In the matter of the Christchurch District Drainage Amendment Act, 1922, and in the matter of a special loan of £700,000, authorized to be raised for the purpose of constructing drainage and sewerage works and to extend the sewerage system for the benefit of a special area of the Christchurch Drainage Board District.

WHEREAS the drainage works proposed to be constructed out of the above-mentioned loan of £700,000 will confer varying degrees of benefit upon the lands in the special area defined and created by resolutions of the Christchurch Drainage Board, bearing date the 17th day of April, 1923, and the 15th day of February, 1927, which special area and the subdivisions thereof are more particularly described, defined, and set forth in the *New Zealand Gazette* Nos. 37 and 11, dated the 26th day of April, 1923, and the 3rd day of March, 1927, respectively: And whereas the Christchurch Drainage Board has, before entering upon the construction of the said works and before depositing the special roll for public inspection as required by paragraph (d) of section 3 of the Local Bodies' Loans Act, 1913, divided the said special area into two subdivisions, viz:—

(b) Land receiving, or likely to receive, direct benefit from the construction of the drainage works:

(c) Land receiving, or likely to receive, only an indirect benefit therefrom:

And whereas the rates levied by the Board to provide interest and sinking fund and other charges as security for the above-mentioned loan of £700,000 have been made and levied upon the said classes of land as aforesaid in the proportions as follows:—

An annually recurring special rate of one penny half-penny in the pound sterling to be levied on the capital value of all rateable property in that part of the said special area described in Schedule B in the said resolutions before mentioned (being the land which is to be sewered), and an annually recurring special rate of one farthing in the pound to be levied on the capital value of all rateable property in that part of the said special area described in Schedule C in the said resolution of the 17th day of April, 1923 (being the land which is already sewered): And whereas the scheme of drainage works undertaken by the Board in connection with the above loan is intended to be carried out in such a way that all that portion of the special area described in the said Schedule C of the special area will not receive benefit until a later date than the other portion of the said special area, the Christchurch Drainage Board hereby resolves to remit for the period from the first day of April, 1927, until the thirty-first day of March, 1928, the whole of the special rate of one farthing in the pound made and levied (in connection with the said scheme and loan of £700,000) on the capital value of all rateable property so far as regards that part of the said special area which is described in the Schedule C of the special area, and to remit for the same period—viz., from the first day of April, 1927, until the thirty-first day of March, 1928, one half-penny (½d.) in the pound of the special rate of one penny half-penny (1½d.) in the pound made and levied on the capital rateable value of all rateable property so far as regards that part of the said special area which is described in the said Schedule B of the special area: And in addition to the rates remitted above the Board hereby further remits for the same period—namely, from the first day of April, 1927, until the thirty-first day of March, 1928, thirty-one sixty-fourths (31/64ths) of a penny in the pound of the said special rate of one penny half-penny (1½d.) in the pound on the capital rateable value of all rateable property in the area described in the Schedule hereunder, being a portion of the said Schedule B of the special area.

PRESS OPINIONS.

The Hon. G. M. Thomson in writing this manual has evidently taken up a labour of love. He writes not so much for the scientific as for the general reader. It is a valuable and likely to be one of the most popular works issued by the Board of Science and Art. It is a notable addition to Mr. Thomson's other works.—*Evening Post*, Wellington, N.Z.

A bright little book. Mr. Thomson has provided a book sufficiently scientific to be authoritative, and yet informal and simple enough to be interesting to the young and uneducated. We shall look forward eagerly to Part II.—*Herald*, Timaru, N.Z.

It is a book of unusual interest. There is nothing like it in print, and the wonder is that it has not been done before. Mr. Thomson is to be thanked for producing a work so useful and so timely. Technical terms and scientific language have been avoided as far as possible, with the result that we have a narrative as interesting as any romance. It will prove a valuable and useful book.—*Evening Star*, Dunedin, N.Z.
