- Wireless sets and parts.

16. Carriages and Motor-vehicles.

By omitting the following :--

1. Carriages will be charged as follows :--

Four-wheeled carriages, either set up or in pieces, each	15 0	0 6

2. When two or more carriages, either set up or in pieces, consigned from one consignor to one consignee, are loaded together in one four-wheeled truck they will be charged full rates for the first carriage and half-rates for each additional carriage. Where carriages loaded in a four-wheeled truck comprise four-wheeled and two-wheeled vehicles, a four-wheeled carriage must be considered to be the first carriage, and full rates charged thereon, the remaining carriages being charged half-rates for four-wheeled or two-wheeled carriages respectively.

3. A bogie truck will for the purposes of the preceding paragraph be treated as two four-wheeled trucks.

4. Motor-chassis or motor-wagons not exceeding 25 cwt. and motor-cars which can be loaded in a four-wheeled wagon, will be charged at the same rate as a four-wheeled carriage. Except where otherwise specified, if a bogie wagon is required, double the four-wheeled carriage rate will be charged.

Where a motor-vehicle is too long to permit of its being loaded in a four-wheeled wagon, thus necessitating the use of a bogie wagon for its conveyance, and another motor-vehicle from the same forwarding station to the same destination station is available and can be loaded in the same bogie wagon, the railage charges on each motor-vehicle may be computed (irrespective of whether such vehicle is from the same consignor to the same consignee) as would be the case if each vehicle was loaded in a four-wheeled wagon.

6. The Department may require loading, unloading, and covering of carriages, motor-chassis, motor-cars, motor-wagons, or motor-buses to be performed by owner.

7. Where covers are supplied for carriages or motor-vehicles, a charge as per Regulation 31, Part III, will be made. If consignors or owners supply their own covers the covers will be conveyed free of charge on the outward journey and when being returned from the original destination station to the original forwarding station.

8. Motor-vehicles charged with petrol or other motor-spirit will be accepted for conveyance by rail only if the petrol-connections are tight and the petrol is cut off between the vacuum-tank and the carburettor. Motor-vehicles which are not fitted with "cut-off" cocks between the tank and the carburettor will not be accepted for conveyance unless all motor-spirit has been removed from the tank.

8A. Motor-vehicle equipment recognized as the ordinary equipment of the vehicle, and comprising such articles as spare parts, wheels, tools, cushions, attached to or contained in a motor-vehicle received for transit by rail, will be carried at the sole risk of the owner, and no liability for loss or damage thereto will be accepted by the Department, unless particulars of such equipment are entered on the consignment-note.

3. Where an "R" or a "U" wagon is required, owing to the length of the carriage or motor-vehicle, rate and half will be charged.

4. Where an "Rb" or a "Ub" wagon is required owing to the length of the carriage or motor-vehicle double rate will be charged.

5. Where two carriages or motor-vehicles, or a carriage and a motor-vehicle consigned from one originating station are each too long to be loaded on a four-wheeled wagon and are loaded together on a bogie wagon they will be charged as follows:—

7. Where covers are supplied for carriages or motor-vehicles, a charge as per Regulation 31, Part III, will be made. If consignors or owners supply their own covers the covers will be conveyed free of charge on the outward journey, also when being returned from the original destination station to the original forwarding station.

8. Motor-vehicles charged with petrol or other motor-spirit will be accepted for conveyance by rail only if the petrol-connections are tight and the petrol is cut off between the vacuum-tank and the carburettor. Motor-vehicles which are not fitted with "cut-off" cocks between the tank and the carburettor will not be accepted for conveyance unless all motor-spirit has been removed from the tank.

9. The Department reserves the right to decline to convey any motor-vehicle unless all the petrol is removed therefrom.

10. It shall be a condition of every contract of carriage of a motor-vehicle that any liability to which the Department might according to its by-laws or regulations ordinarily be subject shall not attach to it in respect of damage to or loss of any equipment recognized as the ordinary equipment of a motor-vehicle, including such articles as spare parts, wheels, tires, tools and cushions, attached to or contained in a motor-vehicle received for carriage unless particulars of such equipment are entered on the consignment-note.
