HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

IN exercise of the powers in this behalf conferred upon him by the Christchurch Tramway District Act, 1920 (hereinafter referred to as "the said Act"), and of all other powers and authorities enabling him in this behalf, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby revoke the several regulations under the said Act made on the thirty-first day of August, one thousand nine hundred and twenty-one, and the twenty-ninth day of August, one thousand nine hundred and twenty-seven, and published in the *Gazette* on the first day of September, one thousand nine hundred and twenty-one, at page 2251, and the first day of September, one thousand nine hundred and twenty-seven, at page 1787, respectively, and in lieu thereof doth hereby make the following regulations for the purposes of the said Act.

REGULATIONS.

ELECTORS LISTS.

1. THE electors list to be made out pursuant to section 9 of the said Act may be in card form or otherwise, and shall in the case of a residential qualification set forth the address of the elector, and in the case of a freehold rating or occupier's qualification set forth the address of the property through which the qualification is derived.

2. Every claim for enrolment shall be in the form numbered I set forth in the Schedule hereto, or to the like effect, and the claimant's signature shall be attested by a Justice of the Peace, or a Postmaster, or an elector of the Christchurch Tramway District, or the Secretary of the Board, or the Clerk of any local authority having jurisdiction in any part of the tramway district.

3. It shall be the duty of the Board to keep at its general office a supply of blank printed forms of claim for enrolment as aforesaid for the free use of claimants for the purposes aforesaid.

4. The Secretary shall transfer to the list of tramway electors the names of persons appearing on the rolls of all boroughs and counties in the Christchurch Tramway District, provided that he is satisfied that such persons still retain the qualification in respect of which they are so enrolled, and provided that the property or residence in respect of which they are so enrolled is within the Christchurch Tramway District. If, in his opinion, it is desirable to ascertain whether or not a person so enrolled on a borough roll in respect of a residential qualification continues to reside within the district, or within the subdistrict in respect of which he is so enrolled, he shall send to such person through the post a communication to that effect. Such notice shall bear or contain a request to the postal authorities to the effect that if the person to whom the communication is addressed has changed his address, the communication be returned to the Secretary. If such communication is returned by the postal authorities to the Secretary undelivered, such person shall be deemed to have left the district, and his name shall not be transferred to the tramway electors list.

5. The said list may be divided into two or more parts.

6. In any such list or part thereof the names shall be entered in alphabetical order of surnames.

7. The several electors rolls (including main rolls and supplementary rolls) for the time being in force for the City of Christchurch and the Boroughs of Riccarton, New Brighton, and Sumner, or any of such rolls, may be taken as parts of the said electors list without its being necessary for the Secretary of the Board to prepare any new lists, other than supplementary lists, of the electors of such parts of the Christchurch Tramway District as are within the boundaries of the said city and boroughs, respectively:

Provided that there shall be made in such rolls the alterations necessary for compliance with section 11 of the said Act.

8. Where any list, or part thereof, includes only the names of electors enrolled in respect of one subdistrict of the Christchurch Tramway District, there shall be prefixed to such list, or part thereof, the name of that subdistrict.

9. Where any list or part thereof, includes the names of electors enrolled in respect of different subdistricts of the Christchurch Tramway District, the subdistrict in respect of which the elector is enrolled must be stated:

Provided that in respect of such parts of the said list as consist of the electors rolls for the City of Christchurch and the Borough of Riccarton, it shall be necessary to state such subdistrict only in cases where such subdistrict is a subdistrict other than the central subdistrict, or other than the Riccarton-Fendalton Subdistrict, respectively.

10. The following abbreviations may be used for the purpose of Regulation 9 hereof:—

## AUTHENTICATION OF ROLL.

12. The Board shall at a sitting of the Board held in the month of September (being not later than the 12th day thereof) amend the electors list by correcting every error found in such list; and the Secretary shall initial every alteration so made in the electors list, which shall thereupon be authenticated in the manner prescribed by Regulation 13 hereof.

13. (1) The electors list and every supplementary electors list, and every roll or supplementary roll made pursuant to the said Act or these regulations shall be authenticated by being certified to be correct by the Chairman of the Board and two members.

(2) Where from any cause the foregoing provisions of this regulation cannot be complied with such lists or rolls may be authenticated by the Secretary, who shall append the following certificate thereto:—

“Certified pursuant to Regulation 13 of regulations under the Christchurch Tramway Act, 1920, to be correct.  
....., Secretary.”

14. Additions to the electors list after the 1st day of September aforesaid shall be made by means of one or more supplementary lists, which shall be open for inspection in the office of the Secretary during office hours without fee by all persons interested therein, and every such supplementary list shall be corrected where necessary, and shall be authenticated in the manner prescribed by Regulation 13 hereof, and shall thereupon be a supplementary electors roll, and be deemed to be incorporated with the original electors roll.

15. Forthwith upon the authentication of the electoral roll pursuant to Regulation 13 hereof the Secretary shall give public notice that the roll has been so authenticated, and is open for inspection (without fee) at his office by all persons interested, and that objections thereto must be made within fourteen days from a date to be named therein, being the date of first publication of such notice, and the Secretary shall keep the said roll in his office and allow it to be inspected (without fee) by all persons interested during office hours during the fourteen days aforesaid.

Provided that in no case shall any account be taken of persons present or likely to be present only in the ground-floor of the building or any part thereof below the ground-floor:

Provided also that whenever a structural alteration or addition to a building is made, or whenever, in the opinion of the Superintendent, a change in the nature of the use or occupancy of a building has occurred or is likely to occur, or whenever there has been an erection, alteration, or change of use of any building in the vicinity of a building, or whenever any matter has occurred by reason of which the inmates of a building are, in the opinion of the Superintendent, exposed to increased risk of danger from fire, the Superintendent may make a fresh computation of the nominal capacity of such building.

## NOMINAL CAPACITY OF PARTS OF BUILDINGS.

11. The nominal capacity of any storey or other part of a building required to be ascertained separately shall be ascertained in the like manner as aforesaid, *mutatis mutandis*.

## PART II.—OWNER TO PROVIDE FIRE-ESCAPES.

## NEW BUILDINGS.

12. The owner of every building hereafter erected shall, before such building is occupied by any person, provide in connection therewith the fire-escapes hereby declared to be necessary for such building.

## EXISTING BUILDINGS.

## FRESH COMPUTATION OF NOMINAL CAPACITY.

16. When a fresh computation of the nominal capacity of any building has been made as hereinbefore provided, the owner of such building shall, within a reasonable time after being required by the Superintendent by notice in writing so to do, provide in connection therewith the fire-escapes hereby declared to be necessary for such building according to such fresh computation.

## PART III.—FIRE-ESCAPES DECLARED TO BE NECESSARY.

## NUMBER OF FIRE-ESCAPES PER BUILDING.

17. It shall be necessary for every building to be provided with a separate and sufficient fire-escape not connecting with any other fire-escape for every one hundred units or part of one hundred units of the nominal capacity of the building; and, where the nominal capacity of any storey of a building exceeds one hundred units, it shall be necessary for such storey to be provided with a separate and sufficient fire-escape not connecting with any other fire-escape for every complete one hundred units of the nominal capacity of that storey.

## ALTERNATIVE ESCAPES.

18. In every case where the nominal capacity of any building or part of a building entails the provision of more than one fire-escape, the number of fire-escapes provided shall be such that each fire-escape is sufficient for a nominal capacity of at least one-third more than a nominal capacity, ascertained by dividing the total nominal capacity of such building or part of a building by the number of fire-escapes provided:

Provided that for the purposes of this and the last preceding clause hereof any fire-escape of greater width at every exit than the minimum width prescribed by clause 38 hereof shall be deemed sufficient for an additional twenty-five units of nominal capacity for every complete 2 ft. of width additional to the said minimum.

## NUMBER OF EXITS PER STOREY.

19. It shall be necessary for every storey of a building to be provided with a separate exit to a fire-escape for every fifty units or part of fifty units of the nominal capacity of that storey.

Provided that in the case of a building so constructed that the distance in a straight line from the door of any room to the nearest exterior wall of the building having space beside it for a fire-escape is a distance of more than 100 ft., then in respect of such room such distance shall be deemed to be substituted for the length of 100 ft. hereinbefore prescribed.

## FIRE-ESCAPES TO COMPLY WITH BY-LAW.

21. No fire-escape shall be deemed sufficient for the purposes of this by-law unless it conforms in all respects with

the requirements relating to fire-escapes hereinafter contained, and unless the exits thereto conform in all respects with the requirements relating to exits hereinafter contained, and unless it is at all times maintained in good, sound, and substantial order and condition, and unless all moving parts thereof and of all exits thereto are at all times maintained in free working condition.

## CLEARANCE OF FIRE-ESCAPES.

22. No fire-escapes shall be deemed sufficient for the purposes of this by-law if—

- (a) At any time any part thereof is occupied by any goods or other movable article:
- (b) The space to a height of 6 ft. above any part of the footway is at any time occupied by any object so as to reduce the width of the space vertically above the footway of the fire-escape below the minimum width of 30 in. prescribed by clause 38 hereof.

## APPROVAL OF PLANS.

23. Any person proposing to provide a fire-escape for any building, whether in pursuance of any requirement under this by-law or otherwise, may submit to the Superintendent particulars of plans and specifications of such fire-escape and the exits thereto, and of such building, and of the actual or intended nominal capacity thereof, and if the Superintendent considers such particulars sufficient to enable him to do so he may, by notice in writing, approve the same, and a fire-escape with exits thereto, both constructed in accordance with such plans and specifications shall, if such construction has been commenced within three calendar months of the date of such approval, be deemed (so far only as regards matters appertaining to the design and construction thereof) to be sufficient for the purposes of this by-law.

## UNIMPEDED PASSAGE-WAYS.

24. No passage shall be deemed an unimpeded passage-way for the purposes of this by-law unless it complies with all the following requirements:—

- (a) It lies for the whole of its course on one floor of the building:
- (b) It is of a height at its lowest part of at least 8 ft. and a width at its narrowest part of at least 3 ft.:
- (c) It is separated by a substantial partition from any staircase, lift-well, or other opening extending through any floor of the building:
- (d) It is not at any time occupied by any furniture, curtain, or other movable object placed so as to reduce the height and width of the passage-way below the aforesaid minimum measurements:
- (e) It is provided with a notice of the words "TO FIRE-ESCAPE" and a mark of direction, both permanently marked on or affixed to a wall thereof in a conspicuous position and in conspicuous lettering at least 6 in. high at every place where two or more passages meet or the passage-way changes its direction:

Provided that the requirements set out in paragraph (e) hereof shall not apply to a passage in any part of a building which part is occupied solely as a private dwelling or solely as an office, warehouse, or counting-house in which not more than ten persons are regularly engaged.

## PART IV.—EXITS.

## SIZE OF EXITS.

25. The exit of every fire-escape shall be a window, door, or other opening in the exterior wall of the building of such a size that when opened it shall not in any part be less than 3 ft. wide nor less than 6 ft. high, exclusive of any projections or fittings connected therewith:

Provided that in case of an exit serving only for one room having not more than five hundred square feet of floor space it shall be sufficient if the exit, when opened, has a rectangular space of at least six square feet and a width unobstructed by projections or fittings of at least 30 in.

## LEVEL OF EXITS.

26. The sill or lower part of the exit shall be horizontal, and shall be not more than 6 in. above the footway of the fire-escape and shall, if the nominal capacity of the part of the building served by the exit exceeds one hundred units, be flush with the floor of the storey, and shall in other cases be not more than 30 in. above the floor of the storey, and if more than 12 in. above such floor, then it shall be provided with an interior step having a raiser of half the distance from the floor to the exit and a tread of at least 7 in.:

Provided that in case of an exit serving only for one room having not more than five hundred square feet of floor-space

no step shall be required, and the sill of the exit may be not more than 24 in. above the floor of the room.

#### DOORS OF EXITS.

27. An exit shall not be closed otherwise than by a door or doors or glass window pane or panes or other material complying with all the following requirements—

- (a) They shall be arranged so as to open either by swinging outwards on vertical hinges or by sliding laterally;
- (b) If opening outwards, they shall be of such a size as not to extend at any stage of opening over more than half the width of the footway of the fire-escape, and be capable of folding back flat against the exterior wall of the building;
- (c) They shall at all times be kept capable of being easily opened without the aid of a key or other detachable contrivance;
- (d) They shall bear on the interior thereof if of opaque material or in a conspicuous position adjacent thereto if of transparent material the words "FIRE ESCAPE" permanently marked in conspicuous lettering at least 6 in. high;
- (e) They shall not have any curtain, blind, screen, or other obstruction on or near to the interior side thereof;

Provided always that the requirements set out in paragraph (e) hereof shall not apply to an exit that serves only one room having a floor-space not exceeding five hundred square feet, and that the requirements set out in paragraphs (a), (d), and (e) hereof shall not apply to an exit serving only a part of a building, which part is occupied solely as a private dwelling or solely as an office, warehouse, or counting-house in which not more than ten persons are regularly engaged.

28. If in the case of an exit from a part of a building which part is occupied solely as a private dwelling or solely as an office, warehouse, or counting-house in which not more than ten persons are regularly engaged, such exit is closed by a hung window, then both sashes of such window shall be of equal size, and the window shall be capable of opening to the full extent of the space occupied by the lower sash when closed.

#### PART V.—CONSTRUCTION AND DESIGN OF FIRE-ESCAPES.

##### STRENGTH.

29. Every part of a fire-escape shall be substantially built so as to be capable, in the opinion of the Superintendent, of supporting a number of persons equal to the units of the nominal capacity for which it is required, and so as to be capable of supporting on every part of the footway a live load of 150 lb. per square foot.

##### UPPER TERMINATION.

30. The top of every fire-escape shall end at a landing giving convenient access to the roof of the building which it serves, or of some adjacent building, except in cases where, in the opinion of the Superintendent, such access would result in danger.

##### LOWER TERMINATION.

31. The foot of every fire-escape shall end outside the building in either—

- (a) A public or private road or street; or
- (b) An unimpeded space open to the sky of at least five hundred square feet and measuring at least 8 ft. across in any distance, and having access to a public or private road or street; or
- (c) An unimpeded space open to the sky of at least sixty-four square feet and measuring at least 8 ft. across in any direction, and contiguous to and having direct communication through at least one gate or door with a public or private road or street.

##### HEIGHT OF TERMINAL ABOVE GROUND.

32. The lower landing of every fire-escape shall be not more than 15 ft. above the ground-level.

##### LADDER TO GROUND.

33. Where the lower end of any fire-escape is more than 6 ft. above the ground it shall be connected with the ground by means of a telescopic sliding ladder, cantilever ladder, counter-balance stairs, or other efficient contrivance other than a hinged drop-ladder or a folding ladder, and such ladder or stairs shall, as regards width and general construction, comply with all the requirements of this by-law relating to fire-escapes so far as applicable.

#### PART VI.—FOOTWAY OF FIRE-ESCAPES.

##### LANDINGS AT EXITS.

34. The footway of the fire-escape in front of every part of any exit shall be in the form of a horizontal landing or platform, or have a pitch of not more than one in ten.

##### FOOTWAYS NOT TO CROSS WINDOWS.

35. The footway of any fire-escape shall not pass across the front of any window or other opening in the exterior wall of the building which it serves, nor be less than 2 ft. 6 in. below the lowest point or 1 ft. above the highest point of any such window or other opening:

Provided that this stipulation shall not relate to any window or other opening which is intended to be an exit to such fire-escape, or which is normally kept closed by means of iron shutters, wire-glass set in metal frames, or other approved fire-resisting material:

Provided also that the requirements of this clause shall not apply to a fire-escape the footway of which is connected with lower terminations at each side of the window or other opening or series of windows or other openings across the front of which it passes.

##### CONSTRUCTION OF FOOTWAY.

36. The footway of every fire-escape shall be constructed as a stairway or a runway or a combination of both.

##### MATERIAL OF FOOTWAY.

37. The footway of every fire-escape shall be of good iron or other substantial material and shall be continuous, save that if made of wooden strips a space of not more than three-quarters of an inch may be allowed between strips, and if made of bars of iron set transversely a space of not more than three-quarters of an inch may be left between bars.
