Present:

The KING'S Most Excellent Majesty in Council.

WHEREAS by subsection (1) of section 84 of the Merchant Shipping Act, 1894 (57 & 58 Vic. c. 60), it is enacted that whenever it appears to His Majesty the King in Council that the tonnage regulations of the said Act have been adopted by any foreign country and are in force there, His Majesty in Council may order that the ships of that country shall, without being remeasured in His Majesty's Dominions, be deemed to be of the tonnage denoted in their certificates of registry or other national papers, in the same manner, to the same extent, and for the same purposes, as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship:

Marine Department,  
Wellington, N.Z., 12th October, 1927.

*SUMMER TIME.*

INFORMATION is hereby given that the time for general purposes in New Zealand shall, during the period of summer time, be one hour in advance of New Zealand standard time.

The use of summer time does not affect the use of New Zealand standard time for purposes of astronomy, meteorology, or navigation, or affect the construction of any document mentioning or referring to a point of time in connection with any of those purposes.

The Summer Time Act, 1927, prescribes the period of summer time shall be taken to be the period beginning at two o'clock, New Zealand standard time, in the morning of the first Sunday in November, 1927, and ending at two o'clock, New Zealand standard time, in the morning of the first Sunday in March, 1928.

The attention of mariners is drawn to the several elements contained in New Zealand Nautical Almanac which are given in terms of New Zealand standard time, and to the necessity for adding one hour to all such times if desiring to obtain them in terms of summer time.

Admiralty publications for navigational purposes will be similarly affected.
