5. The owner of any motor-lorry engaged in heavy traffic (whether plying for hire or not) on the said road shall pay to the Minister a monthly license fee of £12 10s. in respect of each such vehicle which itself or together with passengers or any thing or things capable of being transported thereon weighs not less than one and a half tons avoirdupois to each pair of wheels, and shall pay an additional £2 1s. 8d. monthly for each complete half ton avoirdupois carried on such vehicle over such one and a half tons avoirdupois to each pair of wheels by way of compensation for any damage likely to occur to the said road. Every bicycle with side-car attached shall carry two lights, one on the bicycle and one on the side-car. Every bicycle, whether with or without a side-car attached, shall carry some contrivance for either showing a red light in the opposite direction to that in which such bicycle is proceeding or reflecting the light from an overtaking vehicle.

7. No motor-lorry, machine, or other vehicle or load thereon shall exceed 8 ft. in width over all.

8. The driving-wheels of every traction-engine shall be cylindrical and smooth, solid, or shod with diagonal cross-bars not less than 3 in. in width nor more than ½ in. in thickness extending the full width of the tire, and the space intervening between each pair of such cross-bars shall not exceed 3 in. The width of the tire of each driving-wheel shall not be less than 12 in. and of the front wheel 7 in. No spikes shall be inserted in or attached to the tires of wheels of traction-engines used upon the said road in such manner as to cut up or otherwise destroy the surface of such road.

9. No traction-engine shall be allowed to travel or remain upon the said road between sunset and sunrise, except in the case of a breakdown of machinery or other unavoidable accident; but such traction-engine shall be repaired and removed off the road without unreasonable delay.

10. A traction-engine shall not be permitted to stand motionless upon the said road for a greater length of time than twenty minutes, except for the purpose of facilitating the passage of horses or vehicles drawn by horses, or in the case of a breakdown of machinery or other unavoidable accident. Any traction-engine which has broken down and cannot be removed off the road must be properly screened so as not to frighten horses, and must be lighted at night. A motor-lorry which has broken down shall be lighted at night if left on any part of the said road.

11. A traction-engine shall not be drawn or propelled along the said road at a greater speed than eight miles an hour, or on a bridge thereon at a greater speed than two miles an hour, except where such speeds are varied by notices erected under the authority of the Public Works Engineer on any portion of the said road or on any bridge thereon.

12. A motor-lorry shall not be driven or propelled on the said road at a greater speed than twelve miles per hour, or on a bridge thereon at a greater speed than six miles per hour, except where such speeds are varied by notices erected under the authority of the Public Works Engineer on any portion of the said road or any bridge thereon.

13. The use of chains on the driving-wheels of motor-lorries carrying passengers or engaged in heavy traffic on the said road is hereby prohibited: Provided that in cases of unforeseen emergency arising from the incompleting maintenance of any portion of the said road, the overseer, surfaceman, or other person in charge of such portion of road may, by notice in writing, authorize the use of chains on such portion of road for such periods as he may deem necessary.

14. No person shall while crossing any bridge on horseback cause such horse to go out of a walk; and no person when driving any wagon, cart, coach, carriage, or other vehicle of any description, whether loaded or unloaded, across any bridge shall cause the horse or horses drawing such wagon, cart, coach, carriage, or other vehicle as aforesaid to go out of a walk.

15. The driver or person in charge of a traction-engine or motor-lorry shall give as much space as possible for the passage of ordinary traffic.

16. The driver or person in charge of any traction-engine shall not propel or cause the same to be propelled along or over the said road or any bridge thereon unless the engine shall be accompanied by two men at least, part of whose duty it shall be to keep careful lookout both in front of and behind the engine for horses and vehicles which may be approaching to warn the riders and drivers of such horses and vehicles of the proximity of the engine, and to assist them in passing the engine in safety.

17. The driver or person in charge of any traction-engine or motor-lorry shall upon being signalled by any person driving stock, or by the rider or driver of any horse or horses, immediately stop such engine or motor-lorry so as to allow such traffic to pass in safety.

18. The whistle of a traction-engine shall not be sounded nor shall the cylinder-taps be opened within sight of any person riding, driving, leading, or in charge of a horse or horses upon the road; nor at such time shall steam be allowed to attain a pressure which would cause the safety-valve to blow off steam.

19. No ashes or refuse from a traction-engine shall be stacked on the said road or on or near any bridge or culvert thereon.

20. No traction-engine, or vehicle attached thereto, or motor-lorry shall pass or attempt to pass any vehicle, horse, cattle, or other stock on any dangerous part of the said road; and no traction-engine, or vehicle attached thereto, or motor-lorry shall be propelled or drawn along or upon any bridge at any time while any stock or any person with a horse or vehicle is on the bridge; nor shall any traction-engine, or vehicle attached thereto, or motor-lorry be permitted to stop on any bridge or culvert for any purpose whatever, except in the case of a breakdown of machinery or other unavoidable accident. Any such traction-engine or motor-lorry shall be repaired and removed from such bridge or culvert without unreasonable delay.

21. The driver or person in charge of any traction-engine or any wagon or other vehicle, other than a motor-lorry, engaged in heavy traffic shall give immediate notice to the Public Works Engineer, or overseer or surfaceman in charge of the said road, of any damage done to the said road or bridges, culverts, or fencing thereon by such vehicle. Any damage done or injury caused to the said road, or any bridge or culvert thereon, by any engine, wagon, or other vehicle, or by any vehicle attached thereto, shall forthwith thereafter be repaired and made good by or at the expense of the owner of any such engine, wagon, or other vehicle.

22. Nothing herein contained shall be held to relieve owners or employers of traction-engines or motor-lorries engaged in heavy traffic from liability in respect of injury done or damage sustained by the traction of weight in excess of that prescribed over or along the said road or any bridge or culvert thereon.

23. Any person authorized by the Minister of Public Works may stop and detain any vehicle, traction-engine, motor-lorry, or machine which in his opinion infringes these by-laws, until the width of tires or the weight of such vehicle, traction-engine, motor-lorry, or machine, and the load thereon, or the weight or measurement of the contents thereof, can be ascertained.

24. The driver of any such vehicle, traction-engine, motor-lorry, or machine shall give full and true information as to the load or contents thereof, and the quantity, weight, size, or measurement of the same, and shall do such acts for the purpose of enabling the same to be ascertained as such authorized person requests.

25. The manner of ascertaining the weight of loading or contents of any vehicle shall be by computing the weight or measurement from the cubical or superficial measurement of such loading or contents, and for this purpose the quantities hereunder set out shall, so far as regards the material or articles mentioned respectively, represent one ton, and so on in the same rates:—

New Zealand timber (dry), 500 superficial feet.  
New Zealand timber (green), 450 superficial feet.

Chaff, 25 bags.  
Oats (4-bushel bags), 10 bags.  
Wool, 5 bales.

26. The gross weight of any one vehicle which shall be permitted to cross any bridge or culvert situated on the said road shall not exceed five (5) tons, and not more than one such vehicle shall be permitted to be on any bridge at one time.

27. Where the said road crosses a railway or tramway, or is crossed or intersected by another road, the said road is deemed and is hereby declared to be dangerous for the use of traction-engines and motor-lorries for a distance of two chains on each side of such crossing or intersection.

28. No person or persons shall stretch ropes across any part of the said road, whether for log-hauling or any other purpose, to the danger of the travelling public.

#### RELATING TO SLEDGING.

29. No person shall draw or trail any sledge, timber, or other material in or upon the said road, whether such road is or is not or may be injured or damaged thereby.

30. Any person damaging the said road by sleighing shall make such damage good to the satisfaction of the Public Works Engineer.

#### PENALTIES.

31. Every person who shall do or cause or procure to be done anything contrary to or otherwise than is provided by these by-laws, or who shall omit to do anything therein required to be done by him, shall be guilty of an offence.

32. Every person guilty of an offence against these by-laws shall be liable for each such offence to a fine not exceeding £5.

## PRESS OPINIONS.

The second edition is virtually a new book. No one is so well qualified to describe New Zealand plant ecology as Dr. Cockayne.—*Nature*, London.

The story which Dr. Cockayne has to tell is wonderful, and the manner of his telling is full of charm. He gives no bare catalogue of plants nor bald descriptions, but shows by pen and picture the wonderful vegetation of those happy islands.—*Gardeners' Chronicle*, London.

The book will be treasured by all who find refreshment away from the cities and petty affairs of men. Dr. Cockayne's style is as brilliant as it is simple. He cannot be misunderstood. "New Zealand Plants and their Story" is a book to give to one's dearest friend, while keeping a copy for one's own reading and pleasure.—*Evening Post*, Wellington, New Zealand.

## PRESS OPINIONS.

The Hon. G. M. Thomson in writing this manual has evidently taken up a labour of love. He writes not so much for the scientific as for the general reader. It is a valuable and likely to be one of the most popular works issued by the Board of Science and Art. It is a notable addition to Mr. Thomson's other works.—*Evening Post*, Wellington, N.Z.

A bright little book. Mr. Thomson has provided a book sufficiently scientific to be authoritative, and yet informal and simple enough to be interesting to the young and uneducated. We shall look forward eagerly to Part II.—*Herald*, Timaru, N.Z.

It is a book of unusual interest. There is nothing like it in print, and the wonder is that it has not been done before. Mr. Thomson is to be thanked for producing a work so useful and so timely. Technical terms and scientific language have been avoided as far as possible, with the result that we have a narrative as interesting as any romance. It will prove a valuable and useful book.—*Evening Star*, Dunedin, N.Z.
