Provided that this clause shall not apply to any poster which relates to a film that has been approved for exhibition by the Censor before the coming into force of these regulations.

4. No poster shall, after having been approved by the Censor, be altered in any manner whatsoever without the approval of the Censor, and any poster which is altered contrary to this clause shall be deemed not to have been approved.

5. (1) An application, in the form No. 1 in the First Schedule hereto, together with two sets of the posters or of miniature reproductions of the posters to which such application relates, shall be delivered at the office of the Censor.

(5) The Censor may in any case, if in his discretion he thinks fit so to do, require the production of the original poster or posters to which any miniature reproductions relate, and may decline to give a decision with respect to such reproductions until his requisition has been complied with.

(6) Every person commits an offence and shall be liable to a fine of £5 who makes any false or misleading statement in any application for the approval of a poster under these regulations.

6. Every application under these regulations shall be accompanied by the examination fee prescribed in the Second Schedule hereto:

Provided that, with the authority of the Minister, the Censor may make arrangements for monthly accounts and payments of fees.

7. In addition to the fees prescribed in the Second Schedule hereto a special fee, equal to the prescribed examination fee, shall be charged where an applicant requests that the examination be completed within forty-eight hours after submission to the Censor. Nothing in this regulation shall oblige the Censor to make his examination within the said period, but if the examination is not so made the special fee shall be repaid to the applicant.

8. The Censor shall, as soon as possible after receipt thereof, examine each poster, and on the completion of such examination the Censor—

(a) May approve the poster; or

(b) May refuse to approve the same; or

(c) May agree to approve the same, subject to such alterations as he thinks proper.

One copy of such poster or reproduction shall be delivered to the applicant, and the other copy shall be recorded by the Censor:

Provided that where pursuant to subclause (4) of clause 5 hereof all available copies of any posters have been submitted, the Censor shall endorse his decision on, and shall return, all such posters to the applicant.

(2) Notwithstanding anything in the foregoing provisions of this clause the decision of the Censor may be endorsed on photographs or other posters if the copies so endorsed are to be used for purposes of advertisement.

10. The applicant shall arrange for the removal of the posters after examination by the Censor, and in cases where it is requested that they be returned by post the amount of postage must be pre-paid by the applicant.

11. (1) If the applicant for the approval of any poster is dissatisfied with the decision of the Censor with respect thereto he may, within fourteen days after the notification to him of the decision of the Censor, appeal therefrom to the Board of Appeal set up in respect of the censorship of cinematograph films pursuant to clause 14 of the Cinematograph Films (Censorship and Registration) Regulations.

(2) Notice of appeal shall be made in the form No. 2 in the First Schedule hereto, and shall be accompanied by the fee prescribed in the Second Schedule hereto.

(3) For the purposes of any appeal under this clause the provisions of clauses 17 to 20 of the Cinematograph Films (Censorship and Registration) Regulations shall, with the necessary modifications, apply as if any poster in respect of which the appeal is made were a cinematograph film.

12. If, in the opinion of the Censor or of the Board of Appeal, it is necessary to re-examine a film to facilitate a decision in respect of any poster, the applicant shall forthwith, on being required so to do, submit the film for such re-examination.

2. The trolley-wires shall not be less than No. 2/0 S.W.G. hard-drawn solid copper or cadmium-copper wires, firmly attached to approved insulators, and erected on supports placed not more than 130 ft. apart.

Trolley-wire feeder cables, if carried overhead, shall be covered with weatherproof triple braiding: Provided that, where circumstances permit, the Minister may approve of bare conductors being used; and provided that where electric feeder-cables intersect the Post and Telegraph Department's lead-covered cables, vulcanized indiarubber insulation of not less than 600 megohm grade shall be substituted for weather-proof triple braiding.

Double insulation shall be provided between the positive and negative trolley-wires and between the positive trolley-wire and earth. Single insulation shall be provided between the negative trolley-wire and earth on all span wires and pull-offs.

The maximum difference of potential between the positive and negative trolley-wires, and between trolley-wire feeders and the ground shall not exceed 650 volts.

The spacing of trolley-wires shall be such as to prevent bridging by the trolley-wheel or pole.

The best means available shall be adopted for preventing the occurrence of undue sparking at the rubbing or rolling contacts in any place.

3. The conductors shall be carried on substantial and durable supports, which shall be designed to have a factor of safety of four in the case of steel, iron, or ferro-concrete, and five in the case of wood, calculated upon the ultimate strength of the material, assuming the wind-pressure to be 30 lb. per square foot upon a plane surface and 18 lb. per square foot upon a diametral plane upon a cylindrical surface.

4. The trolley-wire shall not in any part thereof be at a less height than 18 ft. from the surface of the ground.

5. (1) Where telegraph, telephone, or electric fire-alarm wires (hereinafter referred to as "the first-mentioned wires") are carried along either overhead or underground on one side of the road to be used by the trackless electric car, the said electric lines (either overhead or underground) of the trackless electric-car system shall be carried along on the other side thereof unless otherwise approved by the Minister of Telegraphs.

(2) At all points where it is necessary for the said electric lines to be carried across the first-mentioned wires, they shall be carried across and under the same at right angles if possible, and the first-mentioned wires shall be carefully insulated at the expense of the licensee over a sufficient length to prevent any contact in the event of accident to either line, and proper guard-wires effectively earthed shall be provided where necessary, at the like expense, to prevent the first-mentioned wires or any other overhead wires from getting into contact with the said electric lines. Where the first-mentioned wires run parallel to and higher than the said electric lines, and the poles supporting the pull-off or span wires are on the same side of the road as those supporting the first-mentioned wires, and wherever it is considered that by reason of accident or otherwise there is a danger of the first-mentioned wires falling across the said electric lines or their supports, guard-hooks and approved insulators, or other approved protective devices, shall be provided and erected by and at the expense of the licensee to the satisfaction of the Minister.

(3) Where poles are erected on both sides of the road, those on the one side of the road must comply with the requirements of the Minister of Telegraphs in order to provide reasonable facilities for their joint use.

6. The design of all poles, posts, standards, brackets, and other attachments used in connection with the said electric lines shall be subject to the approval of the Minister, and they shall be constructed in accordance with such approved design, and erected in such manner, as is approved in writing by the Minister.

7. The licensee shall take all reasonable precautions in constructing, placing, and maintaining the said electric lines and other works of all descriptions, and also in working the undertaking so as not to injuriously affect by fusion or electrolytic action any gas or water pipes, sewers, drains, or conduits, or other pipes, structures, or substances, or to injuriously interfere with the working of any telegraph, telephone, electric-lighting, or electric-fire-alarm lines or apparatus.

8. This license shall, unless sooner determined in accordance with the provisions hereinafter expressed, continue in force for a period of ten years from the date hereof. Upon

expiry of the said term, or upon sooner determination of this license by revocation or otherwise, all rights hereby granted to the licensee shall cease and determine; but such expiration or determination shall not relieve the licensee of any liability theretofore incurred under this license.

9. The licensee shall rectify to the satisfaction of the Minister of Telegraphs or the Minister of Railways any interference or disturbance caused by the erection or operation of the licensee's system that affects the satisfactory working of the telegraph-lines which are the property of the Telegraph or Railways Departments and which were erected prior to the licensee's lines.

10. Notwithstanding anything contained in the regulations incorporated herein, no extensions or lines other than those along the routes hereinbefore described shall be deemed to be authorized by this license.

11. No electric car shall be supplied with electric power from the lines hereby authorized to be erected unless the licensee first receives from the Minister of Public Works a warrant authorizing the use of that car.

Time for removal of timber: One year and a half.

*Terms of Payment.*

A marked cheque for one-tenth of the purchase-money, together with half-year's ground rent and £1 ls. (license fee), must accompany tender, and the balance be paid by nine equal monthly instalments, the first payment to be made on 25th November, 1930.

In addition, the successful tenderer shall continue the payment of such ground rent half-yearly in advance during the currency of the license.

*Terms and Conditions.*

1. All instalment-payments shall be secured by an "on demand" promissory note made and endorsed to the satisfaction of the Commissioner of State Forests, and interest at the rate of 1 per cent. per annum in excess of current bank overdraft rates will be charged if the note is overdue from the date of maturity to the date of payment.

2. The right to cut and remove the timber will be sold in accordance with the provisions of the Forests Act, 1921-22, the regulations in force thereunder, and these conditions.

3. The aforementioned quality, quantity, and kind as to the said timber shall be taken as sufficiently accurate for the purposes of this sale, and no contract for the purchase shall be voidable, nor shall the successful purchaser be entitled to any abatement in price, by reason of the said timber being of less quantity, quality, or kind as stated herein or in any advertisement having reference to the said timber.

4. The attention of all tenderers is drawn to the fact that the local controlling body may require the successful tenderer to pay any claims or charges which may be made by that body for the maintenance of the road over which the timber may be transported, and before a sawmill license is issued a letter indicating that satisfactory arrangements have been made in this connection must be produced to the undersigned.

5. A return, giving the number of logs cut of each species and their contents must be made quarterly by the licensee on the last days of March, June, September, and December respectively in each year. A return must be made on the same dates showing the output of sawn timber of each species. These returns may be ascertained and verified by inspection of the books of the mill, or by such other means as the Conservator may require, and for this purpose the accounts and books shall be open to the inspection of the Conservator, a Forest Ranger, or other duly authorized officer.

6. Intending tenderers are expected to visit the locality and to satisfy themselves in every particular on all matters relative to the sale.

7. Each tenderer must state the total price that he is prepared to pay for the timber. The highest or any tender will not necessarily be accepted, and the timber described is submitted for sale subject to the final acceptance of the tender by the Commissioner of State Forests.

8. The right is reserved to the Commissioner of State Forests to withdraw from sale any or all of the said timber either before or after the closing date for receipt of tenders.

9. If no tender is accepted for the timber herein mentioned it will remain open for application at the upset price until further notice.

10. Tenderers should be on the special form obtainable from any office of the State Forest Service, and should be enclosed in envelopes addressed "Conservator of Forests, Invercargill," and endorsed "Tender for Timber."

The conditions, which will be inserted in the license to be issued to the purchaser, and further particulars may be obtained on application to the undersigned or to the Director of Forestry, Wellington.

N. J. DOLAMORE, Conservator of Forests.
