21. No producers' representative on the Board shall, during his term of office, enter into business as a buyer or exporter of kauri-gum or acquire any interest in such business. A breach of this rule by such a representative shall be deemed to be a ground for his removal from office under the power given by subsection (5) of section 3 of the said Act.

22. (1.) There shall be paid by way of levy on all kauri-gum exported from New Zealand on and after such date as may hereafter be fixed by Order in Council (whether such kauri-gum is subject to the control of the Board or not) such charges as may be fixed by the Board not exceeding 1½ per centum of the value of the gum so exported.

(2.) For the purposes of this regulation, the value of any kauri-gum exported shall be taken to be the value at which gum of like description and quality is sold for export free on board in the ordinary course of business at the time the said gum is placed on board the exporting vessel. Such value is hereinafter in these regulations referred to as "the current f.o.b. export value."

(3.) The exporter shall on the entry required under section 69 of the Customs Act, 1913, for any kauri-gum exported and in addition to any other particulars therein required, state (a) the current f.o.b. export value of such gum, and (b) the amount of levy payable under these regulations, and shall verify the particulars hereby prescribed by declaration in like manner as the other particulars on the said entry; and shall at the time of delivering such entry to the Collector of Customs pay to the Collector the amount of such levy.

(4.) If the Collector of Customs has reason to believe or suspect that the value of any kauri-gum exported stated on the entry as aforesaid is less than the current f.o.b. export value thereof, he may value the gum at such higher sum as he thinks proper and his decision shall be final, and the levy shall be payable accordingly, except as hereinafter provided.

(5.) (a.) From any valuation made by the Collector of Customs under this regulation, the exporter may, if he thinks fit, appeal to the Board.

(b.) Such right of appeal shall be exercised by the exporter by giving to the Collector within fourteen days after the assessment or within such further time as the Collector may allow notice in writing that he appeals to the Board, and by depositing with the Collector the sum of £5 to be dealt with as hereinafter provided.

(c.) On any such appeal the Board shall, after giving a reasonable opportunity to the appellant to be heard, determine the current f.o.b. export value of the gum for the purposes of the levy, and the Board's decision shall be final.

(d.) On any such appeal the burden of proving the current f.o.b. export value of the sum shall be upon the appellant.

(e.) SCHEDULE.

CONDITIONS.

1. Plans.

The licensee shall, before the works hereby authorized are commenced, forward for the approval of the Minister of Public Works (hereinafter referred to as “the Minister”)—

All water taken from the said stream by the licensee in pursuance of this license shall be returned thereto at the power-house.

4. General Description of Works.

8. Granting of other Water-rights.

Nothing herein shall prevent the Governor-General in Council from granting to any person or body corporate other than the licensee a license to take water from any portion of the said stream, except at the place where the licensee is by this license empowered to take it: Provided that no such license shall so operate as to reduce the natural fall between the headworks and tail-water, or the volume of the water which the licensee is by this license authorized to take from the said stream.

9. Surrender of License.

The licensee may at any time, with the consent of the Minister, surrender this license, and shall thereupon, if so required by the Minister, remove from the ground all removable equipment, machinery, buildings, poles, transmission-lines, and other plant herein authorized to be installed or provided. The charge for electrical energy for motor-power, heating, or cooking purposes shall not exceed 8d. per unit. In both the above cases the charges shall be subject to a discount of 25 per cent. if accounts are paid by consumers within fourteen days from the date of the licensee's rendering such accounts.

Notwithstanding anything hereinbefore contained, the licensee shall not be entitled to erect, maintain, or use any electric lines within the Rangitikei County, except subject to such conditions (not inconsistent with the provisions of this license and the regulations relating thereto or any variation of this license or the regulations, or new regulations which may take the place of these regulations) as may from time to time be agreed upon between the licensee and the Rangitikei County Council.

21. *Location of Overhead Lines.*

Notwithstanding anything hereinbefore contained, one side of every road or street shall be left free by the licensee for telegraph-lines. Lines shall not be erected on both sides of a road or street unless the permission of the Minister of Telegraphs or the Post and Telegraph Department is first obtained in accordance with clause 5 of the regulations. Except at crossing-places, the minimum separation between a telephone-line and poles carrying high or extra-high tension circuits shall be equal to the height of the taller pole.

22. *Conversion of Lines from Earth-working to Metallic.*

Notwithstanding anything herein contained, the licensee shall bear the cost of converting the Railway or Post and Telegraph Department's lines which are now erected from earth-working to metallic if such conversion is required by the Minister of Railways or the Minister of Telegraphs owing to electrical interference arising from the licensee's lines.

23. *Telegraph-lines.*

The licensee shall rectify to the satisfaction of the Minister of Railways or the Minister of Telegraphs any interference or disturbance caused by the erection or operation of the licensee's system that affects the satisfactory working of the telegraph-lines which are the property of the Railway Department or the Telegraph Department, and which were erected prior to the licensee's lines.

24. *Existing Water-rights.*

Notwithstanding anything in this license, all the rights acquired by the licensee in respect to the use of water for the purpose of generating electrical energy under the Order in Council dated the 29th day of April, 1913, shall continue in force as if such Order in Council had not been revoked.
