ORDER IN COUNCIL.

At the Government House, at Wellington, this 14th day of October, 1929.

Present :

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

IN pursuance and exercise of the powers conferred on him by the Education Act, 1914, and the amendments of that Act, and of all other powers enabling him in that behalf, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby amend, in the manner set forth in the Schedule hereto, the regulations at present in force relating to the organization, examination, and inspection of public schools, and the syllabus of instruction, and with the like advice and consent doth prescribe that this Order shall come into force on the date of publication thereof in the *New Zealand Gazette*.

SCHEDULE.

GENERAL.

THE regulations relating to the organization, examination, and inspection of public schools, and the syllabus of instruction, made by Order in Council dated 15th September, 1919, and amended by Orders in Council dated 13th June, 1921, 25th March, 1922, 10th September, 1923, 3rd December, 1923, 12th December, 1924, and 30th November, 1928, are hereby further amended as follows :—

1. By deleting clauses 1 to 16 and substituting the following therefor :—

1. (1) For purposes of instruction, the pupils of every public school shall be divided into four divisions—namely, the Preparatory Division, the Junior Division, the Middle Division, and the Senior Division, of which the first three shall be regarded as affording primary instruction and the last as affording secondary instruction.

(2) The Preparatory Division shall in general include those children who have been under instruction at school or elsewhere for not more than two years, and whose age does not exceed eight years. The Preparatory Division may be divided into two but not more than four classes, the lowest being called P. 1, the next P. 2, and so on.

(3) The Junior Division shall be divided into two classes, the lower of which shall be called S. 1 and the higher S. 2. In general, S. 1 shall include children who have been under instruction at school or elsewhere for not more than three years, and S. 2 those who have been under instruction for not more than four years.

(4) The Middle Division shall be divided into two classes, the lower of which shall be called S. 3 and the higher S. 4. In general, S. 3 shall include children who have been under instruction at school or elsewhere for not more than five years, and S. 4 those who have been under instruction for not more than six years.

(5) The Senior Division shall be divided into two classes, the lower of which shall be called Form I and the higher Form II, and shall, in general, consist of those pupils who have been under instruction at school or elsewhere for six years or more and have not gained a Certificate of Proficiency.

(6) Pupils who have satisfactorily completed a course of study in Form II and cannot, on account of distance, conveniently attend a secondary school, district high school, or technical school, shall be classified as belonging to Form III.

(7) The syllabus of work for the classes in each division shall, subject to such modifications as are approved by an Inspector of Schools, be as defined in the Syllabus of Instruction for Public Schools.

(8) Subject to the approval of the Inspector, nothing in these regulations shall be so interpreted as to prevent pupils ordinarily classified in different classes from being instructed together in a common class, and in a programme of work suitably modified to meet the circumstances.

(9) The classification of the pupils shall be determined at the beginning of the year but, if necessary, promotion of individual pupils from class to class may be made at any other time by the head teacher. In the Preparatory Division, especially where it contains more than two classes, the pupils should be promoted at least half-yearly. Teachers shall submit for the information of the Inspector an explanation of the presence in the class of any pupils who have been under instruction for more than the maximum number of years specified in subclauses (2) to (5) hereof. Undue retardation of pupils is always to be regarded as an element of weakness in classification.

(10) Pupils shall for all purposes of record, but not necessarily of teaching, be classified according to their capacity and attainment in English.

DUTIES OF HEAD TEACHERS.

2. The head teacher shall arrange for the organization of the school in respect of the following; and shall display in his office or in some prominent place in the school schedules showing the manner in which he is carrying out the duties specified in this clause.

(1) The effective distribution of the staff with a view to (a) utilizing the special aptitudes of the assistants, and (b) a fair apportionment of labour with due regard to the relative positions of the assistants on the school staff.

(2) The preparation of schemes of work not later than the fourth week of each school year.

The head teacher shall prepare the schemes in outline, and shall explain and discuss them with the whole of his staff. He shall then require each of his assistants to submit for his approval a scheme of work based on his outline with such attention to detail as he may deem necessary.

All the schemes of work shall be submitted to the Inspector, who should see—

- (a) That in the preparatory and junior classes the scheme of work drawn up by the teacher does not make greater demands on the pupils than the syllabus provides for :
- (b) That such essentials as accuracy of speech, intelligent reading, and accuracy in arithmetic are not neglected through over-emphasis on other subjects or phases of work :
- (c) That the schemes provide for proper sequence both with regard to matter and method in the work from class to class, especially in such subjects as history, geography, nature-study, and drawing, and that needless overlapping is avoided :
- (d) That the correlation of subject with subject is arranged for in a natural manner, and that the instruction given at manual training centres is not divorced from the other subjects of instruction. The head teacher of every school sending pupils to manual-training classes should be furnished by the controlling authority with a copy of the instructors' schemes of work.
- (e) That the general aim and method for each subject are set out, and that mere tabulations of pages of books and items of instruction are not accepted as a scheme of work :
- (f) That the head teacher shows a general outline of his plan for supervising and guiding the work of the school, and for dealing with the weaker subjects or classes in his school.

(3) The daily preparation of programmes of work, which shall show in the case of all teachers other than the head teacher a brief indication of the content of each lesson and any special method of treatment. It shall be the duty of the head teacher to see that every teacher gives adequate preparation to his work for the day. The head teacher shall indicate in a general way the distribution of his time as required for compliance with the requirements of subclause (1) hereof.

(4) The arrangement of the time-tables throughout the school.

The time allotted to any subject should be apportioned (a) according to the relative difficulty and extent of the work in the various classes, and (b) according to the strength or weakness of any particular class. The order in which the subjects are set down on the time-tables should also be the head teacher's care, and a general time-table for the whole school should be posted in the head teacher's room.

(5) The duties of the whole staff with relation to the supervision of the playground and games and to the care of school gardens.

(6) The instruction and professional training of the probationers, which should be arranged for and set in operation early in February.

A complete schedule should be prepared showing the proposed arrangements for at least six months at a time.

(7) The development of the civic life of the school. This should be the head teacher's special care. A definite policy should be laid down and the co-operation of the whole staff secured.

3. It shall be the duty of the head teacher to—

- (1) Devote a substantial part of his time to supervising the work of the several classes, to assisting and co-operating with the class-teachers, and to teaching the classes himself, with the object of demonstrating approved methods of instruction and of removing weaknesses. The teaching referred to in this subclause shall, apart from the conduct of periodical examinations, include all occasions when the head teacher himself takes control of a class for the time being.

- (2) Take such steps as will ensure attention to the following: The ventilation of the rooms, the proper placing of the pupils with respect to the light, the size of the desks in each class-room, the tidiness, cleanliness, and attractiveness of the rooms, the sanitary arrangements generally, with the care of the grounds, and the supply and care of all material and apparatus.
- (3) Pay special attention to the physical welfare of the pupils by such means as physical exercises, games, correct posture in the school-room, teaching of swimming, &c.
- (4) Prevent as far as possible the retardation of pupils in any of the classes. An effort should be made to discover the cause of the retardation and, in particular, whether it is due to any fault in the classification, in the methods of teaching, or in the scheme of work.
- (5) Examine the pupils of every class periodically in accordance with the requirements of clause 4 hereof.
- (6) Enter on a form provided for the purpose a record of each pupil's progress through the school, with such particulars as the Director shall prescribe.
- (7) Hold himself responsible for the safe keeping of all school records and the making-out of all returns. Certain duties in connection with the daily registers, weekly summary, term and other returns, admission register, and examination register shall be allotted to responsible assistants.
- (8) Hold staff conferences at least monthly, and keep a record of the nature of such conferences and of the conclusions arrived at.

HEAD TEACHER'S EXAMINATION OF PUPILS.

4. (1) The head teacher shall hold periodical examinations of the classes, the last of which, called the "annual examination," shall be held in November or December, and he shall keep for the information of the Inspector a record of the nature and results of these examinations.

(2) In regard to any periodical examination, except the annual examination, the record kept in the school examination register shall be held to be sufficient if it contains the particulars referred to in (a), (b), (c), and (e) of subclause (4) hereof, and also, in lieu of (d), merely the changes from class to class made as a result of the examination to which it relates.

(3) (a) The written questions used at the periodical examinations are to be set by the head teacher, who shall also make the standard of marking his special care. The assistant teachers may be called upon to mark the errors in the pupils' work, but the head teacher should, as far as possible, allot the marks himself.

(b) The written work done at the periodical examinations, together with the questions set, shall be kept in the school for twelve months or for such shorter period as the Inspector may direct.

(4) Immediately after the annual examination the head teacher shall forward to the Inspector, on forms provided by the Education Department, a report to be called "The Teacher's Annual Examination Report," setting out the results of that examination as contained in the school examination register. The report shall contain—

(a) The names and ages, as on the 31st of December, of all the pupils on the school-roll, excluding those who have already been examined for Certificates of Proficiency, the class in which a pupil has been placed for English during the preceding three months determining the list on which his name shall appear:

(b) The names of all retarded pupils—i.e., those whose ages exceed the average ages determined by the Director of Education for the various classes throughout New Zealand—such names to be underlined in red, and an explanation to be furnished in each case:

(c) The number of marks gained by each pupil of the Junior, Middle, and Senior Divisions, according to the following scale:

| | | | | |
|--|----|----|----|-----|
| <i>English—</i> | | | | |
| Language (Composition, 100; Formal Language, 50) | .. | .. | .. | 150 |
| Reading (including Recitation and Appreciation) | .. | .. | .. | 100 |
| Spelling | .. | .. | .. | 25 |
| Writing | .. | .. | .. | 25 |
| <i>Arithmetic</i> | .. | .. | .. | 100 |
| <i>Other subjects—</i> | | | | |
| History, Geography, Science, Drawing, Handwork, | .. | .. | .. | 50 |
| each | .. | .. | .. | .. |

- (d) The class in which it is proposed to place each pupil in consequence of the results of the annual examination, taken in conjunction with those of the other periodical examinations and with the general character of his work during the year :
- (e) A general estimate of the quality of the work done by each class :
- (f) A summary showing the number of pupils on the roll of each class, the number present at the time of the examination in English, the aggregate ages as on the 31st of December, and the average age of the pupils in each class.
- (g) A summary showing for each class the number of pupils in the various years of their school life.
- (5) For pupils of Form II, the form that has been previously used in the case of candidates for Certificates of Proficiency will suffice.
- (6) The same standards of appraisalment of the pupils' work shall as far as possible be adopted throughout New Zealand, and to this end the teacher shall follow the directions and standards laid down by the Director of Education or, with his authority, by the Senior Inspector.
- (7) The Inspector may return the copy of the class-lists of the annual examination to the head teacher, and require him to note in the column for remarks the reason for the more or less rapid promotion of any pupil, or to give an explanation in the case of any pupil whose age is much above the average age of the pupils in that class for New Zealand, and to forward such of the examination-papers as the Inspector may desire. The Inspector may modify the classification of the pupils in any way that appears to him desirable.
- (8) If it appears to the Inspector that the report of the annual examination is complete and in order, he shall at his next visit to the school sign the school record thereof in the examination register, and make any comment he may deem necessary. The record so signed shall be kept in the school in the manner herein prescribed.

DUTIES OF ASSISTANT TEACHERS.

5. (a) It shall be the duty of every assistant teacher to carry out the instructions of the head teacher in regard to all matters that come within the scope of these regulations. Should he at any time consider that any instructions or directions he has received from the head teacher are unreasonable, he may appeal therefrom to the Senior Inspector, but shall in the meantime carry out such instructions. The Senior Inspector may at his discretion report the matter to the Education Board.
- (b) All assistant teachers will be expected to take part in such school activities as may be organized by the head teacher, and in particular shall take a reasonable share of responsibility in respect to school games and playground supervision.

SCHOOL RECORDS.

6. (1) The class registers and the records of examinations, together with copies of the Inspector's reports, shall be carefully preserved by the head teacher until their destruction is authorized by the Minister of Education, and in the case of the closing of the school shall be delivered up to the Education Board. The teacher's annual examination report, signed by the Inspector, shall be kept in the Education Board's office. The schemes of work and the programmes of work shall be the property of the Education Board, and shall not be removed from the school except with the Board's consent.
- (2) All school records, including the Inspector's reports, shall be open at any reasonable time, except during the ordinary school hours, to the inspection of the School Committee, but they shall in all other respects be treated as strictly confidential, and shall not be removed from the school except by the authority of the Education Board.

INSPECTION.

7. (1) Every public school shall, as a general rule, be visited annually by an Inspector of Schools. No notice of any visit shall in general be given unless the Inspector deems it advisable to hold a more or less detailed examination of the pupils, in which case ten days' notice shall be given. After one of his visits in each year the Inspector shall present to the Education Board an "inspection report," but a special report may be presented after any visit.
- (2) Where the Senior Inspector decides that a school of Grade I or higher grade need not be visited during the year, either for the purpose of grading the teachers or for the general purposes of inspection, he shall report the matter to the Education Board and to the Director of Education, and shall file the explanation along with the inspection reports.

(3) The inspection report shall consist of a statement in general terms regarding the efficiency of the school as a whole, and shall relate to the organization and management of the school; the order, discipline, and tone; the regularity of the attendance; the general efficiency of the teaching; the instruction and training of the probationers and the training of probationary assistants; the accommodation; the state of the buildings, grounds, and fences; the provision made for ventilation, warming, and cleaning; special circumstances affecting the efficiency of the school; and any other matters which, in the opinion of the Inspector, should be brought under the notice of the Education Board and the School Committee.

(4) After each visit the Inspector shall furnish the teacher in charge with a confidential criticism of the details of the work of the school, and with notes for his guidance. Such detailed notes shall relate to any or all of the following matters:—

(a) The organization of the school as arranged by the head teacher with respect to—

(i) The manner in which the staff has been distributed in accordance with the accommodation, the abilities of the teachers, and the salaries they are receiving:

(ii) The size of the different classes in relation to the accommodation available, and to the number of pupils under instruction by each member of the staff:

(iii) The general scheme of instruction:

(iv) The arrangement of the time-tables:

(v) The instruction and training of the probationers and the training of probationary assistants:

(vi) The arrangements for playground supervision, for keeping grounds tidy and attractive, and for physical instruction, organized games, and the like.

(b) The head teacher's management of the school with respect to his direction of the work of his staff, and the extent and manner in which he makes his influence felt throughout the school, particularly in the development of a good tone, of corporate life, and of the patriotic sentiment; his relations with his staff and with the parents of his pupils; and the discretion he displays in the determination of the promotion of pupils from class to class.

(c) The efficiency of each assistant teacher with respect to his development of the scheme of work outlined by the head teacher, his method and power of imparting instruction, his influence over his pupils as shown by his ability to secure their co-operation in the work of instruction, in class government, in keeping their class-room tidy and attractive, and in organizing playground activities.

(d) Any other matter the Inspector may see fit to comment on.

It shall be the duty of the head teacher to show his assistants and allow them to copy those portions of the confidential notes that relate to their work, and such notes shall be the personal property of the teacher; but, so long as the teacher remains in the same school, the notes shall always be available for the Inspector. A copy of the confidential criticism and notes shall be filed by the Inspectors along with the copy of the inspection report that is retained for the use of the Education Department.

(5) At each of his visits the Inspector should make such notes on the quality of the teaching, discipline, environment, tone, and organization as will enable him to grade the teacher with confidence. The work of the Inspector is not, however, to be subordinated to the grading of the teachers; his chief duty is to endeavour to raise the efficiency of the schools in his charge. If the Inspector is satisfied that the teacher's work is in any respect ineffective he shall recommend and, where practicable, demonstrate improved methods which it shall be the duty of the teacher to put into operation.

(6) The Inspector's investigation should be made on the broadest lines possible, and he should guard against estimating the efficiency of a school or a teacher solely in accordance with measurable results, irrespective both of the manner in which these results have been produced and the effect the production of such results may have had on the mental and spiritual development of the pupil as evidenced by his intelligence, his spontaneity, his interest in his work, and his general alacrity. He should pay particular attention to the manner in which the teacher is training and developing the character of his pupils. Every encouragement should be given to teachers to investigate and experiment with new methods of education, provided the pupils' general progress is not impeded thereby. It shall be the Inspector's duty to see that the pupils are being trained to be careful and accurate in their work, and, where either care or accuracy is wanting,

to show the teacher how it may be secured. Inspectors will be expected to reduce the formal examination of the pupils to a minimum. As a rule an investigation of this kind should be made only when the efficiency of a teacher is in doubt. At both visits of inspection the Inspector should see the teacher at work and should, by example as well as by precept, endeavour to remedy any faults that may appear. He should, as a rule, allow the lessons to be taken in the order and manner prepared by the teacher; but he may, where necessary, arrange differently, taking lessons himself or directing the teacher to substitute lessons in other subjects.

(7) After consultation with the head teacher the Inspector may, where he thinks fit, modify the organization of a school, the schemes of work, and the classification of the pupils, and such modification shall remain in operation for whatever period the Inspector deems to be necessary.

(8) Any neglect of rooms or premises, or any want of tidiness in the school rooms and grounds, should be brought under the notice of those concerned, while special commendation should be given to teachers who so affect the environment of the children as to cultivate their taste for order and beauty and to create pride in their school.

(9) One copy of the inspection report shall be filed by the Senior Inspector for the use of the Education Department, one shall be submitted to the Education Board, and one sent by the Board to the head teacher, by whom it shall be placed among the school records.

(10) No portion of an inspection report shall be published.

8. The Senior Inspector, in collaboration with his colleagues, shall submit to the Director of Education at the close of each year a report on the public schools of the district, dealing, for the schools generally, with such of the topics named in clause 7 hereof as it may seem expedient to include. The report should also indicate the condition particularly of the more remote schools, the methods of inspection, the steps taken by the inspection staff to modernize the methods of teaching and to encourage the teachers to study educational literature, the nature and results of any investigations teachers or Inspectors have made into school problems, the manner and extent of the instruction in the principles of temperance, the attention given to physical education, and the success which has attended the teachers' efforts to foster the civic spirit, to inculcate patriotism and loyalty to duty, and generally to train and develop the character of their pupils.

CERTIFICATES OF SCHOOL ATTAINMENT.

9. (1) Any person who is seeking employment, or purposes to leave New Zealand, or desires to enter a post-primary school may apply to a Senior Inspector of Schools for a Certificate of Attainment, showing that he has to the extent defined in subclause (7) hereof fulfilled the requirements of some standard of education prescribed by the Syllabus of Instruction and named on such certificate.

(2) There shall be two certificates of attainment in the subjects of Form II, a Certificate of Proficiency and a Certificate of Competency.

(3) The Inspector may hold special examinations of candidates, whether of school age or not, for Certificates of Attainment, at any place and time that may seem fit to him and may require candidates for such special examinations to give fourteen days' notice of their intention to be examined.

(4) By or on behalf of each candidate at such special examinations there shall be paid to the Inspector a fee of 5s., which shall be paid by the Inspector into the Public Account. No fee shall be payable in the case of any one examined at a school at the time of the Inspector's visit to such school, nor in the case of secondary or technical pupils who are examined with other candidates at a time convenient to the Inspector.

(5) Candidates presenting themselves for examination and failing to obtain certificates shall not be re-examined until the lapse of six months from the date of the examination, except in special circumstances.

(6) For all Certificates of School Attainment the following shall be the maximum marks assigned to the various subjects:—

(ii) Satisfies the Inspector that he has reached a satisfactory standard of attainment in the other subjects prescribed by the Syllabus of Instruction :

Provided that in cases where special excellence is shown in English or in optional subjects 40 marks may be accepted in arithmetic.

(9) With regard to pupils and others who are candidates for Certificates of Attainment, the Inspector may determine the qualifications of the candidates by any of the following methods. He may—

(a) Accept, in whole or in part, the head teacher's report or the results of the head teacher's examination, or the records of the school, as sufficient evidence that candidates have reached the required standard of attainments ; or

(b) Examine such candidates at the time of the visit of which notice has been in accordance with clause 7 or at the time of any other visit : or

(c) Arrange to hold a central examination for all such candidates from places within a convenient radius, due notice of such examination being given (this examination is not to be regarded as a special examination within the meaning of subclause (3) hereof) ; or

(d) Accept, in whole or in part, the results of any other suitable examination held by some recognized authority, as evidence of the candidate's fitness to receive a Certificate of Attainment.

(10) As far as possible candidates who are not awarded certificates on the recommendation of the head teacher shall be examined by an Inspector in their own schools, but where this is impracticable, they may be gathered for examination at convenient centres. For candidates who cannot conveniently be examined in this way, a synchronous examination may be held for which papers set by the Education Department shall be worked by the children under such supervision as the Inspectors may approve.

(11) The annual examination for Certificates of Attainment in the subjects of Form II shall not be held earlier than the first day of November.

(12) Except in special cases Certificates of Proficiency and Certificates of Competency shall not be issued to successful candidates earlier than the week before the school closes for the midsummer vacation, and the issue of such certificate shall be subject to satisfactory attendance on the part of the candidate.

(13) In all examinations conducted by the Inspector, he shall personally assess the work done by the candidates.

(14) All Certificates of Attainment shall be issued under the authority of the Director of Education.

PRIMARY SCHOOL PROGRESS-CARD.

10. (1) In every primary school the head teacher shall keep on a form provided for the purpose a record to be known as the "Primary School Progress-card," showing with respect to each pupil—

(c) His attendance, industry, and initiative during the year :

(5) The primary school progress-card shall not be given to a pupil who is transferring to another primary school, but a copy thereof containing such information as relates to his school progress, his attendance, and his aptitudes shall be handed to him when he finally leaves the primary school.

F. D. THOMSON,
Clerk of the Executive Council.

Regulations under the Education Act, 1914, relating to Free Places, amended.

CHARLES FERGUSSON, Governor-General.

ORDER IN COUNCIL.

At the Government House, at Wellington, this 14th day of October, 1929.

Present:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

IN pursuance and exercise of the powers conferred on him by the Education Act, 1914, and the amendments of that Act, and of all other powers enabling him in that behalf, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby amend, in the manner set forth in the Schedule hereto, the regulations at present

in force relating to free places, and with the like advice and consent doth prescribe that this Order shall come into force on the date of publication hereof in the *New Zealand Gazette*.

SCHEDULE.

THE regulations relating to free places made by Order in Council dated 19th December, 1922, and amended by Orders in Council dated 9th July, 1923; 10th September, 1923; 1st September, 1924; 1st November, 1926; 22nd August, 1927; and 13th December, 1927, are hereby further amended as follows:—

3. The course of post-primary instruction that shall be given to a pupil admitted to a junior free place in a post-primary school shall, subject to the approval of the Director of Education, be determined by the Principal of such school after consultation with the parents of the pupil and after consideration of the pupil's aptitudes and capacities as revealed by the entries on the pupil's primary school progress-card. The programme of each free pupil shall consist not of a number of disconnected subjects but of a group of subjects, duly arranged in accordance with the pupil's capacities, surroundings, and probable future calling, as far as such a programme can be provided for with regard to the general circumstances of the school.

5A. (1) A junior free place shall be tenable at a public post-primary school for two years from the 1st January preceding the actual date on which the holder is admitted as a free pupil, or, except in the case of a free place held at evening technical classes, until the 31st December in the year in which the holder reaches seventeen years of age, whichever may be the shorter period. In the case of a holder who was under thirteen years of age on the 31st December of the year in which he obtained his certificate of proficiency or equivalent qualification the tenure of the junior free place may, on the recommendation of the Principal of the school, be extended to a third year.

(2) (a) In general a junior free place shall not be tenable or continue to be tenable unless the holder is prepared to attend for full time instruction.

(b) Pupils who are qualified to hold junior free places and are engaged in regular employment may attend for part-time instruction in technical

high schools or technical schools, provided that such instruction includes not less than twenty hours a year in each subject of the course taken, and not less than sixty hours a year in all subjects.

2. By deleting from Part (B) of clause 6 the words "the technical high school shall give to each holder of a junior free place instruction in," and substituting therefor the words "every pupil admitted to a technical high school or a technical school under paragraphs (a), (b), (c), or (d) of clause 1 hereof shall receive regular and appropriate instruction in."

SUMMER TIME.

INFORMATION is hereby given that the time for general purposes in New Zealand shall during the period of summer time be thirty minutes in advance of New Zealand standard time.

The use of summer time does not affect the use of New Zealand standard time for purposes of astronomy, meteorology, or navigation, or affect the construction of any document mentioning or referring to a point of time in connection with any of those purposes.

The Summer Time Act, 1929, prescribes the period of summer time shall be taken to be the period beginning at two o'clock, New Zealand standard time, in the morning of the second Sunday in October in any year, and ending at two o'clock, New Zealand standard time, in the morning of the third Sunday in March in the next succeeding year.

The attention of mariners is drawn to the several elements contained in the New Zealand Nautical Almanac and Tide-tables which are given in terms of New Zealand standard time, and to the necessity for adding thirty minutes to all such times if desiring to obtain them in terms of summer time.

Admiralty and other publications for navigational purposes will be similarly affected.
