licenses for the installation and working of apparatus for wireless telegraphy on board any ship registered in New Zealand, and whether on the high seas or in New Zealand waters, and for the form, period, terms, conditions, and restrictions thereof, and for the fees payable in respect thereof:

And whereas it is expedient to amend such regulations in the manner hereinafter set forth:

Now, therefore, His Excellency the Governor-General of the Dominion of New Zealand, in pursuance and exercise of the power and authority conferred upon him by the said Act and by all other powers and authorities in that behalf enabling him, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby revoke regulations numbered respectively two, eleven, fourteen, and seventeen, in the Schedule to the above-mentioned Order in Council, and also Regulation eight made by Order in Council dated the seventeenth day of January, one thousand nine hundred and twenty-three, and published at page 203 in the *New Zealand Gazette* on the twenty-fifth day of January, one thousand nine hundred and twenty-three, and doth declare that such revocation shall take effect on the date of publication of this Order in Council in the *New Zealand Gazette*, and in lieu thereof doth hereby make the regulations set forth in the Schedule hereto, and doth declare that the regulations hereby made shall form part of and be read together with the regulations first herein mentioned, and shall come into force on and after the date of publication of this Order in Council in the *New Zealand Gazette*.

SCHEDULE.

2. THE Minister of Telegraphs may, at the request of any person or company desirous of establishing, installing, working, and using on ships to which Regulation 2 of the Shipping and Seamen Act Wireless Regulations, 1925, applies, apparatus for wireless telegraphy, grant to such person or company (hereinafter called "the licensee") a license, in the form of the Schedule hereto, for the period, upon the terms, and subject to the conditions and restrictions hereinafter appearing.

(2.) When the ship is in any harbour of the Dominion of New Zealand, but not berthed—i.e., out of touch with the land-line telegraph system—the licensed apparatus may be used for the purpose of communicating, on minimum power, with the nearest coast station, or may be used in circumstances in which communication with the nearest coast station is impracticable, and where the interests of navigation would be facilitated thereby, to establish communication with a more distant coast station, or, if necessary, with another ship station.

(3.) In exceptional circumstances, such as the non-operation from any cause of the land-line telegraph system, when the ship is in any harbour of the Dominion of New Zealand and berthed therein, the licensed apparatus may be used to communicate with the nearest coast station on matters affecting the interests of navigation. When it is impracticable to communicate with the nearest coast station, communication may be established with a more distant coast station, or, if necessary, with another ship station.

14. The licensed apparatus shall not, without the consent of the Minister of Telegraphs, or except as may be required by competent authority under Regulation 9 of the Shipping and Seamen Act Wireless Regulations, 1925, be altered or modified in respect of any of the particulars referred to in the license issued in respect thereof, and such apparatus shall at all times be maintained in good working-order.

ditions, directions, or rules as the Minister of Telegraphs shall from time to time prescribe.

(b.) Any such certificate may at any time be withdrawn at the discretion of the Minister of Telegraphs in case of misconduct, or breach, on the part of the holder, of the Radio-telegraph Convention, 1912, or of these regulations, or of any conditions, directions, or rules prescribed by the Minister of Telegraphs for the guidance of operators or for the working of such ship-stations, or of any conditions, directions, or rules subject to which the certificate was issued.

The Treasury, Wellington, 14th October, 1925.

R. E. HAYES, Secretary to the Treasury.

Teachers' Certificate Examinations, 1925.

Education Department,
Wellington, 9th October, 1925.

THE following lists contain the principal results of the examinations held in August for the purposes of teachers' certificates. In the preparation of the lists consideration has been given to candidates' successes at previous examinations held by the Department and at University examinations of which notice has been received.

The first list (I) contains the names of successful candidates for Classes B, C, and D. Teachers' certificates will be issued to such of these as have produced satisfactory evidence of age and good character, have passed the special medical examination required, and have fulfilled the necessary conditions as to length of service and efficiency in teaching.

The second list (II) gives the names of those who have passed in two or more subjects of Parts II and III of Class C, but have yet to complete the examination.

The third list (III) contains the names of those who have obtained "partial passes" in the Class D Examination, and the fourth list (IV) those who have gained passes or partial passes in one or more "groups" of Class D. Those in List IV who obtained a pass in Group I are indicated by an asterisk.

In the fifth list (V) are given the names of the candidates whose work has been deemed worthy of "special mention."

The next examination will take place in August, 1926. Notice must be sent to the Director of Education so as to reach him not later than the 31st May, 1926. Candidates who have yet to complete the examination must observe this rule equally with other candidates, and must not expect to receive any further information of the date at which the notices become due.

Certificated teachers who have gained promotion at this examination may send their certificates to the Department for endorsement.

JNO. CAUGHLEY, Director of Education.

SUMMARY FOR THE MONTH OF AUGUST, 1925.

August proved a dull and wet month in most parts of the country, the East Coast districts especially having a total rainfall considerably in excess of the average. The Auckland and Taranaki Provinces in the North Island, and the country about Westport, Greymouth, and Foveaux Strait in the South, had a deficiency. Westland, owing to a prevalence of east to south-east winds, appears to have experienced the greatest number of fine days.

A storm of somewhat local character occurred in Canterbury on the 6th and 7th, with heavy rain, snow, and bleak weather. A cyclone passed in the North between the 12th and 15th, accounting for high east to south-east winds and some heavy downpours. Anticyclonic conditions followed, and the highest reading of the barometer, 30-675 inches, was registered at Wellington on the morning of the 17th.

An intense westerly disturbance passed in the South, with a barometer reading of 28-95 inches, at the Bluff, on the 23rd, and was preceded and followed by very unsettled weather. Snow, hail, and thunderstorms were reported at various times on high country of the South, and some sleet at lower levels.

The wet weather was a great hindrance to farming operations in Canterbury, and growth of grass was delayed by several frosts and dull weather in many other parts of the country.

D. C. BATES, Director.
