F. D. THOMSON,
Clerk of the Executive Council.

License authorizing The New Zealand Sounds Hydro-electric Concessions, Ltd., to use Water from the Falls, Rivers, or Streams discharging into Smith Sound and from Lake Manapouri, for the Purpose of generating Electricity, and to erect Electric Lines within Portion of the Fiord County.

BLEDISLOE, Governor-General.

ORDER IN COUNCIL.

At the Government House at Wellington, this 28th day of May, 1930.

Present :

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

WHEREAS by section three hundred and eighteen of the Public Works Act, 1928, it is enacted that the Governor-General may from time to time, by Order in Council, grant to any person or body corporate a license to use water from any fall, river, stream, or other source for the purpose of generating electricity for electric light, mechanical power, or other uses, and to exercise in respect of that purpose any of the powers and authorities specified in that behalf in the said section : And whereas it is further provided by the said section that any such license may confer upon the licensee a right at any time or times during the continuance of the license (but subject to such conditions and restrictions as are expressed in the license) to enter upon any road, railway, or other land, whether vested in or occupied by the Crown or any other person or body corporate, and there to construct, erect, lay down, maintain, renew, or repair all such cables, wires, and other things as are required for the transmission of electricity between the fall, river, stream, or other source aforesaid and any place to which the licensee is authorized to transmit electricity in pursuance of the license :

And whereas The New Zealand Sounds Hydro-electric Concessions, Ltd. (hereinafter, with its successors and assigns, referred to as "the licensee"), has applied for a license under the said section to take and use certain waters from sources in the Land District of Southland for the purpose of generating electricity as aforesaid, and it is expedient to issue such license accordingly :

Now, therefore, in pursuance and exercise of the powers conferred upon him as aforesaid, and of the powers conferred by section three hundred and nineteen of the Public Works Act, 1928, and of all other powers in anywise enabling him in that behalf, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby grant to the licensee (with the rights and powers and upon and subject to the terms and conditions set forth in the Schedule hereto)—Firstly, a license for the period mentioned in the said Schedule to take and use water from the falls, rivers, or streams called the Helena Falls, Lyvia River, Stella Burn, and Huntleigh Falls, all discharging into Deep Cove at the head of Smith Sound on the West Coast of the South Island of New Zealand, and situate in the Land District of Southland, the situation of which falls, rivers, or streams being approximately shown on the plan marked P.W.D. 65121, deposited in the office of the Minister of Public Works at Wellington, and also from any other water-source emptying into the said Deep Cove or into Hall's Arm or Crooked Arm or other parts of the said Smith Sound : Secondly, a license for the period mentioned in the said Schedule to take and use water from the waters of Lake Manapouri situate in the said land district by conducting the same by tunnel or otherwise to or towards the said Deep Cove or the said Smith Sound, and also in connection with the construction of the said tunnel to take and use water from any fall, river, stream, or lake emptying into the said Lake Manapouri within the area of supply for the purposes in the case of each of the said licenses of generating electricity for electric light, mechanical power, electro-chemical, electro-metallurgical and/or other uses. The waters to be so taken to be sufficient in respect of the first license above-mentioned (hereinafter referred to as the first license) for developing continuously electrical energy not exceeding fifty thousand horse-power and in respect of the second license above mentioned (hereinafter referred to as the second license), to be a quantity not exceeding 5,000 cubic feet of water per second ; and also to erect and maintain electric lines and other works and plant for power, lighting, heating, electro-chemical, electro-metallurgical, or other uses within the area of supply hereinafter described ; and subject also to the regulations dated the eleventh day of July, one thousand nine hundred and twenty-seven, and published in the *New Zealand Gazette* of the twelfth day of the same month, or any regulations made in amendment thereof or in substitution thereof (hereinafter collectively referred to as "the regulations"), and which regulations shall, so far as they are applicable, be deemed to be incorporated herein, but nothing herein shall be held to guarantee that the above-mentioned

sources of supply or any of them contain sufficient water to enable the hereinbefore-mentioned amount of electrical energy to be developed or the hereinbefore-mentioned quantity of water to be used.

SCHEDULE.

I. PLANS.

The licensee shall, before any works hereby authorized are commenced, forward for the approval of the Minister of Public Works (hereinafter referred to as "the Minister")—

- (a) Full detailed drawings and specifications of such works :
- (b) Such other plans as the Minister may require.

2. UTILIZATION OF THE WATER.

The said waters respectively shall, except with the consent of the Minister, be used solely for the purpose of generating electricity, and shall be returned to the respective sources of supply or to the waters of the said Deep Cove, Hall's Arm, Crooked Arm, Smith Sound, or Lake Manapouri at or near the powerhouse where the same is used respectively.

3. LOCATION OF HEADWORKS.

The said waters respectively shall be taken from the respective sources of supply at the headworks situated in each case at a place to be fixed in accordance with the provisions of this license.

4. GENERAL DESCRIPTION OF WORKS.

Subject to the approval of such plans as the Minister may consider necessary, the licensee is hereby authorized to construct, maintain, and use the following works for the purposes of the first license and the second license respectively, the position of the said works in each case to be indicated on such plans :—

- (a) Headworks consisting of a dam and necessary intake.
- (b) Tunnel, pipe-line, or other conduits leading from such dam to the power-house hereinafter referred to.
- (c) A power-house with all necessary equipment, including water-turbines, generators, transformers, lightning-arresters, switchboards, switches, exciters, and other appliances for generating electricity.
- (d) Buildings, plant, and equipment for and in connection with the employment of electricity which may be generated for the purposes of electric lighting, mechanical power, and/or any electro-chemical or electro-metallurgical process, and/or for the purposes of the manufacture, storage, or carriage of any materials used in connection with or the products of any such process.
- (e) Such transmission and other lines within the area of supply as may from time to time be required within such area of supply, and after compliance with the provisions of clause 21 of the regulations.

5. INSPECTION OF WORKS.

The Inspecting Engineer, both during and after the construction of the works, shall have free access to and liberty at any time to inspect the same so as to ensure that the provisions of this license are given due effect to.

6. MAINTENANCE OF WORKS.

After the said works have been completed, the licensee shall maintain the same in proper working-order during the continuance of this license.

7. RIGHT TO ENTER LANDS, ETC.

The licensee shall have the right at any time or times during the continuance of this license, with the consent of the Minister, to enter upon any road or other land, whether vested in or occupied by the Crown or any other person or body corporate, and there to construct, erect, lay down, maintain, renew, or repair all such transmission-lines, poles, or other things as are required for the transmission of electricity between the generating-stations and any of the substations to which this license applies.

8. POWER TO TAKE LAND.

The licensee is hereby empowered to take, under the Public Works Act, 1928, as for a public work such land as may, in the opinion of the Governor-General, be necessary or advisable to enable the licensee to construct and maintain the various works authorized by this license, and for the purposes of any business or undertaking established or proposed to be established by the licensee in connection with the license, whether within or beyond the area of supply, including in particular the purposes of quarrying or mining marble, limestone, and other minerals, and the taking of supplies of timber

for the purpose of any such business or undertaking, and the establishment of hostels and accommodation-houses for the use of employees in such business or undertaking and visitors thereto.

9. DURATION OF LICENSE.

The first license and the second license respectively shall, unless sooner determined in accordance with the provisions hereinafter expressed, continue in force for a period of sixty years from the 12th day of January, 1926. Upon the expiry of the said term, or upon the sooner determination of this license by revocation or otherwise, but subject to clause 16 hereof, all rights hereby granted to the licensee shall thereupon cease and determine; but such expiration or determination shall not relieve the licensee of any liability theretofore incurred under this license.

10. RENTAL.

The licensee shall, as from and after the lapse of five years from the day on which electrical power other than power required by the licensee for constructional purposes is first supplied in pursuance of this license, pay to the Public Works Engineer for the district, or otherwise as the Minister may from time to time require, a rental at the rate of 1s. per annum per kilowatt of maximum output, as recorded by the watt-hour meters to be installed by the licensee at each of the power-houses mentioned in clause 4 (c) hereof; payment to be made yearly for the period ending on the 31st day of March in each year, commencing from five years after the day electrical power is first supplied as above mentioned. "Maximum output" means twice the number of units generated in the half-hour during which the number of units generated is a maximum for the year. For this purpose the units generated shall be recorded at the end of each half-hour commencing from noon of each day.

11. CHARGES FOR ELECTRICAL ENERGY.

The charge for electrical energy supplied at the licensee's power-house shall not exceed 1d. per unit.

12. AREA OF SUPPLY.

The area of supply comprises that portion of the Fjord County indicated by a distinctive border coloured red on the plan marked P.W.D. 65121, deposited in the office of the Minister of Public Works at Wellington.

13. SYSTEM OF SUPPLY.

The system of supply shall be as approved by the Minister. The generating voltage shall be as approved by the Minister.

14. DATUM TEMPERATURE.

For the purposes of calculating stresses as provided in clause 108 of the regulations, the datum temperature shall be taken as 12 degrees Fahrenheit.

15. EXPIRY OF LICENSE.—CROWN MAY TAKE OVER WORKS OR ALLOW LICENSEE TO REMOVE BUILDINGS, ETC.

Upon the expiration of the term of the license hereby granted, the following provisions shall apply:—

(a) His Majesty the King may take over and use the whole of the works hereby authorized, including all structures, buildings, equipment, machinery, plant, and land, hereinafter in this clause called "the works," on payment by him to the licensee of the then value of the works. The price to be paid under this clause shall be fixed by mutual agreement or, failing that, by arbitration under the Arbitration Act, 1908; or

(b) The Governor-General may, at his option, by Order in Council, grant to the licensee a new license for a further period of forty-two years, subject to such terms, conditions, and payment of rental as may then be imposed by him; or

(c) If His Majesty the King does not elect to take over the works under subclause (a), or the Governor-General declines to issue a further Order in Council under subclause (b) hereof, the licensee may, within such time and subject to such conditions as the Minister may then impose, remove all structures, buildings, equipment, machinery, and plant erected or installed by the licensee under the powers conferred by this license. If the licensee fails or neglects to effect such removal within the time or subject to the conditions imposed by the Minister, such structures, buildings, equipment, machinery, and plant shall, without payment of any compensation, vest in and become the property of His Majesty the King.

16. CROWN'S RIGHT TO PURCHASE WORKS.

Notwithstanding anything herein contained, the right is hereby reserved to His Majesty the King, at his option, at any time after the 12th day of January, 1961, upon at least twelve

calendar months' previous notice in writing of such intention having been given to the licensee by any Government officer, to purchase at such price, and upon such terms and conditions as may be mutually agreed upon (or failing such mutual agreement, then as may be determined by arbitration in the manner prescribed by the Arbitration Act, 1908), this license, together with the whole of the business and undertaking of the licensee so far as the same relates to or is connected with the exercise of this license, and any manufacture carried on in connection therewith, and together with all real and personal property of the licensee then used in connection with the same, and all rights acquired by the licensee under this license and used or enjoyed in connection therewith. The said price, if determined by arbitration, shall be based upon the actual value of the assets at the time of the exercise of the option, but shall not include any sum in respect of the value of the goodwill of the licensee's business or undertaking or in respect of the value of the license in respect of the unexpired period thereof, or in respect of the value of any Crown land held or occupied by the licensee in connection with the undertaking. On the completion of this purchase His Majesty the King shall be deemed to be the assignee of this license, and all the rights vested in the licensee by the license shall thereupon vest in His Majesty the King.

17. COMPENSATION PAYABLE FOR LAND INJURIOUSLY AFFECTED, ETC.

In respect of all land injuriously affected, and in respect of all damages done by the exercise of any of the powers conferred upon the licensee by this license, the licensee shall from time to time, as and when any such injury or damage accrues or happens, pay compensation in accordance with the provisions of the Public Works Act, 1928, in the same manner (subject to all necessary modifications) as if such licensee were a local authority and the claim was one for injury or damage arising out of the construction of a public work.

18. CROWN NOT LIABLE TO PAY COMPENSATION.

Nothing in this license shall be held to cast upon or imply any liability upon His Majesty the King or upon the Government of New Zealand to pay compensation to any person, corporate body, or local authority by reason of the exercise by the licensee of the authority hereby granted; but the licensee shall be liable for any loss or damage which any person, corporate body, or local authority may sustain as the result of the exercise by the licensee of any of the powers granted by this license.

19. CONSUMERS ENTITLED TO SUPPLY.

The licensee shall supply and sell to any person, company, or corporate body within the area of supply requiring the same, for any purpose within that area, electricity to the extent to which it may be available and not required in connection with any business or undertaking carried on by the licensee; provided that such person, company, or corporate body pays the cost of connecting his or its premises with the power-house erected by the licensee in pursuance of this license.

20. INTERCHANGE OF SUPPLY OF ELECTRICAL ENERGY.

(a) In the event of the Minister establishing a hydro-electric power scheme outside the area of supply of a frequency of 50 cycles per second on the three-phase alternating-current system, he may require the licensee to connect that system with the licensee's electrical system in such a manner that an interchange of electrical energy between the two systems may be made from time to time and when required by either the licensee or the Minister, up to at least one-half of the total capacity of the plant installed at the licensee's power-house.

(b) The licensee shall erect and maintain in good order, at the expense of the licensee, the necessary transmission-lines between the licensee's power-house and a point on the boundary of the area of supply to be determined by the Minister, such point being not more than half a mile from some transmission-line of the licensee.

(c) The Minister shall erect and maintain in good order, at the expense of the Minister, the necessary transmission-lines outside the area of supply for the purpose of connecting the two systems at the point last mentioned in subclause (b) hereof.

(d) The licensee and the Minister respectively shall, on demand, and from time to time as and when required, supply to each other so much of the surplus electrical energy as is then required and is available, but not in excess of one-half of the capacity of the plant installed in the licensee's power-house.

(e) The price to be paid by the licensee or the Minister shall not exceed $\frac{1}{4}$ d. per unit; to be measured in each case at the point last mentioned in subclause (b) hereof.

(f) For the purpose of this clause either the licensee or the Minister may have the unit measured in kilovolt-ampere hours instead of kilowatt hours.

21. DEPOSIT.

The deposit of £500 which the licensee has lodged with the Public Trustee as a guarantee of good faith shall be retained as security for the due fulfilment by the licensee of the terms and conditions contained in this license to be performed by the licensee: Provided, however, that when and so soon as the licensee shall have submitted the drawings and specifications required by clause 1 hereof, and those drawings and specifications have been duly approved, and the licensee shall have constructed permanent works in connection with headworks, dam, pipe-lines, and generating-station mentioned in the said clause to the satisfaction of the Minister, to the value of £1,000 at the least, then the Minister shall require the Public Trustee to return the said deposit to the licensee; but if this license is determined, cancelled, or revoked under the powers herein contained before such works to such value have been constructed, then and in any such case the said sum of £500 shall be forfeited to the Crown as ascertained and liquidated damages.

22. BED OF RIVER NOT LEASED.

Nothing herein shall be held to constitute a lease from the Crown of the bed of any fall, river, stream, or lake, nor shall the provisions of Part IX of the Property Law Act, 1908, apply to this license.

23. CONTRACT BETWEEN LICENSEE AND CROWN.

This license shall be deemed to constitute a contract as between the licensee and His Majesty the King, and may be enforced as a contract by and against His said Majesty or the licensee accordingly.

24. TIME FOR SUBSTANTIAL COMPLETION OF WORKS.

The licensee shall proceed energetically with the survey and investigation of the works hereby authorized in respect of the first license, and shall on or before the 12th day of January, 1932, submit complete details and full plans and surveys of the work proposed in respect of the first license. If such details be not submitted on or before the 12th day of January, 1932, this license shall cease and determine. This license shall also cease and determine unless a company approved by the Minister is formed on or before the 12th day of January, 1932, with a subscribed capital of not less than the estimated cost as approved by the Minister of the first complete installation of the proposed works.

If the licensee shall not on or before the 12th day of January, 1933, either develop electrical energy to the extent of 25,000 kilowatts in respect of the first license or expend on works authorized hereunder a sum of at least £100,000, this license shall cease and determine. If the licensee shall not submit complete details and full plans and surveys of the works proposed in respect of the second license on or before the 12th day of January, 1935, or such extended time as is granted by the Governor-General by Order in Council which shall not in any case extend beyond the 12th day of January, 1937, such second license shall cease and determine without prejudice to the first license if the same is still in existence. The second license shall also cease and determine unless an installation in respect of such license to develop electrical energy to the extent of at least 50,000 horse-power is completed on or before the 12th day of January, 1941.

25. GRANTING OF OTHER WATER-RIGHTS.

Nothing herein shall prevent the Governor-General in Council from granting to any person or body corporate other than the licensee a license to take water from any portion of the said sources of supply, except at the place where the licensee is by this license empowered to take it; provided that no such license shall so operate as to require the licensee after construction of a regulating weir with its fixed crest at the level of 590 ft. above mean sea-level at the outlet from Lake Manapouri to utilize more storage water than would cause the lake level to fall below 580 ft. above mean sea-level or so as to reduce the quantity of water which the licensee is authorized by this license to use from the said sources of supply.

26. DEFAULT.

If the licensee fails or neglects to observe any of the conditions or obligations imposed by this license, then, and in any such case, the provisions of clause 229 of the regulations shall apply to the breach of any such condition or obligation.

27. VARIATION IN CONDITIONS OF LICENSE.

The terms and conditions of this license may at any time or from time to time, if found necessary and if duly agreed upon between the licensee and the Governor-General in Council be altered by the Governor-General by Order in Council, whereupon all the terms and conditions in this license contained (save and except as they may have been so altered or modified by such alterations) shall, *mutatis mutandis*, apply to such alterations as if the latter had formed part of this license as originally issued.

28. SURRENDER OF LICENSE.

The licensee may at any time, with the consent of the Minister, surrender this license, and shall thereupon, if so required by the Minister, remove from the ground all removable equipment, machinery, buildings, poles, transmission-lines, and other plant herein authorized to be installed or provided. If the licensee fails or neglects so to remove the said plant within twelve months after being required so to do, such equipment, machinery, buildings, poles, lines, and other plant shall, without payment of any compensation, vest in and become the property of the Crown.

29. DISFIGUREMENT OF NATURAL FEATURES.

The licensee shall not unnecessarily cause serious disfigurement from a scenic point of view, and shall use all precautions to preserve the scenic attractions of the neighbourhood.

30. USER.
