This publication will, as formerly, embrace the astronomical ephemeris required for use by navigators, together with some useful nautical tables, with the necessary explanations; sunrise and sunset times for Auckland, Christchurch, Dunedin, and Wellington for each day; and time differences by the aid of which such times may be obtained for Invercargill, Nelson, New Plymouth, and Westport. Tide tables giving daily times of high and low water and their heights are provided for the Ports of Auckland, Bluff, Dunedin, Lyttelton, New Plymouth, Wellington, and Westport. Also time differences by the application of which the approximate times of high and low water at various places within the Dominion may be obtained. Tidal-stream predictions showing the approximate times when the streams are slack at Tory Channel and at French Pass are given for each tide throughout the year.

The principal ports of the Dominion are described from latest information, which has been revised by the several harbour authorities; and some plans of harbours and berthage accommodation are given.

Several important changes which have taken place since publication of Supplement No. 7 of the "New Zealand Pilot," ninth edition, 1919, are included for the use of mariners.

The book contains the magnetic variation throughout the Dominion for the year 1928; a catalogue of the several Admiralty Charts of this Dominion's coasts, &c., showing the last year of correction; Dominion time service for chronometer-rating purposes; Dominion standard time; general harbour and storm signals; general information of use to navigators and others; a list of Customs controlling ports; railway distances, and a map of New Zealand; and important Notices to Mariners issued by the Imperial Board of Trade.

These sections are all excellent building-sites. Those in the larger block are fronting Trafalgar, Grenville, and Brook Streets, and lie immediately to the north of the new Waiwetu School. This school was opened about the middle of October, and the roll is now in the vicinity of three hundred children. The two isolated sections front Waterloo Road and Kauri Street respectively.

The sections are flat, of a rich alluvial nature, and within a few minutes' walk of the railway-stations. The roading throughout the settlement is being pushed ahead steadily, and provision is being made for sewerage, storm-water drainage, high-pressure water-supply, gas, and electric lighting.

NOTE.—The attention of intending purchasers is drawn to easements for public purposes as shown on the plan. Intending purchasers are also advised that a building-line restriction will operate in case of sections fronting streets of a less width than sixty-six feet.
