NEW ZEALAND GAZETTE.

Published by Authority.

WELLINGTON, THURSDAY, APRIL 28, 1921.

**ERRATUM.**—From the Schedule to the Warrant published in *Gazette* No. 39, pages 981 and 982, of 21st April, 1921, appointing Inspectors of Scenic Reserves in Otago Land District, *delete* “Also Sections 1 of 16, 3 of 16, and 4 of 16, Block VII, South Molyneux Survey District: Area, 12 acres 0 roods 37 perches.”

*Land set apart for Selection.*

[L.S.] JELICOE, Governor-General.  
A PROCLAMATION.

**WHEREAS** by section sixty-three of the Land Laws Amendment Act, 1913, it is, amongst other things, enacted that in no case shall any moneys be expended under the provisions of the said section sixty-three in connection with any block of land, unless that block is set apart for selection under that section pursuant to Proclamation in that behalf:

Now, therefore, in pursuance and exercise of every power and authority enabling me in this behalf, and for the purposes of the aforesaid Act, I, John Rushworth, Viscount Jellicoe, Governor-General of the Dominion of New Zealand, do hereby proclaim the land described in the Schedule hereto as set apart for selection.

SCHEDULE.

D. H. GUTHRIE, Minister of Lands.

GOD SAVE THE KING!

*Land in the North Auckland Land District declared to be subject to Section 127 of the Land Act, 1908.*

[L.S.] JELICOE, Governor-General.  
A PROCLAMATION.

**WHEREAS** the Land Board of the North Auckland Land District has recommended that the Crown tenant of the land enumerated in the Schedule hereto should be afforded relief, owing to exceptional circumstances over which he has no control preventing the profitable occupation of such land:

Now, therefore, in pursuance and exercise of the power and authority conferred upon me by section twenty-five of the Reserves and other Lands Disposal and Public Bodies

Empowering Act, 1911, I, John Rushworth, Viscount Jellicoe, Governor-General of the Dominion of New Zealand, do hereby proclaim and declare the land enumerated in the Schedule hereto to be subject to the provisions of section one hundred and twenty-seven of the Land Act, 1908; and I do further fix two years from the date mentioned in the said Schedule as the period for which the said land shall be exempt from payment of rent.

*Amending Regulation under the National Provident Fund Act, 1910.*

JELlicoe, Governor-General.

ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 21st day of April, 1921.

Present:

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING  
IN COUNCIL.

IN pursuance and exercise of the power and authority conferred upon him by section seven (b) of the National Provident Fund Act, 1910, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby revoke regulation twenty-five of the regulations under that Act, dated the twenty-seventh day of June, one thousand nine hundred and eleven, and gazetted on the twenty-ninth day of the same month, and doth hereby make the following regulation in lieu thereof.

REGULATION.

25. (1.) (a.) ALL moneys belonging to the National Provident Fund shall, as from the 1st day of April, 1921, be specially invested by the Public Trustee as hereinafter provided.

(b.) As from the first day of the month following the receipt of any such moneys, the Public Trustee shall allocate to the amount of such moneys then in hand securities held by him on behalf of the Common Fund of the Public Trust Office, at the rate of interest prevailing at that time in respect of Common Fund investments.

(c.) Where the moneys of the Common Fund have during that financial year been invested in different classes of securities bearing varying rates of interest, allocation for the purposes of paragraph (b) hereof shall be *pro rata* amongst such securities.

(d.) For his services in and about the collection of interest or otherwise in respect of such securities the Public Trustee shall be entitled to charge and deduct from such interest a fee of £4 per centum per annum in respect of interest received from mortgages, and £2 10s. per centum per annum on debenture interest.

(2.) In respect of the moneys of the National Provident Fund invested prior to the 1st day of April, 1921, the following provisions shall apply:—

(a.) On that date the Public Trustee shall allocate from the existing investments of the Common Fund of the Public Trust Office such securities as may be mutually agreed on by the Superintendent of the National Provident Fund and the Public Trustee, and the securities so allocated shall on and after that date be deemed to be held in respect of investments of moneys belonging to the National Provident Fund, and all moneys thereafter payable by way of interest on such securities or for the redemption thereof, or otherwise

in respect thereof, shall form part of the National Provident Fund, and shall be dealt with by the Public Trustee as prescribed in subclause (1) hereof.

(b.) The securities so to be taken over shall be selected so that a due proportion of the investments at each separate rate of interest in the Common Fund of the Public Trust Office shall be taken over.

(c.) The Public Trustee's remuneration for his services in respect of these investments shall be regulated by paragraph (d) of subclause (1) hereof.

(3.) In the event of any dispute between the Superintendent of the National Provident Fund and the Public Trustee in respect of any matters arising out of this regulation, the matter shall be submitted to the Controller and Auditor-General, and his decision shall be final and conclusive.

C. A. JEFFERY,  
Acting Clerk of the Executive Council.

*Auckland Grammar School Board declared a Leasing Authority under the Public Bodies' Leases Act, 1908.*

JELlicoe, Governor-General.

ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 27th day of April, 1921.

Present:

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING  
IN COUNCIL.

WHEREAS the Auckland Grammar School Board (a body corporate constituted under the Auckland Grammar School Act, 1899) is a body of persons having power to lease lands held in trust, reserved, or set apart for educational purposes, and has requested the Governor-General in Council to declare it to be a leasing authority within the meaning of the Public Bodies' Leases Act, 1908:

Now, therefore, His Excellency the Governor-General of the Dominion of New Zealand, in compliance with such request, and in exercise of the powers in this behalf conferred by the above-mentioned Act, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby order and declare that the Auckland Grammar School Board is a leasing authority within the meaning of the Public Bodies' Leases Act, 1908.

JELlicoe, Governor-General.

ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 21st day of April, 1921.

Present:

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING  
IN COUNCIL.

IN pursuance and exercise of the powers vested in him by section forty-nine of the Electric-power Boards Act, 1918, as amended by section seventeen of the Electric-power Boards Amendment Act, 1920, and of all other powers in anywise enabling him in this behalf, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby authorize the Te Awamutu Electric-power Board (hereinafter referred to as "the Board") to erect electric lines and substations for the transmission and distribution of electrical energy in the Te Awamutu Electric-power District as defined by Proclamation dated the eighteenth day of December, one thousand nine hundred and nineteen, and published in the *New Zealand Gazette* No. 1, of the eighth day of January, one thousand nine hundred and twenty, and generally to perform the functions of an Electric-power Board constituted in accordance with the provisions of the Electric-power Boards Act, 1918, and its amendments, subject to the following conditions.

CONDITIONS.

1. No electric lines shall be used for the distribution of electrical energy until the Board has obtained a license for that purpose in accordance with the provisions of section 2 of the Public Works Amendment Act, 1911.

2. Any conditions inserted in such license shall be strictly complied with by the Board.

3. The Board shall, before the works authorized are commenced, forward for the approval of the Minister of Public Works—

(a.) Plans showing the routes of the electric lines proposed to be erected and particulars of insulation and voltage;

(b.) Such further plans and particulars as the Minister of Public Works may require.

4. Notwithstanding anything hereinbefore contained, the Board shall not, without the consent in writing of the Minister of Public Works, erect any electric lines along the routes of the Government main transmission-line from Arapuni, including the route between the Ohaupo and Te Awamutu Road south of Serpentine Lake and the 150 kilowatt sub-station north of Rotomanuku, and the route following the road between Pukerimu School and Mystery Creek immediately south of the Waikato River.

*Regulations under the Government Railways Act, 1908.*

JELLCOE, Governor-General.

ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 27th day of April, 1921.

Present:

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING IN COUNCIL.

IN pursuance and exercise of the powers conferred upon him by the Government Railways Act, 1908, and of all other powers and authorities enabling him in this behalf, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby revoke regulations sixty-four, sixty-six, and eighty-two of the regulations made under the Government Railways Act, 1908, on the fifth day of December, one thousand nine hundred and thirteen; regulation sixty-three made under the said Act on the fourth day of February, one thousand nine hundred and nineteen; and regulation sixty-seven A made under the said Act on the eleventh day of August, one thousand nine hundred and nineteen; and doth hereby make the regulations set forth in the Schedule hereto.

SCHEDULE.

REGULATIONS.

1. (a.) MEMBERS of Division I shall, when travelling on duty for other than relieving purposes, be paid travelling-allowance for personal expenses at the following rates, namely:—

(i.) Members whose classified salaries do not exceed £160 per annum: Actual and reasonable expenses.	Per Day.
(ii.) Members whose classified salaries exceed £160 but do not exceed £400 per annum	s. d. 12 6
(iii.) Members whose classified salaries exceed £400 but do not exceed £500 per annum	15 0
(iv.) Members whose classified salaries exceed £500 but do not exceed £600 per annum	17 6
(v.) Members whose classified salaries exceed £600 per annum (except the Permanent Head)	20 0
(vi.) The Permanent Head	25 0

Provided, however, that in respect to time during which any such member is travelling by sea, the rate shall, if such time exceeds twenty-four hours, be as follows:—

(vii.) For the first day of absence from headquarters	Per Day. s. d. 10 0
(viii.) For the second and each subsequent day of absence	2 6

(b.) Members of Division I shall, while absent from their headquarters on relief duty, be paid relieving-allowance for personal expenses at the following rates in each case:—

Members in Grade 8: Actual and reasonable expenses.	Per Day. s. d.
Members in Grades 5, 6, and 7	10 0
Members in Grade 4	12 6

Members in grades above Grade 4: At the rate prescribed for travelling-allowance in each case.

(c.) "Day," for the purposes of this regulation, means a period of twenty-four hours, and the period for which travelling or relieving allowance shall be payable shall in each case be calculated from the time of departure of the member concerned from his headquarters in pursuance of the duty on which he is required to travel until his return thereto. For any portion of a day the rate shall be one twenty-fourth of the prescribed daily rate for each hour's absence from headquarters. In computing the period of such absence a fraction of an hour, if less than half an hour, shall not be taken into account, but half an hour or more shall be reckoned as one hour.

(d.) No member who is entitled to be paid lodging-allowance shall be entitled to claim such allowance concurrently with travelling or relieving allowance for any continuous period exceeding one week. When any such member becomes entitled to payment of travelling or relieving allowance for any continuous period exceeding one week the amount paid

or payable to him as lodging-allowance for such period shall be deducted from the amount payable to him by way of travelling or relieving allowance for the same period.

(c.) No member who is entitled to be paid relieving-allowance shall also be paid travelling-allowance in respect of the same absence from headquarters:

Provided, however, that when a member performs relieving duty, and in the course thereof is absent from his headquarters for not more than three nights at the same place, he may be paid travelling-allowance instead of relieving-allowance in respect of the time during which he is relieving at such place:

Provided further that if a member is occupied for not less than six hours in travelling to or from his headquarters on relieving duty, he may be paid travelling-allowance instead of relieving-allowance in respect of each day on which he is so occupied.

2. When a member leaves his headquarters on duty and returns thereto on the same day, actual and reasonable expenses may be paid him instead of travelling or relieving allowance.

3. Travelling or night allowance will not be payable to members in respect of any time during which they are travelling on transfer.

4. In all cases where a member is travelling on the business of the Department and in the discharge of his duty the least expensive means of conveyance must be used, but if any Government means of conveyance is available it must be utilized.

5. Whenever a claim is made for reimbursement of any item of expense exceeding 5s. the claim must be supported by a receipt for the amount actually paid by the claimant.

6. Members of Division II when absent on duty from headquarters at night shall be paid night-allowance at the following rates for such periods as the Permanent Head may determine, but in no case shall the payment to any unmarried member extend over a period exceeding six weeks in any one locality:—

(a.) To every member not otherwise specified, 8s. per night when no sleeping-accommodation is provided by the Department; 5s. 6d. per night when sleeping-accommodation is provided by the Department.

(b.) To gangers in charge of relaying gangs and gangers working on ballast and work trains, if provided by the Department with sleeping-vans or huts, 5s. 6d. per night.

(c.) To other members of the Maintenance Branch, if provided by the Department with sleeping-vans or huts, 2s. per night.

7. (a.) No member who is married, or who is a widower with a child or children under the age of sixteen years living with and dependent upon him, shall be paid at a lower rate than £234 15s. per annum.

(b.) No member who is twenty-two years of age or upwards shall be paid at a lower rate than £100 per annum.

(c.) For the purpose of giving effect to the last two preceding paragraphs any such member as is mentioned therein shall receive, by way of special allowance, such additional sum as will raise the rate of pay to which he is entitled under the Schedule to the Government Railways Act, 1908, to £234 15s. per annum in the case of such member becoming entitled to such allowance under paragraph (a) hereof, and to £100 per annum in the case of such member becoming entitled to such allowance under paragraph (b) hereof.

(d.) Such additional sum shall, in the case of each such member, be paid in the same manner and be subject to the same conditions as his salary under the aforesaid Schedule.

(e.) The right to receive such additional sum shall be deemed to commence on the date on which the member concerned furnishes to the Permanent Head satisfactory evidence that he possesses the qualifications entitling him thereto.

8. Members of Division II stationed and residing at isolated places as determined by the Permanent Head may be paid an allowance of 6d. per day.

9. Any apprentice who, in his own time, gains any diploma or certificate of proficiency in his trade (which diploma or certificate is of a standard satisfactory to the Permanent Head) from any public technical school or college may be paid an allowance at the rate of 6d. per day in addition to such apprentice's ordinary rate of pay, such allowance to be payable from the date on which such diploma or certificate is produced to the master of such apprentice; provided, however, that not more than one such allowance shall be paid to the same apprentice.

10. An allowance at a rate not exceeding 1s. per day may, on the approval of the Permanent Head, be paid to any employee in Division II when such employee is engaged on work of a more than ordinarily dirty nature.

11. If and whenever a member of Division II is on duty for a continuous period of not less than eleven hours, and (being at his home station) is not allowed time off duty at such station for the purpose of taking a meal during such period, he will be paid an allowance of 2s.

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING IN COUNCIL.

IN pursuance and exercise of the powers conferred by the Public Works Amendment Act, 1908, the Public Works Amendment Act, 1911, and of all other powers in anywise enabling him in this behalf, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth—subject to the conditions set forth in the Schedule hereto, and to the regulations made under section two of the Public Works Amendment Act, 1911, and dated the twenty-second day of September, one thousand nine hundred and nineteen, published in the *New Zealand Gazette* of the twenty-fifth day of the same month, or any regulations hereafter made in amendment thereof or in substitution thereof (and hereinafter collectively referred to as “the regulations”), and which regulations shall be deemed to be incorporated herein—hereby grant to the Whakatane Borough Council (hereinafter with its successors and assigns referred to as “the licensee”) a license to take and use from the Karaponga Stream (hereinafter referred to as “the said stream”), in the Auckland Land District, for the purposes hereinafter set forth, a stream of water (hereinafter referred to as “the said water”) not exceeding fifteen cubic feet per second at any one time; and also to erect and maintain electric lines for power, lighting, heating, or other uses within the area of supply hereinafter described; the electric lines at present proposed to be erected being shown by red, yellow, and green lines on the plan marked P.W.D. 50318 and deposited in the office of the Minister of Public Works at Wellington, in the Wellington Land District; but nothing herein shall be held to guarantee that the said stream contains sufficient water to supply fifteen cubic feet per second herebefore mentioned.

#### SCHEDULE.

##### 1. PLANS.

The licensee shall, before the works hereby authorized are commenced, forward for the approval of the Minister of Public Works (hereinafter referred to as “the Minister”)—

- (a.) Full detailed drawings and specifications of the diverting weir and dam.
- (b.) Drawings showing how and in what manner the water diverted is to be returned to the said stream.
- (c.) Contour plan showing difference in level of water due to the construction of the headworks.

##### 2. UTILIZATION OF THE WATER.

The said water shall be used solely for the purpose of generating electricity, and shall be returned to the said stream at or near the power-house.

##### 3. LOCATION OF HEADWORKS.

The said water shall be taken from the said stream at the headworks, situated in Section 2, Block V, Rangitaiki Upper Survey District, at a point indicated on the plan marked P.W.D. 50319, deposited in the office of the Minister at Wellington, in the Wellington Land District.

##### 4. GENERAL DESCRIPTION OF WORKS.

The licensee is hereby authorized to construct, maintain, and use the following works for the purposes of this license; the position of the said works being indicated on the plans marked P.W.D. 50318 and 50319, deposited in the office of the Minister as aforesaid:—

- (a.) Headworks consisting of a dam.
- (b.) Pipe-line leading from such dam to the power-house hereinafter referred to.
- (c.) A power-house with all necessary equipment, including water turbines, generators, transformers, lightning-arresters, switchboards, switches, exciters, and other appliances for generating electricity.
- (d.) Electric lines in the Whakatane County from the sub-station at Whakatane along the Taneatua Road to the proposed water-pumping station, as shown on P.W.D. 50318.
- (e.) A transmission-line over the route shown by means of a red line on the said plan P.W.D. 50318.
- (f.) Such further transmission and other lines within the area of supply as may from time to time be required within such area of supply, and after compliance with the provisions of clause 48 of the regulations

## 5. INSPECTION OF WORKS.

The Inspecting Engineer, both during and after the construction of the works, shall have free access to and liberty at any time to inspect the same so as to ensure that the provisions of this license are given due effect to.

## 6. MAINTENANCE OF WORKS.

After the said works have been completed, the licensee shall maintain the same in proper working-order during the continuance of this license.

## 7. RIGHT TO ENTER LANDS, ETC.

The licensee shall have the right at any time or times during the continuance of this license, with the consent of the Minister, to enter upon any road or other land, whether vested in or occupied by the Crown or any other person or body corporate, and there to construct, erect, lay down, maintain, renew, or repair all such transmission-lines, poles, or other things as are required for the transmission of electricity between the generating-stations and any of the substations to which this license applies.

## 8. POWER TO TAKE LAND.

The licensee is hereby empowered to take, under the Public Works Act, 1908, as for a public work such land as may, in the opinion of the Governor-General, be necessary to enable the licensee to construct and maintain the various works authorized by this license.

## 9. DURATION OF LICENSE.

This license shall, unless sooner determined in accordance with the provisions hereinafter expressed, continue in force for a period of forty-two years from the date hereof. Upon the expiry of the said term, or upon the sooner determination of this license by revocation or otherwise, all rights hereby granted to the licensee shall thereupon cease and determine, but such expiration or determination shall not relieve the licensee of any liability theretofore incurred under this license.

## 10. RENTAL.

The licensee shall, in respect of this license, pay to the Public Works Engineer for the district, or otherwise as the Minister may from time to time require, a rental at the rate of 1s. per annum per kilowatt of maximum output as recorded by the wattmeter to be installed by the licensee at the power-house mentioned in clause 4 (c) hereof, payment to be made yearly on the 31st day of March in each year, commencing from the day electrical power is first supplied. For the purpose of this clause "maximum output" means twice the number of units generated in the half-hour during which the output is the maximum for the year. The said period shall be recorded at the end of each half-hour commencing from noon of each day. The minimum rental shall not be less than £10 per annum.

## 11. GRANTING OF OTHER WATER-RIGHTS.

Nothing herein shall prevent the Governor-General in Council from granting to any person or body corporate other than the licensee a license to take water from any portion of the said stream, except at the place where the licensee is by this license empowered to take it; provided that no such license shall so operate as to reduce the natural fall between the headworks and tail-water, or the volume of the water which the licensee is by this license authorized to take from the said stream.

## 12. VARIATION IN CONDITIONS OF LICENSE.

The terms and conditions of this license may at any time or from time to time, at the request or with the consent in writing of the licensee, be altered by the Governor-General by Order in Council.

## 13. SURRENDER OF LICENSE.

The licensee may at any time, with the consent of the Minister, surrender this license, and shall thereupon, if so required by the Minister, remove from the ground all removable equipment, machinery, buildings, poles, transmission-lines, and other plant herein authorized to be installed or provided. If the licensee fails or neglects so to remove the said plant within twelve months after being required so to do, such equipment, machinery, buildings, poles, lines, and other plant shall, without payment or compensation, vest in and become the property of the Crown.

## 14. CHARGES FOR ELECTRICAL ENERGY.

The charges for electrical energy shall not exceed 1s. per unit for lighting purposes, and 6d. per unit for motor-power, heating, or cooking purposes; provided that "lighting purposes" shall include the operation of motor generators for lighting purposes; and provided further that if accounts are paid within fourteen days of due date the charges shall not exceed 9d. per unit for lighting purposes and 4½d. per unit for motor-power, cooking, or heating purposes.

## 15. AREA OF SUPPLY.

The area of supply comprises the Borough of Whakatane as at present constituted.

## 16. SYSTEM OF SUPPLY.

The system of supply shall be as described in paragraph (e) of clause 3 of the regulations.  
The generating voltage shall be approximately 3,300 volts between the terminals.

## 17. DATUM TEMPERATURE.

For the purposes of calculating stresses as provided in clause 15 of the regulations, the datum temperature shall be taken as 20 degrees Fahrenheit.

## 18. INTERCHANGE OF SUPPLY OF ELECTRICAL ENERGY.

(a.) In the event of the Minister establishing a hydro-electric-power scheme outside the area of supply of a frequency of 50 cycles per second on the three-phase alternating-current system, he may require the licensee to connect that system with the licensee's electrical system in such a manner that an interchange of electrical energy between the two systems may be made from time to time and when required by either the licensee or the Minister, up to at least one-half of the total capacity of the plant installed at the licensee's power-house.

(b.) The licensee shall erect and maintain in good order, at the expense of the licensee, the necessary transmission-lines between the licensee's power-house and a point on the boundary of the area of supply to be determined by the Minister.

(c.) The Minister shall erect and maintain in good order, at the expense of the Minister, the necessary transmission-lines outside the area of supply, for the purpose of connecting the two systems at the point last mentioned in subclause (b) hereof.

(d.) The licensee and the Minister respectively shall on demand, and from time to time, as and when required, supply to each other so much of the surplus electrical energy as is then required and is available, but not in excess of one-half of the capacity of the plant installed in the licensee's power-house.

(e.) The price to be paid by the licensee or the Minister shall not exceed the following rates:—

Between the hours of 8 a.m. and 8 p.m. daily: 1d. per unit.

Between the hours of 8 p.m. and 8 a.m. daily: ½d. per unit.

To be measured in each case at the point last mentioned in subclause (b) hereof.

(f.) For the purpose of this clause either the licensee or the Minister may have the unit measured in kilo-volt-ampere hours instead of kilowatt hours.

## 19. COMPENSATION PAYABLE FOR LAND INJURIOUSLY AFFECTED, ETC.

In respect of all land injuriously affected, and in respect of all damages done by the exercise of any of the powers conferred upon the licensee by this license, the licensee shall from time to time, as and when any such injury or damage accrues or happens, pay compensation in accordance with the provisions of the Public Works Act, 1908, in the same manner (subject to all necessary modifications) as if such licensee were a local authority and the claim was one for injury or damage arising out of the construction of a public work.

## 20. CROWN NOT LIABLE TO PAY COMPENSATION.

Nothing in this license shall be held to cast upon or imply any liability upon His Majesty the King or upon the Government of New Zealand to pay compensation to any person, corporate body, or local authority by reason of the exercise by the licensee of the authority hereby granted; but the licensee shall be liable for any loss or damage which any person, corporate body, or local authority may sustain as the result of the exercise by the licensee of any of the powers granted by this license.

## 21. CONSUMERS ENTITLED TO SUPPLY.

The licensee shall supply and sell to any person, company, or corporate body within the area of supply requiring the same, for any purpose within that area, electricity to the extent to which it may be available; provided that such person, company, or corporate body pays the cost of connecting his or its premises with the transmission-line erected by the licensee in pursuance of this license, or alternatively pays a line rental at a rate not exceeding 6 per cent. on the cost of such connecting-line together with any additional transmission-line required to supply such person, company, or corporate body.

## 22. BED OF STREAM NOT LEASED.

Nothing herein shall be held to constitute a lease from the Crown of the bed of the said stream, nor shall the provisions of Part IX of the Property Law Act, 1908, apply to this license.

**23. CONTRACT BETWEEN LICENSEE AND CROWN.**

This license shall be deemed to constitute a contract as between the licensee and His Majesty the King, and may be enforced as a contract by and against His said Majesty or the licensee accordingly.

**24. TIME FOR SUBSTANTIAL COMPLETION OF WORKS.**

The licensee shall substantially complete the works hereby authorized within a period of two years from the date of this license, or within such further time as the Minister may allow in the event of the work being delayed by strikes, lockouts, breakdowns, or other unavoidable causes not due to any neglect by the licensee.

**25. DEFAULT.**

If the licensee fails or neglects to observe any of the conditions or obligations imposed by this license, then and in any such case the provisions of clauses 50 and 51 of the regulations shall apply to the breach of any such condition or obligation.

**26. REQUIREMENTS OF WHAKATANE COUNTY COUNCIL.**

Notwithstanding anything hereinbefore contained, the licensee shall not be entitled to erect, maintain, or use any electric lines within the Whakatane County, except subject to such conditions, not inconsistent with the provisions of this license and the regulations relating thereto, or any variation of this license or the regulations, or new regulations which may take the place of these regulations, as may from time to time be agreed upon between the licensee and the Whakatane County Council.

*Vesting a Reserve in the Chairman, Councillors, and Inhabitants of the Takaka County.*

JELlicoe, Governor-General.  
ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 21st day of April, 1921.

Present :

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING IN COUNCIL.

WHEREAS the land described in the Schedule hereto has been duly set apart for a site for a public hall: And whereas, in the opinion of the Governor-General, it is expedient that the said land should be vested in the Chairman, Councillors, and Inhabitants of the Takaka County:

Now, therefore, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, and in exercise of the powers and authorities conferred upon him by section four of the Public Reserves and Domains Act, 1908, doth hereby declare that, from and after the day of the date hereof, the reserve described in the Schedule hereto shall become vested in the Chairman, Councillors, and Inhabitants of the Takaka County, in trust, for a site for a public hall.

SCHEDULE.

*Withdrawing Land from the Operation of the Kauri-gum Industry Act, 1908.*

JELlicoe, Governor-General.  
ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 21st day of April, 1921.

Present :

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING IN COUNCIL.

WHEREAS by section forty-six of the Land Laws Amendment Act, 1913, it is enacted that the Governor-General may, by Order in Council gazetted, on the recommendation of the Land Board, declare that any land comprised in a kauri-gum reserve shall, from a date to be specified in the Order, cease to be subject to the Kauri-gum Industry Act, 1908, and on and after the date so specified the land to which the Order relates shall become subject to the provisions of the Land Act, 1908:

And whereas the Land Board of the North Auckland Land District has duly passed a resolution recommending that portion of the Rotorua Kauri-gum Reserve Extension described in the Schedule hereto be excepted from the operations of the Kauri-gum Industry Act, 1908, and it is expedient to give effect to such recommendation:

Now, therefore, I, John Rushworth, Viscount Jellicoe, Governor-General of the Dominion of New Zealand, in pursuance and exercise of the power and authority conferred upon me by section forty-six of the Land Laws Amendment Act, 1913, and acting by and with the advice and consent of the Executive Council of the said Dominion, do hereby order and declare that portion of the Rotorua Kauri-gum Reserve Extension described in the Schedule hereto shall, from the second day of May, one thousand nine hundred and twenty-one, cease to be subject to the Kauri-gum Industry Act, 1908.

SCHEDULE.

ALL that area in the North Auckland Land District, containing by admeasurement 199 acres 2 roods 16 perches, more or less, being Section 6, Block VIII, Opoe Survey District, being part of Rotorua Kauri-gum Reserve as described in the *New Zealand Gazette* No. 60, of 13th July, 1899, page 1303.

*Education Act, 1914.—Regulations for the Expenses of Members of Education Boards.*

JELlicoe, Governor-General.

ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 21st day of April, 1921.

Present :

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING IN COUNCIL.

**I**N pursuance and exercise of the powers and authorities vested in him by the Education Act, 1914, and the amendments of that Act, and all other powers and authorities enabling him in this behalf, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby revoke the regulations for the Expenses of Members of Education Boards made by Order in Council dated the eleventh day of October, one thousand nine hundred and twenty, and in lieu thereof doth hereby make the regulations set forth below ; and doth prescribe that this Order shall come into force on the first date of publication hereof in the *New Zealand Gazette*.

REGULATIONS.

THE expenses that may be held to be reasonably incurred, in accordance with section 31 of the Education Act, 1914, by a member of the Board in going to and returning from meetings of the Board or of a Committee thereof, or of making any official visit when appointed by the Board to make such visit, are as follows :—

(a.) Fares actually payable by public conveyance, whether by rail, steamer, coach, or tram, by the most direct route.

(b.) Where any such public conveyance is not available, or available only at greater cost, either (1) the expenses attaching to a member's use of his own horse or vehicle, at a rate not exceeding 8d. per mile, counted both ways, together with actual garage or stabling expenses not exceeding 5s. for each night that a horse or vehicle has to be kept from home, or (2) fares actually paid for cab or other special conveyance.

(c.) The cost of a special conveyance required by members to make an official visit when appointed by the Board to make such visit, and where a public conveyance as indicated in clause (a) is not available.

(d.) When a member is obliged to absent himself from home or from his place of business, living-expenses at the rate of £1 per day of twenty-four hours, any portion of a day to be reckoned at the rate of one twenty-fourth of the full daily rate for each hour of necessary absence. The day shall be deemed to commence at the hour nearest to the time of departure from the place of residence or business.

(e.) In special cases, in lieu of the above, with the sanction of the Minister, a sum not exceeding the necessary expenses actually incurred and paid by a member.

C. A. JEFFERY,

Acting Clerk of the Executive Council.

*Validating Proceedings in connection with a Loan of £500 to be raised by the Featherston County Council.*

JELlicoe, Governor-General.

ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 21st day of April, 1921.

Present :

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING IN COUNCIL.

**W**HEREAS the Featherston County Council, acting under and in pursuance of section sixteen of the Local Bodies' Loans Act, 1913, lately proposed to raise a loan of five hundred pounds for the purpose of metalling the Hikawera Road for the first time :

And whereas section seventeen of the said Act requires the special roll to be deposited not less than seven days before any steps are taken under section sixteen of the said Act :

And whereas the special roll was not deposited until the twelfth day of January, one thousand nine hundred and twenty-one, while the special order authorizing the raising of the loan was passed on the fourteenth day of January, one thousand nine hundred and twenty-one :

And whereas it appears that the ratepayers have not been misled by the said irregularity or defect, and it is expedient to validate the same :

Now, therefore, His Excellency the Governor-General of the Dominion of New Zealand, in pursuance and exercise of the powers and authorities conferred on him by section one hundred and eleven of the Local Bodies' Loans Act, 1913, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby order and declare that the proceedings taken shall be valid to all intents and purposes as if the provisions of section seventeen of the Local Bodies' Loans Act, 1913, had been correctly complied with, and that the validity of the proceedings in connection with the said loan shall not be called into question by reason only of the irregularity or defect aforesaid.

C. A. JEFFREY,

Acting Clerk of the Executive Council.

*Regulations under the Explosive and Dangerous Goods Amendment Act, 1920.*

JELLICOE, Governor-General.

ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 27th day of April, 1921.

Present:

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING IN COUNCIL.

IN pursuance and exercise of the powers conferred upon him by the Explosive and Dangerous Goods Amendment Act, 1920 (hereinafter termed "the said Act"), and of all other powers and authorities enabling him in this behalf, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of that Dominion, doth hereby make the following regulations for the purposes of the said Act; and doth hereby declare that the said regulations shall, except as may be otherwise provided therein, come into force on the date of the publication of this Order in the *Gazette*.

REGULATIONS.

1. In these regulations, if not inconsistent with the context—

"Approved" means approved by an Inspector.

"Carriage" includes any carriage, wagon, cart, truck, vehicle, or other means of conveying goods or passengers by land, in whatever manner it may be propelled or transferred from place to place, and whether at rest or in motion.

"Harbour" means a harbour within the meaning of the Harbours Act, 1908.

"In bulk" as applied to liquid dangerous goods means such goods stored or kept in receptacles of a capacity greater than 200 gallons.

"Protected work" means (a) any dwellinghouse, place of worship, public building, university, college or school, hospital or public institution, Court of justice, theatre, or other building in which persons are accustomed to assemble; (b) any factory, workshop, office, store, warehouse, shop, or other building where persons are employed for the purpose of any trade or business; (c) any dock, wharf, public railway (not being a siding), timber-yard, and any part of a harbour, port, or river where it is customary for ships to berth, moor, or lie; (d) any depot in which dangerous goods are kept.

"Screen-wall" means a wall of such substance and so constructed and placed as to be efficient for the purpose of preventing the spread of fire from any one place to any other place; and where dangerous goods are kept in an underground depot, means the surrounding floor, walls, and covering of such underground depot, if efficient for the purpose aforesaid.

"Storeship" means any ship used for the storage of dangerous goods within the limits of a harbour.

"Wharf" includes any quay, landing-place, landing-stage, jetty, pier, hulk, or other place at which goods are landed, loaded, or unloaded.

"Vessel" means a receptacle or container capable of holding liquids.

PART I.—CLASSIFICATION AND EXEMPTIONS.

2. For the purposes of these regulations, dangerous goods shall be divided into four classes as follows, and the goods named in the several classes are hereby declared to be dangerous goods within the meaning of the said Act:—

Class I:—

Petroleum spirit.

Liquids or materials consisting wholly or in part of acetone, carbon bisulphide, or ether, and having a true flashing-point less than 73° Fahr.

Class II:—

Petroleum-oil.

Methyl alcohol.

Turpentine, or turpentine substitutes.

Absolute alcohol, methylated spirits, or spirits of wine.

Class III:—

Phosphorus (yellow).

Calcium carbide.

Class IV:—

Fuel-oil when stored in bulk.

3. Dangerous goods may be kept or stored without a license under the said Act in the quantities and under the conditions of storage shown hereunder:—

(a.) If stored within a borough or town district or within the district of any local authority which is a licensing authority,—

(1.) In quantities not exceeding 3 gallons of dangerous goods of Class I, if such goods are kept in separate

glass, earthenware, or metal vessels, each of which contains not more than one-half pint and is securely stopped.

(2.) In quantities not exceeding 8½ gallons of dangerous goods of Class I kept for private use and not for the purpose of sale, if such goods are kept in substantial vessels of metal or other approved material so securely closed that neither liquid nor vapour can escape therefrom, and if all due precautions are taken to prevent accident by fire or explosion and to prevent the escape of any such dangerous goods into a sewer or drain.

(3.) In quantities not exceeding 8½ gallons of dangerous goods of Class II kept for purposes of sale, and not exceeding 50 gallons of such goods kept for private use only and not for the purpose of sale, if no dangerous goods of Class I are kept by any person within a distance of 20 ft. of such dangerous goods of Class II, or if dangerous goods of Class I are so kept, then if either the goods of Class I or the goods of Class II are kept completely surrounded by a screen-wall.

(4.) In quantities not exceeding 2 lb. of phosphorus kept under water in securely closed containers.

(5.) In quantities not exceeding 50 lb. of calcium carbide contained in waterproof and airtight tins, each containing not more than 7 lb. and labelled with a distinctive label or mark denoting the nature of the contents.

(6.) In a ship or carriage while being conveyed thereon in accordance with these regulations.

(7.) In a fuel-tank of a motor-carriage or motor-propelled ship, or the fuel-tank of a stationary motor-engine.

(b.) If stored in any other place,—

(1.) In quantities not exceeding 3 gallons of dangerous goods of Class I, if such goods are kept in separate glass, earthenware, or metal vessels, each of which contains not more than one-half pint and is securely stopped.

(2.) In quantities not exceeding 8½ gallons of dangerous goods of Class I kept for private use only and not for the purpose of sale, if such goods are kept in substantial vessels of metal or other approved material so securely closed that neither liquid nor vapour can escape therefrom, and if all due precautions are taken to prevent accident by fire or explosion and to prevent the escape of any such dangerous goods into a sewer or drain.

(3.) In quantities not exceeding 58 gallons of dangerous goods of Class I kept for private use only and not for the purpose of sale, if all such goods are stored in a thoroughly ventilated depot situated not less than 10 ft. from any protected work, or in a thoroughly ventilated building other than a depot not less than 40 ft. from any protected work; and if all such dangerous goods are kept in substantial vessels of metal or other approved material, each containing not more than 5 gallons, and so securely closed that neither liquid nor vapour can escape therefrom, and all due precautions are taken to prevent accident by fire or explosion and to prevent the escape of any such dangerous goods into a sewer or drain.

(4.) In quantities not exceeding 250 gallons of dangerous goods of Class II if no dangerous goods of Class I are kept by any person within a distance of 50 ft. thereof, or when any such goods are so kept, then if the dangerous goods of either the goods of Class I or the goods of Class II are kept completely surrounded by a screen-wall.

(5.) In quantities not exceeding 2 lb. of phosphorus kept under water in securely closed containers.

(6.) In quantities not exceeding 50 lb. of calcium carbide contained in waterproof and airtight tins, each containing not more than 7 lb. and labelled with a distinctive label or mark denoting the nature of the contents.

(7.) In quantities not exceeding 2 cwt. of calcium carbide kept in waterproof and airtight metal receptacles having labels or other marks denoting the nature of the contents, and stored in an outhouse, storeroom, or other building not in general occupation and situated not less than 10 ft. from any protected building or work.

(8.) In a ship or carriage while being conveyed thereon in accordance with these regulations.

(9.) In a fuel-tank of a motor-carriage or motor-propelled ship, or the fuel-tank of a stationary motor-engine.

4. The foregoing provisions for the storage of dangerous goods without a license shall not apply in respect of the storage of dangerous goods on any premises licensed, or required to be licensed, for the storage of dangerous goods.

5. Except as otherwise provided in these regulations, the said Act and these regulations shall not apply to fuel oil.

## PART II.—MARKING.

(1.) Except as provided herein, no person shall keep, convey, sell, or expose for sale within New Zealand any dangerous goods of Class I or Class II unless the packages containing such dangerous goods, in addition to the label or mark denoting the trade-name of the goods, shall be labelled or marked as follows:—

- (a.) Every package containing dangerous goods of Class I in quantity not less than 1 gallon shall be conspicuously labelled with a paste-on label, or other label of a kind approved by the Chief Inspector, in the form in the Second Schedule to these regulations. Such label shall be printed in black letters on a red ground.
- (b.) Every vessel of a capacity less than 3 gallons containing dangerous goods of Class I shall be conspicuously labelled with a paste-on label, or other label of a kind approved by the Chief Inspector, in the form in the Third Schedule to these regulations. Such label shall be printed in black letters on a red ground, and shall, wherever possible, be placed on the vessel immediately above or below the label or mark denoting the trade-name of the goods.
- (c.) Every package containing dangerous goods of Class II in quantity exceeding 1 gallon shall be conspicuously labelled with a paste-on label, or other label of a kind approved by the Chief Inspector, in the form in the Fourth Schedule to these regulations. Such label shall be printed in black letters on a yellow ground.

(2.) On application in writing by the importer of any dangerous goods, or by any dealer in dangerous goods, the Chief Inspector may, by writing under his hand, grant exemption from the operation of this Part of these regulations in respect of any dangerous goods while stored in such place or places as may be specified in that behalf in the instrument of exemption, or while being conveyed to any such place, or for such limited time as may be specified.

(3.) Nothing in paragraph (a) or paragraph (c) of this regulation shall require the labelling of any vessel of a kind commonly packed for conveyance in an outer package and containing not more than  $4\frac{1}{2}$  gallons of any dangerous goods of Class I or of Class II.

7. Labels required to be used by this Part of these regulations must conform to the appropriate Schedules as to printing, shape, and size, and must be free from advertising or other matter. The label must not be printed with, or form part of, any other label or printed matter.

8. The regulations contained in this Part of these regulations shall come into force on the 1st day of October, 1921. It shall be a sufficient defence to any proceedings for a breach of any such regulation commenced prior to the 1st day of April, 1922, to show that the dangerous goods in respect of which the proceedings are taken were packed and marked prior to the 1st day of October, 1921.

9. Every person who commits a breach of the requirements of this Part of these regulations shall be liable to a fine of £20, and the goods in respect of which such breach was committed and the receptacle containing the same shall be forfeited to His Majesty, and shall be dealt with as the Minister may in any case determine.

## PART III.—CONVEYANCE.

10. Except as provided by this Part of these regulations, no dangerous goods of Class I or of Class II shall be conveyed on any ship or carriage unless such dangerous goods are contained in packages of metal or other approved material from which the dangerous goods cannot escape in the form either of liquid or of vapour, and so substantially constructed as not to be liable, except under circumstances of negligence or extraordinary accident, to be broken or to become defective or insecure in course of conveyance; and every person conveying such dangerous goods and every person assisting in the conveyance of any such goods shall comply with the following general rules:—

- (a.) No fire and no light or flame capable of igniting vapour given off by the dangerous goods shall be brought within 30 ft. of such goods.
- (b.) No person shall smoke within 30 ft. of any wharf or depot where the dangerous goods are being handled, and no person shall smoke on any carriage holding or conveying dangerous goods within a borough or town district or the district of any Harbour Board.
- (c.) A competent person shall be in charge of every carriage conveying the dangerous goods, and no intoxicated person shall be allowed on any such carriage.
- (d.) No carriage conveying dangerous goods shall be allowed to remain stationary within a borough or town district or the district of any Harbour Board except for such time and for such purpose as is reasonably necessary in connection with the loading or delivery

of the goods conveyed, or at such place and under such conditions as may be approved by an Inspector.

- (e.) No explosive or other goods liable to cause or communicate fire or explosion shall be conveyed on the same carriage as the dangerous goods.
- (f.) All due precautions, whether herein prescribed or not, shall be taken for the prevention of accidents by fire or explosion, and for preventing unauthorized persons having access to the dangerous goods, and for the prevention of any act whatever which tends to cause fire or explosion and is not reasonably necessary for the purposes of the conveyance of the dangerous goods, or of any other article carried therewith, and for preventing any person whomsoever from committing any such act; and any person who, after being warned, commits any such act shall be deemed to commit a breach of these general rules.

11. In cases where reasonable precautions have been taken to ensure that the packages containing dangerous goods of Class I or of Class II are such as will comply with the last preceding regulation, and the packages have, either on importation into New Zealand or on subsequent storage or conveyance, developed defects which will cause or permit the dangerous goods to escape therefrom either as liquid or as vapour, the damaged packages may be conveyed in an approved carriage or ship to the nearest convenient place where repairs to the packages can be carried out.

In the handling or conveyance of such packages, in addition to the general rules contained in the last preceding regulation the following special rules shall be observed by every person handling or conveying the packages or assisting in such work:—

- (a.) Such appliances for preventing and extinguishing a petroleum fire as may be approved or required by an Inspector shall be carried on the carriage.
- (b.) Due precautions shall be taken to prevent any of the dangerous goods escaping or being discharged into a sewer or drain or into the waters of any harbour.

12. The owner of any dangerous goods who employs any other person in the conveyance of dangerous goods or in any of the operations connected therewith shall take all necessary precautions to ensure that such other person is acquainted with the nature of the goods and the rules to be observed in connection with such conveyance or operations.

13. Every Surveyor of Ships who inspects any ship on which dangerous goods of Class I are imported into New Zealand shall report to the Inspector for the licensing authority for the port or other place where it is proposed to discharge such dangerous goods if any package containing any such dangerous goods has been damaged by water or otherwise.

14. In cases where, on importation into New Zealand, an appreciable number of packages containing dangerous goods of Class I are found to have been damaged by sea-water or otherwise, or when more than a normal number of such packages is found to be in a leaky condition, the master of the ship on which the dangerous goods are imported and the importer of such dangerous goods shall jointly or severally notify an Inspector in writing that the packages are in such condition as aforesaid.

15. On receipt of a notification under either of the last two preceding regulations the Inspector shall examine the cargo, and if the damage or leakage is, in his opinion, of such a nature as to render the packages liable to develop more than a normal percentage of leakage, he shall notify the importer that such consignment of dangerous goods, or any portion thereof, may not, except as provided in these regulations, be loaded on any ship for the purpose of conveyance by sea, or may be so loaded and conveyed only on such conditions as may be specified in the notification.

16. No person shall consign on or forward to any ship for the purpose of conveyance by sea, or deliver from any licensed premises to any person for such purpose, any dangerous goods of Class I unless all necessary precautions have been taken to ensure that the packages containing the dangerous goods are in such condition that such dangerous goods cannot escape therefrom in the form either of liquid or of vapour, except under circumstances of negligence or extraordinary accident.

Without limiting the generality of the foregoing provisions of this clause, the following requirements shall be complied with in cases to which this clause relates, that is to say:—

- (a.) The packages containing such dangerous goods shall be taken from a consignment known to be in good condition as regards leakage by reason of the fact that not more than a normal percentage of packages have required repair.
- (b.) The packages shall be carefully examined in such manner as may be approved, to ensure that leakage is not likely to develop on storage of the package in any position.
- (c.) Where a notification or requirement has been issued by an Inspector in accordance with the last preceding regulation all necessary arrangements shall be made to comply with such notification or requirement.

17. Any person who proposes to consign on or to forward to any ship for the purpose of conveyance by sea any dangerous goods of Class I, and who is not the occupier of the licensed premises from which such goods are to be forwarded, shall notify the occupier of such premises in writing that such goods are intended for such purpose, and shall require him to take the precautions contained in the last preceding regulation.

18. If any person commits a breach of any of the regulations contained in this Part of these regulations, or fails to comply with any of the rules contained therein, he shall be liable to a fine of £100.

#### PART IV.—STORAGE.

##### (a.) *Storage of Dangerous Goods of Classes I and II otherwise than in Bulk.*

19. In this Part of these regulations the term "dangerous goods" means dangerous goods of Class I or Class II.

20. This Part of these regulations shall refer only to the storage of dangerous goods contained in closed vessels of metal or other approved material, each containing not more than 10 gallons, and so substantially constructed and maintained that no liquid or vapour can escape therefrom:

Provided that there may be stored in approved depots complying with this Part of these regulations such quantity of dangerous goods as may be approved by the Chief Inspector, contained in approved vessels each containing not more than 100 gallons.

21. All dangerous goods kept on licensed premises, except such quantity as is withdrawn for immediate use in accordance with the license, shall be stored in one or more depots as defined by the said Act:

Provided that in cases where, in the opinion of the Chief Inspector, the isolation is sufficient, or where the dangerous goods are contained in approved vessels of a capacity not exceeding 1 gallon, or where a quantity of dangerous goods of Class II only not exceeding 250 gallons is stored, an approved storage-place other than a depot may be used.

22. Every depot shall comply with the following conditions as regards construction:—

- (a.) The walls of the depot shall be constructed of brick, stone, concrete, or other non-inflammable material approved by the Chief Inspector.
- (b.) The depot shall have an effective covering or roof of metal, slate, concrete, or other approved unflammable material. Where the depot is situated inside another building, the roof shall be of concrete not less than 6 in. thick, and the depot shall have no openings to the interior of such building.
- (c.) The floor of the depot shall be constructed of an impervious and non-inflammable material approved by the Chief Inspector in such manner as to prevent leakage. Doors shall be externally unflammable, and shall be made to close tightly. Windows and skylights (if any) shall be of wired glass in non-combustible frames, or of such other fire-resisting construction as may be approved by the Chief Inspector.
- (d.) Provision to prevent the escape of dangerous goods from the depot under the action of fire or otherwise shall be secured by the lowering of the floor of the depot so as to form a shallow well; or by a solid wall or "sill" built across the doorway if the lower portion of the depot is some material such as brick or concrete; or by other method approved by the Chief Inspector. The "well" or enclosed space thus formed shall be of sufficient capacity to contain, when the quantity of dangerous goods stored does not exceed 800 gallons, not less than 50 per cent.; and when the quantity stored exceeds 800 gallons, not less than 25 per cent. of the volume of dangerous goods licensed to be stored in the depot.
- (e.) The depot shall be efficiently ventilated by high and low vents opening direct to the open air above the "well" level. If such opening is less than 5 ft. above the ground, it shall be covered with metal gauze of not less than 800 meshes to the square inch.
- (f.) No artificial light shall be installed inside a depot except an incandescent electric light of approved pattern. Except as may be approved by the Chief Inspector, all switches and fuses shall be outside the building, and the wires shall be led through earthed metal pipes. In no case shall any current-bearing part be exposed so that inflammable vapour can come into contact therewith.

23. Every depot shall, as regards situation, comply with the following conditions:—

- (a.) Every depot shall be so situated as not to be within 50 ft. of any fire, forge, furnace, explosive, highly combustible goods, or other source of danger, unless a screen-wall intervenes between the depot and

any such fire, forge, furnace, explosive, highly combustible goods, or other source of danger.

- (b.) The depot shall not be situated within or attached to a building which is a protected work unless the wall of the building on the side on which the openings of the depot are placed is a screen-wall above, and to a lateral distance of 10 ft. on either side of, the openings of the depot.
- (c.) A depot situated within another building shall not be licensed to store dangerous goods exceeding in quantity 800 gallons.
- (d.) The depot shall be separated as shown in the First Schedule to these regulations from all protected buildings and works; provided that the Chief Inspector may authorize a reduced distance in cases where, in his opinion, the public safety will not be unduly prejudiced thereby.

24. Notwithstanding anything in this Part of these regulations, dangerous goods may be kept on licensed premises in an approved place other than a depot provided that such dangerous goods are kept in a movable tank receptacle of a kind approved by the Chief Inspector and containing not more than 60 gallons.

25. In every licensed premises there shall be kept a supply of sand, asbestos blankets, or other approved means of preventing and extinguishing a petroleum fire. Such appliances shall be kept in efficient condition to the satisfaction of an Inspector, and shall be distributed about the premises so as to be immediately available for dealing with any dangerous goods spilled or ignited.

26. Every occupier of licensed premises and every person in and about the same shall comply with the following general rules, a copy of which shall be kept posted in a conspicuous place in every licensed premises:—

- (a.) Except as specially provided in the license, all dangerous goods received upon the premises shall be at once placed in a depot or other approved storage-place, and any dangerous goods removed from a depot or storage-place for delivery shall be at once removed from the premises.
- (b.) Every depot shall be used exclusively for the keeping of dangerous goods and such other goods as may be approved by an Inspector, and the packages in which the goods are contained.
- (c.) No explosives, or anything liable to spontaneous ignition or combustion, and no fire or light, except an artificial light of an approved construction and character which will not ignite inflammable vapour, shall be placed, brought, or allowed to remain within 50 ft. of any depot or of any dangerous goods in the premises, unless such depot or dangerous goods are separated from such explosive, thing, fire, or light by a screen-wall.
- (d.) Except as provided in the license, all dangerous goods on the premises shall be kept in closed vessels of metal or other approved material. Every such vessel shall be so substantially constructed and maintained that no leakage whatever of liquid or vapour can take place therefrom.
- (e.) A vessel containing dangerous goods shall not, save as is provided in the license, be opened on the premises except in the open air, and then not in the immediate vicinity of any depot. Such vessel shall be opened only for the time necessary for drawing off the dangerous goods, and during such drawing-off every reasonable precaution shall be adopted for preventing the escape of dangerous goods or vapour therefrom.
- (f.) No dangerous goods shall be conveyed in or about the premises, except in closed vessels or by means of closed pipes so constructed and connected as to be entirely free from leakage.
- (g.) Every vessel containing dangerous goods and every outer package containing the same shall be marked or labelled as required by these regulations.
- (h.) No dangerous goods shall be received or delivered from the premises, except between the hours of sunrise and sunset, unless an artificial light of an approved construction and character is used.
- (i.) No person under the age of fourteen years shall be allowed inside any depot.
- (j.) No quantity of dangerous goods in excess of that specified in the license shall be kept in the premises.
- (k.) No person shall bring any matches into any depot or place where dangerous goods of Class I are exposed, or smoke in the vicinity of any depot or any place where dangerous goods, whether contained in packages or not, are being used or handled.
- (l.) All due precautions shall be taken for the prevention of accidents by fire or explosion, for the prevention of the escape of dangerous goods into any sewer or drain, and for the prevention of unauthorized persons

having access to the dangerous goods kept in the premises; and no person shall do any act whatever which tends to cause fire or explosion.

27. If, in respect of any dangerous goods in licensed premises, any of these regulations or any of the rules contained in the last preceding regulation are not complied with, the occupier of the premises and any person contravening or failing to comply with the regulations or such rules shall be liable to a fine of £100.

(b.) *Storage of Petroleum-spirit in Underground Tank Depo.*

28. Underground tank depots licensed for the storage of petroleum-spirit in bulk in quantities not exceeding 5,000 gallons shall comply with the following conditions:—

- (a.) The tank and all pumps, pipes, and fittings shall be strongly constructed of the best materials, the construction and fitting-up to be subject to the approval of an Inspector.
- (b.) The tank shall be placed not less than 2 ft. below the surface of the ground, and shall not be placed beneath a building unless the circumstances of the case render this necessary. When so placed it shall not, except with the approval of the Chief Inspector, be less than 2 ft. below the lowest floor of the building. The tank, wherever situated, shall be below the level of any piping to which such tank may be connected.
- (c.) Except as may be approved by the Chief Inspector, the tank shall be set in firm foundations, and shall be either surrounded by soft earth, sand, or preferably clay well tamped into place, encased in concrete, or placed in a brick or concrete chamber with the space between tank and chamber filled with dry sand or clay.
- (d.) All tanks shall be fitted with a ventilating-pipe not less than 1 in. in diameter, which shall be carried to an approved position in the open air not less than 12 ft. above the ground, and there terminated with a return bend and protected in an approved manner with metal gauze of not less than 800 meshes to the square inch.
- (e.) Except in cases where the dangerous goods are stored over water, all pipes connected to the storage tank, including the dipping-hole pipe, but excluding the ventilating-pipe, shall be carried down close to the bottom of the tank.
- (f.) The filling-pipe shall be carried to an approved position in the open air, and so protected that water cannot overlie the opening, and shall be fitted with a screw-cap and protected in an approved manner from access by unauthorized persons:

Provided that the Chief Inspector may, in particular cases where in his opinion the ventilation is sufficient or other circumstances warrant this course, permit the filling-pipe to be carried to an approved position inside the building.

- (g.) The tank shall be separated from all protected buildings and works by not less than the appropriate distance prescribed in the First Schedule; provided that the Chief Inspector may authorize a reduced distance in cases where, in his opinion, the public safety will not be unduly prejudiced thereby.

9. Wherever possible, tanks shall be filled under seal. When necessary to fill otherwise, such filling shall be done only at such times and in such manner as will minimize the danger of accident or fire and as may be approved by an Inspector.

30. Except as may be approved by the Chief Inspector, petroleum-spirit shall be delivered from the tank either—

- (a.) By pumping through strong iron piping by means of pumps or measuring-pumps of a kind approved by the Chief Inspector, fixed in approved positions, and thence through sound hose fitted with secure tap and nozzle; or
- (b.) By pumping through strong iron piping by means of approved pumps into above-ground measuring-tanks of a capacity not exceeding 30 gallons placed in approved position in the open air (and provided with overflow and emptying pipes returning to the tanks), and thence through sound hose fitted with secure tap and nozzle.

31. All tanks, pumps, pipes, and fittings shall be at all times maintained in good order and free from leakage.

(c.) *Storage of Petroleum Spirit, Petroleum Oil, and Fuel-oil (herein referred to as Petroleum) in Bulk.*

32. No licenses shall be issued and no depot shall be established or maintained by any local authority for the storage of petroleum in bulk in above-ground tanks, or in quantities exceeding 5,000 gallons in underground tanks, or on any storeroom, unless the consent in writing of the Chief Inspector has been obtained to the issue, and to the terms and conditions of such license or of any amendment to the

same, or to the establishment or maintenance of the depot by a local authority.

33. No license shall be issued to store petroleum in bulk in any premises adjacent to any harbour from and to which harbour it is proposed to deliver petroleum by means of pipelines, and no local authority shall establish or maintain any such depot in any premises adjacent to any such harbour, unless the situation of the premises and the provisions made or proposed to be made for the public safety and for compliance with these regulations have been approved by a Board consisting of the following persons:—

- (a.) The Naval Adviser to the Government or a deputy appointed by him;
- (b.) The Chief Inspector or a deputy appointed by him;
- (c.) An officer appointed by the Defence Department;
- (d.) The Harbour Engineer or other officer appointed by the Harbour Board concerned.

34. It shall not be permitted to discharge or wash out tanks or to allow petroleum or sludge to flow or be deposited from any tank, storeroom, pipe-line, barge, or lighter, or from any vessel,—

- (a.) Into any harbour;
- (b.) Into a river, stream, channel, or drain flowing or discharging into any harbour; or
- (c.) On to the foreshore of any harbour.

35. An application for a license for the storage of petroleum in bulk in quantities exceeding 5,000 gallons shall be accompanied by a plan of the premises, in duplicate, drawn to scale, showing all buildings and works on such premises, and all buildings and works situated within 100 ft. of the boundaries of the land comprising such premises. Such plan shall, if approved, be included in and form part of any license issued in respect of such premises.

36. Every tank in which petroleum in bulk is stored shall be constructed of sufficient strength to hold the contents safely. It shall be constructed of metal or, in the case of fuel-oil, may be built of reinforced concrete. Every such tank shall be of a capacity not less than 5 per cent. greater than the volume stored therein, and shall be efficiently ventilated and electrically grounded, and all ventilators or other openings in the tank shall be screened with wire gauze of not less than 800 meshes to the square inch.

37. All petroleum stored in bulk on any premises shall be stored in a depot as defined by the said Act, and in these regulations called "tank depot."

Prevention of outflow from any tank depot shall be secured by the excavation of a well or pit; or by the erection of a mound of earth or a wall of brick, stone, or concrete; or in other approved manner enclosing a space sufficient to contain the full volume of petroleum capable of being held by the tank or tanks. Such enclosed space shall be occupied only by the storage tank or tanks and such settling and measuring tanks, pumps, piping, valves, and other necessary appliances as may be approved.

38. All buildings situated on premises licensed for the storage of petroleum and in which petroleum is used or is kept or stored otherwise than in bulk shall comply in all respects with the terms of the license and Part IV (a) of these regulations.

39. On all premises licensed for the storage of petroleum in bulk (including storerooms), and on every lighter or barge used in connection therewith, there shall be provided such efficient appliances for preventing or extinguishing a petroleum fire as may be required or approved by the Chief Inspector.

40. Every tank depot shall be separated from all protected buildings and works by not less than the appropriate distance prescribed in the First Schedule to these regulations; provided that the Chief Inspector may authorize a reduced distance in cases where, in his opinion, the public safety will not be unduly prejudiced thereby.

41. All tanks, containing walls and mounds, pumps, pipes, and fittings, and all depots or other places where petroleum is stored, used, or handled, shall be at all times maintained in good order and to the satisfaction of an Inspector.

(d.) *Storage of Dangerous Goods of Class III.*

42. (1.) All calcium carbide stored on licensed premises shall be kept in a building so constructed as to comply with the following general conditions:—

- (a.) The building shall be externally unflammable (*i.e.*, of brick, stone, or concrete, or externally covered with galvanized iron), if situated less than 10 ft. from any protected work.
- (b.) Except as may be approved by the Chief Inspector, calcium carbide shall not be stored within a building which is a protected work unless such building is built of brick, stone, or concrete, and the room or receptacle in which the calcium carbide is kept is on the ground floor and is of approved fire-resisting construction.

- (c.) The building or storage-room shall be efficiently ventilated to the outer air.

(d.) The building shall be so secured as to prevent access by unauthorized persons, and shall be sufficiently weatherproof to prevent access of water to the place where the calcium carbide is stored.

(2.) The provisions of this regulation shall not apply to the storage of a quantity of calcium carbide not exceeding 50 lb. contained in waterproof and airtight tins each containing not more than 7 lb.

43. The occupier of premises licensed for the storage of calcium carbide, and every person in or about the same, shall comply with the following rules:—

(a.) Calcium carbide shall be stored or conveyed only in strong metal vessels so constructed and closed as to prevent the admission of water and atmospheric moisture, each of which contains not more than 224 lb. of carbide. No more of these vessels than is necessary for immediate requirements shall be opened at one time, and then only for the time necessary for the removal of any required quantity of carbide.

(b.) Only such other goods as may be approved shall be stored in the same building or room as calcium carbide.

(c.) Only commercially pure carbide of calcium shall be kept on the premises.

(d.) Unalloyed copper shall not be used in the construction of vessels or apparatus used for or with carbide of calcium and the gas produced therefrom.

(e.) No application for generating acetylene gas other than a portable lamp shall be used on the premises except an apparatus of a type approved by the Chief Inspector, and clear instructions as to the management of the apparatus shall be kept conspicuously posted in the generator house. Oxy-acetylene welding shall not be carried on unless an efficient oxygen trap is provided on the acetylene supply-pipe to the blow-pipe in such manner as to prevent the possibility of oxygen finding its way to the acetylene generator.

(f.) Suitable arrangements shall be made for the safe disposal of any residue of carbide of calcium removed from a gas-making apparatus, and such residue shall not be introduced into sewers or cesspools unless mixed with at least ten times its bulk of water.

(g.) No artificial light capable of igniting inflammable vapour shall be taken into, and no person shall smoke in, any generator house or calcium carbide storage place.

44. All phosphorus stored on licensed premises shall be kept completely covered with water in vessels of metal or other approved material of such construction as may be approved; provided that no more than 2 lb. of phosphorus shall be stored in any building which is a protected work unless such building is built of brick, stone, or concrete, and the room or compartment where the phosphorus is kept is of approved fire-resisting construction; provided further that only such other goods as may be approved shall be stored in any building or in any room or compartment in which phosphorus is kept.

(e.) *General.*

45. Notwithstanding anything in these regulations, in cases where the public safety will not be unduly prejudiced thereby a license may, with the approval of the Chief Inspector, be issued to store dangerous goods in the quantities stated in such license in a well-ventilated depot or storage place which does not otherwise comply with the requirements of this Part of these regulations. Such license may be issued either without restriction, or may be for a definite period only, or may be subject to cancellation under certain conditions.

46. Every depot established or maintained by a local authority shall comply with the provisions contained in these regulations regarding the construction, situation, and maintenance of depots on licensed premises.

47. The Minister may, under his hand, make, and may in like manner revoke, alter, or add to, special rules for the regulation of the persons managing or employed in or about any depot maintained by any local authority, or in or about any licensed premises, or storehouse, with a view to secure the observance of the said Act and these regulations therein, and the safety and proper discipline of the said persons and the safety of the public. Any person committing a breach of any of such special rules shall be deemed to have committed a breach of these regulations, and shall be liable to a fine of £10.

PART V.—MISCELLANEOUS.

*Accidents.*

48. Whenever there occurs any accident by explosion or fire in which dangerous goods are involved on any licensed premises, the occupier shall forthwith send or cause to be sent to the licensing authority for the district notice of such accident and of any loss of life or personal injury (if any) occasioned thereby.

49. Where in, about, or in connection with any ship or carriage either carrying any dangerous goods, or on or from

which dangerous goods are being loaded, unloaded, or held, there occurs any accident by explosion or fire involving such dangerous goods, the owner or master of such ship or carriage, and the owner of the inflammable liquid being loaded, unloaded, held, or conveyed, shall forthwith send, or cause to be sent, to the licensing authority for the district notice of such accident and the loss of life or personal injury (if any) occasioned thereby.

50. When an accident by explosion or fire has wholly or in part destroyed any depot or place where dangerous goods are stored, such depot shall not be reconstructed, and no dangerous goods shall be placed therein, except with the permission of an Inspector, and dangerous goods placed therein in contravention of this regulation shall be deemed to be kept in an unauthorized place.

*Testing.*

51. For the purposes of the said Act and these regulations the "true flashing-point" of an inflammable liquid or preparation shall be that defined in the Fifth Schedule to these regulations when the liquid or preparation is tested in the manner set forth in that Schedule.

*Issue of Licenses in Districts other than those controlled by a Local Authority.*

52. Licenses to keep, store, or use dangerous goods shall be issued annually in such form as the Minister may direct and shall expire on the 31st day of March in each year.

53. All applications for license, and for the renewal, transfer, or amendment of a license, shall be made, in such form as may be approved by the Minister, to the Chief Inspector of Explosives at Wellington.

54. Every application for a license shall be accompanied by the fee as specified hereunder:—

*Retail License:—*

For the storage of a quantity of dangerous goods of Class I or of Class II not exceeding 800 gallons if stored in an above-ground "non-bulk" storage depot, or 1,600 gallons if stored in an approved underground tank depot, and, in addition, such quantities of dangerous goods of Class III as may be approved by an Inspector	£	s.	d.
	0	10	0

*Wholesale License:—*

For the storage of dangerous goods of Class I or of Class II in quantities exceeding those allowed under a retail license, and, in addition, such quantities of dangerous goods of Class III as may be approved by an Inspector	2	0	0
For the storage of dangerous goods of Class III only	0	5	0
For the storage of petroleum in bulk in quantities exceeding 5,000 gallons	5	0	0
For the storage of dangerous goods of Class I in quantities exceeding 10 gallons on premises used for dry cleaning or other industrial purpose	2	0	0

Provided that where dangerous goods are stored in both underground and above-ground depots the quantity stored on any premises under retail license shall not exceed 800 gallons, reckoning each 2 gallons stored underground as 1 gallon.

55. All licenses shall be issued subject to the regulations under the said Act for the time being in force.

56. The Chief Inspector may at any time at his discretion cancel or revoke any license.

*Fees payable to Public Account by Local Authorities under Section 10 (5) of the said Act.*

57. (1.) Every local authority which is a licensing authority shall, within fourteen days after the last days of March, June, September, and December respectively of each year, pay into the Public Account to the credit of the Consolidated Fund an amount in respect of licenses issued by that local authority equal to one-half the fees prescribed by regulation 54; and shall forthwith furnish to the Chief Inspector a return, in such form as the Chief Inspector may from time to time require, of all licenses issued by that local authority under the said Act.

(2.) The Minister may, on the application of any licensing authority, grant exemption to that authority from the operation of this clause in respect of any license for which no license fee has been charged, or for which a license fee less than the fees prescribed by clause 54 hereof has been charged. Any exemption as aforesaid shall be for such period as the Minister may specify in that behalf.

*Saving of Existing Licenses.*

58. All licenses issued by local authorities (whether before or after the commencement of these regulations) under by-laws made pursuant to the provisions of the Explosive and Dangerous Goods Act, 1908, and which expire prior to the 1st April, 1922, shall be deemed to be licenses under the said Act.

SECOND SCHEDULE.

Size, 4" x 4".

THIRD SCHEDULE.

Size, 4½" x 1¼".

FOURTH SCHEDULE.

Size, 4" x 4".

FIFTH SCHEDULE.

In this Schedule the expression "oil" means any liquid to be tested for the purpose of ascertaining its true flashing-point. Degrees of temperature are according to Fahrenheit's thermometer.

- I.—NATURE OF THE TEST APPARATUS.  
The apparatus consists of the following parts :—  
(1.) An oil-cup.

- (2.) A cover, with slide, test-lamp for oil, or test-flame arrangement for use with gas, and clockwork arrangement for opening and closing the holes in the cover, and for dipping the test-flame.
- (3.) A water bath or heating vessel.
- (4.) A tripod (with jacket), and spirit-lamp or gas arrangement for heating the water bath.
- (5.) A round bulb thermometer for testing the temperature of the oil, with scale ranging from 55 degrees to 160 degrees.
- (6.) A long bulb thermometer for testing the temperature of the water, with scale ranging from 90 degrees to 220 degrees.
- (7.) A mercurial or aneroid barometer.

The oil-cup is a cylindrical flat-bottomed vessel, 2 in. in diameter, 2½ in. in height (internal), made of gun-metal or brass (17 B.W.G.), and tinned or silvered inside. It is provided with a projecting rim, ½ in. wide, ⅓ in. from the top, and 1½ in. from the bottom of the cup, on which it rests when inserted in the water bath. A gauge is fixed on the inside of the cup to regulate the height to which it is to be filled with the sample under examination. The distance of the point from the bottom of the cup is 1½ in. The cup is provided with a close-fitting overlapping cover, made of brass (22 B.W.G.), which carries the thermometer, the test-lamp, or test-flame arrangement, and the adjuncts thereto. The test-lamp, which has a spout, the mouth of which is ⅜ in. in diameter, or test-flame arrangement, is suspended upon two supports by means of trunnions, which allow it to be easily inclined to a particular angle and restored to its original position. The socket in the cover, which is to hold a round bulb thermometer for indicating the temperature of the oil during the testing operation, is so adjusted that the bulb of the latter is always inserted to distance of 1½ in. below the centre of the lid.

The cover is provided with three holes—one in the centre (0.2 square inch) and two smaller ones (each 0.06 square inch) close to the sides. These are closed and opened by means of a pivoted slide. When the slide is moved so as to uncover the holes the suspended lamp, or test-flame arrangement, is caught by a projection fixed on the slide, and tilted in such a way as to bring the end of the spout or test-flame just below the surface of the lid. As the slide moves back so as to cover the holes the lamp returns to its original position. Upon the cover, in front of and in a line with the nozzle of the lamp, is fixed a white bead, the diameter of which represents the size of the test-flame to be used.

The water bath or heating vessel consists of two flat-bottomed copper cylinders (24 B.W.G.)—an inner one of 3 in. diameter and 2½ in. height, and an outer one of 5½ in. diameter and 5½ in. height; they are soldered to a circular copper plate (20 B.W.G.) perforated in the centre, which forms the top of the bath, in such manner as to enclose the space between the two cylinders, but leaving access to the inner cylinder. The top of the bath projects both outwards and inwards about ⅓ in.—that is, its diameter is about ⅓ in. greater than the body of bath, while the diameter of the circular opening in the centre is about the same amount less than that of the inner copper cylinder. To the inner projection of the top is fastened, by six small screws, a flat ring of ebonite, the screws being sunk below the surface of the ebonite to avoid metallic contact between the bath and the oil-cup. The exact distance between the sides and bottom of the bath and the oil-cup is ¼ in. The bath is therefore so constructed that when the oil-cup is placed in position an air-space or air-chamber intervenes between the two; consequently, in applying the test to oils flashing below 115 degrees the heat is transmitted gradually to the oil from the hot water, through the air-space. The water bath is fitted with a socket, set at a right angle, for receiving a long bulb thermometer, to indicate the temperature of the water. It is also provided with a funnel, an overflow pipe, and two handles.

The water bath rests upon a tripod stand, which is fitted with a copper cylinder or jacket (24 B.W.G.) 6½ in. diameter, so that the bath is surrounded by an enclosed air-space, which retains and regulates the heat. One of the legs of the stand serves as a support for a spirit-lamp, which is attached to it by a small swing bracket. The distance of the wickholder from the bottom of the bath is 1 in. The clockwork arrangement by which, during the operation of testing, the slide is withdrawn and the test-flame dipped into the cup and raised again as the slide is replaced is provided with a ratchet-key for setting it in action for each test, and with a trigger for starting it each time that the test-flame is applied. From the beginning to the end of the movement of the slide the time taken is to be exactly 2 seconds.

N.B.—When gas is available it may be conveniently used instead of the oil-lamp, and for this purpose a test-flame arrangement for use with gas may be substituted.

## II.—DIRECTIONS FOR PREPARING AND USING THE TEST APPARATUS.

### 1. Preparing the Water Bath.

The water bath is filled by pouring water into the funnel until it begins to flow out at the overflow-pipe. The tem-

perature of the water at the commencement of each test, as indicated by the long bulb thermometer, is to be as follows:—

- (a.) 130 degrees, when a flashing-point at or about 73 degrees is to be observed.
- (b.) 160 degrees, when a flashing-point at or about 100 degrees is to be observed.
- (c.) 180 degrees, when a flashing-point at or about 150 degrees is to be observed.

This is attained in the first instance by mixing hot and cold water, either in the bath or in a vessel from which the bath is filled, until the thermometer which is provided for testing the temperature of the water gives the proper indication, or the water is heated in the bath by means of a spirit-lamp or gas arrangement until the required temperature is indicated.

### 2. Preparing the Test-lamp.

(a.) The test-lamp is fitted with a piece of cylindrical wick of such thickness that it fills the wick-holder, but may be readily moved to and fro for the purpose of adjusting the size of the flame. In the body of the lamp, upon the wick which is coiled within it, is placed a small tuft of cotton-wool moistened with petroleum, any oil not absorbed by the wool being removed. When the lamp has been lighted the wick is adjusted by means of a pair of forceps or a pin until the flame is of the size of the bead fixed on the cover of the oil-cup.

Should a particular test occupy so long a time that the flame begins to get smaller through the supply of the oil in the lamp becoming exhausted, three or four drops of petroleum are allowed to fall upon the tuft of wool in the lamp from a dropping-bottle or pipette provided for the purpose. This can be safely done without interrupting the test.

(b.) When using gas for testing, the jet is to be lighted and then adjusted by means of the tap controlled by means of a screw pinch-cock or fine tap until the flame is the size of the bead fixed on the cover of the oil-cup.

## III.—FILLING THE OIL-CUP.

Before the oil-cup is filled the lid is to be made ready by being placed upon the cup—i.e., the round bulb thermometer is to be inserted into the socket so that the projecting rim of the collar with which it is fitted touches the edge of the socket, and the test-lamp is to be placed in position. The oil-cup is to be cooled when necessary to a temperature not exceeding—

- (a.) 60 degrees, when a flashing-point at or about 73 degrees is being observed;
- (b.) 85 degrees, when a flashing-point at or about 100 degrees is being observed;
- (c.) 135 degrees, when a flashing-point at or about 150 degrees is being observed;

by placing it bottom downwards in water at a suitable temperature. The oil-cup is now to be rapidly wiped dry, placed on a level surface in a good light, and the oil to be tested is poured in without splashing until its surface is level with the point of the gauge which is fitted in the cup. The lid is then put on the cup at once and pressed down so that its edge rests on the rim of the cup.

## IV.—APPLICATION OF THE TEST.

1. The water bath, with its thermometer in position, is placed in some locality where it is not exposed to currents of air, and where the light is sufficiently subdued to admit of the size of the entire test-flame being compared with that of the bead on the cover. The cup is carefully lifted, without shaking it, and placed in the bath, the test-lamp is lighted, and the clockwork wound up by turning the key. The thermometer in the oil-cup is now watched, and the clockwork is set in motion by pressing the trigger when the temperature has reached—

- (a.) 63 degrees, when a flashing-point at or about 73 degrees is being observed.
- (b.) 90 degrees, when a flashing-point at or about 100 degrees is being observed.
- (c.) 140 degrees, when a flashing-point at or about 150 degrees is being observed.

If no flash takes place the clockwork is at once rewound and the trigger pressed at the next higher degree, and so on at every degree rise of temperature until the flash occurs.

2. When a flashing-point at or about 115 degrees is being observed the air-chamber is to be filled to a depth of 1½ in. with cold water before the oil-cup containing the oil to be tested is placed in position.

3. The temperature at which a flash occurs, if not within 8 degrees of the temperature at which the testing was commenced, is the observed flashing-point of the oil, and by correction of the observed flashing-point for atmospheric pressure, as hereinafter described, the true flashing-point is obtained.

4. If, however, the flash takes place at any temperature within 8 degrees of the temperature at which the testing was commenced, the test is to be rejected, and the whole operation of testing is to be repeated with a fresh portion of the sample, the testing, however, to begin at 10 degrees

lower than the temperature at which the flash has been previously obtained. If necessary, this procedure shall be repeated with fresh portions of oil until a flash has been obtained at a temperature not within 8 degrees of the temperature at which the testing was commenced.

5. The temperature at which the last-mentioned flash occurs is the observed flashing-point of the oil, and by correction of the observed flashing-point for atmospheric pressure, as hereinafter described, the true flashing-point is obtained.

6. In repeating a test a fresh sample of oil must always be used, the tested sample being thrown away, and the cup must be wiped dry from any adhering oil, and cooled, as already described, before receiving the fresh sample.

7. If in any case no flash has occurred when a temperature has been reached which is not within 8 degrees of the temperature at which the testing was commenced, and which, after correction for atmospheric pressure, is not less than 73 degrees, and the tests are not required to be continued, the oil shall be deemed to have a true flashing-point of not less than 73 degrees.

8. If no flash has occurred when a temperature has been reached which is not within 8 degrees of the temperature at which the testing was commenced, and which, after correction for atmospheric pressure, is not less than 100 degrees, and the tests are not required to be continued, the oil shall be deemed to have a true flashing-point of not less than 100 degrees.

9. In the same manner, if no flash has occurred when a temperature has been reached which is not within 8 degrees of the temperature at which the testing was commenced, and which, after correction for atmospheric pressure, is not less than 150 degrees, and the tests are not required to be continued, the oil shall be deemed to have a true flashing-point of not less than 150 degrees.

#### V.—CORRECTION FOR ATMOSPHERIC PRESSURE.

As the flashing-point of an oil is influenced by changes in atmospheric pressure to an average of 1.6 degrees for every inch of the barometer, a correction of the observed flashing-point is necessary whenever the barometer does not stand at 30 in. This correction is to be made in the following manner:—

If the barometer stands at less than 30 in. (the normal height of the barometer), add to the observed flashing-point 1.6 times the difference (measured in inches) between the actual and normal barometer. If the barometer stands above 30 in. deduct from the observed flashing-point 1.6 times the difference between the actual and normal barometer.

The nearest whole number to the result of this correction is to be taken as the corrected flashing-point, and if the result is exactly midway between two whole numbers the higher whole number is to be taken.

For example: Suppose an oil has an observed flashing-point of 72 degrees, the barometer being 27.1 in., then the difference between 30 in. and 27.1 in. is 2.9 in. This result multiplied by 1.6 is 4.64, which has to be added to 72, making 76.64. The nearest whole number to this is 77 degrees, which is to be taken as the corrected flashing-point, and if the testing had been commenced at or below 64 degrees, the true flashing-point is 77 degrees.

Again: Suppose the observed flashing-point of an oil to be 96 degrees, and the testing had been commenced at 87 degrees and the barometer indicated 30.6 in., the true flashing-point of the oil is the nearest whole number to 96 minus the product of 0.6 multiplied by 1.6—that is, 95 degrees.

The readings of the barometer are to be corrected readings, in accordance with the corrections applicable to the instrument in use. The instrument must be compared periodically with the standard barometer at the office of the Chief Inspector, and regulated thereby.

#### VI.—APPLICATION OF THE TEST TO VISCOUS FLUIDS OR PREPARATIONS.

If the flashing-test has to be applied to substances of a viscous or semi-solid nature which cannot be poured (such as solutions of indiarubber in mineral naphtha), the mode of proceeding is as follows:—

One fluid ounce or two tablespoonfuls of the substance to be tested is placed in the cup, and the cover is put on. The air-chamber in the water bath is filled with water to a depth of 1½ in., and the temperature of the water bath is raised to 90 degrees. The cup is then put into the bath, and the temperature of the water bath maintained at 90 degrees throughout the test. After the lapse of fifteen minutes the test-flame is to be applied. If no flash occurs the heating is continued for another fifteen minutes and the test-flame again applied, and so on until a flash takes place, or the temperature in the cup has reached 90 degrees, and so on.

The temperature at which a flash occurs is the observed flashing-point of the substance, and, subject to correction for atmospheric pressure, as hereinbefore described, is the true flashing-point.

*Validating the Proceedings in connection with a Loan of £350 proposed to be raised by the Council of the County of Kiwitea.*

JELLICOE, Governor-General.

ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 21st day of April, 1921.

Present:

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING IN COUNCIL.

WHEREAS the Kiwitea County Council, acting under and in pursuance of paragraph (e) of section sixteen of the Local Bodies' Loans Act, 1913, lately proposed to raise a loan of three hundred and fifty pounds for the purpose of road-formation and building a retaining-wall at Brown's Slip:

And whereas the ratepayers' consent given under paragraph (e) of section sixteen aforesaid is irregular, in that a subscribing ratepayer has attested the signatures of the other subscribers thereto:

And whereas it appears that the ratepayers have not been misled by the said irregularity, and it is expedient to validate the same:

Now, therefore, His Excellency the Governor-General of the Dominion of New Zealand, in pursuance and exercise of the powers and authorities conferred on him by section one hundred and eleven of the Local Bodies' Loans Act, 1913, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby order and declare that the ratepayers' consent to the raising of the said loan shall be valid to all intents and purposes as though the same had been properly witnessed, and that the validity of the proceedings in connection with the said loan shall not be called into question by reason only of the irregularity aforesaid.

C. A. JEFFERY,  
Acting Clerk of the Executive Council.

Additional Regulations under the Census and Statistics Act, 1910.

JELLICOE, Governor-General.

IN pursuance and exercise of the powers and authority conferred on me by the Census and Statistics Act, 1910, I, John Rushworth, Viscount Jellicoe, Governor-General of the Dominion of New Zealand, do hereby make the following regulations in addition to those made on the seventh day of June, one thousand nine hundred and nineteen, and gazetted on the nineteenth day of June, one thousand nine hundred and nineteen (hereinafter referred to as "the said regulations"), prescribing the method in which the statistical information required to be furnished under section twenty-one (f) of the Census and Statistics Act, 1910, shall be collected by the Statistician, and do hereby declare that the regulations hereby made shall be read together with and be deemed part of the said regulations.

REGULATIONS.

1. THE owner of every factory using timber in its operations either as material entering into manufacture or repair, or in the shape of containers for its products, shall at such time or times and in such manner as prescribed in the said regulations furnish to the Statistician, or to whomever he may appoint, the particulars specified in such one or more of the forms set out in the First Schedule hereto as may be applicable.

2. The form prescribed as "Census: M. & W.—12.—Manufactories.—Special Schedule.—Sawmills" in the Second Schedule to the said regulations is hereby cancelled, and in lieu thereof the form set out in the Second Schedule hereto is prescribed as the form in which information shall be supplied by the owner of every sawmill, timber-yard, sash and door factory, or other factory engaged in sawing, resawing, planing, dressing, or other preparation of timber.

3. In the preceding regulations the terms "owner" and "factory" include such persons and establishments as are described in the said regulations.

*Amended Regulations made by the New Zealand Institute of Architects (Incorporated).*

WHEREAS by section 21 of the New Zealand Institute of Architects Act, 1913 (hereinafter called "the said Act"), the Institute, with the approval of the Governor-General in Council, is authorized to make regulations for the carrying-out of the said Act:

And whereas regulations were so made, and published in the *New Zealand Gazette* on the 7th day of October, 1915 (hereinafter called "the said regulations"):

And whereas the said regulations were amended, and the amendments thereto published in the *New Zealand Gazette* of the 7th day of March, 1918, and the 8th day of April, 1920:

And whereas it is desired to further amend the said regulations:

Now, therefore, the Institute, in pursuance and exercise of the said authority, and with the approval of the Governor-General in Council, do hereby amend the said regulations in the manner set forth in the Schedule hereto, and doth order that such amended regulations shall have effect from and after the 28th day of April, 1921.

SCHEDULE.

1. CLAUSE 16 of the said regulations is amended by deleting that portion of the clause down to the end of subclause (b), and inserting in its place the following provisions:—

"16. On and after the commencement of these regulations the fees payable on admission and the annual subscriptions shall be as follows:—

"(a) Entrance Fees:

Every person who is admitted as a member of the Institute shall, on admission, pay the sum of £10 10s. as entrance fee.

"(b) Annual Subscriptions:

(1.) Fellows in practice, £6 6s.

(2.) Fellows not in practice, £6 6s.

(3.) Associates in practice, £6 6s.

(4.) Associates not in practice, £2 2s.

(5.) Members residing overseas, for study, provided their absence from the Dominion covers a period of not less than six months, £1 1s."

And that this amendment shall have effect as from the 1st day of January, 1921.

2. Clause 32 is amended by deleting subclauses (a) and (b) thereof, and inserting in their place the following subclauses:—

"(a.) A president, to be elected from amongst the members of the Council in the manner provided by clause 37 of these regulations.

"(b.) The immediated past-president for the time being.

"Provided that nothing herein shall affect the position and status of the past-presidents of the Institute at the date of this amendment."

3. Clause 136 is amended by deleting the words "At all such general meetings of the Institute each member shall be entitled to one vote," and inserting in their place the following words: "At all general meetings of the Institute, or of the Council, or of the district branches, members in practice shall be entitled to two votes, and all other members to one vote."

4. Clause 168 is amended by altering the entrance fees as follows:—

"For the Intermediate Examination, £3 3s.

"For the Final Examination, £4 4s."

In pursuance of the provisions of the New Zealand Institute of Architects Act, 1913, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, approves of the foregoing regulations.

JELICOE, Governor-General.

*Regulations under the Naval Defence Act, 1913.*

JELlicoe, Governor-General.  
ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 27th day of April, 1921.

Present :

THE HONOURABLE SIR F. H. D. BELL, K.C.M.G., PRESIDING  
IN COUNCIL.

IN pursuance and exercise of the powers and authorities conferred on me by section twenty-five of the Naval Defence Act, 1913 (hereinafter called "the said Act"), and of all other powers and authorities enabling me in that behalf, I, John Rushworth, Viscount Jellicoe, Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, do hereby revoke the regulations made under the said Act by Order in Council dated the twenty-seventh day of July, one thousand nine hundred and fourteen, and in lieu thereof do hereby make the regulations set out in the Schedule hereto under and for the purposes of the said Act; and I do hereby declare that such regulations shall come into operation on the date of the gazetting thereof.

## SCHEDULE.

## DISCIPLINE.

1. THE Regulations contained in Chapters XVII, XVIII, and XIX of the King's Regulations and Admiralty instructions shall apply, with the following modifications, and any other modifications that may from time to time be prescribed for the New Zealand Naval Forces by regulations under the said Act issued on the recommendation of the Naval Board constituted in and for the Dominion of New Zealand by Order in Council of the 14th day of March, 1921:—

Article 757, Table II: Number 19, to read "for all boys ratings and ordinary seamen 2nd class and equivalent ratings under the age of eighteen years."

Article 799, clause 2: Amend so as to read "limited to boys and ordinary seamen 2nd class and equivalent ratings under the age of eighteen years."

Article 807: In all cases where the maximum reward of £3 is mentioned £6 is to be read, and where a reward not exceeding £1 is mentioned £2 is to be read.

Wherever the words "Home," "United Kingdom," "England," or similar words occur, the words "Dominion of New Zealand" are to be read.

Whenever reference to the Admiralty or Departments thereof is necessary, reference is to be made to the Navy Office, Wellington; and where reference to Commander-in-Chief or other Flag Officer is necessary, reference is to be made to the Commodore Commanding, New Zealand Station.

## UNIFORM.

2. Officers and ratings of the New Zealand Naval Forces shall wear the uniform prescribed in the Uniform Regulations of the Royal Navy.

## MATTERS REQUIRED TO BE PRESCRIBED BY THE SAID ACT.

3. The examinations required to be prescribed by section 5 of the said Act shall be those laid down in the King's Regulations and Admiralty Instructions for the time being in force, until such time as further regulations under the provisions of the said section may be prescribed on the recommendation of the Naval Board.

4. (i.) The conditions of appointment of active service warrant officers, non-commissioned officers, and petty officers required to be prescribed by section 8 of the said Act shall be as laid down in the King's Regulations and Admiralty Instructions for the time being in force and as obtain in the King's Naval Forces.

(ii.) The seniority of officers in their respective ranks shall be the same as that obtaining in the King's Naval Forces, or as may be prescribed on the recommendation of the Naval Board in regard to officers who have received commissions or warrants in the New Zealand Naval Forces.

5. As regards section 9 of the said Act, unless and until it shall be otherwise prescribed by regulation under the said Act, the ages for compulsory retirement of officers shall be the same as obtain in the King's Naval Forces, and the ages for the compulsory retirement of members of the Naval Forces other than officers shall be as follows, viz.:—

Chief Petty Officers and Petty Officers: 50 years.  
Others: 45 years.

6. As regards section 10 of the said Act, the period of enlistment shall normally be for a term of twelve years from date of enlistment, or from the age of eighteen years if enlistment takes place before that age; except that the Naval Board may approve of engagements being entered into for terms of less than twelve years, provided that any such term

is not less than two years, and may provide for the re-engagement of ratings at the termination of their previous engagements.

7. As regards section 11 of the said Act, the prescribed person other than a Justice of the Peace before whom the Oath of Allegiance shall be taken may be any commissioned officer serving in the New Zealand Naval Forces.

8. The period of liability for service in the New Zealand Royal Naval Reserve in time of war of a member of the sea-going Naval forces discharged therefrom, required to be prescribed by section 13 of the said Act, shall be ten years, or until the age of forty is reached.

9. As regards section 16 of the said Act, the drill, training, and inspection to which the members of the Naval forces other than the New Zealand Royal Naval Reserve shall be subject shall be such as are ordered from time to time by the Officer in Command of the station, ship, or establishment in which such members are serving.

C. A. JEFFERY,  
Acting Clerk of the Executive Council.

*Reserve in Nelson Land District for Lease by Public Tender.*

District Lands and Survey Office,  
Nelson, 26th April, 1921.

NOTICE is hereby given that written tenders, marked on the outside "Tender for Lease," will be received at this office up to 4 o'clock p.m. on Wednesday, 8th June, 1921, for a lease of the undermentioned reserve, under Part I of the Public Reserves and Domains Act, 1908, and amendments.

SCHEDULE.

NELSON LAND DISTRICT.

SECTION 29, City of Nelson: Area, 1 acre; minimum upset rental, £10 per annum.

Weighted with £659, valuation for eight-roomed house and fencing.

DESCRIPTION AND LOCALITY.

Situated on Wakefield Quay, Port Nelson. Steep rough land, with small flat on frontage on which house is built. There is a possible building-site at the top of the section; the balance is precipitous. The house which was erected about twelve years ago is 27 ft. by 46 ft., with 11 ft. stud and iron roof. It contains passage, bathroom, washing-tubs, and boiler, and is connected with the city water-supply.

ABSTRACT OF TERMS AND CONDITIONS OF LEASE.

1. Term of lease, twenty-one years from 1st July, 1921, without right of renewal.

2. A half-year's rent at the rate offered, and £1 ls., must accompany each tender. The value of the improvements must be paid in cash before possession is given.

3. Residence and improvements are not compulsory. Possession will be given on 1st July, 1921, from which date rent will commence.

4. If on the termination of the lease the reserve is again leased, the incoming lessee shall pay to the outgoing lessee the then value of all substantial improvements now on the section, or that may be effected hereafter with the written consent of the Commissioner of Crown Lands.

5. The rent shall be paid half-yearly in advance.

6. The lessee shall have no right to sublet, transfer, or otherwise dispose of the land comprised in the lease without the written consent of the Commissioner of Crown Lands first had and obtained.

7. All persons duly authorized in that behalf shall have free right of ingress, egress, and regress for such purposes as the Commissioner of Crown Lands may deem expedient.

8. The lessee shall prevent the growth and spread of gorse, broom, and sweetbrier on the land; and he shall with all reasonable despatch remove, or cause to be removed, all gorse, sweetbrier, broom, ragwort, or other noxious weeds or plants as may be directed by the Commissioner of Crown Lands.

9. The lease shall be liable to forfeiture in case the lessee shall fail to fulfil any of the conditions of the lease within thirty days after the date on which the same ought to have been fulfilled.

The reserve is described for the general information of intending tenderers, who are recommended, nevertheless, to make a personal inspection, as the Department is not responsible for the absolute accuracy of any description.

Full particulars may be ascertained at the District Lands and Survey Office, Nelson.

H. D. McKELLAR,  
Commissioner of Crown Lands.

CONDITIONS OF SALE.

1. Intending tenderers are expected to visit the locality and satisfy themselves in every particular on all matters relating to the sale.

2. The right is reserved to the Commissioner of Crown Lands to withdraw from sale the above lots of timber.

3. The aforementioned quantity, quality, and kind as to the said timber shall be taken as sufficiently accurate for the purpose of this sale, and no contract for purchase shall be voidable, nor shall the purchaser be entitled to any abatement in price, by reason of the said timber being of less quantity, quality, and kind than as stated herein or in any advertisement having reference to the said timber, nor shall any extra sum be claimed by the Crown if the said quantity of timber is found to be in excess of that stated herein.

4. All timber, whether standing, felled, or in logs, shall remain the property of the Crown until all the instalments are paid.

5. The quantity stated is standing measurement, and only those trees bearing the special distinguishing brands are included in the sale, but an offer may be made by the successful tenderer for under-sized and defective trees not included in the sale.

6. Should any dispute arise as to the boundaries, the decision of the Commissioner of Crown Lands be final.

7.—In the event of any of the lots not being disposed of, applications may be received and dealt with at any time within six months from date of sale (unless previously formally withdrawn), provided, however, that the amount offered is not less than the upset price stated herein.

8. Tenders must be accompanied by a deposit of 5 per cent. on the amount of tender in cash, marked cheque, or post-office order, the balance of the first instalment to be paid (if tender accepted) within thirty days of date of accepting of tender.

9. The highest or any tender not necessarily accepted.

Tenders to be addressed "Commissioner of Crown Lands," and envelopes to be marked "Tender for Timber."

Sale plans and conditions of sale may be seen at the Mamaku and Rotorua Post-offices, or at the District Lands and Survey Office, Auckland.

#### LAND FOR LEASE.

1. The term of the lease shall be eighteen years from the 1st July, 1921, at the rental tendered, with right of renewal for one further term of eighteen years at a rental assessed at 5 per cent. on the unimproved value of the land at the time of the renewal, such valuation, in the event of a dispute, to be determined by arbitration. Compensation for substantial improvements shall be allowed to the lessee at the expiration of the second term of the lease, as provided in section 263 of the Native Land Act, 1909.

2. Residence to commence within four years in bush lands or swamp lands, and within one year in open or partly open lands, and to be continuous for six years.

3. Lessee has no right to minerals without license, but he may use on the land any minerals for any agricultural, pastoral, household, road-making, or building purposes.

4. Every lessee shall bring into cultivation,—

(a.) Within one year from the date of his lease, not less than one-twentieth of the land leased by him;

(b.) Within two years from the date of his lease, not less than one-tenth of the land leased by him;

(c.) Within four years from the date of his lease, not less than one-fifth of the land leased by him;

and shall, within six years from the date of his lease, in addition to the cultivation of one-fifth of the land, have put substantial improvements of a permanent character (as defined by the Land Act, 1908) on first-class land to the value of £1 for every acre of such land, and on second-class land to an amount equal to the net price of every acre of such land: Provided that in no case shall the additional improvements required on second-class land be more than 10s. per acre, or 2s. 6d. on third-class land.

5. (a.) Rent shall be payable half-yearly in advance.

(b.) Lessee will not assign the lease without the consent of the Board.

(c.) Lessee will cultivate the land in a husbandlike manner, and keep it free from noxious weeds.

(d.) Lessee will keep fences and buildings in repair.

(e.) Lessee will fence without any right of resort to the Board for contribution on account of the Board owning or occupying adjacent land; but this provision shall not deprive the lessee of any rights he may have against any subsequent occupier, other than the Board, of such adjacent land.

(f.) A copy of the form of lease can be inspected at the office of the Under-Secretary for Native Affairs, Wellington, or the office of the Board.

#### GENERAL INSTRUCTIONS TO TENDERERS.

1. The land to be leased subject to reserve price or rental specified in each case.

2. Every tender shall be enclosed in a sealed envelope, addressed to the President of the Board, and marked on the outside as follows: "Tender for lease of , Block (No. , in red), in sale plan No. 46."

3. Tenders for lease must be accompanied by six months' rent, lease fee (£4 4s.), an amount sufficient to cover stamp duty and registration fee, and the amount with which the section is loaded for improvements (if any). NOTE.—Stamp duty will be 6s. if rent is under £50 per annum, with an additional 3s. for each further £50 or fraction thereof; registration fee is uniformly 10s.

4. The highest tenderer to be declared the lessee, but the Board reserves to itself the right to decline to accept any tender.

5. The successful lessee will require to make declaration of qualification under the Native Land Act, 1909, within thirty days, to the effect that he is not the owner or occupier of 3,000 acres of third-class land, or its equivalent in other classes of land.

6. The lands are offered under the Native Land Act, 1909, and the regulations made thereunder, and lessees shall be deemed to be acquainted with the provisions thereof, and be bound thereby as effectually as if such provisions were embodied herein.

#### INSTRUCTIONS TO APPLICANTS.

The lands are described for the general information of intending tenderers, who are recommended, nevertheless, to make a personal inspection, as the Board is not responsible for the absolute accuracy of any description.

Areas may be liable to slight alterations.

The figures in colour on detail plans correspond with those in the advertisement and on locality plan.

Tenders must be sent to the office of the Tokerau District Maori Land Board, Auckland, and must be made on the proper forms, to be obtained at the office of the Board and at any post-offices in the locality of the land to be offered.

Full particulars may be obtained at the office of the Under-Secretary for Native Affairs, Wellington, and at the office of the Tokerau District Maori Land Board, Auckland.

SCHOOL FOR THE DEAF, NEAR SUMNER, CHRISTCHURCH.

UNDER THE CONTROL AND SUPERVISION OF THE EDUCATION DEPARTMENT.

Director: Mr. J. E. STEVENS.

FOR Deaf Children of sound intellect. The pupils are taught to understand and use ordinary speech. The full charge for board and education is £40 a year, but less is accepted from parents who cannot afford to pay this amount. In case of necessity admission is free.

By the Education Act it is compulsory for deaf children to come under instruction at the age of six, and to continue until the age of twenty-one unless the Education Department previously grants exemption. Though a child is, as a rule, best fitted to begin the school course at the age of six, advice should be obtained as soon as any sign of deafness is observed.

The following classes of deaf children are admitted to the School for the Deaf (sound intellect being always a necessity):—

1. Children born deaf, or who have lost their hearing before learning to speak.
2. Children who can hear a little, but are too deaf to be taught in a public school.
3. Children who have lost their hearing after having learned to speak.

The Act imposes upon every parent, teacher of a school (either public or private), constable, or officer of a charitable or kindred institution who is aware of the place of residence (either temporary or permanent) of a deaf child, and the householder in whose house any such child resides, an obligation to send notification of the fact to the Minister of Education, giving the name, age, and address of the child; and any neglect or failure to comply with this provision involves liability to a fine.

Information and advice may be obtained from the Director, or from the

SECRETARY TO THE  
EDUCATION DEPARTMENT,  
WELLINGTON.
