ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 10th day of February, 1926.

Present:

THE RIGHT HONOURABLE J. G. COATES, P.C., PRESIDING IN COUNCIL.

WHEREAS it is enacted by section two hundred and twenty-six of the Harbours Act, 1923 (hereinafter called "the said Act"), that a Harbour Board shall have power by by-laws made under the said Act to do all or any

of the things in the said section mentioned within the limits of the harbour, including, amongst other things, power to regulate the use of wharves and other landing-places, and generally regulate the traffic on the same, fix scales of dues, tolls, and charges to be paid for the use of wharves, and fix scales of dues for the storage of goods, and otherwise as mentioned in the said section:

And whereas it is enacted by section nine of the said Act that in harbours where there is no Harbour Board the Governor-General in Council shall have all the powers, functions, duties, and authorities by the said Act conferred upon Harbour Boards, and may exercise the same in accordance with the said Act under regulations to be made in the manner provided in section two hundred and twenty-six:

And whereas there is no Harbour Board in Whitianga Harbour, Mercury Bay, and it is desirable to make the following regulations with respect to the wharf erected in the said harbour, in accordance with the plan marked M.D. 2493, and deposited in the office of the Marine Department at Wellington, and which wharf is under the control of the Coromandel County Council (hereinafter called "the Council") in which term is to be construed, unless the context requires a different construction, its successors or assigns:

Now, therefore, His Excellency the Governor-General of the Dominion of New Zealand, in exercise of the hereinbefore recited power and authority, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby make the following regulations with respect to the said wharf.

REGULATIONS.

1. In these regulations, if not inconsistent with the context,—  
 "Council" means the Coromandel County Council;  
 "Boat" means any open, decked, or half-decked boat attached to or used in connection with any ship or other vessel lying in or belonging to or visiting Whitianga Harbour, Mercury Bay, and also any such boat used for the purposes of business or pleasure by residents of the district of Coromandel, in which the means of propulsion is either exclusively by oars or partly by oars and partly by sails;  
 "Master" means and includes the person actually in charge of any vessel, whether or not he is certificated;  
 "Vessel" means and includes every description of launch or ship whether used in navigation or in any way kept or used as a hulk or storeship, or for any other purpose whatsoever, whether business or pleasure, and not coming within the above definition of "boat";  
 "Wharf" has the same meaning as in the Harbours Act, 1908;  
 "Wharfinger" includes every person actually in charge of any wharf for the time being.
2. The master of any vessel loading or discharging at the wharf shall be deemed accountable for the proper slinging and landing of all goods, and responsible for all damage that may occur either from the breakage of slings or from the goods being improperly slung or improperly handled.
3. It shall be the duty of the master to cause proper tarpaulins to be stretched from the wharf to the vessel loading or discharging as aforesaid, and to be there maintained while cargo or ballast is being handled or shipped.
4. In case any vessel does or causes any damage to the wharf or any part thereof, or to any machinery or building thereon or appertaining thereto, then and in any such case the master of such vessel shall forthwith report the occurrence to the wharfinger by telegraph, or by at once reporting to the wharfinger in person, or should there be no wharfinger, then shall he report to the Council in like manner.
5. Any damage done or caused as aforesaid may be repaired by the Council, and the cost thereof shall be recoverable by the Council from the master and owner of any such vessel, or either of them, in any Court of competent jurisdiction.
6. All goods landed on the wharf, or brought thereon for shipment, shall be placed as the wharfinger or other authorized person directs, and so as to keep all mooring posts or rings free and all rails or tramways clear.
7. Before any vessel or boat is removed from the wharf the master or other person in charge of the said vessel or boat shall cause all dirt or rubbish to be thoroughly cleared from the portion of the said wharf occupied by such vessel or boat, and to be deposited at such places as may be appointed by the wharfinger or other person in charge.
8. No boat shall be made fast to any steps or landing-place or so near thereto as to obstruct the approach of other vessels, nor shall any boat lie longer alongside than is required for landing passengers.
9. (a.) No person shall take, drive, or work, or cause to be driven, taken, or worked, any cart, vehicle, or horse on the

wharf on which carts, vehicles, or horses are permitted by the wharfinger or person in charge to be taken at other than a walking pace.

(b.) If such cart or vehicle is drawn by one horse, the person in charge shall walk at the head of and lead the horse, and no person shall ride on the wharf, but shall dismount and lead his horse.

(c.) Every person driving or taking any vehicle on such wharf shall remain in attendance thereon, so as to have control of his horse or horses.

10. All watermen, stevedores, carters, and other persons employed on the wharf or any public landing-place shall be under the control of the wharfinger or other person in charge, and shall obey all orders given by such person in charge.

11. No person shall in any way obstruct or impede traffic on the wharf, nor make use of any provoking, abusive, obscene, or other improper language thereon.

12. (a.) No person shall, otherwise than as specifically permitted by these regulations, obstruct or impede ingress to or egress from the wharf by any vessel, boat, or cable, or in any other way.

(b.) If in breach of this clause any person obstruct or impede ingress or egress as aforesaid, and does not, upon being ordered so to do by the wharfinger or other person in charge, remove such obstruction, then, irrespective of the penalty to which such person is liable for such obstruction, the officer in charge may remove, cast off, or cut any such obstruction, and may recover the cost of so doing from such person.

13. The wharfinger shall have power, on authority of the Chairman of Council, to close the wharf, or any portion thereof, whenever in his opinion it is advisable to do so, and no person shall enter upon the wharf or portion of the wharf so closed without the consent of the wharfinger.

14. The master of every vessel lying at the wharf shall give way to any mail steamer, whether discharging cargo or passengers, and shall either vacate his berth or assist the master of the mail steamer to moor alongside his vessel, and allow the cargo and passengers to be shipped or unshipped over and across the deck of his vessel, as the case may require, under such conditions as the wharfinger may impose.

15. The master of every vessel, whether carrying passengers or not, when lying alongside the wharf shall fix, and at all times keep fixed, a safe and proper gangway from such vessel to the wharf. Such gangway shall have side rails and stanchions, with ropes rove taut through same, the top rail or rope being not less than 3 ft. high; and he shall also keep a gangway net properly secured beneath the gangway, and shall at all times throughout the night—that is to say, from sunset to sunrise—show and exhibit a proper light fixed at each gangway, and shall conform to and obey all orders the wharfinger may give regarding the position, size, and kind of such gangways and lights.

16. The master, owner, or agent of every vessel shall produce the certificate of registry of his vessel, and shall give to the wharfinger or other person in charge a copy of the bill of lading, freight list, or manifest of the cargo, or other proper accounts of the weights and measurements of all goods according as freight is payable, intended to be unshipped from the vessel on to the wharf, and also of all goods shipped from the wharf on to his vessel.

GENERAL DESCRIPTION.

The Orini Settlement, consisting of 928 acres, formerly the property of Mr. Richard Reynolds, is situated on the Rangitaiki and Feist Roads in the Whakatane County, about two miles and a half from Thornton, also about two miles and a half from new Rangitaiki Railway-station on the Main East Coast Railway; the Rangitaiki Butter-factory is situated about one mile from this settlement, access to all above being by good motor and dray roads. There is a good school at Thornton, also a post and telegraph station, which has a frequent mail service. This estate is all flat land having been originally all swamp, the soil pumiceous alluvial and peaty loam, consolidated where improved, and is generally of good quality. It is good pasture or cropping land when properly drained, being especially suitable for dairying. All the neighbouring farms show good pastures and crops, which is reliable evidence to indicate the capacity of this land when the drainage is more complete.

There has been a considerable amount of drains cut over this property both by the former owner and the Land Drainage Department. The drainage is in an advanced stage, and some of the sections require very little more to be completed. The dredge-cut drains are at present maintained by the Drainage Department. The Kahunui drain along north boundary of Sections 1 and 4, most of the drain along the Rangitaiki Road, and some subsidiary drains in Section 1 have been fenced and planted in blue-gums, which are now well grown. There is an annual drainage rate levied on this estate and collected by the Land Drainage Department, and successful applicants will be responsible for proportion of rates accruing after date of selection.

A considerable amount of fencing, mostly of a substantial nature, has been done on Sections 1 to 5 and most of the existing drains on these sections have been fenced, some on both sides. The Feist Road frontage to Section 10 is fenced. On Sections 6 and 9 there are no fences.

Water can be obtained all over this property by sinking, and is always present in the drains.

*Flax Leases in the Auckland Land District for Sale by Public Auction.*

District Lands and Survey Office,  
Auckland, 23rd February, 1926.

NOTICE is hereby given, in terms of the Land Act, 1924, and the flax regulations thereunder, that leases of the undermentioned areas for flax-cutting purposes will be offered by public auction at the District Lands and Survey Office, Auckland, on Tuesday, the 30th day of March, 1926, at 11 o'clock a.m.

SCHEDULE OF AREAS.

1. Flax area No. 1, containing approximately 310 acres, being situated between the Wharere Canal and the Pongakawa River, and bounded in the south by the Pongakawa West Drain and on the north by the old bed of the Kaikokopu Stream.
2. Flax area No. 2, containing approximately 675 acres, being situated between the Pongakawa River and the Central Drain, and bounded on the south by the Tauranga-Whakatane Road.
3. Flax area No. 3, containing approximately 555 acres, being situated between the Wharere Canal and the Central Drain, being bounded on the north by the Pongakawa West Drain and on the south by Crown land and the Tauranga-Whakatane Road.

GENERAL DESCRIPTION.

These areas are subject to amendment on completion of survey. In the case of areas Nos. 1 and 2, the boundary on the east is at present the river-bank reserve along the old bed of the Pongakawa River, but on completion of survey this boundary will be discarded and the river-bank reserve along the newly dredged channel substituted. The areas will be adjusted accordingly, and the rentals then based on the new areas. The areas are all peaty, ranging from shallow peat towards the northern end of area No. 1 to deep peat in areas Nos. 2 and 3. The flax is coming away practically over the whole of the areas, and in places is now ready to cut. In addition to flax the areas are covered with raupo, rushes, and manuka. The Main East Coast Railway adjoins the southern boundaries of areas numbered 2 and 3, and there are two stations, Pongakawa and Pukehina, in close proximity.

ABSTRACT OF TERMS OF LEASES.

1. The term of the lease in each case is twenty-one years, with right of renewal for a further period of twenty-one years at revaluation, and on terms to be approved by the Land Board. The minimum upset rentals in each case are: For the first three years, 10s. per acre per annum; for the next eighteen years, 16s. per acre per annum.

2. The cutting of flax must not extend beyond the newly dredged channel of the Pongakawa River, which will eventually be the boundary of the areas on that side.

3. The cutting generally is to be subject to the approval of the Commissioner of Crown Lands, and no flax is to be cut lower than 7 in. to 8 in. above the "crown," the "crown" being defined as the junction of the bulb. For a period of eighteen years from the commencement of the term of the lease the hook method of cutting may be employed except during the months of April, May, June, and July in each year, when the side-leaf method shall be exclusively employed. During the three final years of the first term of the lease all flax must be cut by the side-leaf method only. The method of cutting during the term of the renewal, if granted, shall be determined by the Land Board.

4. Lessee to maintain in good order and condition, and to deepen when necessary all drains on the area, and to construct and maintain further subsidiary drains so as to stimulate the growth of the flax, and also to clean up and prevent the spreading of noxious weeds and manuka on the area. The following drains will be maintained by the Department:—

East side Wharere Canal.

Central Drain and Eastern Drain.

5. Along the Tauranga-Whakatane Road all growth, with the exception of flax, has been felled for a width of 5 chains in order that such cleared area may act as a fire-break. The lessees of areas numbered 2 and 3 must keep this area cleared in a similar manner, and stock may be grazed thereon. On the other portions of the leased areas stock may only be grazed by permission of the Land Board. The fences at present on the fire-break must be maintained in good order.

6. No compensation to be allowed for loss by fire, of which all risk shall be taken by the lessee and against the occurrence and spread of which he will be required to take all reasonable precautions.

7. No compensation is to be allowed for improvements at the expiry or sooner determination of the lease, but the lessee may, provided all the conditions of the lease have been satisfactorily fulfilled, remove all buildings and plant erected by him on the ground.

8. All flax growing on the ground shall revert to the Crown at the expiry or sooner determination of the lease, without any compensation whatever, and no plants shall be removed or destroyed.

9. The Crown reserves the right to make drains and roads within the area at any time, and also reserves the right of access at all times.

10. The lessee shall not transfer nor sublet nor dispose of the cutting or milling rights except with the approval of the Land Board.

11. All carting on the roads shall be subject to the heavy traffic by-laws of the Tauranga County Council, or as may be gazetted by the Lands Department under the authority of the Swamp Drainage Act.

12. The lease will be subject to the rating clauses of the Swamp Drainage Act, but for maintenance only.

13. The lease may be forfeited by the Land Board for non-compliance with any of these conditions.

CONDITIONS OF SALE.

1. Intending bidders are expected to visit the locality and satisfy themselves in every particular in all matters relating to the areas.

2. The rent is payable half-yearly in advance, the first half year's, with £1 ls. lease fee—to be paid on the fall of the hammer.

3. In respect of the flax now growing on the areas, the successful bidder or bidders will be required to give four promissory notes, each equivalent to six months rent, these notes being payable at six, twelve, eighteen, and twenty-four months respectively. Such promissory notes will require to be completed within twenty-one days of the date of the sale. The promissory notes must be made payable on demand, and require approved endorsement. These notes will be returned at due dates on payment of the rent due, provided the other conditions of the lease have been satisfactorily fulfilled. These notes will be returned at earlier dates than above mentioned when the lessees have carried out approved improvements on the area to the value of the notes.

Plans of the areas may be obtained from the Commissioner of Crown Lands, Auckland.

K. M. GRAHAM,  
Commissioner of Crown Lands.

## PRESS OPINIONS.

The Hon. G. M. Thomson in writing this manual has evidently taken up a labour of love. He writes not so much for the scientific as for the general reader. It is a valuable and likely to be one of the most popular works issued by the Board of Science and Art. It is a notable addition to Mr. Thomson's other works.—*Evening Post*, Wellington, N.Z.

A bright little book. Mr. Thomson has provided a book sufficiently scientific to be authoritative, and yet informal and simple enough to be interesting to the young and uneducated. We shall look forward eagerly to Part II.—*Herald*, Timaru, N.Z.

It is a book of unusual interest. There is nothing like it in print, and the wonder is that it has not been done before. Mr. Thomson is to be thanked for producing a work so useful and so timely. Technical terms and scientific language have been avoided as far as possible, with the result that we have a narrative as interesting as any romance. It will prove a valuable and useful book.—*Evening Star*, Dunedin, N.Z.
