*By-laws under the Government Railways Act, 1908.*

IN exercise and pursuance of the power and authority conferred by the Government Railways Act, 1908, and of all other powers and authorities in that behalf, I, David Henry Guthrie, Acting Minister of Railways, do hereby amend the by-laws made under the said Act on the 29th day of May, 1909, by making the following alterations therein.

PART I.—GENERAL.

By omitting by-law No. 31, and substituting the following:—

"31. His Majesty the King will not be responsible for any loss or damage in respect to any goods received for carriage or carried on a railway train under any of the following circumstances, that is to say,—

"(1.) If the above-mentioned consignment-note is not delivered with the goods, or the receipt not obtained for the same.

"(2.) If the goods are wrongly or insufficiently described on the consignment-note.

"(3.) If the goods are allowed to remain on the premises of the railway for more than twelve working-hours after their arrival at the station to which they are addressed.

"(4.) If they are put into packages described as 'empties.'

"(5.) If they are insufficiently or insecurely packed, or if articles liable by breakage or leakage to damage one another are packed in the same package.

"(6.) If the loss or damage arises from the act of God, civil commotions, King's enemies, strikes, lock-outs, or other labour disturbances (whether of employees in the Railway Department or of other persons), or from fire (except from the railway engines or apparatus), or from accidental delays in transit occurring from either of these causes.

"(7.) Unless the claim for such loss or damage be specified in writing, and within seven days after the due time of delivery."

By inserting in paragraph (1) of by-law No. 40, before the word "floods," the words "strikes, lock-outs, or other labour disturbances (whether of employees in the Railway Department or of other persons)."

By omitting paragraph (5) of by-law No. 43, and substituting the following:—

"(5.) The amount of the fee payable in respect of every license shall be as may be fixed from time to time by regulation in that behalf."

By omitting from paragraph (1) of by-law No. 44 the words "a fee of 2d.," and substituting the words "the prescribed fee."

By omitting paragraph (4) of by-law No. 45, and substituting the following:—

"(4.) The applicant shall pay a rental for the right of access to the railway by means of a private siding (payment to be made in equal instalments quarterly in advance) at the following rates per annum:—

"(a.) For private-siding access not being at a railway-station, £50.

"(b.) For private-siding access at any principal railway-station (as determined by the Minister), £50.

"(c.) For private-siding access at any other railway-station, £25."

PART II.—PASSENGERS' LUGGAGE.

By omitting paragraph (3) of by-law No. 46, and substituting the following:—

"Passengers may, at their option, and on payment of the prescribed charge, have their luggage checked between any two stations on a continuous line of railway, or between such stations on such separate sections of railway as may be publicly notified in that behalf from time to time, and such checked luggage will thereafter be held and conveyed at the risk of the Crown subject to the provisions hereinafter contained."

By adding paragraph (8A) to by-law No. 46 as follows:—

"(8A.) His Majesty the King will not be responsible for loss of or from or damage to any package of checked luggage, unless notice of such loss or damage is given to an authorized officer of the railway—

"(a.) In case delivery of such package has been taken from the railway by or on behalf of the passenger in respect of whom such package was conveyed, within forty-eight hours after the time when delivery was taken as aforesaid; or

"(b.) In any other case, within seven days after the due time for delivery.

"Any railway stationmaster or manager shall for the purposes of this by-law be deemed to be an authorized officer of the railway."

By omitting paragraph (27) of by-law No. 46, and substituting the following:—

"(27.) Commercial travellers will each be allowed to take 112 lb. weight of luggage, and for the purposes of this paragraph any commercial traveller's *bona fide* samples for exhibition only (including two bicycles, other than motor-bicycles) will be deemed to be luggage. Commercial travellers' luggage in quantities in excess of that allowed to be carried free of charge will be charged at such rates and be conveyed under such conditions as may be prescribed. The Minister reserves the right to refuse to carry any particular article or package as commercial traveller's luggage."

By omitting paragraph (28) of by-law 46, and substituting the following:—

"(28.) Theatrical companies' luggage will be conveyed as follows: Companies of not less than six adult passengers will be allowed to take free of charge 2 cwt. of effects for each adult ticket held. All effects in excess of the quantity allowed to be taken free of charge will be charged at such rates and be conveyed under such conditions as may be prescribed."

PART V.—REGULATION OF TRAFFIC OVER COMBINED ROAD AND RAILWAY BRIDGES.

By adding by-law No. 49A as follows:—

"49A. Every person shall, before entering upon any bridge used for both ordinary road traffic and railway traffic, stop, and shall not enter thereupon—

"(a.) In the case of a bridge at which an officer of the railway is for the time being employed for the purpose of controlling the traffic over such bridge, unless and until such person shall have obtained the permission of such officer so to do; or

"(b.) In the case of any other bridge used as aforesaid, within fifteen minutes of the time when any train is due to enter thereupon.

"Nothing in this by-law shall abrogate or otherwise affect any other by-law or regulation made for the purpose of regulating traffic over bridges used for both ordinary road traffic and railway traffic or over any particular such bridge."

And, in further pursuance of the said powers and authorities, I, the said David Henry Guthrie, do hereby amend the by-law made under the said Act on the 19th day of July, 1910, regulating the weight of cereals or other agricultural produce to be placed in any sack for carriage by rail by making the following alterations therein:—

By omitting the words "of 10s. per ton in addition to the ordinary rail charges," in two places, and substituting in each case the words "prescribed in that behalf."

As witness my hand this 9th day of September, 1921.

D. H. GUTHRIE,  
Acting Minister of Railways.

*By-laws regulating Traffic on Portion of the Tokomaru Valley Road.*

WHEREAS by section 139 of the Public Works Act, 1908, and section 4 of the Motor Regulation Act, 1908, the Minister of Public Works is authorized from time to time to make by-laws in respect of all or any Government roads for the purposes specified in the said sections (relating to the control of traffic upon such roads):

And whereas by an Order in Council dated the 10th day of May, 1921, and published in the *New Zealand Gazette* of the 19th day of May, 1921, portion of the Tokomaru Valley Road, in the Horowhenua County, Wellington Land District (hereinafter referred to as "the said road"), was declared to be a Government road, and it is expedient to make by-laws in respect of the said road under the authority hereinbefore referred to:

Now, therefore, I, Joseph Gordon Coates, the Minister of Public Works, do hereby make the following by-laws in respect of the said road, and do hereby declare that the said by-laws shall come into force on the 1st day of October, 1921.

BY-LAWS.

In these by-laws, if not inconsistent with the context, "Minister" means the Minister of Public Works. "Public Works Engineer" means the engineer or engineers of the Public Works Department in charge of the hydro-electric works at Mangahao.

BY-LAW NO. 1: FOR WIDTH OF TIRES AND TRAFFIC REGULATIONS.

The width of tires of vehicles used upon the said road shall be as follows:—

1. The width of tires, whether plying for hire or not, shall bear the following proportion to the weight of the load and vehicle, viz:—

Where the Weight of Load and Vehicle is—	Then the Minimum Width of Tires shall be—		
	For Vehicles with Two Wheels.	For Vehicles with Four Wheels.	
		Fore Pair of Wheels.	Hind Pair of Wheels.
1 ton	3 inches	2 inches	2 inches.
2 "	5 "	3 "	4 "
3 "	7 "	3½ "	5½ "
4 "	..	4 "	7 "

The maximum load, including weight of vehicle, shall be—  
For a two-wheeled vehicle, jinker, or machine 3 tons.

For a four-wheeled vehicle, motor-lorry, machine, or traction-engine .. 4 "

2. The use of bullocks as traction animals on the said road is hereby prohibited for a period of four years from the date hereof.

3. The owner of any motor-lorry, engine, machine, or other vehicle engaged in heavy traffic on the said road shall pay to the Minister a yearly license fee of £150 in respect of each such vehicle which itself, or together with any thing or things capable of being transported thereon, weighs not less than one and a half tons avoirdupois to each pair of wheels, and shall pay an additional £25 yearly for each complete half-ton avoirdupois over one and a half tons avoirdupois to each pair of wheels by way of compensation for any damage likely to occur to such road. Such amount shall become payable by the owner of any such motor-lorry, vehicle, engine, or machine on using such road, and shall be paid within fourteen days from the first occasion on which such road is so used.

4. Every vehicle, both public and private, other than bicycles, on the said road between one half-hour after sunset and one hour before sunrise shall have at least two efficient lights affixed conspicuously—one on each side of the front thereof, and shall also have an efficient light so fixed at the rear of such vehicle as to throw a bright red light to the rear of such vehicle—and all bicycles shall carry one efficient light. Every bicycle with side-car attached shall carry two lights—one on the bicycle and one on the side-car. Every bicycle, whether with or without a side-car attached, shall carry some contrivance for either showing a red light in the opposite direction to that in which such bicycle is proceeding or reflecting the light from an overtaking vehicle.

5. The term "on springs" in these by-laws shall mean any vehicle the body of which is supported on springs affixed on top of the axle or axles connecting the wheels of such vehicle.

6. No traction-engine, machine, or other vehicle, or load thereon, shall exceed 7 ft. in width over all.

7. The driving-wheels of every traction-engine shall be cylindrical and smooth, solid, or shod with diagonal cross-

bars, not less than 3 in. in width nor more than ½ in. in thickness, extending the full width of the tire, and the space intervening between each pair of such cross-bars shall not exceed 3 in. The width of the tire of each driving-wheel shall not be less than 12 in., and of the front wheel 7 in. No spikes shall be inserted in or attached to the tires of wheels of traction-engines used upon the said road in such manner as to cut up or otherwise destroy the surface of such road.

8. No traction-engine shall be allowed to travel or remain upon the said road between sunset and sunrise, except in the case of a breakdown of machinery or other unavoidable accident, but such traction-engine shall be repaired and removed off the road without unreasonable delay.

9. A traction-engine shall not be permitted to stand motionless upon the said road for a greater length of time than twenty minutes, except for the purpose of facilitating the passage of horses, or vehicles drawn by horses, or in the case of a breakdown of machinery or other unavoidable accident. Any traction-engine which has broken down and cannot be removed off the road must be properly screened so as not to frighten horses, and must be properly lighted as provided in clause 4 hereof.

10. A traction-engine shall not be drawn or propelled along the said road at a greater speed than eight miles an hour, or on a bridge thereon at a greater speed than two miles an hour.

11. No person shall while crossing any bridge on horse-back cause such horse to go out of a walk; and no person shall when driving any wagon, cart, coach, carriage, or other vehicle of any description, whether loaded or unloaded, across any bridge cause the horse or horses drawing such wagon, cart, coach, carriage, or other vehicle as aforesaid to go out of a walk.

12. The driver or person in charge of a traction-engine shall give as much space as possible for the passage of ordinary traffic.

13. The driver or person in charge of any traction-engine shall not propel or cause the same to be propelled along or over the said road or any bridge thereon unless the engine shall be accompanied by two men at least, part of whose duty it shall be to keep careful lookout both in front of and behind the engine for horses and vehicles which may be approaching, to warn the riders and drivers of such horses and vehicles of the proximity of the engine, and to assist them in passing the engine in safety.

14. The driver or persons in charge of any traction-engine shall, upon being signalled by the rider or driver of any horse or vehicle, instantly stop such engine so as to allow such traffic to pass in safety.

15. The whistle of a traction-engine shall not be sounded for any purpose whatever, nor shall the cylinder-taps be opened within sight of any person riding, driving, leading, or in charge of a horse or horses upon the road, nor shall steam be allowed to attain a pressure exceeding the limit fixed by the safety-valve, so that no steam shall blow off when the traction-engine is upon the road.

16. No ashes or refuse from a traction-engine shall be stacked on the said road or near a bridge or culvert thereon.

17. No traction-engine or vehicle attached thereto shall be propelled or drawn along or upon any bridge at any time while any person with a horse or vehicle is on the bridge, nor shall any traction-engine or vehicle attached thereto be permitted to stop on any bridge or culvert for any purpose whatever, except in the case of a breakdown of machinery or other unavoidable accident, but such traction-engine shall be repaired and removed from such bridge or culvert without any unreasonable delay.

18. The driver or person in charge of any traction-engine, or any wagon or other vehicle engaged in heavy traffic, shall give immediate notice to the Public Works Engineer, or overseer or surfaceman in charge of the said road, of any damage done to the said road or any bridges, culverts, or fencing thereon by such vehicles. Any damage done or injury caused to the said road or any bridge or culvert thereon by any engine, carriage, or vehicle attached thereto or connected therewith as aforesaid shall forthwith thereafter be repaired and made good by or at the expense of the owner of any such engine, carriage, or vehicle.

19. Nothing herein contained shall be held to relieve owners or employers of traction-engines and vehicles engaged in heavy traffic from liability in respect of injury done or damage sustained by the traction of weight in excess of that prescribed by clause 24 hereof over or along any bridge or roadway.

20. Any person authorized by the Minister of Public Works, or any officer or constable of police, may stop and detain any vehicle, traction-engine, or machine which, in his opinion, infringes this by-law, until the width of tires or the weight of such vehicle, traction-engine, or machine and the load thereon, or the weight or measurement of the contents thereof, can be ascertained.

21. The driver of any such vehicle, traction-engine, or machine shall give full and true information as to the load

or contents thereof, and the quantity, weight, size; or measurement of the same, and shall do such acts for the purpose of enabling the same to be ascertained as such authorized person requests.

22. The manner of ascertaining the weight of loading or contents of any vehicle shall be by computing the weight or measurement from the cubical or superficial measurement of such loading or contents, and for this purpose the quantities hereunder set out shall, so far as regards the material or articles mentioned respectively, represent one ton, and so on in the same rates:—

New Zealand timber, 400 superficial feet.  
 Australian timber, 350 superficial feet.  
 Firewood, half a cord or 64 cubic feet.  
 Sand, 21 cubic feet.  
 Clay, 19 cubic feet.  
 Cement, 5 barrels or bags equal to same.  
 Broken stone, 21 cubic feet.  
 Lime, 38 cubic feet.  
 Bricks, 320.  
 Coal, 45 cubic feet.  
 Chaff, 25 bags.  
 Oats (4 bushel bags), 10 bags.  
 Wool, 5 bales.  
 Iron and steel,  $4\frac{1}{2}$  cubic feet.

23. Traction-engines shall only cross or pass along such bridges and culverts as the Public Works Engineer certifies in writing to the Minister are safe for such traffic.

24. The weight of any load or material of any kind which shall be permitted to cross, in one vehicle, any bridge shall not exceed four tons.

25. "Traction-engine" in this by-law means any locomotive-engine propelled by steam or other motive power and designed for use on ordinary roads. "Heavy traffic" in this by-law means transportation of any vehicle, engine, or machine which shall itself or together with any thing or things being transported thereon weigh more than one and a half tons avoirdupois to each pair of wheels. "Gross weight" in this by-law means the weight of the traction-engine, machine, or other vehicle together with any thing or things being transported thereon.

#### BY-LAW NO. 2: RELATING TO MOTOR-CAR TRAFFIC.

1. In this by-law "motor-car" means "motor" as defined in the Motor Regulation Act, 1908, and is any vehicle propelled by mechanical power if it does not exceed three tons in weight unladen, and is not used for the purpose of drawing more than one vehicle (such vehicle with its locomotive not to exceed in weight four tons unladen). In calculating for the purposes of this by-law the weight of a vehicle unladen, the weight of any water, fuel, or accumulators used for the purpose of propulsion shall not be included.

2. No person shall drive or operate, or attempt to drive or operate, a motor-car on the said road unless he is a person competent to control its use and movement.

3. No person in charge of a motor-car while on the said road shall permit any person to drive or operate such car unless such last-mentioned person is competent to operate the same.

4. No person driving or in charge of a motor-car when on the said road—

- (a.) Shall cause such motor-car to travel backwards for a greater distance than shall be requisite for the purpose of safety;
- (b.) Shall quit such motor-car without having taken due precaution against its being started in his absence.
- (c.) Shall cause or allow or permit such motor-car to be driven or operated, or to remain or stand on the said road or any bridge thereon so as to obstruct or interfere with the traffic thereon.

5. The person in charge of a motor-car on the said road shall, when within a reasonable distance from and before meeting or overtaking any person in sight on foot, and when within a reasonable distance from and before meeting or overtaking any person in a vehicle or on horseback, give audible and sufficient warning of the approach or position of the car by sounding the warning instrument attached thereto and required by law to be provided.

6. The person driving or in charge of a motor-car on the said road shall, on the request of any person driving stock, riding, or having charge of a restive horse and coming towards the car, or on such person holding up his or her hand as a signal for that purpose, cause such car to stop, and remain stationary as long as shall be reasonable to enable such person to pass the car with the vehicle, horse, or stock which he is driving, riding, or in charge of, and if necessary shall stop the engine of such car.

7. When a motor-car is being driven or propelled along the said road, if owing to a bend, corner, crossing, or junction in the said road or for any similar cause it becomes impossible for the driver or person in charge of such motor-car to have an uninterrupted view of the traffic on the said

road for at least fifty yards ahead, such driver or person in charge shall reduce his speed to six miles an hour, and around sharp bends, when actually meeting any person riding or driving, shall reduce speed to four miles an hour, and by sounding the warning instrument give audible and sufficient warning of the approach of such motor in both cases.

8. No motor-car shall be driven or propelled on the said road at a greater speed than fifteen miles an hour.

9. The person driving or in charge of a motor-car on the said road shall, if during the period between sunset and one hour before sunrise or whenever it is dark any person driving, riding, or having charge of a vehicle or cattle signals to the motor by waving a lamp up and down, proceed with the motor cautiously; and he shall, if during the same period any such person so signals by waving a lamp from side to side, bring the motor-car to a standstill and keep it stationary, and if necessary shall stop the engine, for so long as may be necessary to enable such person, together with such vehicle or cattle, to pass the motor-car safely.

10. The driver, rider, or person in charge of a motor-car on the said road shall, when meeting any vehicle or cattle, keep to the left or near side of the said road; and when overtaking any vehicle or cattle shall pass when practicable on the right or off side of the said road.

11. No driver or person in charge of any motor-car shall pass or attempt to pass any vehicle, horse, or cattle if on a bridge or dangerous part of the said road.

12. Where the said road crosses a railway or tramway, or is crossed or intersected by another road, the said road is deemed and is hereby declared to be dangerous for the use of motor-cars for a distance of two chains on each side of such crossing or intersection.

13. If at any time the Minister is satisfied that the use of motor-cars on any bridge or part of the said road would be attended with risk of damage to the bridge or danger to the public, he may by notice prohibit motor traffic along such bridge or any part of the said road.

14. No motor-car shall be driven or operated unless such motor-car is fitted with two independent brakes in good working-order, and of such efficiency that the application of either can cause two of the wheels on the same axle to stop revolving; provided that, in the case of a motor not being a motor-car, this clause shall apply as if instead of two wheels on the same axle one wheel was therein referred to.

15. No motor-car shall be driven or operated on the said road unless such motor-car is fitted with an efficient muffler or silencer, and no such muffler or silencer shall be disconnected from the exhaust, opened or removed, in being driven or operated within fifty yards from any vehicle, horse, or cattle on the said road.

16. Every person in charge of a motor-car during the period between sunset and an hour before sunrise shall carry attached to the motor-car a lamp which shall be so constructed and placed as to exhibit a white light in the direction in which such motor-car is proceeding, such light being sufficiently clear and strong to afford adequate means of signalling the approach or position of such motor-car. Every such person during such period shall also carry attached to the motor-car a lamp which shall be so constructed and placed as to exhibit a red light in the opposite direction to which the car is proceeding, and green side lights so as to be visible from the opposite sides of gullies round bends when the motor-car is sideways on to the approaching car or vehicle.

17. A motor-car which has broken down shall be lighted at night if left on any part of the said road.

18. Head lights shall be so restricted in intensity that they will not dazzle any person approaching from the opposite direction.

#### BY-LAW NO. 3: RELATING TO SLEDGING.

1. No person shall draw or trail any sledge, timber, or other material in or upon the said road, whether such road is or is not or may be injured or damaged thereby.

2. Any person damaging the said road by sleighing shall make such damage good to the satisfaction of the Public Works Engineer.

#### PENALTIES.

1. Every person who shall do or cause or procure to be done anything contrary to or otherwise than is provided by these by-laws or any section or part of a section thereof, or who shall omit to do anything therein required to be done by him, shall be guilty of an offence.

2. Every person guilty of an offence against these by-laws shall be liable for each such offence to such fine, not exceeding £5, as the Court inflicting the same shall in its discretion think fit.

3. Any person guilty of an offence against By-law No. 2, relating to motor-car traffic, shall be liable for each such offence to a fine not exceeding £10.

GENERAL DESCRIPTION.

The Hikua Settlement, formerly the property of G. T. Niccol, Esq., is situated on the Tairua River, about eight miles above the wharf at the township on the Tairua Harbour, which lies on the eastern side of the Hauraki Peninsula. There is a steamer service from Auckland once a week, the journey occupying about twelve hours. Access may also be obtained overland either by the Kaueranga Track from Thames, or from Puriri Railway-station, which is nine miles from Thames, the distance from Puriri being about twenty-two miles, of which about ten miles is formed and metalled cart-road, the remainder being horse-track only. The Tairua River is navigable for launches up to the wharf on the settlement.

The settlement consists principally of level to undulating land, the former being rich alluvial soil most of which has been ploughed and grassed. Portions of the area are swampy, but capable of being easily drained, a good deal of work in this direction having already been done by the former owner. The soil is of a sandy loam quality. Most of the sections are well watered, and are suitable for dairying or fattening. Portions of the land near the river are liable to occasional flooding. There is a certain amount of fencing in fair order on each section. The hilly land is of poor quality, in fern and scrub, but is capable of being developed into useful grazing-country.

There are a considerable number of buildings on the settlement which have not been allotted to individual sections, but applications from successful selectors to have buildings allotted to them for removal to their own sections will be favourably considered. In the case of sections carrying more buildings than are needed, permission to dispose of the surplus at valuation could be obtained.

#### SCHOOL FOR THE DEAF, NEAR SUMNER, CHRISTCHURCH.

UNDER THE CONTROL AND SUPERVISION OF THE EDUCATION DEPARTMENT.

Director: MR. J. E. STEVENS.

**F**OR Deaf Children of sound intellect. The pupils are taught to understand and use ordinary speech. The full charge for board and education is £40 a year, but less is accepted from parents who cannot afford to pay this amount. In case of necessity admission is free.

By the Education Act it is compulsory for deaf children to come under instruction at the age of six, and to continue until the age of twenty-one unless the Education Department previously grants exemption. Though a child is, as a rule, best fitted to begin the school course at the age of six, advice should be obtained as soon as any sign of deafness is observed.

The following classes of deaf children are admitted to the School for the Deaf (sound intellect being always a necessity):—

1. Children born deaf, or who have lost their hearing before learning to speak.
2. Children who can hear a little, but are too deaf to be taught in a public school.
3. Children who have lost their hearing after having learned to speak.

The Act imposes upon every parent, teacher of a school (either public or private), constable, or officer of a charitable or kindred institution who is aware of the place of residence (either temporary or permanent) of a deaf child, and the householder in whose house any such child resides, an obligation to send notification of the fact to the Minister of Education, giving the name, age, and address of the child; and any neglect or failure to comply with this provision involves liability to a fine.

Information and advice may be obtained from the Director, or from the

SECRETARY TO THE

EDUCATION DEPARTMENT,

WELLINGTON.
