Nothing herein shall prevent the Governor-General in Council from granting to any person or body corporate other than the licensee a license to take water from any portion of the said streams, except at the place where the licensee is by this license empowered to take it: Provided that no such license shall so operate as to reduce the natural fall between the headworks and tail-water, or the volume of the water which the licensee is by this license authorized to take from the said streams.

9. VARIATION IN CONDITIONS OF LICENSE.

The terms and conditions of this license may from time to time, at the request or with the consent in writing of the licensee, be altered by the Governor-General by Order in Council.

13. POWER TO TAKE LAND.

The licensee is hereby empowered to take, under the Public Works Act, 1908, as for a public work such land as may, in the opinion of the Governor-General, be necessary or advisable to enable the licensee to construct and maintain the various works authorized by this license.

In respect of all land injuriously affected, and in respect of all damages done by the exercise of any of the powers conferred upon the licensee by this license, the licensee shall from time to time, as and when any such injury or damage accrues or happens, pay compensation in accordance with the provisions of the Public Works Act, 1908, in the same manner (subject to all necessary modifications) as if the licensee was a local authority and the claim was one for injury or damage arising out of the construction of a public work.

15. CROWN NOT LIABLE TO PAY COMPENSATION.

Nothing in this license shall be held to impose any liability upon His Majesty the King or upon the Government of New Zealand to pay compensation to any person, corporate body, or local authority by reason of the exercise by the licensee of the authority hereby granted; but the licensee shall be liable for any loss or damage which any person, corporate body, or local authority may sustain as the result of the exercise by the licensee of any of the powers granted by this license.

17. DEFAULT.

If the licensee fails or neglects to observe any of the conditions or obligations imposed by this license, then and in any such case the provisions of clauses 229 and 230 of the regulations shall apply to the breach of any such condition or obligation.

19. INSPECTION OF WORKS.

The Inspecting Engineer of the Public Works Department or any other person empowered in that behalf by the Minister shall at all times, both during and after the construction of the works, have free access to and liberty to inspect such works so as to ensure that the provisions of this license are given due effect to.

20. CONTRACT BETWEEN LICENSEE AND CROWN.

This license shall be deemed to constitute a contract as between the licensee and His Majesty the King, and may be enforced by and against either party accordingly.

21. REQUIREMENTS OF WESTLAND COUNTY COUNCIL.

Notwithstanding anything hereinbefore contained, the licensee shall not by virtue of these presents be entitled to lay, construct, put up, place, or use the electric lines hereby authorized, except subject to such conditions (not inconsistent

with the provisions of this license or of the regulations) as may from time to time be imposed by the Westland County Council.

22. RAILWAY AND TELEGRAPH DEPARTMENTS' LINES.

The licensee shall rectify to the satisfaction of the Minister of Railways or the Minister of Telegraphs, as the case may be, any interference or disturbance caused by the erection or operation of the licensee's system that affects the satisfactory working of telegraph lines which are the property of the Railway Department or the Telegraph Department, and which were erected prior to the licensee's lines.

Notice to Mariners No. 73 of 1928.

Marine Department,
Wellington, N.Z., 24th October, 1928.

THE following revision of Admiralty Notice to Mariners (No. 702 of 1928), which has been received from the Admiralty, London, is published for general information.
G. C. GODFREY, Secretary.

BRITISH OFFICIAL WIRELESS MESSAGES TO MERCHANT SHIPS.

Former Notice: No. 702 of 1928, hereby cancelled.

MARINERS are informed that arrangements have been made for broadcasting by W/T, messages considered to be of sufficient importance to communicate to all British merchant ships in any part of the world.

The scheme for broadcasting messages of interest to merchant ships under the arrangements promulgated herein will not be in operation continuously. It will, however, be introduced for trial purposes for one week on 1st January and 1st July each year.

During these test periods brief messages will be issued by the Admiralty to all British merchant ships and by the Naval Authorities responsible for the respective areas shown in the Schedule, to British merchant ships in those areas. These "test" messages will *not*, however, be broadcast by the 50 kc/s. (600 metres) stations shown in the Schedule.

Should it be desired to send a message of special importance to British merchant ships, at any time outside the periods fixed for trial purposes, the scheme will be brought into operation for this purpose.

If and when such occasion arises to bring the organization into force either generally or in any particular area, messages notifying the operation of the scheme will be issued by the Admiralty and/or by the Naval Authority responsible for the area or areas concerned. When such messages are necessary every available means of reaching merchant ships will be employed—*i.e.*, the messages will be broadcast not only by Rugby and the other stations at the times shown in the Schedule, but also where stations included in the scheme transmit navigational warnings, weather reports, &c., at routine periods, messages notifying the commencement of the scheme will be broadcast during those periods. Such messages will bear the address "All British Merchant Ships" or "British Merchant Ships in area," in full; the use of the call signs mentioned in the scheme will commence from the time notified as that on which the scheme will actually be brought into force.

The procedure outlined in this scheme is not intended to interfere with or replace existing arrangements for broadcasting to merchant ships messages concerning navigational dangers, weather reports, or gale warnings. Where routine arrangements exist for broadcasting such messages, those arrangements will continue in force.

The following are the arrangements which have been made for the operation of the scheme:—

1. The world has been divided into certain areas (*vide* chart appended) and collective call signs have been introduced for (i) all British merchant ships, and (ii) British merchant ships in a particular area. These call signs are as shown in the following table:—

Messages for	Area on Chart.	Call Sign.
All British merchant ships	GBMS
British merchant ships in Home Area 1	GBMS 1
.. Mediterranean Area 2	GBMS 2
.. East Indies Area 3	GBMS 3
.. China Area 4	GBMS 4
.. Australia Area 5	GBMS 5
.. Africa Area 6	GBMS 6
.. America and West Indies, East Coast, Northern Area 7	GBMS 7
.. America and West Indies, West Coast, Northern Area 8	GBMS 8
.. America and West Indies, East Coast, Southern Area 9	GBMS 9
.. America and West Indies, West Coast, Southern Area 10	GBMS 10
.. New Zealand Area 11	GBMS 11

2. Messages under this scheme will be broadcast from—

- (a) Rugby W/T Station on 16 kc/s. (18,750 metres) at 0000 and 1200 G.M.T., immediately preceding the British Official Wireless News.
- (b) Certain medium and high power W/T Stations abroad operating on waves between 150 kc/s. (2,000 metres) and 100 kc/s. (3,000 metres) at 0400 and 1600 G.M.T.
- (c) Certain W/T Stations operating commercial traffic on 500 kc/s. (600 metres) at any time.

3. A list of the stations included in the scheme showing the areas for which they will transmit and the wave lengths on which messages will be broadcast is shown in the Schedule. The times 0400 and 1600 G.M.T. have been fixed for transmissions from stations under paragraph 2 (b) above, since, in all areas of the world, one or other or

these times will fall within a period when ships with one operator are keeping watch. Times at which messages will be broadcast from 500 kc/s. (600-metres) stations are not included in the Schedule, since merchant ships keep normal watch on this wave length and messages may therefore be broadcast from these stations at any time when the ships with one operator are keeping watch and are not listening for any routine transmissions on another wave length.

4. The organization provides for messages containing information affecting British merchant ships to be broadcast—

- (a) By Admiralty to all British merchant ships in all areas ;
- (b) By Admiralty to British merchant ships in any particular area or areas ;
- (c) By Naval Authorities abroad to British merchant ships in the areas for which they are responsible.

Messages under (a) will be broadcast from Rugby with the call sign GBMS ; and will also be broadcast with the same call sign by the W/T Stations shown in column 3 of the Schedule. (During "test" periods from Rugby only.)

Messages under (b) will be broadcast from Rugby with the call sign or call signs for merchant ships in the particular area or areas concerned (*vide* paragraph 1 above) ; and unless the messages affect only Area 1, they will also be broadcast with the same call sign or call signs by the W/T Stations for the area or areas concerned shown in column 3 of the Schedule.

For messages under (c) the Naval Authority responsible for the area will arrange for the messages to be broadcast by the W/T Stations shown in column 3 of the Schedule, using the call sign for merchant ships in that area (*vide* paragraph 1 above). Such messages may also be broadcast from Rugby with the same call sign.

5. The W/T Stations broadcasting messages under this scheme will use their own call signs and will indicate the Naval Authority originating the message at the beginning of the text. For example, a message broadcast by Aden W/T Station from Commander-in-Chief, East Indies, for merchant ships in Area 3 : \overline{CT} GBMS 3 GBMS 3 GBMS 3 DE GZF GZF GZF \overline{BT} From Commander-in-Chief, East Indies, \overline{BT} During the period 1st March to 30th April, 1926, H.M. ships engaged in the prevention of smuggling arms will be operating without lights in the Persian Gulf \overline{BT} 1030 (*) \overline{BT} Repetition \overline{BT} From Commander-in-Chief, &c., &c., \overline{BT} 1030 (*) \overline{AR} \overline{VA} .

NOTE.—(*) This is G.M.T. at which the message was ordered to be sent. It may be followed by the date thus : " 1030 \overline{NR} 15 \overline{NR} 2."
