4. Any of the powers or authorities given to the Minister by these regulations may be delegated by him to such officer or officers of the Cook Islands Administration as he thinks fit.

5. A Deputy Radio Inspector or an Assistant Radio Inspector may exercise such of the powers of the Radio Inspector as that officer may, with the general approval of the Resident Commissioner, delegate to him.

6. As provided in the Post and Telegraph Act, 1908, and its amendments, no person may erect, construct, or establish any station or plant capable of transmitting or receiving wireless-telegraphic signals, otherwise than in accordance with a license issued to him by the Minister.

LICENSES GENERALLY.

7. The Minister may, at the written request of any person, association, or corporation desirous of establishing, installing, working, or using apparatus for radio-telegraphy for receiving, grant to such person, association, or corporation a license for the period, upon the terms, and subject to the provisions and conditions contained in these regulations and any amendments thereto, and to such conditions and restrictions, not inconsistent with the Post and Telegraph Act, 1908, and its amendments, as the Minister may impose from time to time.

8. Any change in the location of a radio station licensed for receiving in accordance with these regulations shall first be approved by the Radio Inspector.

9. Where a radio station is to be erected and operated for a limited time, the Minister may, at the written request of any person, association, or corporation, grant a temporary permit in writing authorizing for a period to be determined by the Minister the operation of such station in accordance with these regulations, and upon whatever terms in addition to these regulations the Minister deems desirable. The fees for such temporary permits shall be in proportion, *pro rata*, to the annual fees, with a minimum equal to the charge for three months.

10. A license shall not be granted for any radio station the operation of which, in the judgment of the Minister, is likely to interfere unduly with the operation of any other radio station, or to be inimical to the public interest.

11. The Minister may, at his discretion, refuse to comply with any application.

12. Except with the special authority of the Minister, a license for a receiving radio station shall be issued only to a British subject.

13. Licenses issued in accordance with these regulations shall not be transferable.

14. A licensee shall indemnify the Minister and the Post and Telegraph Department of New Zealand against all actions, claims, and demands which may be brought or made by any person or firm in respect of an injury arising from any act of the licensee or his agents permitted by the license.

15. Except with the consent in writing of the Minister or an authorized officer, a licensee shall not assign, sublet, or otherwise dispose of, or for the purpose of profit admit any other person or firm to participate in, any of the benefits of the license, powers, or authorities granted.

16. Any notice, request, or consent to be given or made by or for the Minister may be under the hand of the Resident Commissioner or other authorized officer of the Cook Islands Administration, and may be served on a licensee by sending it by registered letter addressed to the licensee at the usual or last known place of residence or business

of the licensee, and in that case the time of service shall be deemed to mean the time when, in the ordinary course of post, it would have been delivered to the licensee at that place.

17. The issue of a license under these regulations shall not relieve the licensee of any responsibility for any infringement by the licensee of any patent for an invention.

18. In cases in which an application for a license is made on behalf of an association or corporation, the application shall be signed by a principal member of the association or corporation or by some responsible official thereof, who shall clearly indicate the name and address of the corporation or association on whose behalf the application is made.

19. In cases in which the application is made on behalf of a partnership or on behalf of persons in joint ownership of a proposed radio station, the particulars required under Regulation 25 hereof shall be required in respect of each of the active partners or each of the joint owners, and shall be signed by each active partner or joint owner respectively.

DECLARATION OF SECRECY.

20. (1.) Every licensee shall execute a declaration of secrecy to the effect that he will not divulge to any unauthorized person any information whatsoever relating to public correspondence that may come to his knowledge; that he will, by every means in his power, preserve the secrecy of such information; and that he will adopt all reasonable precautions to prevent unauthorized persons becoming acquainted therewith.

(2.) In the case of an association, corporation, society, institute, or similar body, also in the case of a partnership or in respect of persons in joint ownership of a proposed radio station, all members having access to the apparatus and not already bound by a declaration executed in accordance with this regulation shall execute such declaration, and shall ensure that all the conditions of the license, particularly those relating to secrecy of public correspondence, are strictly observed.

(3.) No licensee or operator shall commit to writing any public correspondence that may come to his knowledge while exercising the powers conferred upon him by the license or while using any apparatus.

DURATION OF LICENSES.

21. Except where otherwise provided in these regulations, every license shall be in force from the date of the granting thereof until the 31st day of March following, and may be renewed from year to year.

FEEs FOR LICENSES.

22. (1.) Except where otherwise specified in these regulations, the annual license or renewal fee for a receiving-station license shall be £1 10s., payable in advance.

(2.) The fee for the first year, or portion thereof, shall accompany the application. For a period of less than one year the fee shall be 2s. 6d. per month, with a minimum of 7s. 6d.

(3.) In the case of any application for a license that reaches the Radio Inspector after the 31st December, the fee for the next full year must be added to the fee for the period then remaining of the current year ending on the 31st day of March following.

(4.) If, in the case of renewals, payment of the above-mentioned fee is not made on or before the due date the license shall automatically lapse.

(5.) The fee for a duplicate copy of a license shall be 5s.

LICENSES FOR RECEIVING STATIONS.

23. Licenses for receiving stations shall, if issued, be in the form in the Schedule hereto.

APPLICATIONS.

24. Intending applicants for a license to erect a receiving station should in the first instance apply to the Radio Inspector, who will furnish any needed advice and supply the forms required.

25. (1.) Every applicant for a license shall furnish, at the time of application,—

(i.) On the form prescribed for the purpose in the Schedule hereto—

- (a.) Location of station :
- (b.) His full name and address :
- (c.) Date and place of birth :
- (d.) Particulars of British nationality :

- (e.) Information as to whether the license is required on his own behalf or on behalf of an association or corporation :
- (f.) The type of circuit proposed :
- (g.) The type and dimensions of antenna proposed.
- (ii.) A declaration of secrecy as provided in Regulation 20 hereof.
- (iii.) Sufficient evidence of British nationality such as the case may require.

(2.) In addition thereto, every applicant shall furnish such information as may be required by the Minister, either at the time of application or subsequently thereto.

26. The application will be forwarded by the Radio Inspector to the Resident Commissioner, and, if approved, the applicant will be notified that he may proceed to erect the station. Upon completion of the erection, notification to that effect shall be forwarded to the Radio Inspector. Where deemed necessary, the Radio Inspector shall inspect the station to determine whether it fulfils the requirements of the regulations. If, in his opinion, the station complies with the regulations and is satisfactory in all respects, the Resident Commissioner may issue the license accordingly. The licensee may not, until then, operate the station, or permit the station to be operated.

27. In cases in which inspection is deemed to be necessary and it is impracticable for the Radio Inspector to have the completed station inspected within a reasonable time, and he has reason to believe that the regulations have been complied with, he may issue a temporary permit for the operation of the station in accordance with these regulations until such station is duly inspected and approved: Provided that the issue of such temporary permit shall not of itself impose upon the Minister an obligation to issue a license.

28. Provided a licensee has complied with all the provisions of these regulations and has conducted his station in all respects to the satisfaction of the Radio Inspector, the Resident Commissioner may, at his discretion, and upon payment of the fee prescribed by regulation 22 hereof, renew a license for a further term.

TEMPORARY PERMITS FOR DEMONSTRATIONS, RESEARCH, AND TRANSMISSION.

29. (1.) In cases in which temporary authority is sought for demonstrations of radio-telegraphy in connection with lectures, scientific proceedings, or the like, the Minister may, at his discretion, grant the necessary permission. Every care shall be taken by the permittee to safeguard the secrecy of public correspondence, and only in special cases shall permission be given to operate transmitting-apparatus connected to an antenna or earth.

(2.) Applications for temporary permits under this regulation shall be made to the Radio Inspector in writing.

30. In cases in which approved research work is being undertaken, and which would be facilitated by no other means than by an extension of the power conferred by a license issued in pursuance of these regulations, and upon application in writing being made in that behalf, the Minister may, at his discretion, grant in writing such temporary privileges as in his opinion may be necessary to cover the object in view.

31. If and so long as no regulations are in force in the Cook Islands providing generally for the issue of licenses for radio-telegraphy otherwise than for receiving, the Minister may, if he thinks fit so to do, grant written permission to any person, association, or corporation to establish, install, work, or use apparatus intended for any branch of radio-telegraphy other than or including receiving-apparatus, upon such terms and subject to such provisions and conditions (not inconsistent with the Post and Telegraph Act, 1908, and its amendments and these regulations) as the Minister may in his discretion think proper to impose.

TECHNICAL REQUIREMENTS.

32. The use of any particular range of wave-lengths may, at the discretion of the Radio Inspector, and by notification in writing, be prohibited at any time and for such period as the Radio Inspector thinks fit.

33. A license for a receiving station shall not be issued unless the type and dimensions of the antenna proposed to be used are approved by the Radio Inspector.

34. (1.) In the interests of radio-telegraphy generally, the types of receiving circuits authorized by the license shall not include those

which, in the judgment of the Radio Inspector, unduly energize the receiving antenna.

(2.) All receiving circuits shall be loosely coupled.

(3.) The Minister may, at his discretion, and upon whatever terms he deems desirable, permit certain approved types of circuits which energize the receiving antenna to be employed with loop antennae or similar devices, provided that an applicant for such permission expressly undertakes in writing not to employ such circuits otherwise than in the manner approved by the Minister.

35. All receiving circuits employing magnetic reaction shall be so designed as to provide loose coupling of the reaction coil; and the degree of coupling shall be readily adjustable.

36. All the technical provisions of the license of a radio-receiving station shall be faithfully observed, and no unauthorized variation shall be made therein; and the station shall at all times be maintained at the highest possible degree of efficiency and selectivity.

INTERFERENCE, AND SOS SIGNALS.

37. Licensed radio stations shall at all times be operated in such a manner as to avoid interference with other radio stations, and, in particular, with Government, coast, and ship stations.

38. If, in connection with his use of the authorized apparatus, any distress signal should come under the notice of a licensee or operator, and there is reason to believe that such signal has not been intercepted by a Government, a coast, or a ship station, the licensee or operator shall immediately take such steps as may be available (e.g., by telephone) for communicating the same to the nearest Government station, or, if this be impracticable, to a responsible officer of the Cook Islands Administration.

LOG RECORD.

39. Licensees shall keep a log record showing the hours during which the authorized apparatus is in operation and the time and stations heard, and embodying a record of the reception of any special signal referred to in Regulation 38 hereof. This log shall be produced for perusal by the Radio Inspector whenever required.

NATURE OF RADIO COMMUNICATIONS.

40. A radio station licensed in accordance with these regulations shall not be used in any way to compete with Government communication services, and shall not receive radio communications the reception of which is calculated, in the judgment of the Minister, to cause a loss of revenue to the Post and Telegraph Department or the Cook Islands Administration: Provided that the Minister may approve of the transmission of test or experimental messages between recognized radio organizations in accordance with Regulation 29.

41. Neither the licensee of a radio station nor any operator shall in any manner, whether verbally or otherwise, publish or cause to be published any radio communication of a seditious, profane, obscene, libellous, or offensive nature.

42. Neither the licensee of a radio station nor any operator shall in any manner, whether verbally or otherwise, publish or cause to be published any radio communication of a false or misleading character, and, in particular, shall not so publish or cause to be published with the representation that it has been received by radio-communication any matter that has in fact not been so received.

CONTROL OF RADIO STATION IN EMERGENCY.

43. If and whenever an emergency shall have arisen in which it is expedient in the public interest that His Majesty's Government shall have control over the transmission or reception of radio communications by the licensed apparatus, it shall be lawful for any officer of His Majesty's Navy or Army, or for any other person authorized in that behalf by the Admiralty or by the Minister, to take possession of, or to dismantle, or to cause the licensed apparatus or any part thereof to be taken possession of or to be dismantled, in the name and on behalf of His Majesty, and to be used where such use may be deemed necessary for His Majesty's service, and, subject thereto, for such ordinary services as the said officer or person may deem fit; and in that event any person authorized by the said officer or person may enter any radio station in which any such apparatus is installed and take possession of or dismantle the said apparatus and use the same as aforesaid.

INSPECTION.

44. All radio stations shall be open to inspection at any time by any Resident Commissioner, Resident Agent, or Radio Inspector, and every reasonable facility shall be given for ascertaining the condition of stations and whether the regulations are being complied with.

45. The license of a radio station may be demanded for inspection at any time by any Resident Commissioner, Resident Agent, or Radio Inspector.

CONTROL.

46. The Minister shall decide whether the requirements of these regulations have been complied with; and may from time to time cause inquiry to be made into any matter connected therewith or arising thereunder in such manner as he thinks fit, and his decision shall be final; and licensees shall comply strictly with such decision.

PENALTIES.

47. (1.) Every licensee or operator who acts in contravention of or commits an offence against any of these regulations shall be liable to a fine not exceeding £5.

(2.) This provision shall not affect the liability of any person under section 164 of the Post and Telegraph Act, 1908, and its amendments.

48. The Minister may, by notice in writing, revoke and determine any license on the ground of the licensee having failed to comply with any regulation for the time being in force, or with any condition of the license; and may, at his discretion, at any time revoke any permit, permission, or privilege (other than a license) granted under these regulations.

SUMMARY FOR THE MONTH OF MARCH, 1925.

In marked contrast to the same month last year, March has proved one of the driest ever recorded, particularly in the East Coast districts. Rainfall was considerably below the average in all parts of the Dominion, with the exception of the high country and South Westland and Otago in the South Island and New Plymouth in the North Island.

During the first fortnight the weather was changeable, with squally and showery conditions, especially in the West Coast and southern districts. An anticyclone then ruled until the 25th with fair weather generally. The latter part of the month was somewhat unsettled, but, on the whole, the weather during the month was dry and sunny, with warm days and cool nights.

On the last two days sharp frosts occurred in many places.
