Customs Tariff Commission, 1926-27.

Customs Department, Wellington, 6th December, 1926.

IT is hereby notified for public information that the Tariff Commission proposes to visit various places in New Zealand for the purpose of taking evidence from persons desiring to make representations respecting the Customs Tariff.

Any person desiring to make such representations in person should advise the Chairman of the Tariff Commission at the above address as to the article or articles in respect of which it is wished that the Customs Tariff should be maintained or altered. It is essential that the place or places at which such evidence can be tendered should be stated as soon as possible, as the itinerary of the Commission must be arranged at an early date.

Where there is an association or other body representing any particular trade or commercial interest, and such association or body is able to tender evidence of a satisfactory and comprehensive character, it will be preferred that the evidence be given by that association or body.

It is desired where personal evidence is to be given before the Commission, that the person intending to appear should previously supply, if possible, written information along the lines set out in the First Schedule hereto.

Due notice will be given in the *New Zealand Gazette*, and in the principal daily newspapers published in the district, as to the time and place at which the Commission will sit in each of the various centres which it will visit.

As the Commission is to report on or before 30th June next, it is desired that those interested should indicate as soon as possible the matters upon which they desire to make representations.

Representations made in writing by parties who do not desire to appear before the Commission in person must reach the Chairman not later than 31st March, 1927; it is desirable, however, that they be sent in at the earliest possible date.

All evidence supplied to the Commission either in writing or otherwise will be regarded as confidential.

It is important that, as far as possible, all the evidence tendered to the Commission should relate to specific articles or classes of articles, and that where it includes matters of fact such as the landed cost, manufactured cost, selling prices, or cost of transport of goods, or rates of wages, whether in New Zealand or elsewhere, such evidence should be supported by the authorities or other documents on which the evidence is based.

It is intended from time to time to publish in the *Gazette* lists of articles with respect to which the Commission has been asked or proposes to take evidence. It will be understood that the Commission does not bind itself to take evidence concerning or to consider only the article or articles mentioned in such lists. A preliminary list of such articles is set out in the Second Schedule hereto.

It is not expected that, except under special circumstances, the Commission will be able to hear evidence at places other than Auckland, Christchurch, Dunedin, Invercargill, and Wellington.

SUMMARY FOR THE MONTH OF OCTOBER, 1926.

The weather of October was, for the most part, remarkably wet and, except in the Poverty and Hawke's Bay districts, and in Westland southward of Westport, both the total rainfall and number of wet days were everywhere above the average. Between the 10th and 12th an ex-tropical disturbance passed over the North Island, and stormy conditions were experienced. Very heavy rain fell at this time in the basin of the Waikato River, and caused the highest flood recorded for many years. Snow and hail also fell on the higher levels. A westerly depression between the 14th and 19th brought further unsettled weather, particularly to districts with a westerly aspect. From the 20th to the 24th anticyclonic pressure dominated, and this was the only period during the month when fair weather prevailed generally. An extensive westerly disturbance during the last week was complicated by a well-defined cyclonic system which invaded the larger area of low pressure. The centre of the latter storm passed through Cook Strait during the night of the 28th. There were some heavy rainfalls accompanying thunderstorms in the South at the close of the month. Frosts were not frequent, but a severe one on the morning of the 13th did considerable damage to tender spring growth at places in both Islands.

Classification of Assistant Teachers in Technical Schools and of Manual-training Teachers.

THE following lists of assistant teachers employed in technical schools, recognized technical classes, or recognized manual-training classes, are issued under the authority of the Minister of Education, in accordance with the regulations relating to technical schools, recognized technical classes, and recognized manual-training classes, made by Order in Council dated the 20th November, 1925.

Under the heading "Division" is shown the division and class in which the teacher is classified.

The class of salary corresponding with the class and division in which the teacher is placed is given in the Schedule to the aforementioned regulations.

Attention is drawn to the regulations relating to appeals of teachers against their classification and grading, under which any teacher who considers he has good grounds for objection to his classification may lodge an appeal to reach the Director of Education not later than forty clear days after the publication of this list in the *New Zealand Gazette*—i.e., such appeals must reach the Director not later than the 18th January, 1927, and must contain an explicit statement of the grounds on which the appeal is based.

NOTE.—In the last column of the classification list T.S. stands for "Technical School," E.B. for "Education Board," S. of A. for "School of Art," and J.H.S. for "Junior High School."

JNO. CAUGHLEY, Director of Education.

Time for removal of timber: Four and a half years.

Terms of Payment.

A marked cheque for one-eighth of the price tendered, together with half-year's ground rent and £1 ls. license fee, must accompany the tender, and the balance of the purchase-money be paid by eleven equal quarterly instalments, the first of which shall be paid six months after the date of sale.

In addition, the successful tenderer shall continue to pay such ground rent half-yearly, in advance, during the currency of the license.

Terms and Conditions.

1. All instalment-payments shall be secured by "on demand" promissory notes made and endorsed to the satisfaction of the Commissioner of State Forests, and interest at the rate of 1 per cent. per annum in excess of current bank overdraft rates will be charged on all notes overdue from the date of maturity to the date of payment.

2. The right to cut and remove the timber will be sold in accordance with the provisions of the Forests Act, 1921-22, the regulations in force thereunder, and these conditions.

3. The aforementioned qualities, quantities, and kinds as to the said timber shall be taken as sufficiently accurate for the purposes of this sale, and no contract for the purchase shall be voidable, nor shall the successful purchaser be entitled to any abatement in price, by reason of the said timber being of less quantity, quality, or kind as stated herein or in any advertisement having reference to the said timber.

4. A return, verified by affidavit, giving the number of logs cut of each species and their contents, must be made quarterly by the licensee on the last days of March, June, September, and December respectively in each year. A return, similarly verified, must be made on the same dates showing the output of sawn timber of each species. These returns may be ascertained and verified by inspection of the books of the mill, or by such other means as the Conservator may require, and for this purpose the accounts and books shall be open to the inspection of the Conservator, a Forest Ranger, or other duly authorized officer.

5. The attention of all tenderers is drawn to the fact that the local controlling body may require the successful tenderer to pay any claims or charges which may be made by that body for the maintenance of the road over which the timber may be transported, and before a sawmill license is issued a letter indicating that satisfactory arrangements have been made in this connection must be produced to the undersigned.

6. Intending tenderers are expected to visit the locality and to satisfy themselves in every particular on all matters relative to the sale.

7. Each tenderer must state the total price that he is prepared to pay for each species. The highest or any tender will not necessarily be accepted, and the timber described is submitted for sale subject to the final acceptance of the tender by the Commissioner of State Forests.
