SUMMARY FOR THE MONTH OF AUGUST, 1930.

Meteorologically, August in New Zealand is generally considered to be the last of the winter months, but the one just passed has been characterized by distinctly spring-like weather, more especially during the latter half. Temperatures were cold in the early part of the month, when some rather severe frosts occurred in places most subject to them, but, on the whole, conditions were mild for the time of the year. Rainfall exceeded the normal in nearly all parts of the North Island. At a few places in the Auckland Province there was, however, a deficiency. In the South Island, the totals were above normal in the eastern portion from Marlborough to Dunedin, while in all the western half and the greater portion of Otago and Southland they were below. At Nelson City the amount of rain recorded during the past three months has been the lowest for this period since records were commenced in 1883. Owing to an almost continued low rainfall since January, the subsoil in Central Otago has become dry for a considerable depth.

The mild temperatures and the ample rainfall induced a marked growth in pastures in most districts. Compared with the corresponding time last year, the season is in this respect further advanced. Consequently, stock generally are in good condition, and at the close of the month the prospects for the lambing season and for dairying appeared excellent.

The finest weather occurred between the 13th and 23rd, the only interruption being due to the passage of a shallow cyclone over the South Island on the night of the 16th and during the 17th, when fairly general but light rain fell.

The most notable pressure disturbance affecting the Dominion during the month was an intense and extensive cyclone which, advancing over the northern Tasman Sea on the 3rd, moved gradually on to New Zealand. Its central portion crossed the Cook Strait region during the night of the 6th, and barometer readings were very low while it was passing. On the morning of the 6th Chatham Island reported a pressure of 28-90 in. General rains occurred during the 4th and 5th, with many

heavy falls. Three days of almost ceaseless rain at Christchurch caused surface water to accumulate in many parts of that city, and rather severe floods were experienced in the area through which the Heathcote River flows. In some parts flood-waters entered the houses and forced the owners to vacate them.

Another cyclone, but a much shallower one, brought dull, misty weather between the 9th and the 12th, mainly to the North Island and the eastern portion of the South Island. Though the rain was mainly light, some heavy falls occurred during the 10th and 11th between Hawke's Bay and Castlepoint, and some flooding resulted.

From the 24th to the close of the month much dull and misty weather prevailed, being associated with several small cyclones which crossed the Dominion. The rainfall during this period was chiefly light and scattered, but on the 24th and the 28th more general rain was experienced, with a few heavy falls. Wellington, for instance, had 152 points for the twenty-four hours preceding 9 a.m. on the 25th, the heaviest fall recorded in the city so far this year.

Fortunately, strong winds were infrequent, and the month, on the whole, was consequently a mild and pleasant one.

In addition, the successful tenderer shall continue to pay ground rent half-yearly in advance during the currency of the license.

Terms and Conditions.

1. All instalment-payments shall be secured by "on demand" promissory notes made and endorsed to the satisfaction of the Commissioner of State Forests, and interest at the rate of 1 per cent. per annum in excess of current bank overdraft rates will be charged on all notes overdue from the date of maturity to the date of payment.
2. The right to cut and remove the timber will be sold in accordance with the provisions of the Forests Act, 1921-22, the regulations in force thereunder, and these conditions.
3. The aforementioned qualities, quantities, and kinds as to the said timber shall be taken as sufficiently accurate for the purposes of this sale, and no contract for the purchase shall be voidable, nor shall the successful purchaser be entitled to any abatement in price, by reason of the said timber being of less quantity, quality, or kind as stated herein or in any advertisement having reference to the said timber.
4. The attention of all tenderers is drawn to the fact that the local controlling body may require the successful tenderer to pay any claims or charges which may be made by that body for the maintenance of the road over which the timber may be transported, and before a sawmill license is issued a letter indicating that satisfactory arrangements have been made in this connection must be produced to the undersigned.
5. A return, giving the number of logs cut and their contents, must be made quarterly by the licensee on the last days of March, June, September, and December, respectively, in each year. A return must be made on the same dates showing the output of sawn timber. These returns may be ascertained and verified by inspection of the books of the mill, or by such other means as the Conservator may require, and for this purpose the accounts and books shall be open to the inspection of the Conservator, a Forest Ranger, or other duly authorized officer.
6. Intending tenderers are expected to visit the locality and to satisfy themselves in every particular on all matters relative to the sale.
7. Each tenderer must state the total price that he is prepared to pay for the timber. The highest or any tender will not necessarily be accepted, and the timber described is submitted for sale subject to the final acceptance of the tender by the Commissioner of State Forests.
8. The right is reserved to the Commissioner of State Forests to withdraw from sale any or all of the said timber either before or after the closing date for receipt of tenders.
9. If no tender is accepted for the timber herein mentioned it will remain open for application at the upset price until further notice.
10. Tenders should be on the special form obtainable from any office of the State Forest Service, and should be enclosed in envelopes addressed "Conservator of Forests, Nelson," and endorsed "Tender for Timber."
