DESCRIPTION.

Section 1, Block III, Takapau Survey District.—Situated about one mile and a half from Takapau Railway-station on the Ormondville-Takapau Road. The land is undulating, but broken by creeks; the greater part is ploughable when stumps and logs have been removed. Pasture consists of crested dogstail, cocksfoot, Danthonia, and white clover. Fences are not on boundaries. Section is fairly well watered. This country is liable to dry up in the autumn. Suitable for mixed farming.

Section 2, Block III, Takapau Survey District.—Situated about half a mile from Takapau Railway-station by a public road, the greater portion of which is roughly formed. The section comprises open flat country, being somewhat light and stony, but can be readily worked, and has been practically all ploughed at some time or other. Portions are at present

in English grasses, but thistle is prevalent. There is no natural water-supply. The fences on the land are in fair condition only. This land is most suitable for grazing. It would be difficult to maintain the pasture sufficiently long on account of the droughts that the district at times experiences to carry out successful dairy farming.

Section 25, Block II, Takapau Survey District.—Situated about one and three-quarter miles from Takapau Railway-station on the Ormondville-Takapau main road. The north-western portion of this block may be classed as flat open country, and is somewhat light and stony, and has been all ploughed at some time or other. The upper portion has been ploughed and sown in grass; the balance until recently was down in rape, which has been harvested or fed off and not resown in grass. The southern portion was originally in bush, and is land of good quality; stumping, draining, ploughing, and resowing is necessary, the original English grasses having disappeared. There is blackberry on this section, and the fencing is fairly old and was erected with a view to working in with portion of the adjoining property. This could be made good dairying country, and is watered by fairly permanent streams.

SECOND-CLASS LAND.

*Hawke's Bay County.—Puketapu Survey District.*

Section 4, Block VIII: Area, 583 acres. Capital value, £2,620. Deposit on deferred payments, £120; half-yearly instalment on deferred payments, £81 5s. Renewable lease: Half-yearly rent, £65 10s.

Exempt from payment of rent for three years after the first half-year's rent, broken period rent, and £1 1s. (lease fee) have been paid, provided improvements to an equal value to the rent remitted are placed on the land.

Weighted with £900, for improvements consisting of four-roomed dwelling, cow-byre, ring and subdivisional fencing, and bush-felling. This sum may be paid in cash or by a cash deposit of £100, the balance being secured by an instalment mortgage for a term of thirty-six and a half years with interest at 5 per cent. to a discharged soldier, or thirty-four and a half years, with interest at 5½ per cent., to a civilian.

Situated approximately fifteen miles from Napier Railway-station, three miles from Tangoio School, and twenty-seven miles from Heretaunga Dairy Factory, access by the Pakuratahi Road, which turns off the Napier-Wairoa Road about twelve miles from Napier on the north-west side of the Tangoio Lagoon. Ten acres flat; balance hilly to steep, broken country. Altitude runs from 90 ft. to 900 ft. above sea-level. Pasture mostly in native grass; balance fern, scrub, bush, and blackberry. Well watered. Present carrying-capacity, 400 breeding ewes, 140 dry sheep, 33 mixed cattle. Suitable for sheep and cattle grazing.

As witness the hand of His Excellency the Governor-General, this 15th day of August, 1930.
