being under the control of an association, society, or club whose membership is composed of a section of the community only; and if it is within a borough a reading-room where the books may be read, and containing newspapers and periodicals, must be provided for the public free of charge; in addition, it must not be situated in a borough, town, or town district the population of which exceeds fifteen hundred. The receipts for the year from subscriptions, donations, and voluntary contributions must not have been less than £2, exclusive of moneys received from endowments, or from Government, or from Borough or County Councils, or for special building purposes, or as rent, hire, or consideration for the use of any room, or building, or land belonging to the institution, in respect of none of which will subsidy be allowed. The net proceeds of concerts, lectures, or other entertainments on behalf of the current expenses of the library will be regarded as voluntary contributions. The number of members subscribing to the library during the year must not have been less than eight, each of whom must have paid the subscription for at least six months. A subsidy will not be given to more than one library in the same town.

2. In the distribution of the vote a nominal addition of £25 will be made to the amount of the income of each library derived from subscriptions, donations, and rates, and the vote will be divided according to the amounts thus augmented; but no library will receive credit for a larger income than £25—that is, in no case will the augmented amount on which distribution is based exceed £50.

3. The whole of the subsidy must be expended without delay in the purchase or loan of books for the library.

4. It is particularly enjoined upon the authorities in charge of the public libraries concerned that a due proportion of the books purchased shall be books having a permanent value—that is, on books of more than merely passing interest.

5. Application to share in the distribution must be by means of a statutory declaration by the Chairman, or Secretary, or Treasurer of the institution on behalf of which it is made, and must be accompanied by a statement of the receipts and payments of the institution for the year ending on the 31st day of December, 1920, and such declaration must

be on the form provided for the purpose, which form shall be as follows:—

## DECLARATION.

I, [Name], of [Place of abode], [Occupation], do solemnly and sincerely declare that I am Chairman [or Secretary, or Treasurer] of the [Name of institution]; that during the year ending on the 31st day of December, 1920, the receipts of the aforesaid institution for the maintenance of the library only were as follows: From rates levied by a local governing body under Part I of the Libraries and Mechanics' Institutes Act, 1908, or the Municipal Corporations Act, 1908, pounds shillings and pence; from the subscriptions of members, pounds shillings and pence; from voluntary contributions other than members' subscriptions and from net proceeds of entertainments, pounds shillings and pence; that the library is public in the sense of belonging to the public, and is not under the control of an association, society, or club whose membership is composed of a section of the community only; that the information hereinafter furnished by me in the appendix hereto is correct in every particular; that the abstract of accounts is a true statement of the receipts and payments of the institution for the year herein specified; that the whole of the subsidy received in the year 1920 was expended in the purchase of books for the library; [and that by the rules of the library the reading-room is open to the public free of charge].

And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the Justices of the Peace Act, 1908.

[Signature.]

Declared at , this day of , 19 ,  
before me— , Justice of the Peace [or Solicitor,  
or Notary Public].

[Here affix and cancel a stamp at 2s.]

[NOTE.—The words relating to the 1920 subsidy and to free admission may be struck out if they are not applicable. The words in brackets are not part of the form, but indicate matter to be inserted or substituted.]

6. Copies of the form of application may be obtained from the Secretary, Education Department, Wellington, and from the Secretary of any Education Board.

C. J. PARR, Minister of Education.

#### PART II.

##### BUILDINGS.

3. *Regulations.*—No person shall erect, add to, alter, or repair any building within the district except in conformity with the following provisions.

4. *Definition of Site.*—The ground upon which any dwellinghouse is erected, together with the whole curtilage thereof enclosed within the boundary fences, walls, or lines of the premises, shall be deemed to be the site of such dwellinghouse within the meaning of these by-laws.

5. *Definition of Building.*—"Building" means any structure or erection (even for a temporary purpose) enclosed within walls having a roof thereto and capable of affording protection or shelter, or which has or is adapted for including in its composition some one or more of the distinctive classes or features contemplated by and dealt with in this by-law, and includes any part of a building or anything affixed thereto.

6. *Buildings under Control of Road Board.*—Every building already erected, or that may be hereafter erected in the district, whether such building be built upon new or old foundations or upon foundations partly old and partly new, and whether such building be an addition to any building already erected, or which may be hereafter erected, and every other work, matter, or thing in respect of which provision is made in this by-law, shall be subject to the control and supervision of the Road Board, and shall be erected, fixed, added to, altered, renewed, or repaired only in accordance with the provisions of this by-law, or any other by-laws of the Road Board for the time being in force relating to buildings, or any Acts of Parliament affecting the premises. Provided always that the Board may delegate or refer any matter or thing connected with any such building or work, as also sundry or specific matters and things connected or usually connected with this by-law, to the Road Board Engineer or Inspector for his approval, direction, discretion, or determination.

7. *Definition of New Dwellinghouse.*—The erection of a dwellinghouse upon vacant land or upon a site previously occupied by any building, or the re-erection of any house pulled down to within five feet of the ground floor, or the

conversion into more than one dwellinghouse of a building originally constructed as one dwellinghouse only, or an addition to or raising of a house (so far as such addition or raising is concerned), or the procuring of an existing dwellinghouse or of any other building or part of a building intended to be re-erected and used as a dwellinghouse or part of a dwellinghouse upon the site, shall be deemed to be the erection of a new dwellinghouse within the meaning of these by-laws.

8. *Notice of Intention to build.*—Every person who shall intend to erect, add to, or renew a building of any description whatsoever shall give to the Board notice in writing of such intention, and at the same time deposit with the Board complete plans and specifications in duplicate (whereof one set shall be retained by the Board) of such intended work, the position, form, and dimensions of such building, and every water-closet, earth-closet, privy, ashpit, cesspool, and all other appurtenances, and of the yard or ground belonging thereto, and of the open space in front and in the rear and on each side, and the building shall be so described as to show whether it is intended to be used as a dwellinghouse or dwellinghouses, or otherwise, and shall give such further particulars as may be required; and no such work shall be commenced until such plans and specifications have been inspected by the proper officer of the Board, and permission given by him that the work may be commenced.

9. *Plans to be submitted.*—Such person shall at the same time deliver to the Board a block plan of such building, together with plan of drainage, and shall show the position of the building and appurtenances of the properties immediately adjoining, which said plan shall be retained by the Board. He shall also deposit with the Board a notice stating—

(a) The full name of the person on whose behalf the proposed work is to be done;

(b) The locality of such proposed work, together with description of site;

(c) The estimated cost of such work;

(d) An address within the road district to which all notices by the Inspector to be given under this by-law in respect of the proposed work can be sent.

10. *Plans, &c., to be signed.*—Such persons shall sign all such plans and specifications, or cause the same to be signed by his duly authorized agent.

11. *Inspection of Work.*—Every person who shall erect, add to, or renew a building, or execute any work to which this by-law relates, shall, at all reasonable times during the erection of such building or the execution of such work, and also upon the completion thereof, afford any officer of the Board free access to such building or work for the purpose of inspection.

12. *Building-site Area.*—Except as hereinafter provided, no person shall erect a new dwellinghouse in the district upon a site of less area than one-fifth of an acre, and unless such site shall have a frontage of at least fifty feet to a public road, provided that in the event of a person subdividing or cutting up any property in such manner that the sections fronting the road comply with the foregoing provision, leaving an area at the back of such sections, then such back area may be built upon if the same has a frontage of at least twelve feet in width to a public road: Provided, however, that no such back section shall be of a less area than one-quarter of an acre, and that not more than one single dwellinghouse shall be erected upon such back section.

13. *Building prohibited in certain Cases.*—If any person, being the owner of a site or allotment of ground having an area and frontage of such limited extent that not more than one new house can in compliance with these by-laws be erected thereon, shall erect a house upon any portion of such site, and shall after sell, lease, or otherwise dispose of such portion with the house thereon, it shall not be lawful for any person thereafter to erect a house upon the remaining area of the said site or allotment of ground.

14. *Exceptions.*—Clause 12 shall not prevent the erection of a shop with dwellingrooms attached upon any site having frontage to the main Auckland-Onehunga Road or to the Great South Road, provided that in the erection of such shop and dwellingrooms provision shall be made for the disposal of sewage and offensive matter from such shop and dwellingrooms thereto attached in accordance with any general conditions for such disposal which may be made by the said Board in respect of the special area, or such portion thereof in which the shop is intended to be erected, as the case may be. Conditions for building shops are in every case to be arranged with the Board.

15. *Provisional Section.*—The preceding clause 12 shall not apply to prevent the erection or re-erection of one new dwellinghouse on an allotment, lot, or section which does not comply with the requirements of section 12, but which is shown on any public plan lodged or deposited in the Deeds Registration Office or the District Land Registry Office at Auckland prior to the coming into operation of these by-laws, or on a site owned at the date of these by-laws by a person not owning any adjoining land.

16. *Site Formation*.—The ground on which any new building is erected, and the ground immediately adjoining any such new building, shall be so formed and graded that no water can lodge thereon or under such building, or run under such building, and no person shall commence the erection of any building upon any site having matter thereon which in the opinion of the Inspector might prove deleterious to the health of the occupants of such building until such matter has been removed to the satisfaction of such Inspector.

17. *Air-spaces*.—No person shall erect a new dwellinghouse in the district unless he provides at the side or in the rear thereof an open space exclusively belonging to such house, and of an aggregate area of not less than six hundred square feet: Provided that such open space shall extend throughout the entire width, or in the alternative throughout the entire depth, of the site, and shall be free from any erection thereon above the level of the ground, and shall be so maintained while the site is occupied by the house: Provided also that the minimum distance across such open space from every part of any dwellinghouse, or from every part of any washhouse, shed, convenience, or other erection belonging thereto, shall be as follows:—

- (a.) If the height of the house does not exceed fifteen feet: Fifteen feet.
- (b.) If the height exceeds fifteen feet, but does not exceed twenty-five feet: Twenty feet.
- (c.) If the height exceeds twenty-five feet, but does not exceed thirty-five feet: Twenty-five feet.
- (d.) If the height exceeds thirty-five feet: Thirty feet.
- (e.) The provisions of this clause shall be deemed to be complied with if the open space at the rear and side of any dwellinghouse is equal to one and one-half the area that would be required to be left at the side or at the rear if the provisions of this clause were complied with, even though the various subsections hereof have not been strictly complied with: Provided that the minimum distance across the open space so provided shall be clear of all obstructions for not less than fifteen feet from every part of the dwellinghouse.

For the purpose of these by-laws, where the side boundaries of any site are not of the same length, the mean length of such side boundaries shall be taken as the depth of the site for the purpose of defining the distance across such open space, and the height of a dwellinghouse shall for the purposes of these by-laws be measured from the average level of the ground immediately adjoining the side or rear of such dwellinghouse, as the case may be, to the level of half the vertical height of the roof or to the top of the parapet, whichever is the higher.

18. *Preventing Reduction of Space*.—No person shall make any alteration or addition to any dwellinghouse (whether erected before the coming into operation of these by-laws or not) whereby the open space attached to such dwellinghouse shall be diminished by such alteration or addition so as to leave a less open space than is required by these by-laws to be provided.

19. *Foundations of Concrete, &c.*—In any foundation wall, either of concrete, or bricks, or stone, either separate or conjoined, a proper damp-proof course of sheet 4 lb. lead, asphalt, or slates laid in cement, or other durable material impervious to moisture, shall be laid beneath the level of the lowest timbers and at a height of not less than six inches above the surface of the ground adjoining such wall.

20. *Materials*.—No person shall use any materials in the construction, alteration, or repairs to any one-story building within the One Tree Hill Road District of less dimensions than are specified in the following schedule:—

*Blocks*.—Sawn or split. Heart of totara or puriri, six inches by six inches, and such blocks shall be spaced at a distance of not more than four feet apart.

*Bottom Plates and Sleepers*.—Four inches by three inches. Heart of totara, kauri, or rimu.

*Jack Studs*.—Four inches by three inches. Heart of totara, kauri, or rimu. In every case where the height of jack studs exceeds six feet, the same shall be braced as hereinafter specified for external walls.

*Ground-floor Joists*.—Six inches by two inches. Heart of totara, kauri, rimu, or oregon. Spaced not more than twenty-inch centres.

*Vermin-plates*.—External walls, four by two inches; partition walls, three by two inches.

*Top Plates*.—Four by two inches external walls. Three by two inches partitions. Provided, however, that in the case of a building of more than one story the upper floor-plates shall not be less than four by three inches.

*Studs for External Walls*.—Four by two inches, spaced out by not more than twenty-inch centres. Kauri, rimu, totara, oregon, or matai: Provided, however, that in the case of a building of more than one story the external studs shall not be less than four by three inches.

*Studs for Partition Walls*.—Three by two inches, spaced not more than twenty-inch centres. Kauri, rimu, totara,

oregon, or matai. Provided, however, that in the case of a building of more than one story the studs for partition walls shall not be less than four by three inches.

*Braces on Studding*.—Four by one inch. Kauri, rimu, totara, or oregon. Not less than two braces for each external wall.

*Ceiling-joists*.—Kauri, rimu, totara, oregon, or matai. Three by two inches up to ten feet spans, over ten feet spans four by two inches; spaced twenty-inch centres for wood or lath and plaster ceilings, and not more than twenty-four-inch centres for fibrous plaster or asbestos sheeting.

*Rafters*.—Four by two inches, spaced not more than three feet apart. Kauri, rimu, totara, oregon, or matai.

*Collar-ties*.—Six by one inch. Ordinary building kauri or rimu.

*Purlins*.—Three by two inches. Kauri, rimu, totara, oregon, or matai.

*Hips, Valleys, and Ridges*.—Nine by one inch. Kauri, rimu, totara, oregon, or matai.

*Weatherboarding and all External Timber*.—To be heart of kauri, rimu, totara, or matai. All weatherboarding shall not be less than three-quarters of an inch in thickness, and must be inspected and passed before painting.

*Flooring*.—Not less than seven-eighths inch finished; tongued and grooved. Medium kauri, ordinary building, rimu, matai, or totara.

*Rough Lining*.—Not less than half-inch in thickness; all close jointed from floor to ceiling.

*Bridging*.—Joists for a span not exceeding twelve feet, nine by two inches. Joists for a span exceeding twelve feet, twelve by two inches. Upper floors having a span exceeding fourteen feet shall be strengthened by a herring-boning of two by two.

Any timber not otherwise specified shall be at least ordinary building rimu, matai, totara, or medium kauri, or other timber approved by the Board.

21. *Plates and Joists above Ground*.—No part of any plate or joist of any house shall be at a less distance in the case of a plate than three inches, and in the case of a joist than six inches, from any portion of the ground below or immediately adjoining such plate. The space between the lowest joist and the ground shall in all cases have sufficient and proper communication with the external air for the purpose of ventilation.

22. *Walls of Living-rooms*.—No room in any house, other than a bathroom, closet, or storeroom, shall have a less average height than nine feet six inches between the floor and the ceiling throughout an area equal to at least two-thirds of the floor space.

23. *Ventilation and Lighting*.—Every room (other than a storeroom) shall be provided with at least one window other than a skylight opening direct to the external air. Such window shall be movable or made to open, and the opening must extend to the top of the window, and the total glazed surface of such window or windows provided shall be equal in area to at least one-tenth of the floor-space of such room.

24. *Walls of Bathrooms and Closets*.—At least a portion of one wall of every bathroom or water-closet shall be in contact with the external air.

25. *Notice to take down, remove, or alter*.—If any building, dwellinghouse, or part of a dwellinghouse be erected, altered, or repaired contrary in any particular to the provisions of this by-law it shall be lawful for the Board to give notice in writing to the owner of such a dwellinghouse, within a time to be mentioned in such notice, to take down, remove, or alter such dwellinghouse or part of such dwellinghouse in such a manner that the provisions of this by-law shall be accurately fulfilled. Non-compliance with any such notice shall be deemed an offence, and shall be deemed a continuing offence during the period until such notice is complied with.

26. *Kahikatea Timber*.—No person shall use the timbers known as kahikatea or taraire in the construction, repairs, or alterations of any building within the One Tree Hill Road District.

27. *Site Boundaries*.—The wall of no building shall be erected at a less distance than three feet from the boundary of the site (other than the road frontage) unless the external walls of such building are constructed of brick, stone, or concrete.

28. *Removal of Building*.—No person shall remove a building from one part of the district to another part of the same district, or re-erect the same wholly or in part, or remove the same entire or in sections from one part of an allotment to another part thereof with the same intention, unless such person shall have made written application to the Inspector for permission so to do in the same manner and submitting the same plan and particulars as if the erection were a new one, and shall have satisfied the Inspector that the material proposed to be re-used is fit for the purpose and in accordance with this by-law, and shall have obtained from the Inspector permission for such removal or re-erection.

29. *Payment in respect of Permit.*—There shall be paid in respect of every permit issued under the provisions of clauses 8 and 28 the following fees :—

A minimum of 5s. on buildings, alterations, or additions up to £100, and a further 5s. for every additional £100 or part of £100 up to £500; and for every additional £100 or part of £100 above £500, 2s. 6d. All permits lapse if not acted on within six months.

30. *Use of Old Materials, &c.*—The use of any old materials, floors, roofs, internal walls, or other parts in any new building shall not prevent the said building from being classified as a new structure, although such old materials, floors, roofs, internal walls, or other parts may even have formed parts of a previous building on the same site.

31. *Unsuitable Materials.*—No person shall use any materials which shall be, in the opinion of the Building Inspector or the District Health Officer, unsuitable from any cause whatsoever for use in any building; and any materials which may be so declared unsuitable shall, within twenty-four hours, be removed by the person in charge of the works from the site of the proposed building.

32. *Building Regulations, Stables.*—No person shall build, erect, or put up any stable except in the following manner and in accordance with the following conditions, to wit :—

(a.) No stable (except one constructed of brick, stone, or concrete) shall be built within less than twenty-five feet of a dwelling, or three feet of the boundary of adjoining premises.

(b.) No ventilators or openings shall be made in the walls of stables within four and a half feet of the boundary of adjoining premises separately occupied or owned.

(c.) Floors of all stables shall be properly paved with stone, heart of totara, or other approved planks or wood blocks, concrete, asphalt, or iron tiles, laid with a proper fall into a trapped drain approved by the Inspector, and must at all times be kept in a thorough state of repair; and if of planks or wood blocks the joints shall be caulked and kept water-tight.

(d.) Should any stable existing at the coming into force of this by-law, and not constructed in accordance with the foregoing provisions, cause a nuisance or an injury to health owing to its mode of construction, or to the absence of any structural convenience therein or thereto, or by reason of the undue proximity of such stable to any adjoining premises, or by reason of any other matter or thing whatsoever, then and in every such case it shall be the duty of the owner or occupier of such stable, upon notice being served upon him by the Clerk so to do, and within a time by such notice limited, to execute and do such works and things as may be necessary to abate such nuisance as may be specified in such notice.

33. *Manure-pits.*—All manure-pits must be constructed of concrete, brick, or stone, and must not exceed two cubic yards in capacity, and must be emptied at least once a week.

34. *Temporary Structure.*—No person shall erect or put up any tent, marquee, pavilion, portable enclosure, or temporary structure without first having obtained the permission of the Board.

35. *Veranda.*—Any person erecting a veranda or balcony over the roadway does so at his own risk, and such veranda or balcony shall be suspended from the building with iron-work.

36. *Standing on Verandas.*—No person shall stand, walk, sit, or be or remain upon the roof of any veranda or portico erected over any footpath or other portion of any street.

37. *Exemption to Workmen.*—The foregoing provision shall not apply to any person actually engaged in erecting, repairing, or painting any such veranda or portico, or any part thereof, and who shall have obtained from the Board written permission so to do.

38. *Regulations as to Awnings.*—No person shall erect any awning over any street or footway, or hang the same from any veranda or balcony thereon or thereover, unless the lowest portion of the same is at least eight feet above the footpath level, and a permit for such awning has first been obtained from the Board. All awnings for which permission shall be granted shall be used only between sunrise and sunset.

39. *Keep in Repair.*—Every owner or occupier of any building against or in front of which there shall be any portico or veranda over any footway or street shall keep the same clean and in good repair, and shall paint same whenever directed by and to the approval of the Board.

40. *Obstructions prohibited.*—No person shall without the consent of the Board place or permit to be placed any obstruction upon any street, footway, private street or right-of-way, building, portico, or veranda, or suspend or permit to be suspended any flag, calico, or material over or across any street, footway, private street, or right-of-way, or part thereof.

40A. *Gates obstructing Footpath.*—No gate, door, window, or wicket shall open outwards across or partially across any public road or footpath.

41. *Regulations as to Erection of Lamps.*—No person shall erect, put up, or suspend from any veranda or from the face of any building any lamp over or across any street or public place unless he shall first have obtained a permit so to do from the Board, and shall conform to the following specification :—

(a.) A distance from the footpath to the under side of such lamp shall not be less than eight feet.

(b.) The overall diameter of such lamp shades and fixings shall not exceed eighteen inches.

(c.) The writing on such lamp shall be of letters not more than two inches in diameter, provided that if such writing cannot be placed on the glass of such lamp it may be written on a strip affixed to such lamp and either wholly or partially encircling such lamp.

42. *Regulations as to Signs.*—No person shall paint, write, or affix any sign on or to any veranda except as follows :—

(a.) Upon the front facia of such veranda, and such sign shall not have a greater vertical width than twelve inches.

(b.) Upon the front of any veranda parallel to the front of any building to which such veranda is attached, but so that no structure other than a galvanized-iron, copper, or brass wire mesh screen not exceeding two feet in height shall be erected, and that only letters or other devices approved by the Board shall be affixed. Provided that electric signs may be erected subject to the approval of the Board.

(c.) Under any veranda with a lean-to or curved roof, but so as to wholly fit in the space contained by a horizontal line drawn level with the under side of the plate and line of the roof and at right angles to the line of the veranda.

(d.) Under any suspended veranda with a flat ceiling, but so that no sign shall have a greater vertical width than twelve inches, and that the lower edge of any sign shall not be less than ten feet above the surface of the pavement.

(e.) Not more than two signs shall be provided on the same frontage for any separately occupied premises.

(f.) A permit for the erection of any sign shall be first obtained from the Board, and the sign shall be constructed, erected, and maintained to the satisfaction of the Board.

43. *Description of Signs.*—All signs referred to in clause 42 shall be connected with the business or businesses carried on in such building.

44. *Definition.*—The provisions of sections 42 and 43 of this by-law shall apply only to buildings, porticoes, verandas, or awnings which project over or front directly on to a public street or some part thereof, and in the said sections the word "veranda" shall include a portico and an awning.

45. *Work to be constructed substantially.*—All work of every description affected by any provision of this Part of this by-law must be constructed in a substantial and workman-like manner, and with approved materials.

46. *Timber in External Walls of Brick.*—All woodwork fixed in any external wall constructed of brick, stone, or concrete, and frames of doors and windows of shops on the ground story of any building, shall be set back at least four inches from the external face of such wall, except in the case of shop fronts, doors and windows opening outwards, four-and-a-half-inch walls, or buildings with walls of reinforced concrete, where the timber may be flush. The walls supporting shop windows may be constructed of timber, when such walls shall not exceed two feet in height from underside of sill to surface of footpath.

47. *Internal Walls, Partitions, and Ceilings.*—The internal walls, partitions, and ceilings of every brick, stone, or concrete building shall be constructed of or lined with fireproof material, except in the case of glazed partitions, the sashes of which may be constructed of timber, provided that the Inspector may grant permits for dados of wood up to eight feet in height, and not necessarily filled in solid between such dado and the wall.

48. *Drying-rooms.*—The walls, floors, and ceilings of all rooms used as drying-rooms in laundries, dye-works, and other such establishments shall be constructed of or lined with fireproof material.

49. *Gas Fires.*—No person shall fix or use any gas fire in any building except it shall be encased all round, with the exception of the front, in brick, stone, or concrete of a minimum thickness of four and a half inches, and the flue constructed of proper brickwork, concrete, or earthenware pipe carried through the roof or wall to the outer air, and separated from any woodwork by at least three inches. This shall not prevent the use of a properly constructed and self-contained gas, oil, or other heater, subject to it being placed so as not to cause any risk of fire by overheating of the wood-

work of any building. All gas or oil cooking-stoves shall be provided with a properly constructed flue to carry the fumes into a chimney or into the outer air.

50. *Distance from Woodwork.*—Every oven, furnace, close fire, or forge for the purpose of trade or manufacture, must not be less than eighteen inches from any woodwork in any direction.

51. *Tenement or Apartment Houses.*—Every tenement building or apartment building hereafter erected shall be erected of brick, stone, or concrete, and shall be subdivided by party walls, and provided with fireproof floors, as may be directed by the Inspector. Staircases leading to the various floors shall be of fireproof material, and shall be enclosed between brick, stone, or concrete walls, and shall not be less than three feet in width, with an addition of one foot fairway for each additional floor.

52. *Furnaces, Forges, Ovens, Detached Stoves, Coppers, &c.*—There shall be a distance of not less than eighteen inches between every moveable stove, grate, or other apparatus for consuming coal, coke, or wood fire, and any external and internal or party wall or partition not constructed of brick, stone, or concrete.

53. *Furnaces, Fireplaces, and Chimneys.*—All furnaces and fireplaces hereafter constructed shall be constructed of brick, stone, or concrete, and (except as hereinafter provided) from a solid and approved foundation in the ground, and each furnace or fireplace shall have a separate and independent flue, except in the case of washhouse boilers, the flue from which may be led into a kitchen flue, when a suitable soot-door must be provided.

54. *Smoke Pipe or Funnel not to be erected without Permit.*—It shall not be lawful to erect any smoke pipe or funnel leading into the outer air composed of other material than brick, stone, or concrete, unless special permission be granted in writing by the Board, and the Board may, in granting such permission, impose such terms as to material and otherwise as it may deem to be necessary in each case.

55. *Regulations as to Chimneys.*—The jambs of every chimney must not be less than nine inches wide on each side of the opening; the breast of every chimney, and the front, back, withes, or partition of every flue, must be at the least four and a half inches in thickness, of brick, and the joints, both bedding and vertical, of the work must be filled with mortar and neatly struck. The inside of every flue must be pargetted or lined with fireproof piping, and the flues of all chimneys erected outside a wooden building must be similarly pargetted or lined, and the outside of stack from start of the gathering-in, unless forming part of the outer face of an external wall, must be rendered with cement mortar at least half an inch in thickness, and no flue, except for coppers, shall be less than nine inches by nine inches internal diameter. Flues for coppers to be not less than nine inches by four and a half inches. The cappings of all chimneys must be built in cement mortar.

Provided always that the Inspector may require increased thickness of brickwork to flues in the case of hotels, large boardinghouses, factories, and other places where he may consider such precautions to be necessary.

56. *Arch over Fireplace.*—An arch of brick, stone, or concrete, bars of wrought iron not less than two and a half inches in breadth by three-eighths of an inch in thickness, or cast-iron plates or lintels of approved make, must be built over the opening of each fireplace to support the chimney-breast. Should the jamb on either side be of less width than fourteen inches, and wrought-iron arch-bars be employed to carry the chimney-breast, the abutments must be tied in by the said iron arch-bars being turned up and set down three inches at the ends.

57. *Regulations as to Hearths.*—The back of every fireplace opening in any building must be carried up to the top of the opening at least nine inches thick. The front and back hearths of every fireplace must be laid and bedded wholly on brick, stone, or concrete, which must be solid for a depth of two inches at the least below the surface of the hearth, and all hearths shall be supported upon four and a half inches brick trimmer-arches, or four inches of concrete carried upon iron centering or four and a half inch fender-walls. Front hearths must extend nine inches at least on each side of the fireplace opening, and be not less than fifteen inches wide.

58. *Materials for Chimneys, &c.*—Every chimney and chimney-stack, when detached from main brick, stone, or concrete walls, must be built wholly of concrete, stone, or brick, with joints of mortar, and every such chimney or chimney-stack must be built from its foundation in the ground to the top thereof without any corbelling over, except for the free passage of flues, and in any such case the extent of such corbelling shall not exceed four and a half inches on each side longitudinally of the said chimney or chimney-stack.

59. *Regulations as to Corbels.*—Chimneys in brick, stone, or concrete walls, built on sufficient corbels of brick, stone, or concrete, may be introduced above the level of the ceiling of

the ground story if the work so corbelled out does not project from the wall more than the thickness of the wall, provided that this does not exceed eighteen inches.

If such corbel shall be of stone, concrete, or similar material, it shall be built in the wall for the same distance as it projects from the wall, but in no case shall it be built in the wall less than nine inches.

60. *Height of Chimney Shafts or Flues.*—Chimney shafts or flues hereafter erected or repaired shall be carried up to a height not less than four feet nor more than eight feet above the highest part of the roof, unless properly supported by iron stays, measured at the highest part of the junction thereto, except in the case of factories or similar buildings, in which case chimneys shall be built up to the height and dimensions required by the Inspector.

61. *Without Permit.*—No chimney shaft, jamb, breast, or flue already built, or hereafter to be built, shall be cut into for any purpose whatever without the consent in writing of the Board having been first obtained.

62. *Materials to be used in Alterations or Renewals.*—Whenever any chimney or chimney-stack, chimney-furnace, fireplace, smoke-pipe, funnel, jamb, breast, flue, arch, hearth, back hearth, or other structure forming part of or being in connection with a chimney, chimney-stack, chimney-furnace, or fireplace, shall be altered, added to, or renewed, the same shall, unless otherwise stated in any particular case in this Part of this by-law, be altered, added to, repaired, or renewed with and of the same materials as those of which the same is by this Part of this by-law required to be originally constructed, and with the like precautions and in like manner.

63. *Regulations as to Woodwork.*—No timber or woodwork shall be placed in any wall or chimney-breast nearer than eight and a half inches to the inside of any flue or fireplace opening, or under any fireplace opening within eight inches from the upper surface of the hearth of such fireplace opening, or within one inch from the face of the brickwork or stonework about any chimney or flue, where the substance of such brickwork or stonework is less than eight and a half inches thick, unless the face of such brickwork or stonework is rendered. No wooden pegs shall be driven nearer than six inches to the inside of the flue or fireplace opening, nor any iron holdfast or other iron fastening nearer than two inches thereto.

64. *Theatres and Buildings for Public Performances or Amusement.*—Every theatre, opera house, public hall, or other building intended to be used generally for theatrical or operatic purposes, or for the exhibition of moving pictures, and every public hall or building intended to be used for public performances, exhibition, or entertainments, hereafter erected, for the seating accommodation of more than five hundred persons, shall be built to comply with the special provisions of this Part of this by-law, and shall be erected of brick, stone, or concrete.

65. *Buildings must be made to conform to By-law.*—No building already erected which at the time of the passing of this by-law is not in actual use and licensed for theatrical, operatic, or public entertainment purposes, which is not in conformity with the requirements of the said special provisions of this Part of this by-law, shall be used for theatrical or operatic purposes, or for the exhibition of moving pictures, or for public entertainments of any kind whatever, where stage scenery and apparatus are employed, until the same shall have been made to conform to the requirements of the said special provisions of this Part of this by-law.

66. *Entrance and Exit.*—Every theatre, opera house, public hall, or building intended for theatrical or operatic purposes, or for public performances, exhibitions, or entertainments, shall have at least one frontage to a street at least forty feet wide, in which frontage there shall be suitable means of entrance and exit for the audience. Any such building being capable of seating upwards of one thousand persons shall front a street not less than sixty-six feet in width.

67. *Emergency Exit.*—In addition to the aforesaid entrances and exits on the street, there shall be reserved for use, as a means of exit for the audience in case of emergency, an open court space or fireproof corridor on one side not bordering on the street where such building is located on a corner section, and an open court space or fireproof corridor on both sides of such building where there is but one frontage on a street.

68. *Width of Open Courts.*—The width of such open court or courts shall be not less than five feet where the seating accommodation is all on the ground floor and the building is not provided with balconies, and for buildings containing balconies or galleries, not less than eight feet where the seating-capacity is not over one thousand people, and where above one thousand people, ten feet in width. Such open court or courts shall begin on a line with or near the proscenium wall, or if there is no proscenium wall at the front of the auditorium, and shall extend the length of the auditorium proper, to or near the wall separating the same from the entrance lobby or vestibule.

69. *Ventilation.*—In every public building and workroom there shall be adequate means of ventilation to the satisfaction of the Board.

70. *Covering of Roof.*—The exterior of the roof or flat of every building to be hereafter erected shall be covered, repaired, or re-covered with slates, tiles, cement, concrete, galvanized iron, milled lead of not less than six pounds per square foot, or other approved material. No shingle roof shall be re-covered till the old shingles have first been taken off.

71. *Covering of Turrets, Dormers, &c.*—The external parts of every turret, dormer, lantern light, or other erection on the roof or flat of any building hereafter erected must be covered with slates, tiles, galvanized iron, metal, glass, artificial stone, or cement, except the door-frames and doors, louvre ventilators, window-frames, and sashes of such turrets, dormers, lantern lights, or other erections.

72. *Materials to be used in Rebuilding.*—If the external parts (except as aforesaid) of any such erection on the roof or flat of any building already or hereafter to be erected shall be rebuilt, or be stripped, ripped, or uncovered under process of repairs, the same must be covered or repaired with such materials as aforesaid.

73. *Gauge.*—Galvanized iron used for roofing purposes must be of not less than No. 26 gauge.

74. *Concrete Buildings.*—Before permission to erect any concrete or reinforced concrete structure is issued, complete drawings and specifications, together with statical calculations, must be deposited with the Road Board, showing all details of construction, the size, and position of all reinforcing rods and stirrups, and giving the composition of the concrete and percentage of reinforcement.

75. *Provision of Fire-escapes.*—The owner of any building shall provide, erect, and keep in position and in good working-order and condition such fire-escapes as the Inspector of Buildings shall decide to be necessary for such building.

76. *Work executed in Contravention of By-law.*—If any work to which any provision of this Part of this by-law may apply be begun or done in contravention thereof, the person by whom such work shall be so begun or done, by a notice in writing from the Board signed by the Clerk or by the Board, and duly served upon or delivered to such person, may be required, on or before such day as shall be specified in such notice, by a statement in writing under his hand or under the hand of an agent duly authorized in that behalf and addressed to and duly served upon the Board, to show sufficient cause why such work shall not be removed, altered, or pulled down, or may be required on such day and at such time and place as shall be specified in such notice to attend personally or by an agent duly authorized in that behalf before the Board, and show sufficient cause why such work shall not be removed, altered, or pulled down. If such person shall fail to show sufficient cause to the satisfaction of the Board why such work should not be removed, altered, or pulled down, or shall fail to attend in person or by such agent before the Board and show sufficient cause why such work should not be removed, altered, or pulled down, the Board shall be empowered, subject to any statutory provision in that behalf, to remove, alter, or pull down such work, and the costs of such removal, alteration, or pulling-down shall be borne by such person aforesaid; but neither this clause nor any proceedings thereunder shall relieve any person from any penalty under this by-law for breach of any of the provisions thereof.

77. *Roughcast Buildings.*—Buildings may be erected and coated with rough-cast plaster in lieu of weatherboards, provided the clauses specified for wood buildings are adhered to, and that in addition a horizontal band of noggin not less than four inches by one and a half inches is run around the building, cut in between the studs midway between top and bottom plates. Building paper (P. and B. Tarred) must be used to cover the framework, and must have at least one and a half inch laps over the joints, and paper to be secured to studs by vertical laths nailed to each stud. Laths of heart timber to carry plaster run horizontal, and must be nailed on with one and a half inch wire nails, leaving sufficient key for plaster. Wire netting to be securely stapled over the whole face of laths before plaster is fixed. Plaster is to be composed of a mixture of one part lime, one part cement, four parts sand, with cow-hair added.

78. *Power to Board to permit Erection.*—Notwithstanding the provisions of clause 12 of these by-laws, the said Board may permit the erection of a dwellinghouse upon an area in the district containing not less than one-fifth of an acre, which may not strictly comply with the requirements of the said clause 12, but which may in the opinion of the Board, having regard to its configuration and the particular circumstances of the case, be a fit and suitable site for the erection of a dwellinghouse.

### PART III.

#### CARE AND MANAGEMENT OF THE ROADS.

79. *Riding on Footpath prohibited.*—No person shall ride or lead or drive any horse or other animal, or wheel any barrow

or other vehicle, or ride or drive any cycle or other vehicle, upon or along any footpath.

80. *Preventing the Dragging of Material.*—No person shall drag or allow to be dragged on a road any timber or other heavy material not being wholly raised above the ground on wheels.

81. *Cattle wandering.*—No person shall permit any cattle to be at large without proper guidance, or to wander or to be herded or grazed, upon any road other than in the ordinary course of driving stock.

82. *Obstruction by Vehicles, &c.*—No person shall allow to remain upon any road any vehicle having no horse or other animal harnessed thereto, or any plough, harrow, reaping, threshing, or other machine; and no person shall leave any vehicle with any horse or animal harnessed thereto on any road unless one of the wheels is fastened to the vehicle by a chain, and shall not leave the same unattended longer than is reasonably necessary for loading or unloading goods.

83. *Obstruction by Materials.*—No person shall leave any timber, bricks, stone, building, or other material upon any road, or upon or over any channel or surface drain in any road, without the permission in writing of the Board having been first obtained.

84. *Offensive Droppings and Drainage.*—No person shall spill or permit any offensive matter or offensive liquid to run from any land, manufactory, building, or place into or upon any road, or any right-of-way, or any footpath, or channel or ditch.

85. *Rubbish Deposits, &c.*—No person shall throw, leave, or deposit upon any road or vacant allotment within the district any offensive matter, or any bottles, earthenware, china, or rubbish of any description.

86. *Burning Litter, &c.*—No person shall burn any litter, shavings, straw, or other materials or matter on any road, or on any open space near any building, without the consent in writing of the Board.

87. *Droppings of Eaves.*—No person shall allow any droppings of the eaves of any house, erection, or veranda to fall upon any road.

87A. *Overhanging Trees.*—No owner or occupier of land shall allow trees or shrubs growing thereon to overhang or encroach on any street, private street, or footway; and it shall be lawful for the Board to cause all trees or shrubs so overhanging or encroaching to be lopped, or the encroaching part thereof to be removed, at the discretion of the Board.

88. *Regulation of Bicycles, Motor-cars, &c.*—No person shall use or permit to be used any bicycle, tricycle, or motor-car, or any other vehicle not propelled by a horse or other animal, in or upon any road after sunset and before sunrise, unless, in the case of a bicycle or tricycle, the same shall be provided with a lamp, which shall be lighted and placed in a conspicuous place in the front of such bicycle or tricycle, or, in the case of a motor-car or any such other vehicle, the same shall be provided with a light on each side of such motor-car or vehicle; provided further that any motor-car shall also have one lamp at the rear thereof, so placed as to illuminate the registered number-plate thereon, and to show a red light rearward, and which shall be kept lighted and burning during the whole time such car is upon any street. And no person shall at any time use or permit to be used on any road any bicycle, tricycle, motor-car, or other vehicle as aforesaid unless the same shall be provided with an alarm-bell or a horn; and the rider or driver thereof shall sound such bell or horn when approaching any vehicle or any person on horseback, or pedestrian.

89. *Regulations as to Riding and Driving.*—Any person driving any vehicle or riding any animal or any bicycle in any street, private street, or public place within the road district shall, when meeting any vehicle, animal, or bicycle, keep on the left or near side of the street, private street, or public place, and when passing any animal, vehicle, or bicycle going in the same direction shall go or pass on the right or off side of such vehicle, animal, or bicycle. Any person driving any vehicle or riding any animal or bicycle on any street, private street, or public place shall allow any person driving a vehicle or riding an animal or bicycle in the same direction, and desiring to do so, to pass him on his right or off side.

90. *Carrying Lights.*—No person shall drive or use any vehicle drawn by one or more horses in or upon any road between sunset and sunrise without carrying a light on each side of such vehicle.

91. *Driving round Corners.*—No person shall ride or drive any animal or vehicle of any kind round any corner of any road faster than four miles an hour.

92. *Damage through Dogs.*—If any dog shall, on any road within the district, rush at, attack, or startle any person, or any horse, cattle, or other animal, whereby the life or limbs of any person shall be endangered, or any property be injured or endangered, the owner of such dog, or the person in charge of such dog, shall be guilty of an offence.

93. *Crossings and Drains on Footpaths.*—No person shall construct any crossing across any channel, drain, or footpath, or make any drain under any footpath. All such crossings

and drains shall be constructed by the Board, but at the expense of the person requiring the same, and any such crossing or drain shall consist of such material as the Board shall from time to time approve. No person shall allow anything other than storm-water to pass through any drain laid under any footpath. Any person desiring to have a crossing made or drain laid leading from his property into any road shall make a written application in that behalf to the Clerk of the Board, and shall upon receipt of a notice from the Clerk of the Board stating the estimated cost of the construction of such crossing or drain, as the case may be, pay the amount of such estimated cost to the Clerk of the Board before the Board shall proceed with such construction. If any such crossing or drain shall be out of repair, the owner or occupier of the premises from which the same leads, or any person for whose use and benefit the same exists, shall, within seven days after notice in writing from the Clerk of the Board to that effect stating the repairs required, properly and completely repair the same in accordance with such notice, failing which the Board may effect such repairs, and recover the cost thereof from such owner, occupier, or person. And in case any such owner, occupier, or person shall make default and fail to comply with such notice within the time therein mentioned, he shall be deemed to commit an offence on every day during which he shall be in such default as aforesaid.

94. *Carting over Footpaths.*—No person shall cart any metal, stone, building, or other material across any footpath where there is not a crossing constructed, without the consent in writing of the Clerk of the Board, on written application made in that behalf, and stating the property to or from which the carting is to be done, first obtained; and the applicant for such consent shall, prior to the issue of such consent, deposit with the Clerk of the Board a sum not exceeding £10, as the Engineer or, if there be no Engineer, the Clerk of the Board shall direct, as security for the necessary repairs to the footpath or kerbing which may be caused by carting material or otherwise, and shall obtain a receipt for the same, and upon repairs being completed to the satisfaction of the Engineer or Clerk of the Board, as the case may be, the said deposit shall thereupon be returned; and, on failing to execute the necessary repairs after forty-eight hours' notice to do so from the Clerk of the Board, the same shall be done at the cost and risk of the applicant, and the costs thereof deducted from the amount of such deposit.

95. *Dedication of Roads.*—Any person or persons constructing roads within the One Tree Hill Road District shall conform to the following:—

- (a.) The road shall be formed for the full sixty-six feet—that is to say, the batters or slopes of cuttings or fillings shall not be on or within the sixty-six feet proposed to be dedicated, save and except where the road is bounded by property of others than that of the person laying out and dedicating the same; if such batter cannot be obtained owing to the rights of such adjoining owner, all cuttings shall be supported by retaining-walls sufficient, in the opinion of the Board's Engineer, to secure the Board against the occurrence of landslips.
- (b.) Where the road is formed along a siding or slope the maximum cross fall shall not exceed two feet.
- (c.) Where the road is in embankment it is to be formed for one foot outside each or either boundary to allow of space for erection of fence.
- (d.) A footpath shall be formed on each side of the boundary.
- (e.) Each footpath shall be ten feet wide, with a fall from the outside towards the kerb-line of half inch to the foot.
- (f.) The roadway shall be forty-six feet wide, formed with a camber of fall of nine inches from the centre to the watertables, which shall be twelve inches below the top of the kerb; the roadway shall then be covered for the width of eighteen feet with hard clean scoria or metal, as may be determined by the Board, of two-and-a-half-inch gauge, for a depth, after rolling, of nine inches at the centre to six inches at the sides.
- (g.) The road metal to be completely covered with sufficient blinding or dirty scoria or other approved material to ensure after blinding a clean hard surface.
- (h.) The footpaths are to be finished off true to grade, and, after fillings have been well rolled, to be covered with two inches of dirty scoria or metal waste to a smooth surface; on no account will either clean or coarse scoria be allowed.
- (i.) Footpaths to be kerbed with rough stone or concrete kerbs, laid true to line and grade. A channel stone to be provided if in the opinion of the Board's Engineer and the steepness of the grade requires it.
- (j.) At junctions with existing roads, footpaths to be joined with curves struck with radii equal to width of narrowest path, to be kerbed with rough hammer-dressed kerbstones.

- (k.) Where drainage of storm-water requires it, the junction with other roads must be made with a pitched channel from kerb to kerb formed of hammer-dressed stone sets not less than eight inches by eight inches by five inches, laid in rows in and on a bed of fine scoria or metal waste, and grouted with the same. Each channel to be of seven rows, the centre to be laid to the line of existing kerbing. The channel to be laid with a dish or hollow of not more than three inches. Where drainage does not require a channel the metal is to be carried out to the level of existing road.
- (l.) Where required, the storm-water is to be intercepted by cesspits built of brick or concrete, to standard size, and to be drained to the approval of the Board's Engineer, and covered with wrought-iron bow grates.
- (m.) Pipes for storm-water to be not less than nine inches diameter.
- (n.) Where drainage of storm-water is on to adjoining sections, this right must be secured to the Board by deed.
- (o.) All new roads must be fenced with a fence of not less than four posts to the chain, with two battens between each post, and four wires.
- (p.) Owners will be required to deposit with the Board half the estimated cost of tarring the paths, the work to be carried out at such time and in such manner as may be deemed advisable by the Board.
- (q.) The fee (£2 2s.) for each inspection by the Board's Engineer must also be deposited before dedication.
- (r.) Longitudinal plans to a scale of not more than three inches to one horizontal and thirty feet vertical, and cross-sections to a scale of not more than fifteen feet to one inch, together with specifications, to be submitted for approval by the Board's Engineer prior to construction of the same, and to remain the property of the Board.

#### PART IV. SANITARY.

96. *Burial of Nightsoil.*—No person shall bury or cause or suffer or allow to be buried, nightsoil within the curtilage of any premises which shall be less than one acre in extent, or within the curtilage of any premises used as an hotel or boardinghouse, and then not within thirty-three feet of any road, or any house or public building, or any building in which any person may be or may be intended to be employed in any manufacture, trade, or business within the district.

97. *Nightsoil in Infectious Cases.*—No person shall bury upon any private property the nightsoil produced upon any premises from which a case of infectious disease has been duly notified to the Board, and during such time as the District Health Officer shall declare the premises to be infected; but all such nightsoil shall be removed and disposed of by the Board at the expense of the occupier, and every pail or pan used for the reception or removal of such nightsoil shall be specially marked and be retarred after emptying and cleansing before being used again.

98. *Mode of Burial of Nightsoil.*—No person shall bury nightsoil otherwise than in the following manner:—

A V-shaped furrow or trench shall be formed of not more than eighteen inches in depth, and the nightsoil shall be placed therein, each lot as soon as placed to be covered with at least six inches of earth, well pressed down flush to the surface of the ground. No fresh trench shall be opened up within three feet of an old trench at any time within three months of the final closing of such old trench.

All manure-pits must be emptied at least once a week.

99. *Sewage-tank.*—No person shall use, or cause or permit to be used, outside the drainage area any sewage-tank—

- (a.) Unless such tank in its design, position, and method of construction has first been approved by the District Health Officer and by the Inspector; or
- (b.) After the District Health Officer or the Inspector shall, on account of some defect or fault therein, or wrongful use thereof, in writing notify such person not to use such sewage-tank, and until such notice shall be in writing withdrawn, by the person giving the same.

100. *Water-closets.*—No person shall use, or cause or allow to be used, any privy of the nature of a water-closet in the district connected with a sewage-tank unless such sewage-tank is approved and constructed in all particulars and parts in such manner, of such materials, and with such separate flushing and cleansing apparatus, traps, and pipes as the Inspector shall require.

101. *Privy-pans.*—The owner of each house in the district, in connection with which is used a privy other than a privy in the nature of a water-closet, shall provide or cause to be provided every pan privy with a watertight galvanized-iron pan of a size, pattern, and design approved by the Board for

the reception of nightsoil, and the specification whereof shall be deposited at the office of the Board.

102. *Privy Construction.*—The floor under the seat of every privy or closet shall be raised at least six inches above the ground, and shall be constructed of impervious material; and the privy or closet shall be constructed so that the pan shall fit in below the seat in such a manner as to prevent any matter reaching the floor, and shall be in all respects constructed, maintained, and repaired to the satisfaction of the Inspector, and means of access shall be provided so that all nightsoil can be removed therefrom without being carried through any house or public building, or any building in which any person may be or may be intended to be employed in any manufacture, trade, or business.

103. *Deodorizers.*—Every owner or occupier of any house within the district shall provide and keep convenient to the privy a box containing dry earth, or sawdust, or lime, to be used in such privy or closet as a deodorizer.

104. *Sanitary Control.*—All privies, closets, and house drains within the district shall be under the superintendence, government, and control of the Board.

105. *Position of Privy.*—No privy or closet (except a privy of the nature of a water-closet constructed and being in accordance with the by-laws) shall be permitted to be erected or to remain at less distance than fifteen feet from any house or building used as a dwelling, or from any road, street, or footpath, or from the boundary fence of any used or occupied land or allotment.

106. *Removal of Nightsoil.*—The Board shall, as soon as reasonably practicable, make such provision as it shall think fit for the regular removal from any and every house within the district, and at the expense of the owner or occupier thereof, of all or any rubbish, nightsoil, or any offensive matter of any kind.

107. *Power of Entry.*—The Inspector, or any other person or persons who may be appointed by the Board for the purposes of these by-laws, shall have power to enter into or upon any buildings or land within the district for the purpose of effecting any such removal, or for examining the condition of every privy, drain, closet, pan, or earth-box, or for cleansing, constructing, altering, or repairing the same.

108. *Nightsoil Carting.*—No person who shall be engaged in the trades of scavenging or the removal of nightsoil within the district shall—

(a.) Remove, cart, carry, or transport any offensive matter, pans, boxes, or other receptacles in any cart, wagon, float, or other vehicle which has not got the name of the owner clearly and legibly painted, in letters at least two inches in height in white paint on a dark ground, on some conspicuous part of such cart, wagon, float, or other vehicle.

(b.) Convey or remove or permit the conveyance or removal of nightsoil in the district between the hours of 7 a.m. and 10 p.m.

(c.) Convey or remove into, or permit to be conveyed or removed through or from, the district any nightsoil or offensive matter, unless the same shall be enclosed in pans or other receptacles approved by the Board.

109. *Carting Offensive Matter.*—No person shall drive, take, conduct, or convey any cart, wagon, float, or other vehicle in, through, or upon the district, or any part thereof, whilst any offensive or noxious smell or odour emanates from any such cart, wagon, float, or other vehicle or the contents thereof.

110. *Sufficient Privy necessary.*—No owner of any premises shall construct or build thereon, or permit to be constructed or built thereon, any privy other than one of design, dimensions, and materials to be approved by the Inspector.

111. *Preventing Nuisances.*—No person shall permit any privy, back yard, or premises of which he shall be the occupier or owner within the district to become a nuisance or injurious to health.

112. *Ashpit.*—An ashpit shall not be deemed a "sufficient ashpit" within the meaning of the Public Health Act, 1908, unless the same be either—

(a.) A galvanized-iron watertight receptacle of such shape as to be readily emptied and cleaned, but so that it shall not be of greater interior capacity than two cubic feet, and it shall be fitted with a close-fitting covering or door, to be kept shut except when it is being filled or emptied, and with handles for moving and emptying the same; or

(b.) A furrow or trench similar to and to be used in the same manner as is provided in respect of the burial of nightsoil.

113. *Position of Drainage-pit.*—No person shall make or construct, or use or permit to be used, any pit or hole for the reception of drainage from any premises within the district unless the same is at least twenty-five feet from any dwellinghouse or road.

114. *Pig-keeping.*—No person shall keep, or allow or suffer or permit to be kept, swine or pigs within the district on any holding of less than two acres in area, or shall in any case so

keep them as to be a nuisance or injurious to health, or erect or permit or allow to remain any pigsty at a less distance than one hundred feet from any house or from any road or boundary of any occupied neighbouring property. The floor of every pigsty shall be of concrete or other impervious material to the satisfaction of the Inspector, and shall be so constructed that there shall be no soakage of the soil with pig's food, urine, or drainage from the sty.

115. *Fowls.*—No person shall keep fowls on any allotment of land of a less area than a fifth of an acre. All fowl-houses shall have concrete, tar asphalt, or other impervious floors; and the owner of a fowl-house shall have the walls lime-washed at least once in every three months, and shall have the fowl-house cleaned out regularly at least once a week. No person shall erect any fowl-house, or cause any fowl-house or fowl-run to be built or remain nearer than twenty-five feet from any dwelling, or nearer than ten feet from any boundary of any adjoining land.

116. *House Drainage.*—In areas where the Drainage By-laws do not apply, the owner of any house shall, when required by the Inspector, provide the same with suitable and sufficient drainage, to the satisfaction of the Inspector, to carry away the whole of the sewage and household waste water from the house, and provided with such grease-traps or other traps as the Inspector may require; and such drains shall be constructed of iron or earthenware glazed pipes at least four inches in diameter, with sockets properly jointed and cemented, and laid underground at a gradient of not less than 1 in 40, and led into a pit constructed as follows:—

Such pit shall be at least eight feet deep, and must go down to a rock bottom or gravel strata, or such other strata as shall be approved of by the Inspector, and any rock bottom if not traversed with crevices shall be opened by blasting. The pit shall then be filled up with stones of not less than three inches in diameter to not less than eighteen inches of the lowest ground-level of the pit's mouth. The drain must be led twelve inches into this pit, so that the pipe-mouth discharges among the stones. The stones are to be covered flush up to the ground surface all round with dry earth well pressed down. Such pit must be situated not less than twenty-five feet from any dwellinghouse.

117. *General Drainage.*—In areas where the Drainage By-laws do not apply, no person shall construct or allow to remain any drain for the carriage of sewage except in accordance with the following provisions:—

(a.) In no case shall two or more premises be allowed to be drained by one common pipe, unless a special permit has first been obtained from the Board.

(b.) No drain shall pass underneath any house except where any other course is impracticable, and in such case the drain shall be of earthenware pipes with cemented joints and embedded in six inches of concrete, or cast-iron pipes with lead-calked joints.

(c.) No right-angled junctions shall be permitted in any drain. All junctions shall be effected by means of Y-junction pipes. No inlet except such as may be necessary for a water-closet shall be permitted within or beneath a building to any drain.

(d.) All sanitary fittings shall be placed with their outlets against or as near as possible to an external wall, and shall not be directly connected to any drain, but shall discharge (through waste-pipes where necessary) outside the building over a gully-trap, or over a watertight concrete channel of not more than six feet in length leading to a gully-trap.

118. *Storm-water.*—The owner of any land or building shall provide the same with suitable and sufficient drains to carry away the whole of the rainfall and surface water to a point at least twenty-five feet from any house, and so that such water cannot flow, spread, or soak beneath any building.

## PART V.

### WATER-SUPPLY.

119. *Water-supply.*—Every ratepayer in the One Tree Hill Road Board District shall receive water only through the water-meter supplied and fixed, and always under the sole control of the Board's officer.

120. *Applications for Supply.*—Application for water shall be made at the office of the Road Board, and all necessary forms may be obtained there.

121. *Connections to Premises.*—All communication pipes for ordinary supply between the main and the meter shall be made by the Road Board, but at the cost of the owner, and the owner shall complete at his own expense all connections from the meter to the premises to be supplied.

122. *Cost of Connection.*—On receipt of formal application the Board's turncock shall estimate the cost of connection to be made by the Board, and on receipt of the sum specified the Board will proceed with the work.

123. *Nature of Fittings, &c.*—All applications for water-supply shall state the required connections and the nature

and number of fittings to be supplied, and shall be made by the owner of the premises for which the water is required. Every application must state the name of the licensed plumber engaged to make the required connection on behalf of the owner.

124. *Meter.*—The meter shall be placed within four feet of the boundary nearest to the water-main, and shall be protected by the consumer in a manner to be approved by the Inspector, and shall be provided with a padlock, the key of which shall be labelled and lodged at the office of the Road Board. An approved high-pressure stop-cock shall be fixed on the service close to each meter, by and at the cost of the consumer.

125. *Inspector to estimate Consumption.*—Should any meter be removed, or cease to register, or register inaccurately, the Inspector shall estimate the consumption for the period (not exceeding one month) during which such meter shall have been removed or have ceased to register or have registered inaccurately. He shall be guided in such estimate by the quantity of water registered during the month following the reinstatement of the meter. His decision shall be final.

126. *Approved Meters only.*—Unless where specially permitted by the Road Board, all meters used by any consumer shall be fixed or removed only by the Board, and shall be of such design, quality, and workmanship as may be approved by the Inspector; and no meter shall be fixed or refixed which has not been tested, approved, stamped, and sealed immediately prior to fixing by a duly authorized officer of the Board.

127. *Connection to Meter prohibited.*—No connection of any kind shall be made with the communication pipe to any meter.

128. *Testing of Meter.*—The Board may at any time remove any meter from the premises of any consumer for the purpose of testing its accuracy, or for examination or repair. If found inaccurate or out of repair the Board may cut off the supply until any necessary repairs have been effected, and until such meter shall have been retested, found correct, and resealed, or, in the alternative, until a new meter shall have been substituted.

129. *Cost of Testing.*—If any consumer desires to have a meter tested, the Board will do so, provided that if such meter be found to register five per cent. over or under the absolute quantity passing through, such consumer shall pay the cost of testing, removal, resealing, and refixing.

130. *Interference with Meter.*—No person shall, without the written consent of the Inspector, fix or remove any meter; and no person other than a duly authorized officer of the Board shall tamper or interfere with or break the seal affixed to any meter.

131. *Minimum Rates.*—Upon all properties in the district to which the water can be, but is not supplied, situate within one hundred yards from any part of the waterworks mains, the minimum rates shall be paid by the owner of such property.

132. *Payment of Accounts.*—Meters will be read half-yearly, and accounts rendered according to the rate or rates fixed by the Board in that behalf from time to time. Such accounts shall be paid by the owner of the property within fourteen days of the presentation of the account. If any default shall be made in payment of any charge, or any moneys payable in respect of any supply under this by-law, the Board may cut off the supply without notice, and also the Board may recover the moneys owing in any Court of competent jurisdiction as a debt owing to the Board.

133. *Taps, &c., to be provided.*—Every person supplied with water from the waterworks shall provide such proper taps, stopcocks, pipes, and such other apparatus as the Board requires, and shall keep the same in good repair, so as to prevent the water running to waste.

134. *Regulations as to Fittings.*—Where, in the opinion of the Inspector, any service or fitting in connection with any such water service as aforesaid is found to have deteriorated through ordinary wear-and-tear or other cause, or is found to be of inferior quality or workmanship, or is, in the opinion of the Inspector, causing or likely soon to cause waste of water or to be insufficient for the proper supply of water for sanitary purposes, it shall be lawful for the Inspector to give to the owner of the premises three days' notice in writing requiring him to provide such water service or fittings as shall be mentioned in that behalf in such notice, and thereupon it shall be the duty of the owner of the premises to cause such water service or fittings to be provided, laid, set up, and affixed within the said period of three days, of the design and materials set out in the said notice, and to disconnect and remove, or cause to be disconnected and removed, the old, defective, inferior, or insufficient water service and fittings referred to in this clause.

This present clause shall (the necessary consequential alterations being deemed made therein) extend and apply in the case of any water service or fittings hereafter laid, set up, or affixed under the provisions of such by-law, which shall, in such opinion as aforesaid, be so worn as to cause, or be likely soon to cause, waste of water.

135. *Notice to Inspector.*—No person shall attach any pipe, cock, or other fitting to the mains of the Board, or to any pipe or apparatus connected therewith, or make any addition or alteration to or in any water service or apparatus connected therewith without having first given notice in writing on the required form to the Inspector of the work proposed to be done, and having obtained his consent in writing thereto.

136. *Outside Supplies.*—Supplier by meter outside the district to private individuals or outside bodies to be charged for at such prices as the Board may determine.

137. *Supply to Builders.*—Builders shall be supplied by meter at the rate of 2s. per 1,000 gallons. They shall deposit the cost of the meter, which cost shall be retained as security that the meter is left in good order. No rent shall be charged for the meter. Minimum charge for water, 10s.

138. *Rental for Meter.*—There shall be a rental of 15s. per annum, payable quarterly in advance, by the owner of the premises, for each meter supplied. (A deposit of the value of the meter supplied shall, if deemed necessary, be deposited by applicants.)

139. *Fee.*—There shall be a fee of 10s., payable by the owner of the premises, for cutting off and turning on the water.

140. *Difference to be charged.*—All pipes over three-quarter inch to be charged the difference of cost.

141. *Connection where there is no Main.*—In cases where application is made for connection in streets where there is no main, water to be supplied on such terms as to cost as may be determined by the Board.

#### PLUMBERS.

142. *Authority to Plumbers.*—Competent plumbers may be licensed by the Board to lay pipes and do any work in connection with water-supply on payment of a fee of 2s. 6d. for every authority issued.

143. *Work to be executed by Licensed Plumber only.*—It shall not be lawful for any person other than a plumber duly licensed to make, cut off, repair, alter, extend any connection to any service or communication pipe or main; or to fix, remove, alter, or replace any pipe, fitting, or apparatus connected with the water-supply to any premises.

144. *Notice to be given.*—No plumber shall do any work connected with the water-supply without giving at least one clear day's notice thereof, and receiving written authority to do such work from the officer appointed by the Board.

145. *Responsibility of Plumber.*—All work undertaken by licensed plumbers under or in connection with this by-law shall be done by them personally, or by some other licensed plumber; but the licensed master plumber undertaking the work shall at all times be liable to make good any defects which may arise through the carelessness or incompetence of the person actually performing the work. The licensed master plumber undertaking the work shall be responsible for the safety of the public and traffic during the entire period of his operations, and he shall take such precautions as may be necessary to prevent accidents. He also shall indemnify the Board against any loss or damage it may suffer or be put to on account of any negligence on his part by reason of his failure to comply with the provisions of this by-law. He shall make good all defective work which may arise through his carelessness or inadvertence, and shall be responsible to the Board for the expense of reinstating or making good any damage done to any street or footpath.

146. *Approval.*—All work shall be done to the satisfaction and approval of the turncock or other officer appointed by the Board, and must be passed by him before the water shall be turned on at the main.

147. *Right of Entry.*—It shall be lawful for the Road Board's Engineer and Inspector, duly authorized or appointed by the Board, at any time between the hours of eight o'clock in the forenoon and six o'clock in the afternoon of any day excepting Sunday, to enter into any dwellinghouse or other building or premises within the district for the purpose of inspecting all or any of the fittings and other apparatus therein connected directly or indirectly with the waterworks. Any person resisting or refusing to allow any such entry or inspection shall be deemed guilty of an offence against this by-law.

148. *Wrong or False Information.*—No person shall give to any officer of the Board false information upon any matter pertaining to water-supply.

149. *Fire-plug Notices.*—No one shall remove, deface, or allow to become overgrown any fire-plug notice erected on their premises. The officer of the Board has the right to erect, renew, or renovate such notices at any time.

150. *Penalties for Breaches of By-laws.*—Every person guilty of an offence against or committing any breach of or failing to perform any duty imposed upon him by any provision contained in any clause in any Part of these by-laws shall be liable for each such offence, breach, or failure to a penalty not exceeding £5, as the Court inflicting the same shall in its discretion think fit; and in each case in which such offence,

breach, or failure shall be a continuing one to a penalty not exceeding £5, as such Court shall think fit, for every day or part of a day during which such offence, breach, or failure shall continue. The existence of any work, building, land, or premises during its continuance in such a state or form as shall be in contravention of any provision of these by-laws shall be deemed a continuing offence under these by-laws.

## PART VI.

## DRAINAGE BY-LAWS.

151. *Interpretation.*—In the interpretation of this by-law the following words and phrases shall have the meanings hereby assigned to them, unless there is something in the subject-matter or in the context inconsistent with such meaning:—

“Approved” means approved by the officer appointed by the Board for the inspection of the work or matter whereto the context relates:

“By-laws” shall mean all by-laws of the Board for the time being in force, made under the provisions of any Act enabling the Board to make by-laws, including by-laws made by the Board in its capacity as a Local Board of Health:

“Board” means the One Tree Hill Road Board:

“Drain” shall mean every drain or sewer neither vested in the Board nor maintained by the Board:

“Drainage area” means that portion of the One Tree Hill Road District which is included in the Auckland and Suburban Drainage District as defined and described in the Auckland and Suburban Drainage Act, 1908:

“Undrained area” means all that portion of the One Tree Hill Road District not included in the drainage area as above defined:

“Owner” means the owner of any property as defined by the Municipal Corporations Act, 1908:

“Cesspit” shall not be deemed to include any efficient septic tank constructed to the satisfaction of the Board:

“Drainage Inspector,” see “Inspector”:

“Inspector” shall mean the officer appointed by the Board for the inspection of the work or matter to which the context relates:

“Occupier” means the occupier of any property as defined by section 2 of the Rating Act, 1908:

“Sewer” shall mean every sewer or drain vested in the Board, or under the control of or maintained by the Board:

“Clerk” shall mean the Clerk of the Corporation or the acting Clerk for the time being:

“Engineer” means the Engineer for the time being of the One Tree Hill Road Board, or the official of the Board for the time being fulfilling the duties of Engineer to the Board:

Words importing the singular number include the plural number, and words importing the plural number include the singular number, and words importing the masculine gender include feminine gender.

152. *Notices.*—Any notice required to be sent or signed by or on behalf of the Board may be sent or signed by the Chairman or the Clerk, or any other person acting for or on behalf of the Board.

153. *Delivery of Notice.*—Any application or notice which is required to be served upon or delivered to the Board may be delivered at the office of the Board, addressed to the Board, the Chairman, or the Clerk.

154. *Service of Notice.*—Any notice or other document which is hereby required to be served or given or sent by or on behalf of the Board to any person shall be deemed to have been duly served, given, or sent if delivered to such person personally or to his attorney, solicitor, or agent, or left at his residence or place of business, or posted at a post-office in the district addressed to such person at his or her last known place of abode, or to the last known place of abode of such attorney, solicitor, or agent.

155. *Inspectors.*—The Board may from time to time appoint an Inspector or Inspectors, whose duty shall be to see that its by-laws are duly observed, and to investigate and report any breaches thereof to the Board.

156. *Inspectors and other Officers.*—All Inspectors and other officers appointed by the Board under or for the purpose of any repealed by-law, and holding office at the time this by-law comes into operation, shall be deemed to have been appointed under this by-law.

157. *Application of By-law.*—Except as to such sections or Part of this by-law as are declared to be limited, or are by necessary implication limited, in their application to particular areas or districts, this by-law shall apply to the whole of the district.

158. *Sale of By-law.*—The Board shall have this by-law printed, and shall supply a copy thereof to any person requiring the same on payment of the sum of one shilling.

159. *Date.*—This by-law shall come into force on being gazetted.

160. *Licenses.*—The following provisions shall, unless otherwise specified, apply to all licenses granted by the Board under this by-law:—

(a) Before any such license shall be granted, an application in the prescribed form by the person applying for such license and giving all such information as may be required by or provided for in any such form, shall be delivered at the office, and the fee payable in respect of such license shall be deposited with such application. Every such application shall be signed by the applicant.

(b) Every such license shall, when issued, be in the prescribed form, and signed by the Clerk, and shall remain in force until the 31st day of March next after the issue thereof, and may be renewed on application at the office, and payment for renewal fee, not later than the 31st day of March in each year.

(c) Every such license shall be registered in a book to be kept by the Clerk in the appointed form.

(d) If in the opinion of the Board it is proved that the holder of any license, or the person applying for any license, is from any cause unfit to be the holder of such license, the Board may cancel, refuse, suspend, or revoke the same.

161. *License Fees, Drain-connectors.*—For every license issued there shall be paid to the Board's Clerk the sum of £1 per year ending the 31st March in each year, unless the license shall be applied for after the 31st December, in which case the fee shall be 10s. for the period ending the 31st March next ensuing; or should the applicant be a journeyman the fee shall be 5s. for the year, or 2s. 6d. for the period between the 31st December and 31st March.

162. *Inspection Fee, Licensed Plumbers.*—For every connection made with any sewer there shall be charged and payable to the Board an inspection fee of 2s. 6d.

163. *Drainage of Property.*—The owner of every property within the drainage area upon which a dwellinghouse or other building is erected shall, upon receiving notice in writing from the Board to provide and construct a private drain from such property to connect with a sewer, or to provide and affix sanitary appliances in and to any existing or in and to any new private drain, or to execute or do any other matters or things which the Board may lawfully require such owner to execute or do, proceed to comply with such notice within the time therein limited.

164. *Application for Connection.*—The owner or occupier of any property desiring to have the same connected with the sewer shall make application at the Road Board's Office in Form 2 in the Schedule hereto.

165. *Position for Connection.*—On receipt of such application the Inspector shall visit and inspect the applicant's property, and point out the position and line in which the connection shall be made.

166. *Sewers, &c., beneath Public Streets.*—The Board only may make connection with sewers and lay drain-pipes beneath public streets, footpaths, and public places, and such connection shall be made at the sole cost of the applicant. Before making such connection the applicant shall deposit with the Board the amount of the estimated cost thereof.

167. *Maintenance, Drain-pipes and Traps.*—The expense of keeping in repair the drain-pipes and traps mentioned in section 2 will be borne by the Board, but if any of such pipes or traps shall be choked by the placing or allowing to remain therein of any substance other than ordinary sewage the owner or occupier of the property drained by such pipes shall defray the cost incurred by the Board of clearing the pipe so choked. Where two or more properties are drained by one pipe the Board shall determine by whom and in what proportion the cost of removing such obstruction shall be paid. In no case shall two or more premises be allowed to be drained by one common pipe unless a special permit has first been obtained from the Board.

168. *Sewer Connection.*—The water-closets, sinks, baths, wash-tubs, &c., in all buildings within the drainage area to be connected with sewer to the satisfaction of the Board's officer.

169. *Pipes, &c., to remain the Property of the Board.*—Notwithstanding the payments enumerated in the preceding sections, all drain-pipes, traps, and other fittings provided by the Board (in consideration of such payments), and all drain-pipes beneath public streets and footpaths, shall remain the property of the Board, and no person shall have any claim to the same.

170. *Notice of Intended Connections.*—No person shall connect any drain, pipe, water-closet, urinal, trap, cesspool, or other fitting with any drain-pipe communicating or intended to communicate with any sewer unless he shall have previously given to the Clerk forty-eight hours' notice in writing of his intention to do so, such notice to be on Form 2 in the Schedule hereto.

171. *Notice of Intended Removals or Alterations.*—No person shall remove or make any alteration in any drain-pipe, soil-pipe, water-closet, urinal, trap, or other sanitary fitting communicating with any sewer unless he shall have previously given the Clerk forty-eight hours' notice in writing of his intention to do so.

172. *Authorized Plumbers and Drainlayers only to be employed.*—No person shall be allowed to do any plumbing work in connection with the drainage of any property unless he shall have applied to be and shall have been licensed by the Board as an "authorized plumber," and shall have engaged to conform to and comply with these regulations. The application to be made on Form 4 and the license shall be in Form 1 of the Schedule hereto. All plumbers and drainlayers shall be licensed annually under this by-law. No person shall be allowed to lay any drains, or remove or alter or make any connection with the drains of any property, unless he shall have been licensed by the Board as an "authorized drainlayer and connector," obtained the necessary permit, and shall have engaged to conform to and comply with these regulations.

173. *Application for Provisional License.*—Applicant for drainlayer's license not having held a license previously may be granted a provisional license until such time as the Inspector shall be satisfied that he is competent, when a drainlayer's license will then be issued.

174. *Defective Drains.*—Each defective drain laid by a licensed drainlayer shall count a black mark against his license. Three such marks shall render his license liable to be cancelled at the discretion of the Engineer, and the said drainlayer shall be debarred from holding a further license within the district governed by these by-laws.

175. *Inspection of Drainage-works.*—Any and all work connected in any way with the drainage of any premises shall be executed in every respect in accordance with this by-law; all such work shall be inspected by the Inspector, and every facility shall be offered for such inspection. No underground or enclosed work shall on any account be covered up or concealed from view until the same has been duly tested and passed by the Inspector, twenty-four hours' notice to be given.

176. *Defective Drain-pipes, &c.*—Any drain-pipe, trap, water-closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with these regulations, or which shall, in the opinion of the Inspector, be or become of bad or defective quality, shall, upon notice in writing from the Inspector, be removed or repaired in the manner and within the time fixed by the Inspector; and the Board may, should it think fit, on failure by the person liable to perform such removal or repair, remove or repair the said defective fitting, and charge the owner or occupier of the premises with the cost incurred.

177. *Construction of House Drains.*—No house drain shall be less than four inches internal diameter, and every such drain shall be constructed of glazed stoneware or cast-iron pipes of the best quality; no soft-burnt, cracked, crooked, or distorted pipes shall be used; right-angled junctions will not be allowed; curves shall be formed by proper bend-pipes, having inspection-eye of approved make. A disconnecting trap of an approved make, complete with ventilating shaft, shall be fixed at the street boundary of each drain, or at such point as the Board's Inspector deems necessary.

178. *Laying of Drains.*—As far as possible all house drains shall be laid in straight lines; where changes of direction occur such shall be made by the construction of an inspection chamber, or by an approved bend-pipe as directed by the Inspector. The pipes must be laid with true gradients, the inclination as steep as circumstances will conveniently permit; if possible, not less than 1 in 40 for four-inch pipes and 1 in 60 for six-inch pipes. All pipe trenches shall be carefully cut in the solid ground, and well rammed, and all pipes laid as follows:—

179. *Pipes to be laid in Concrete.*—All earthenware pipes shall be carefully laid and bedded on a concrete bed four inches thick up to the shoulders, and jointed in two-to-one cement mortar. The concrete must be put in carefully round them, and rammed to fill in everything tight; also, after the cement joint has been made, a scraper must be used inside to remove any mortar that has squeezed in, and the joints left perfectly level. All gully-traps and disconnecting traps must have at least four inches of concrete under and around them, and be well bedded in it up to their top.

180. *Drain beneath Buildings.*—As far as possible no drain-pipe shall pass beneath any building. Where, however, this is unavoidable, the pipe must be of cast-iron, lead-jointed; or if of stoneware, the pipe must be bedded in and surrounded with good cement concrete four inches in thickness. In every case the pipe shall be ventilated in the manner directed by the Inspector, by a suitable shaft or opening at each end.

181. *Ventilating-shaft, &c.*—On the sewer side of every disconnecting trap a ventilation shaft shall, if required by the Board, be furnished, having a diameter of four inches. Such connection shall be made on the top of the drain by means

of a vertical branch. No part of such shaft shall be placed inside any building. Such shaft shall be carried to a height not less than three feet above the highest point of the highest roof within a radius of fifty feet in a horizontal direction from the shaft. A cap or cowl of an approved pattern shall be fixed on the top thereof. The outlet of the ventilation shaft shall be placed as far away as possible, not being less than six feet, measured in any direction, from any window or chimney-top. Where underground, every such ventilation shaft shall be of stoneware drain-pipes laid in a workmanlike and efficient manner, and to the satisfaction of the Inspector, or of cast-iron pipe with lead or rust joints. To a height of six feet above the surface of the ground the shaft shall be of cast iron, not less than three-sixteenths of an inch in thickness, similarly jointed, or of screwed wrought-iron piping; thence to its outlet it may be made of cast-iron, screwed wrought-iron pipe, 6 lb. lead, or galvanized iron of not less than 22 B.W.G. The connection between the stoneware and the vertical pipe shall be made with cement, which together with all other joints shall be perfectly airtight. If galvanized iron is used, the pipes shall be in long lengths, with double lapped and soldered longitudinal joints, and the transverse joints shall be not less than two inches in length, slipped or socketed, and soldered. The connection between the galvanized-iron pipe and the cast-iron portion of the shaft shall be of lead run in and caulked, the portion of the galvanized-iron pipe inside the socket of the cast-iron pipe being strengthened by a galvanized-iron band, three inches wide, of 22 B.W.G. soldered to it. Putty shall not under any circumstances be used for jointing any ventilation pipes. No angular joints or elbows shall be used below the eaves level. This shaft shall be properly constructed and supported, and carried in as direct a manner as possible. Where any ventilating pipe passes through the soffit or eaves of any building it shall be encased by a galvanized-iron sleeve of not less than 22 B.W.G.

182. *Ventilating-pipes.*—At the head of every house drain, and at the end of every branch drain if it exceeds fifteen feet in length, a ventilating-pipe with approved top to be provided, carried up at least three feet above the eaves of the most suitable adjacent building, or to the ridge of the roof, as may be directed. No communication whatever will be allowed with the interior of any building except by means of a proper trap, in addition to that fixed by the Board at the boundary, and duly ventilated by a pipe carried up to a sufficient height. Pipes used solely as ventilating-pipes and situated wholly outside buildings may be of cast iron or lead. Where one such pipe only is fixed upon a line of drain its internal diameter shall be not less than four inches; where more than one pipe is fixed upon the same line of drain the internal diameter of each pipe shall be not less than three inches. Ventilation-pipes shall be carried up without angles or horizontal lengths three feet at least above the eaves, or better to three feet above the ridge of the highest adjacent building, as may be directed by the Inspector. Rain-water pipes shall not be used as ventilators. As far as possible, all ventilating-pipes shall be placed outside buildings.

183. *Soil-pipes not to be placed within Buildings.*—Soil-pipes shall not be fixed inside any building, but shall be placed outside the walls thereof, and the connection with the closet inside shall be made as short and straight as possible. Every soil-pipe shall be ventilated by being carried up above the roof of the building. No soil-pipe shall be less than four inches internal diameter, and no connection thereof for ventilation shall be less than four inches internal diameter. Every soil-pipe shall be of cast iron or lead.

184. *Waste and Discharge Pipes.*—Waste or overflow pipes from sinks, baths, washtubs, urinals, or other sanitary fittings must be brought outside the house by the shortest and straightest route, and there discharged over a properly ventilated disconnecting trap. All waste-pipes exceeding ten feet in length must be fitted with an anti-siphon vent-pipe. All discharge-pipes to be trapped to the satisfaction of the Inspector. All waste-pipes must have a siphon trap of the same area fitted close under the intake of waste.

185. *Grease-trap.*—In case of hotels, boardinghouses, restaurants, and eating-houses there shall be provided in addition to the above requirements a suitable grease-trap. No wood will be allowed to be built around sinks unless well bedded around with red-lead putty, and to the satisfaction of the Inspector.

186. *Sinks, &c., inside Buildings in Cellars.*—No sink, gully, water-closet, urinal, bath, lavatory, wash-house, or other appliance for domestic, trade, or manufacturing purposes necessitating drainage therefrom will be allowed inside buildings, in cellars, or basements unless absolutely necessary, and for which a special permit has been granted by the Board. In all such cases the outlet pipe shall be trapped and shall discharge into an open shaft outside the building, which shall communicate with the drain leading to the sewer by a properly ventilated trap. Special means shall, if required, be provided to ensure a proper supply of water to the said traps.

187. *Gratings*.—All inlets to drains or openings for ventilation shall be efficiently protected by proper gratings of ample area. The aggregate area of the apertures in any grating covering a ventilation opening shall be not less than the sectional area of the pipe or drain to which such grating is fixed.

188. *Drains to be Self-cleaning*.—Every drain shall be so arranged as to be self-cleaning, in order that it may remain at all times free from deposit. Where this cannot be effected without flushing, proper flushing apparatus shall be provided in the manner directed by the Inspector.

189. *Construction of Water-closets*.—The seats of all water-closets shall be so constructed as to be easily removable, in order that every part of the closet may be inspected with facility. The trap of every water-closet shall be provided with a ventilating-pipe at least two inches in diameter. Should the closet be situated in a detached building, the ventilating-pipe may be abandoned, provided that the closet is on the same line of drain as the terminal ventilator and not more than twelve feet from such terminal ventilator. The ventilating-pipe shall be composed of drawn-lead piping whilst inside any building. On the outside of such building drawn lead or 22 B.W.G. galvanized iron may be used to carry the pipe three feet along the eaves of such building or into such portion of main ventilator or soil-pipe (situated outside the building) as may be directed by the Inspector.

190. *Supply Cisterns*.—No water-closet shall be directly connected with the borough water-supply or any other water-supply, but shall be supplied by a separate cistern of approved construction containing and delivering at each flush not less than three gallons nor more than four gallons, fitted with an efficient ball-cock, and an overflow pipe discharging into the open air. The service pipe from the cistern to the closet to be not less than one-and-a-quarter-inch diameter; the bottom of the cistern to be at least five feet above the closet seat.

191. *Sample of Closets, Sinks, &c.*—Sample of closets, sinks, &c., may be seen at the Board's yard, and no closet other than those shown may be used unless a sample of the closet has been previously submitted to and approved by the Board.

192. *Surface Water in Sewer*.—No person shall discharge or cause, permit, or suffer to be discharged or to flow into any sewer, or any drain connected directly or indirectly with a main sewer, any rain, surface, or subsoil water without the express sanction of the Engineer of the Auckland and Suburban Drainage Board having been first obtained in writing.

193. *Polluted Water in Sewer*.—Polluted water from a stable, dairy, or paved yard, or from the floor of a building used for manufacturing or business purposes, shall not be conveyed or discharged into a local sewer or drain connected directly or indirectly with a main sewer, unless such local sewer or drain shall have in connection with such premises a silt-trap of dimensions and material to be determined by the Engineer.

194. *No Refuse in Water-closets, &c.*—No person shall deposit, or cause, permit, or suffer to be deposited, in any water-closet, pan, trap, or yard gully connected with a drain, or into any drain, any ashes, rags, house refuse, or other solid matter not being ordinary household sewage.

195. *Chemicals and Explosives*.—No person shall discharge or cause, permit, or suffer to be discharged or to flow into any sewer, or into any drain connected directly or indirectly with a main sewer, any chemicals, whether gaseous, liquid, or solid, or anything of an explosive nature, whether gaseous, liquid, or solid.

196. *Waste Products*.—No person shall discharge or cause, permit, or suffer to be discharged or to flow into any sewer, or into any drain connected directly or indirectly with a main sewer, any waste liquids or refuse products of any manufacturing process without the express sanction of the Board having been first obtained in writing, and then only for and during such period or periods and subject to the observances of such conditions (including a power of cancellation of such sanction) as the Board may think fit to impose; and in particular such waste liquids or products shall, if required by the Board, be first passed through strainers sufficient to prevent the passage of any solid matter into the sewer.

197. *Hot Liquids and Steam*.—No person shall discharge, or cause, permit, or suffer to be discharged or to flow directly into a sewer, or into a drain connected directly or indirectly with a main sewer, any hot liquids or steam, but shall retain the same in a cooling apparatus until the temperature is reduced to below 100 degrees Fahr.

198. *Infectious Drainage*.—No person shall discharge or empty into, or cause, permit, or suffer to be discharged or emptied into, any sewer, or into any drain connected with a main sewer, whether directly or in such a manner as to reach such sewer or drain, from any hospital, institution, or other private or public building, any solid or liquid matter from patients suffering from any infectious or contagious disease, without first thoroughly disinfecting such discharge.

199. *No Rubbish in Sewers*.—No person shall rake or place any dust, earth, or rubbish into or in any sewer, or any drain connected directly or indirectly with a main sewer, or any

sanitary convenience or sanitary appliance directly or indirectly connected with a main sewer.

200. *Grids to be kept Clean*.—No person shall sweep or rake or place into or in an inlet chamber or appliance (including a grid) giving access to a main sewer, or permit or suffer to enter a main sewer by means of any such opening or appliance, anything save such matter as may be carried in with the water entering by a local sewer in the course of the legitimate use of such sewer.

201. *Injury to Drains, &c.*—No person shall destroy or injure any drain or covered or open watercourse, or any building, erection, structure, method of ventilation, machinery, dam, tank, reservoir, or other work or thing being part of or connected with any drainage-works vested in or under the control of the Board, or in any way stop or obstruct or otherwise interfere with any drain or watercourse or other drainage-work.

202. *Providing Water-closets*.—Owners of every dwelling shall, upon notification in writing, provide water-closets whenever there shall be a sewer within one hundred feet from any property on which buildings are or may be erected, and in which building any persons dwell or are employed, or which building is constructed or being constructed or being adapted for human habitation, or with a view to persons being employed therein, then and in every such case it shall be lawful for the Board, by notice in writing, to require the owner of such building to provide and affix a water-closet for the same. An owner served with a notice as aforesaid shall cause a water-closet to be provided and affixed in such building or outside the same (but on the private property whereon such building is erected or may be erected); such water-closet to be constructed in accordance in every respect with the provisions of this Part of the by-law relating to water-closets, and to have all works, fixtures, and appliances of every kind required by the said Part of the by-law, and to be connected with the said sewer by a drain, and in manner in every respect as required by the said Part of the by-law.

203. *Party Sewers*.—In any case where a sewer is constructed in a public street, or through private property at the sole expense of any person or persons, then it shall not be lawful for any person to connect with the said sewer until a proportionate part of the cost of the sewer has been paid to the Board, the proportionate part above referred to being fixed in all cases by the Board. The said proportionate part received by the Board shall be held for the purpose of rebate to the person or persons originally constructing the sewer. Inspection pipes or chambers to be fixed where directed by the Inspector.

204. *Removal of Privies*.—Within the time within which any water-closet is required by this section to be provided and affixed as aforesaid, it shall be the duty of the owner of every property to cause to be removed from his property every privy or earth or other such closet not being a water-closet in accordance with this by-law being thereon.

205. *Notice to remove Privy*.—After a water-closet shall have been provided for any building erected on property (whether already or to be hereafter provided) it shall be unlawful for the owner of such property, or any other person, to construct, erect, set up, or provide any privy or earth or other such closet on the said property; and, in addition, the owner of such property shall be held to be guilty of a breach of this by-law on every day for which any such privy, earth, or other closet not in accordance with this subsection remains upon such property after such owner shall have been served with a notice in writing under the hand of the Clerk of the existence of such closet.

206. *Obstructing Officer of Board*.—Any person who shall obstruct any officer or other person employed by the Board in the performance of anything which such officer or other person is or may be required or authorized to do by or under this by-law shall be deemed to have committed a breach of this by-law.

207. *Licenses*.—All applications for licenses under this by-law shall be granted or otherwise by the Board Road. All such applications to be submitted at least three days before the sitting of the Board, and the applicant shall produce to the Board certificates from an appointed Board of Examiners that he has passed the ordinary examination in practical and theoretical plumbing.

208. *Septic Tank in Special Area*.—To regulate the drainage from all dwellings or other buildings which are situated in such a position or at such a level as will not permit the drainage therefrom to be conducted into any existing sewer, any person or persons who shall erect any dwelling or other building shall at his or their expense build a septic tank to provide for the treatment of such drainage. The tank shall be constructed according to the plans attached to this by-law, or to such other plan as may be approved by the Board in writing. No such person or persons will be permitted to dispose of sewage matter in any other manner than by septic-tank treatment.

209. *No Bath or Surface Water*.—Where a septic tank or tanks are installed, no storm-water, bath, roof, or surface

water will be permitted to drain into such septic tank or tanks. The sewage and house water (from water-closets, washtubs, and sinks) only shall drain into the septic tank or tanks.

210. *Position of Tank.*—Such septic tank shall be built in such position and portion of the allotment as may be directed by the Board.

211. *Disposal of Effluent.*—The effluent from the tank shall be led into the sea if the allotment has a water frontage, or into some natural watercourse in the event of the allotment not having a water frontage, or in the absence of a natural watercourse thereon, then the effluent shall be disposed of by means of filtration with field tiles or an approved artificial filter bed.

212. *No Water-mains to connect with Closets, Drains, &c.*—No pipe leading from the borough water-mains, or from any service pipe connected therewith, shall on any pretext be connected directly with any closet, urinal, trap, drain, or sewer. Where water-supply is required, the water-pipe must in all cases deliver with a free outfall into an open cistern above the highest water-level of such cistern, and such water-pipe shall be provided with a high-pressure stopcock on the supply pipe to the cistern.

213. *Right to enter Premises.*—Any officer of the Board acting under the Board's authority may enter at all reasonable hours into any house or property connected with the sewers in order to examine whether the drains and fittings in such house and property are in proper order. Any person refusing such admission, or in any way hindering such officer in the execution of his duty, shall be guilty of an offence, and liable on conviction to a penalty as hereinafter mentioned.

214. *Notice requiring Owner to fix Closet.*—Immediately upon the completion of the connection between any property and the sewers, the owner or occupier of the said property shall, whenever required by notice to do so, construct a proper water-closet or closets in accordance with this by-law, and immediately thereafter shall, if required, empty, cleanse, and fill in all cesspits and other receptacles for sewage matter, and remove all privies and earth closets and old drains on the said property to the satisfaction of the Inspector.

215. *Free Ventilation.*—All openings for ventilation made in accordance with these regulations, or by order of the Inspector, shall at all times be kept open and free from obstruction. Every occupier shall at all times see that all openings to the drains on his premises, whether for ventilation or otherwise, and all traps and other fittings, are at all times in good order, clean, and free from obstruction.

216. *Burying Nightsoil.*—No person shall bury, or cause or allow or permit to be buried or deposited, in or on the ground any nightsoil in any portion of the drainage area.

217. *Cesspit.*—No person shall construct, maintain, or use a cesspit within the One Tree Hill Road District.

218. *Using Cesspits.*—Every owner or occupier of any land in the One Tree Hill Road District upon which a cesspit exists at the date of these by-laws coming into force shall clear out the same and fill up the same with dry earth, ashes, or other effective deodorant.

219. *Closing Cesspit compulsory.*—If the owner or occupier of any land whereon any cesspit is situated fails, neglects, or refuses to clean out and fill up the same, the Board may cause the same to be done, and may recover the cost of so doing from such owner or occupier or either of them.

220. *Sanitary Service.*—The owner of every building used wholly or partly as a dwelling and situated in the undrained area, and not provided with an effective septic tank constructed to the satisfaction of the Board, shall continuously employ the services of the Board's nightsoil contractor for the removal of all faecal and other matter deposited in any privy or water-closet situated on the premises of such owner, and shall pay to the Board an annual fee in respect of such removal. Such fee shall be deemed to be for the period from the 1st day of April in each year to the 31st day of March in the succeeding year, and shall be included in the demand for the general rates payable in respect of the property on which the dwelling is situated, and shall be payable accordingly.

221. *Breach of By-law.*—Any person who shall do, or cause or permit or allow to be done, anything contrary to these by-laws or any of them, or who shall omit to do anything required by these by-laws or any of them to be done, shall be deemed to have committed a breach of these by-laws.

222. *Penalty.*—Any person committing a breach of these by-laws shall be guilty of an offence, and shall be liable to a penalty not exceeding £5 for every such offence, and in case of a continuous offence to a penalty of not more than £5 for each day during which such offence continues.

I, Thomas Harcourt Ambrose Valentine, Chief Health Officer of the Dominion of New Zealand, pursuant to the provisions of section 21 of the Public Health Amendment Act, 1918, do hereby approve of the by-laws adopted by the One Tree Hill Road Board at a special meeting of the Board

convened for that purpose on the 1st day of September, 1920, and confirmed on the 6th day of October, 1920, on which date they came into force.

Dated this 8th day of October, 1920.

T. H. A. VALINTINE, Chief Health Officer.

## PART VII.

### MOTOR-CAR BY-LAWS.

223. *Definition of Motor.*—In these by-laws the word "motor" shall have the same meaning as is assigned to it by the Motor Regulation Act, 1908, and its amendments.

224. *Speed.*—No person shall use, drive, or propel (or cause to be used, driven, or propelled) on, along, or upon any road within the One Tree Hill Road District, or any road under the control or management of the said local authority or body corporate, any motor at a greater speed than sixteen miles per hour, and when turning any corner in any of the said roads the speed of the said motor shall be reduced to four miles per hour.

225. *Sounding Horn.*—The driver or person in charge of any motor on any of the said roads shall on approaching, meeting, or overtaking any person on the roadway thereof, whether or not such person is on foot or is riding, leading, or driving any horse or any other animal, or is driving any vehicle, give audible and sufficient warning to such person of the approach or position of such motor by sounding a horn, gong, bell, or other instrument.

226. *Passing Restive Horses.*—The driver, rider, or person in charge of any motor on any of the said roads shall, on the request of any person driving, riding, leading, or having charge of any restive horse, or having charge of any vehicle drawn by a restive horse, and coming towards or going the same way as the motor, or on such person holding up his hand as a signal for that purpose, cause such motor to stop and become stationary, and shall stop the engine thereof until such person with the horse or vehicle which he is so driving, riding, leading, or in charge of shall have passed or removed to the rear of the motor.

227. *Obstructing Traffic.*—No driver or person in charge of any motor when on any of the said roads shall cause or permit or allow such motor to be driven or operated or to remain or stand on the said road so as to obstruct or interfere with the traffic thereon.

228. *Competent Driver.*—No person shall drive, operate, or attempt to drive or operate, a motor on any of the said roads unless he is a person competent to drive or operate the same and competent to control its use and movements.

229. *Competent Drivers only.*—No person or bailee having the possession or use or being in charge of a motor while on any of the said roads shall permit any other person to drive or operate or to attempt to drive or operate the same unless such last-mentioned person is competent to drive or operate the same.

230. *Motor when stationary.*—No person driving or in charge of a motor when on any of the said roads shall leave or quit such motor without having taken due precautions against its starting or being started in his absence.

231. *Passing Tram-cars.*—The driver, rider, or person in charge of any motor on any road in the said district shall, on meeting or overtaking any tram-car or other vehicle which shall be slowing down or shall have stopped for the purpose of picking up or setting down passengers, decrease the speed of the said motor so that the same shall not pass any part of the said tram-car or other vehicle at a greater speed than four miles per hour.

232. *Penalty.*—Any person committing a breach of any of these by-laws shall upon conviction be liable to a penalty not exceeding £10.

## PART VIII.

### HEAVY TRAFFIC.

233. *Heavy Traffic.*—Conduct of the particular kind of traffic following, viz.: The cartage of gravel, stone, or scoria from any scoria-pit or gravel-pit along any of the roads in the One Tree Hill Road District under the control of the Board is hereby forbidden, unless the cost as estimated by the said Board of reinstating such road or roads is previously paid to the said Board.

234. *Breach.*—If any person or body corporate shall conduct or be engaged in the particular kind of traffic hereinbefore mentioned without having first paid to the said Board the cost as estimated by the said Board of reinstating the road or roads for such traffic he shall be deemed to have committed a breach of the by-law.

235. *Penalty.*—The penalty for any breach of this by-law is a fine not exceeding £20.

SCHEDULES.

FIRST SCHEDULE.

SPECIFICATION FOR PIPE-LAYING.

All pipes shall be double-glazed stoneware, truly cylindrical, and of uniform bore and thickness. The diameter of a pipe shall mean its internal diameter, and shall not be less than the size specified. They shall be thoroughly sound, well-burnt and glazed, perfectly straight, and free from blisters, scabs, cracks, and other imperfections.

*Concrete.*—Concrete shall be composed of not less than one part of hydraulic lime to three parts of gravel and two parts of sand, or five parts of fine scoria ash. These materials must be thoroughly mixed whilst dry, and then be turned over three times whilst being wetted from the rose of a watering-can.

*Sand.*—Sand shall be sharp, coarse, and entirely free from all impurities and dirt, and shall be washed if necessary.

*Gravel.*—Gravel for concrete shall be perfectly clean, and free from soil, clay, dust, or other impurities, must be screened, and shall be washed if necessary. None shall be used that cannot be passed in any direction through a one-and-a-half-inch ring.

*Cement.*—Cement of approved brands and quality only shall be used.

*Mortar.*—Mortar shall consist of one part of Portland cement to two of sand. It shall be thoroughly mixed with as much clean water as is necessary to form a thick paste, and none but freshly made mortar shall be used.

*Laying and Jointing.*—Trenches for pipes shall be cut straight and true, and shall be evenly graded before the pipes are laid; they shall be of such widths as to allow of the pipes being properly conjoined, and have three inches of concrete all round to permit of a thorough inspection. The pipes shall be laid straight and true to line and grade. The spigots shall in every case be fitted close home in the socket, and the space between the spigot and the faucet shall be concentric and well filled with cement mortar. After each pipe is joined the interior shall be thoroughly well cleaned out before another length is laid. Tapered pipes shall in all cases be used where different-sized pipes are connected.

*Stoppers.*—All provisional junctions and access openings to siphons shall have plugs set in and covered by approved puddle clay, and shall be left airtight.

*Roots.*—Where roots exist their ingress into the pipes must be prevented by surrounding the joint with three inches of concrete.

*Wet Ground.*—In wet or soft ground a layer of concrete, broken metal, or gravel must be spread under the pipe of sufficient thickness to ensure a good and sound foundation.

*Filling over Pipes.*—The filling round pipes shall be carefully packed and consolidated. The filling over pipes shall be inserted in layers not exceeding twelve inches in thickness, and each layer shall be carefully rammed. Where trenches are made in streets the surface of roadways and footpaths shall be left in a condition satisfactory to the Inspector.

SECOND SCHEDULE.

SPECIFICATION FOR PLUMBERS.

*Cast-iron Pipes.*—Cast-iron pipes for soil and ventilation to be not less than five-sixteenths of an inch thick, except in the cases provided for, and to be large enough in the socket to allow of three-sixteenths of an inch caulking all round.

*Lead Pipes and Traps.*—Lead soil-pipes, wastes, traps, vents, bends, &c., to be drawn pipes (not seamed), approved and stamped by the Inspector, and to be formed of lead weighing not less than 6 lb. per superficial foot.

*Joints.*—Joints in cast-iron pipes to be made with a ring or two of spunyarn, and then soft lead run in and caulked. Joints between lead and cast iron to be made in a similar manner, but to have a brass ferrule soldered on to end of lead first. All lead-to-lead joints in any portion of main building to be wiped-soldered. All bedded joints for water-closets to be made with genuine red and white lead putty. Joints for cast-iron pipes of three-sixteenths of an inch thickness shall be made of lead as above, or of such other material as the Inspector shall approve.

*Waste-pipes.*—Waste or overflow pipes from baths, wash-tubs, cisterns, and sinks shall be of 6 lb. lead, but where in the opinion of the Board's Inspector a heavier weight may be required his instructions shall be complied with.

WORKS TO BE EXECUTED BY LICENSED DRAIN-CONNECTORS ONLY.

It shall not be lawful for any person, other than a licensed drain-connector under this by-law, to execute any of the works hereinafter specified:—

- (a.) To lay any private drain.
- (b.) To alter, reconstruct, extend, repair, open up, or remove any private drain.

- (c.) To connect any private drain with another private drain or sewer.
- (d.) To disconnect any private drain from another private drain or sewer.
- (e.) To affix, repair, or remove any disconnecting trap or gully-trap or other trap in connection with a private drain.

WORK TO BE EXECUTED BY LICENSED PLUMBERS ONLY.

It shall not be lawful for any person other than a licensed plumber, duly licensed under this by-law, to execute any of the works hereinafter specified:—

- (a.) To affix or repair any cistern in connection with a water-closet.
- (b.) To connect any cistern with or disconnect any cistern from any water-closet.
- (c.) To affix, or repair, or remove any basin or pan of or belonging to any water-closet.
- (d.) To affix, repair, or remove any ventilation-pipe in connection with a water-closet, or do any other work relating to the ventilation of traps in connection with water-closets.
- (e.) To connect a water-closet with or disconnect a water-closet from the soil-pipe thereof.
- (f.) To lay, or set up, or repair, or remove the soil-pipe of or belonging to any water-closet.
- (g.) The trapping of any work in connection with trapping water-closets.
- (h.) Any work in connection with the laying-on of the water to and the trapping and ventilating the traps of urinals.
- (i.) The affixing, repairing, or removing of lead and other safes under closets, baths, sinks, and other conveniences.
- (j.) The affixing, repairing, or removal of overflow of waste-pipes connected with baths, sinks, and sanitary conveniences or appliances of any description.
- (k.) The affixing, setting-up, repairing, or removal of the ventilation shafts required under this by-law, and the caps or cowls thereof, and connection of the said shafts with their disconnection from drains.
- (l.) Any plumbing work in connection with any sanitary convenience or appliance required to be provided, affixed, or set up by virtue of this Part of the by-law.

DIVISION OF WORK AS BETWEEN LICENSED DRAIN-CONNECTORS AND PLUMBERS IN CERTAIN CASES.

The licensed drain-connector shall lay the private drains to the point where the connection is to be made with the soil-pipe of a water-closet. This connection shall be made by the licensed plumber. The licensed drain-connector shall put in the junction and lay all stoneware pipes required for the ventilation shafts referred to in this by-law, and the plumber shall make the connection.

HOUSE CONNECTION.

The Board will, when requested so to do in writing by any ratepayer, undertake and carry out the work of private house connection, excepting plumbing work. The cost of such connection shall be estimated by the Engineer or other official appointed by the Board for that purpose, and shall be prepaid by the ratepayer to the Board when lodging his request. The Board will charge only the actual cost of making the connection, and if on the completion of the work the amount deposited with the Board shall be insufficient the deficiency shall at once be paid to the Board by the ratepayer. Any surplus will be refunded.

## Notice to Mariners.—No. 62 of 1920.

Marine Department,

Wellington, N.Z., 2nd November, 1920.

THE following Notices to Mariners, which have been received from the Hydrographic Office, London, and the Department of Trade and Customs, Melbourne, are published for general information.

ROBERT DUNCAN, Secretary.

## ENGLAND.

## EAST COAST.—RIVER THAMES ENTRANCE.—GIRDLER SHOAL.—BEACON RE-ESTABLISHED.

*Position.*—Near the centre of the shoal. Lat.  $51^{\circ} 29' 59''$  N., long.  $1^{\circ} 10' 10''$  E.

*Description.*—A black cylindrical iron mast, surmounted by a cone point upwards.

*Remarks.*—The height of the beacon is 32 ft. above high water.

## SOUTH COAST.—BILL OF PORTLAND.—INFORMATION WITH REGARD TO LIGHT.

*Position.*—Lat.  $50^{\circ} 30\frac{1}{2}'$  N., long.  $2^{\circ} 27\frac{1}{4}'$  W.

*Details.*—The main light (the normal character of which is group flashing white with four flashes) gradually changes from four flashes to one flash within certain bearings; the light shows as follows:—

From $221^{\circ}$ to $230^{\circ}$	Character changes from 2 to 1 flash.
From $230^{\circ}$ to $237^{\circ}$	„ 3 to 2 flashes.
From $237^{\circ}$ to $244^{\circ}$	„ 4 to 3 flashes.
From $244^{\circ}$ through west to $117^{\circ}$	Normal character of 4 flashes.
From $117^{\circ}$ to $123^{\circ}$	Character changes from 4 to 3 flashes.
From $123^{\circ}$ to $131^{\circ}$	„ 3 to 2 flashes.
From $131^{\circ}$ to $141^{\circ}$	„ 2 to 1 flash.
Obscured elsewhere.	

*Remarks.*—The abridged description of this light on the charts is to remain unchanged.

## SOUTH COAST.—SPITHEAD APPROACH.—NAB LIGHT-VESSEL.—TOWER TO BE PLACED SOUTHWARD OF; CAUTION.

*Position.*—At a distance of about  $1\frac{1}{2}$  cables,  $160^{\circ}$ , from the charted position of the Nab Light-vessel. Lat.  $50^{\circ} 40\frac{1}{4}'$  N., long.  $0^{\circ} 57\frac{1}{4}'$  W.

*Details.*—A concrete and steel tower will shortly be established in the above position. Whilst the structure is being placed two fixed red vertical lights will be temporarily exhibited from the top of the tower; the lights will be 6 ft. apart, the upper light having an elevation of about 104 ft. It is intended at a later date to establish a permanent light and fog-signal on this tower; further notice with regard to this will be given.

*Caution.*—Mariners are warned that, in consequence of the above, the light of the Nab Light-vessel will be obscured to the southward between certain bearings, the limits of which will vary according to the movement of the light-vessel due to wind and tidal stream.

## WEST COAST.—LIVERPOOL APPROACH.—BAR LIGHT-VESSEL.—WRECK NORTH-WESTWARD OF.

*Position (approximate).*—At a distance of about 12 miles north-westward from the Bar Light-vessel. Lat.  $53^{\circ} 37' 50''$  N., long.  $3^{\circ} 35' 16''$  W.

*Description.*—Sunken obstruction, believed to be the wreck of a vessel.

## CANADA.

## GULF OF ST. LAWRENCE, NEW BRUNSWICK.—MISCOU ISLAND, BIRCH POINT.—ALTERATION IN FOG-SIGNAL.

*Position.*—Close eastward of Birch Point Lighthouse. Lat.  $48^{\circ} 1' N.$ , long.  $64^{\circ} 29' W.$

*Alteration.*—The steam-whistle has been discontinued and replaced by a horn, operated by compressed air, sounding one blast every minute, thus—blast 3 secs., silent interval 57 secs.

## CHINA SEA.

## FORMOSA.—BREAKERS REPORTED SOUTH-WESTWARD OF.

*Position.*—At a distance of about 120 miles south-westward from the southern end of Formosa. Lat.  $20^{\circ} 25' N.$ , long.  $119^{\circ} 23' E.$

*Details.*—The s.s. "City of Norwich" reported sighting heavy breakers, apparently indicating the existence of a reef about 6 miles in extent, in approximately the position given above.

*Note.*—A note "Breakers reported (1920)" surrounded by a danger line is to be inserted on the charts in this locality.

## GULF OF SIAM, MALAY PENINSULA.—SINGORA LIGHT.—ALTERATION IN CHARACTER.

*Former Notice.*—No. 835 of 1920.

*Position.*—On the summit of Pagoda Hill. Lat.  $7^{\circ} 12\frac{1}{2}' N.$ , long.  $100^{\circ} 35\frac{3}{4}' E.$

*New Abridged Description.*—Lt. occ., ev. 30 secs., 352 ft., vis. 10 m.

*Alteration.*—The character of the light has been altered from fixed white to occulting white every thirty seconds, thus—light, 25 secs., eclipse 5 secs.

## EASTERN ARCHIPELAGO.—NEW GUINEA.

## GEELVINK BAY AND APPROACH.—EXISTENCE OF SHOALS AND ROCK.—DECREASED DEPTH ON SHOAL.

## (1.) Existence of shoals:

"	11s,	"	296	"

\* Grouped.

The improvements which are not included in the capital value of the land, but which have to be paid for separately, are as follows:—

Section 2s.—Whare, value £10. Payable in cash.

Section 5s.—Old cottage, value £10. Payable in cash.

Section 9s.—House of six rooms, in fair habitable condition valued at £200. Payable in cash or in twenty half-yearly instalments of £12 19s.

Section 10s.—Small cottage and two sheds, valued at £150. Payable in cash or in twenty half-yearly instalments of £9 14s. 3d.

Section 12s.—Wool-shed, with shearing-machine, dip, and yards, valued at £560. Payable in cash or in thirty half-yearly instalments of £26 11s. 6d.

**DESCRIPTION OF SECTIONS.**

Section 1s.—Situating on the Mauku Road. Subdivided into three paddocks. A portion of the north-eastern boundary is not fenced. The country varies from undulating to steep, and on the Tangarakau side is strong blue-papa land. On the Mauku Road side a quantity of second-growth needs clearing. A single soldier taking this up should have capital or financial backing of £1,300 to supplement Government advances.

Section 2s.—Situating on the Whitianga Road. There are about 25 acres of flat and undulating land ploughable. The soil is of good quality. This section is not ring fenced.

Section 3s.—This section lies fronting the Tangarakau River, but has a strip at one end sufficient for a homestead-site and yards, fronting the Whitianga Road. There is some ploughable land on the terrace adjacent to the southern boundary; mostly strong blue-papa country, well grassed. A single soldier taking this up should have capital or financial backing of £1,300 to supplement Government advances.

Section 4s.—This is one of the best sections in the settlement, and from one-third to one-half could be dairied on. The access to the best part requires improvement. The fence on the south-eastern boundary is not on the legal boundary in places, but arrangements under the Fencing Act could be made with the adjoining owners. It is subdivided into three paddocks. Any soldier taking this up should have about £200 capital.

Section 5s.—This section contains about 30 acres of tillable flat; the rest is hillside of fair quality. It is nearly all ring fenced, but in parts the fences are not on the boundary, and arrangements should be made with the adjoining owner.

Section 6s.—This section fronts the Mauku Road. The slopes close to the road are easy, but the ground gets steeper towards the ridge. It carries some second growth. It is not all ring fenced.

Section 7s.—This section is mostly rather steep country, but carries good grass. The boundaries have been laid out for easy working. There is some terrace country towards the back. Not quite ring fenced; when this is finished, will be divided into three paddocks. A single soldier taking this up should have capital or financial backing of about £800 to supplement Government advances.

Section 8s.—Similar to above. Section 12s, containing the wool-shed, will go with this. About 6 acres across the road is flat, cut out for homestead-site. A soldier taking this up should have capital or financial backing of about £400 to supplement Government advances.

Section 9s.—Contains about 50 acres of flat and easy country. (There is a dwelling of six rooms in fair order.) It is subdivided into about nine paddocks. Any one taking this up should have capital or backing of about £400.

Section 10s.—Contains about 40 acres of flat and easy country. This is valued at a cheaper rate than most of the sections, and in parts carries some fern. There is an old cottage and two fair sheds. Subdivided into eight paddocks. Applicant should have about £400 available.

Section 11s.—This is mostly moderately steep country. There is fern in parts. About 40 acres across the road has been included, to give a good homestead-site. This is a lower-priced section than the rest. Some of the boundaries are not fenced, and arrangements under the Fencing Act should be made with the adjoining owner.

Section 12s.—Contains the wool-shed, with shearing plant and dip, and is grouped with Section 8s.

**GENERAL DESCRIPTION.**

The centre of this settlement is about six miles from the Kohuratahi Railway-station. The access is by unmetalled road. The land is excellent grass country, the formation being generally blue papa, and ryegrass sown twenty years ago is still holding. In parts the top soil is volcanic, but on the slopes and in some of the valleys papa is mixed with it. For the most part the country is fairly clean, having been well farmed, but in a few places some second growth and fern will need attention. Dairying to a small extent could be carried on, if desired, on the flats and easier slopes, but the land mostly is more suited for mixed grazing, to which it is well adapted, and is country where feed comes early in the spring. The land is well watered, and the climate generally moist. The altitude varies from about 450 ft. on the flats to about 1,200 ft. on the highest ridges. The fences generally are sheep-proof, mostly in fair order.

SPECIAL CONDITIONS.

For two seasons the lessee of Sections 8s and 12s, which have been grouped, must afford the other lessees of the settlement facilities for shearing and dipping at a charge of not more than £2 10s. per day for the use of the wool-shed, yards, and dip. Labour, benzine, &c., to be an extra charge.

As the limit of the advance allowed by the Government is insufficient for the successful working of some of the sections, applicants should have additional capital of their own, or guarantee of financial assistance, to the following extent: Section 1s, £1,300; Section 3s, £1,300; Section 4s, £200; Section 7s, £800; Section 8s, £400; Section 9s, £400; Section 10s, £400.

NOTE.—The deferred-payment instalment includes repayment for buildings.

IMPROVEMENTS.

The improvements included in the capital value of the land are: Sections 1s and 3s (grouped), 263 chains fencing, valued at £330; Section 2s, 210 chains fencing, valued at £260.

The improvements not included in the capital value of the land: On Section 1s, comprise homestead, dairy, fowl-house, wool-shed, stable and implement-shed, and motor-shed, the whole valued at £1,250. Payable in cash or in forty-two half-yearly instalments of £48 15s.

DESCRIPTION OF SECTIONS.

Section 1s has about 90 acres of flat and undulating country, partly ploughable.

Section 3s, which is grouped with 1s, is rough bush country.

Section 2s contains about 120 acres of flat and undulating country, mostly ploughable.

GENERAL DESCRIPTION.

Marco Settlement is situated on the Marco Road, about four miles and a half from the railway-station at Whangamomona, and three miles and a half from that at Kohuratahi. Access is by metalled road as far as the present homestead. The country rises from 650 ft. above sea-level on the flats to about 1,400 ft. on the ridges, is well watered, and generally lies well to the sun. The soil is clay formation on papa, and is good grass country.

Dairying could be carried on on the flats, and the hills are fitted for mixed cattle and sheep grazing. The fencing is generally sheep-proof and in fair order. Half lengths of boundary fencing are allowed for each section.

SPECIAL CONDITIONS.

As the limit of the advance allowed by the Government is insufficient for the successful working of the sections, applicants should have additional capital of their own or guarantee of financial assistance of £300.

Sale posters and full particulars may be obtained at this office.

## DESCRIPTION.

Lichfield Village is situated about four miles from Putaruru Railway-station by good road. The Taupo Totara Timber Company's tram passes along front boundary of the village, and provides a daily service.

The land is practically level, being light sandy soil covered with short fern. All areas are unimproved, except Section 4, Block II, which contains a small one-roomed whare with iron roof and chimney, valued at £40, which must be paid for in cash at time of sale.

Sections 4, Block II, 3 and 4, Block III, 8 and 9, Block V, and 16 and 17, Block VI, are fenced on their eastern boundaries, and half cost of such fence will have to be paid to adjoining owner.

TERMS OF SALE.

(1.) *Cash*.—One-fifth of the purchase-money and valuation for improvements on the fall of the hammer, and the balance, with Crown-grant fee (£1), within thirty days thereafter.

(2.) *Deferred Payments*.—5 per cent. of the purchase-money, license fee (£1 ls.), and valuation for improvements on the fall of the hammer; balance by equal annual instalments

extending over nineteen years, with interest payable half-yearly at the rate of 5 per cent. per annum on the unpaid purchase-money; but with the right to pay off at any time the whole or any part of the outstanding amount.

In either case, if the purchaser fails to make any of the prescribed payments by due date, whether of purchase-money or interest, the amount already paid shall be forfeited, and the contract for the sale of the land be null and void.

Titles will be subject to section 60 of the Land Laws Amendment Act, 1912.

The value of the improvements must be paid on the fall of the hammer.

Sale plans and full particulars may be obtained at this office.

as hitherto carried on by the old company, and that the office of the new company shall be situate in Fanshaw Street in the City of Auckland in the building heretofore occupied as the office of the old company.

This notice is given pursuant to sections 302 and 307 of the Companies Act, 1908.

Dated 18th October, 1920.

JOS. BUTLER,  
JOHN ROBB,  
1000 Two of the Attorneys of the New Company.

#### NOTICE UNDER THE PUBLIC WORKS ACT, 1908.

**N**OTICE is hereby given that the Education Board of the District of Auckland intends to erect a public school, and to take, under the provisions of the Public Works Act, 1908, for the purposes of a public school the following land—namely, all that piece of land situated in the Otanake Survey District, containing 8 acres, more or less, being part of a block called Kinohaku E 4B No. 1.

A plan of the said land is deposited at the post-office at Piopio, and is there open for inspection by all persons at all reasonable hours.

All persons affected are hereby required and called upon to set forth in writing any well-grounded objections to the erection of a public school on the said land or to the taking of such lands, and to send such writing, within forty days from the first publication of this notice, to the Education Board of the District of Auckland at its office in Williamson's Chambers, Shortland Street, Auckland.

Dated at Auckland this 22nd day of October, 1920.

E. C. PURDIE,  
Secretary to the Education Board of  
the District of Auckland.

This notice was first published on the 27th day of October, 1902, in the *New Zealand Herald* newspaper. 1006
