NEW ZEALAND.

Special Signals which may be displayed by Seine-net Fishing Vessels on the Coasts of New Zealand.

THE following symbols and lights have been agreed upon by the Auckland Seine-net Fishermen's Association for use on seine-net fishing vessels, when actually fishing with seine-nets, for the purpose of protecting their gear from injury by other vessels:—

Between Sunrise and Sunset: To be exhibited erect, in the forepart of the vessel, and where it can best be seen, as high as is practicable, but so as to be at a not less height above the rail than the breadth of the vessel at its greatest width, one black conical shape being not less than 2 ft. in diameter at its base, and its length being not less than such diameter.

Between Sunset and Sunrise: To be exhibited forward, horizontally disposed athwartships not less than 4 ft. apart and at a height of not less than 6 ft. above the coloured sidelights, two red lights visible for a distance of not less than one mile. These lights are to be used in conjunction with the coloured sidelights when running the gear and without the coloured sidelights when hauling the gear. In neither case should the mast-head light be shown.

In addition to the foregoing signals the dinghy used in conjunction with a seine-net fishing vessel for marking its base of operations shall exhibit at a height of not less than 3 ft. above its gunwale so as to be visible all round the horizon—By day—a similar black conical shape not less than 1½ ft. in diameter; and—by night—one white light visible not less than one mile. In cases in which a buoy is used in lieu of a dinghy these signals shall be shown at a height of not less than 3 ft. above the buoy.

The above signals will indicate that a vessel is engaged in fishing with a seine-net, in order that other vessels approaching may give the seine-net fishing vessel a wide berth.

The warps and net may extend for a distance of three-quarters of a mile, and a seine-net fishing vessel when running her gear may attain that distance from the dinghy or buoy marking the base of her operations before turning back towards it.

All ships should give a seine-net fishing vessel a wide berth, and should not attempt to pass between a seine-net fishing vessel and the dinghy or buoy marking her base of operations.

G. C. GODFREY, Secretary.
