4. Each tenderer must deposit with the Commissioner of State Forests a bond (with two satisfactory guarantees to be approved by the said Commissioner) for £80; such bond must accompany the tender as a deposit, and in the case of the successful tenderer this sum will be liable to forfeiture in the event of non-fulfilment of any of the conditions of sale.

5. The highest or any tender will not necessarily be accepted, and the timber described is submitted for sale subject to the final acceptance of the tender by the Commissioner of State Forests.

6. The right is reserved to the Commissioner of State Forests to withdraw from sale all of the said timber either before or after the date for receipt of tenders.

7. All felled timber for removal from the forest is to be branded and measured in the log by the Hoppus system before manufacture. A return, which must be verified by affidavit, giving the number of logs cut of each species and their contents, must be made quarterly by the licensee each quarter ending on the last day of March, June, September, and December in each year respectively. Payment for the timber in accordance with this return shall be made within fourteen days of the same dates in each and every year during the currency of the license. A return, similarly verified, must be made quarterly on the same dates showing the output of sawn timber of each species.

8. The successful tenderer will be granted a license to cut timber, the period for which will be three years, and such period will not be extended. A fee of £1 1s. shall be paid for the license, and the license shall not be transferable except with the consent of the Commissioner of State Forests.

9. The successful tenderer must commence cutting operations within six months of the date of the granting of the license, and within three years of the same date the whole quantity of timber specified in the license must be cut.

10. The Commissioner of State Forests may extend the time for the erection of a sawmill to twelve months from the date of the license, if satisfied that such extension is reasonable and that the licensee has used every endeavour to insure the erection of the sawmill within six months from the date of the license.

11. Cutting operations must be carried on regularly and generally in a manner approved of by the Conservator of State Forests or his representative. The purchaser shall have no right to the use of the land, and the Crown reserves the right to use cut-over areas in any manner and for any purpose.

12. All timber, whether standing, felled in logs, or sawn shall remain the property of the Crown until paid for.

13. The licensee shall not put, throw, or place, or allow to be put, thrown, or placed, into any river, stream, or watercourse, or into any place where it may find its way into any river, stream, or watercourse, any slabs, sawdust, or other sawmill refuse.

14. The license shall be subject to any rights of tramway that may hereafter be granted over the lands comprised therein, and the Commissioner of State Forests may authorize the laying-down or working of tram-lines through the land by persons other than the licensee.

15. The settlement of any disputes shall be made by the Conservator of State Forests, but there shall be a right of appeal to the Commissioner of State Forests.

Tenders should be addressed "Conservator of State Forests, Lands and Survey Office, Napier," and envelopes endorsed "Tender for Timber."
