Now, therefore, His Excellency the Governor-General of the Dominion of New Zealand in pursuance and exercise of the power and authority conferred upon him by the said Act, and of all other powers and authorities in that behalf enabling him, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby make the regulations set forth in the Schedule hereto, and doth hereby revoke so much of the regulations in the Schedules to the above-recited Orders in Council as is inconsistent herewith; and doth further order that the said revocation shall take effect and the regulations hereby made shall come into force on the date of the publication of this Order in Council in the *New Zealand Gazette*, and that the regulations hereby made shall form part of and be read together with the above-recited regulations.

SCHEDULE.

TELEPHONE REGULATIONS.

PART 1.—TELEPHONE EXCHANGE SERVICE.

Applications and Conditions of Service.

3. All applications for telephone-exchange service must be made on the forms supplied for that purpose. Any application made on behalf of a partnership or a company must be signed by one of the partners or by an authorized officer of the company respectively.

8. Except in cases in which the preservation of human life or the protection of public property may be involved, or as otherwise provided in these regulations, telephone-exchange lines are to be used only by the subscriber, his family, guests, or employees, and exclusively on his affairs. Any breach of this regulation will render the subscriber liable to have his telephone disconnected without prejudice to the right of the Minister to recover the rental and [or] other charges due under these regulations.

Rates.

15. For the rates prescribed in Regulation 14 the Department shall supply one copy of the telephone directory for each telephone, and provide and maintain all necessary exchange equipment, subscribers' lines, and where necessary one telephone wall-set per station; desk telephones shall be 5s. per annum extra.

16. Four-party lines consisting wholly of business stations shall not be granted at Class I exchanges. Any business station on a four-party line connected with a Class I exchange shall be charged £2 10s. per annum in excess of the rate for a residential connection similarly situated.

Poles on Private Property.

23. All poles in excess of one on private roads or private property within or beyond a base-rate area must be supplied, erected, and renewed at the cost of the subscriber or subscribers concerned, except that no charge shall be made in this respect (a) when the pole line forms part of the route to be used in serving other subscribers, (b) when the pole line is used for other departmental purposes, (c) when there is an alternative route by public road; or in exceptional cases where the Secretary so directs.

Rural-line Service.

30. Rural-line service will not be established until contracts have been secured for at least five subscribers' stations to be placed on the same circuit. In the event of the number of subscribers' stations connected with a rural line, by reason of the withdrawal of one or more subscribers, falling below five, the remaining subscribers must, from the date on which the next half-yearly rental is due, pay the rates prescribed for party-line connections until such time as the requisite number of additional stations [are] connected with the line.

Special Conditions of Party-line Service.

40. A conversation over any party line must not exceed six minutes in duration if the line is required by any other person.

Private Telephone-lines connecting with Departmental System.

43. For the equipment of a private telephone-line which forms part of a telephone-exchange circuit, the Department will provide for each station a telephone, lightning-arrester, earthplate, and inside wiring free of expense to the subscriber, but these will remain the property of the Department, and will not be maintained except at the expense of the subscriber, nor will the Department maintain any part of the private telephone-line. The Department will, however, upon application, supply material

for renewing batteries, and will also repair or replace a defective instrument if it is sent in to the telephone exchange by the subscriber. Otherwise such subscriber has all the privileges of ordinary subscribers. No extra telephones or items of equipment, other than those for which rental is paid, may be connected with a private telephone-line.

44. Where an exchange line is metallic circuit, any private telephone-lines connecting therewith must also be metallic circuit, except in cases where, in the opinion of the Secretary, earthworking private telephone-lines may be used without detriment to the service, in which case the subscriber must pay the cost of transformers and [or] any other apparatus that may be necessary to enable the connection to be made.

Removals.

49. Subject to the approval of the Department, subscribers may have their telephones and apparatus removed to other premises, or the positions of their telephones and apparatus altered, upon giving notice as follows: (a) For the removal of telephones to other premises, fourteen days; (b) for altering the position of telephones or apparatus within the same premises, three days; and paying in advance the fees specified hereunder.

Removal to other premises within the base-rate area, 17s. 6d. for each main-station telephone and 10s. for each extension telephone; except that, in cases in which the period of contract has not expired, the subscriber must pay, in addition to the foregoing fee or fees, the estimated cost of the labour involved in erecting any new wire required to establish a connection between the exchange and the new premises.

Removal from one room to another in the same premises, 12s. 6d. per telephone. Removal from one position to another in the same room, or substitution of a desk telephone for a wall set or *vice versa*, 10s. per telephone.

Removal of extension bell or any other item of miscellaneous equipment which involves labour in fitting, 5s. per instrument.

The foregoing charges shall be applicable only to ordinary removals. The charges for the removal of interphone stations shall be as follows:—

“ Internal removal: the cost of the labour involved in the removal of key-boxes, associated apparatus, and cable.

“ External removal: the cost of the labour involved as for the internal removal of interphone stations and, in addition, the charge of 17s. 6d. applicable in the case of ordinary external removals.”

50. When a subscriber removes to premises in which a telephone is already installed and no change of location is required, a charge of 5s. shall be made to cover the cost of changing the wires and altering the records at the exchange.

Transfer of Connection.

55A. No subscriber shall have any right to or interest in any particular number, and the Secretary may alter or change any number at his discretion.

PRESS OPINIONS.

The Hon. G. M. Thomson in writing this manual has evidently taken up a labour of love. He writes not so much for the scientific as for the general reader. It is a valuable and likely to be one of the most popular works issued by the Board of Science and Art. It is a notable addition to Mr. Thomson's other works.—*Evening Post*, Wellington, N.Z.

A bright little book. Mr. Thomson has provided a book sufficiently scientific to be authoritative, and yet informal and simple enough to be interesting to the young and uneducated. We shall look forward eagerly to Part II.—*Herald*, Timaru, N.Z.

It is a book of unusual interest. There is nothing like it in print, and the wonder is that it has not been done before. Mr. Thomson is to be thanked for producing a work so useful and so timely. Technical terms and scientific language have been avoided as far as possible, with the result that we have a narrative as interesting as any romance. It will prove a valuable and useful book.—*Evening Star*, Dunedin, N.Z.
