COPIES TO BE SOLD.

4. A printed copy of this by-law may be obtained from the Secretary by the owner of any building or any resident in the district for the sum of one shilling.

GENERAL APPLICATION.

6. This by-law shall apply to all buildings within the district save as next hereinafter provided.

EXEMPTIONS.

7. This by-law shall not apply to any building—
- (a) Which has no floor or story above the ground floor; or
 - (b) For which a publican's license or accommodation license under the Licensing Act, 1908, has been issued and is in force; or
 - (c) Which is lawfully used for any one or more of the purposes set out in section 71 of the said Act, and for no other purpose.

APPLICATION TO PUBLIC BUILDINGS.

8. In the application of this by-law to any building which is used for any one or more of the purposes set out in section 71 of the said Act, and also for any other purpose, this by-law shall not be deemed to require any matter or thing contrary to any requirement made pursuant to the said section 71 or to any by-law made thereunder; but, except as aforesaid, compliance with any requirement made pursuant to the said section 71 or to any by-law made thereunder shall not relieve any person from liability to comply with the requirements of this by-law.

APPLICATION TO FACTORIES.

9. In the application of this by-law to buildings which are subject to section 43 of the Factories Act, 1921-22, this by-law shall not be deemed to require any matter or thing contrary to the said Act or any regulations made thereunder, or contrary to any requisition made thereunder; except as aforesaid, compliance with the said Act, regulations, and requisitions shall not relieve any person from liability to comply with the requirements of this by-law.

NOMINAL CAPACITY OF BUILDINGS.

10. The nominal capacity of a building shall be ascertained according to the nature and use of the occupancy thereof in manner following:—

- (a) Except as provided in the subsequent paragraphs hereof, the nominal capacity shall be a number of units equal to the largest number of persons likely, in the opinion of the Superintendent, to be present in the building at any one time;
- (b) In the case of every building in which sleeping-accommodation is provided for a number of persons exceeding nineteen but not exceeding one hundred, for the purposes of the last preceding paragraph hereof, every person for whom sleeping-accommodation is provided shall be reckoned as one and a half units;
- (c) In the case of every building in which sleeping-accommodation is provided for more than one hundred persons, for the purposes of paragraph (a) of this clause, every person for whom sleeping-accommodation is provided shall be reckoned as two units;
- (d) In the case of every building in which such largest number of persons is one hundred or more, the nominal capacity shall be the number of units ascertained under the preceding paragraphs hereof (so far as applicable), increased by fifty per centum;
- (e) In the case of every building, being an institution used for sick or infirm persons or children, and every building which by reason of the construction or situation thereof or the nature of the use or occupancy thereof is, in the opinion of the Superintendent, liable to unusual damage from fire or unusually exposed to risk of fire, or liable to subject its inmates to unusual risk in the event of fire, the nominal capacity shall be one and a half times the number of units ascertained under all the preceding paragraphs of this clause (so far as applicable):

Provided that in no case shall any account be taken of persons present or likely to be present only in the ground-floor of the building or any part thereof below the ground-floor:

Provided also that whenever a structural alteration or addition to a building is made, or whenever, in the opinion of the Superintendent, a change in the nature of the use or occupancy of a building has occurred or is likely to occur, or whenever there has been an erection, alteration, or change of use of any building in the vicinity of a building, or whenever any matter has occurred by reason of which the inmates of a building are, in the opinion of the Superintendent, exposed to increased risk of danger from fire, the Superintendent may make a fresh computation of the nominal capacity of such building.

NOMINAL CAPACITY OF PARTS OF BUILDINGS.

11. The nominal capacity of any story or other part of a building required to be ascertained separately shall be ascertained in the like manner as aforesaid, *mutatis mutandis*.

PART II.—OWNER TO PROVIDE FIRE-ESCAPES.
NEW BUILDINGS.

12. The owner of every building hereafter erected shall, before such building is occupied by any person, provide in connection therewith the fire-escapes hereby declared to be necessary for such building.

EXISTING BUILDINGS.

13. The owner of every building heretofore erected shall, within a reasonable time after being required by the Superintendent by notice in writing so to do, provide in connection therewith the fire-escapes hereby declared to be necessary for such building.

BUILDINGS SUBJECT TO BY-LAW BY CHANGE OF USE.

14. When the nature of the use or occupation of any building, whether heretofore or hereafter erected, to which this by-law does not apply is changed so that this by-law applies thereto the owner of such building shall, within a reasonable time after being required by the Superintendent by notice in writing so to do, provide in connection therewith the fire-escapes hereby declared to be necessary for such building.

BUILDINGS SUBJECT TO BY-LAW BY STRUCTURAL ALTERATION.

15. When structural additions or alterations are made to any building, whether heretofore or hereafter erected, to which this by-law does not apply so that this by-law applies thereto, the owner of such building shall forthwith (and without the necessity of any notice) provide in connection therewith the fire-escapes hereby declared to be necessary for such building.

FRESH COMPUTATION OF NOMINAL CAPACITY.

16. When a fresh computation of the nominal capacity of any building has been made as hereinbefore provided, the owner of such building shall, within a reasonable time after being required by the Superintendent by notice in writing so to do, provide in connection therewith the fire-escapes hereby declared to be necessary for such building according to such fresh computation.

PART III.—FIRE-ESCAPES DECLARED TO BE NECESSARY.

NUMBER OF FIRE-ESCAPES PER BUILDING.

17. It shall be necessary for every building to be provided with a separate and sufficient fire-escape not connecting with any other fire-escape for every one hundred units or part of one hundred units of the nominal capacity of the building; and, where the nominal capacity of any story of a building exceeds one hundred units, it shall be necessary for such story to be provided with a separate and sufficient fire-escape not connecting with any other fire-escape for every complete one hundred units of the nominal capacity of that story.

ALTERNATIVE ESCAPES.

18. In every case where the nominal capacity of any building or part of a building entails the provision of more than one fire-escape, the number of fire-escapes provided shall be such that each fire-escape is sufficient for a nominal capacity of at least one-third more than a nominal capacity, ascertained by dividing the total nominal capacity of such building or part of a building by the number of fire-escapes provided:

Provided that for the purposes of this and the last preceding clause hereof any fire-escape of greater width at every exit than the minimum width prescribed by clause 38 hereof shall be deemed sufficient for an additional twenty-five units of nominal capacity for every complete 2 ft. of width additional to the said minimum.

NUMBER OF EXITS PER STORY.

19. It shall be necessary for every story of a building to be provided with a separate exit to a fire-escape for every fifty units or part of fifty units of the nominal capacity of that story.

DISTANCE TO EXIT.

20. It shall be necessary for every room in a building (exclusive of bath-rooms, lavatories, and other rooms of a like nature) to have access to a sufficient fire-escape access to which is obtained either directly or by means of a level unimpeded passage-way of a length measured along the course thereof of not more than 100 ft. from the door or nearest door of such room to the exit:

Provided that in the case of a building so constructed that the distance in a straight line from the door of any room to the nearest exterior wall of the building having space beside it for a fire-escape is a distance of more than 100 ft., then in respect of such room such distance shall be deemed to be substituted for the length of 100 ft. hereinbefore prescribed.

FIRE-ESCAPES TO COMPLY WITH BY-LAW.

21. No fire-escape shall be deemed sufficient for the purposes of this by-law unless it conforms in all respects with the requirements relating to fire-escapes hereinafter contained, and unless the exits thereto conform in all respects with the requirements relating to exits hereinafter contained, and unless it is at all times maintained in good, sound, and substantial order and condition, and unless all moving parts thereof and of all exits thereto are at all times maintained in free working condition.

CLEARANCE OF FIRE-ESCAPES.

22. No fire-escapes shall be deemed sufficient for the purposes of this by-law if—

- (a) At any time any part thereof is occupied by any goods or other movable article:
- (b) The space to a height of 6 ft. above any part of the footway is at any time occupied by any object so as to reduce the width of the space vertically above the footway of the fire-escape below the minimum width of 30 in. prescribed by clause 38 hereof.

APPROVAL OF PLANS.

23. Any person proposing to provide a fire-escape for any building, whether in pursuance of any requirement under this by-law or otherwise, shall submit to the Superintendent particulars of plans and specifications of such fire-escape and the exits thereto, and of such building, and of the actual or intended nominal capacity thereof, and if the Superintendent considers such particulars sufficient to enable him to do so he shall, by notice in writing, approve the same, and a fire-escape with exits thereto, both constructed in accordance with such plans and specifications shall, if such construction has been commenced within three calendar months of the date of such approval, be deemed (so far only as regards matters appertaining to the design and construction thereof) to be sufficient for the purposes of this by-law.

UNIMPEDED PASSAGE-WAYS.

24. No passage shall be deemed an unimpeded passage-way for the purposes of this by-law unless it complies with all the following requirements:—

- (a) It lies for the whole of its course on one floor of the building:
- (b) It is of a height at its lowest part of at least 8 ft. and a width at its narrowest part of at least 3 ft.:
- (c) It is separated by a substantial partition from any staircase, lift-well, or other opening extending through any floor of the building:
- (d) It is not at any time occupied by any furniture, curtain, or other movable object placed so as to reduce the height and width of the passage-way below the aforesaid minimum measurements:
- (e) It is provided with a notice of the words "TO FIRE-ESCAPE" and a mark of direction, both permanently marked on or affixed to a wall thereof in a conspicuous position and in conspicuous lettering at least 6 in. high at every place where two or more passages meet or the passage-way changes its direction:

Provided that the requirements set out in paragraph (e) hereof shall not apply to a passage in any part of a building which part is occupied solely as a private dwelling or solely as an office, warehouse, or counting-house in which not more than ten persons are regularly engaged.

PART IV.—EXITS.

SIZE OF EXITS.

25. The exit of every fire-escape shall be a window, door, or other opening in the exterior wall of the building of such a size that when opened it shall not in any part be less than 3 ft. wide nor less than 6 ft. high, exclusive of any projections or fittings connected therewith:

Provided that in case of an exit serving only for one room having not more than five hundred square feet of floor-space it shall be sufficient if the exit, when opened, has a rectangular space of at least six square feet and a width unobstructed by projections or fittings of at least 30 in.

LEVEL OF EXITS.

26. UPPER TERMINATION.

30. The top of every fire-escape shall end at a landing giving convenient access to the roof of the building which it serves, or of some adjacent building, except in cases where, in the opinion of the Superintendent, such access would result in danger.

39. (a) No stairway shall have a pitch of more than one in three-quarters or less than one in one-and-three-quarters.

(b) The tread of any step of a stairway shall be not less than 9 in., measured as provided by clause 5 of this by-law.

PART VIII.—DISCRETIONS AND APPEALS.

DISPENSING POWER.

50. If in the opinion of the Superintendent safeguards other than fire-escapes are provided for prevention of danger from fire or for facilitating the escape of persons in case of fire in connection with any building then, according to the extent to which such safeguards are in the opinion of the Superintendent adequate for the purposes aforesaid, the Superintendent may, by notice in writing to the owner, waive compliance with any requirement of this by-law in respect of such building, either wholly or in part or for a limited time, and subject to such conditions as in any particular case he may think fit:

Provided that no such waiver shall restrict the right of the Superintendent at any time thereafter, upon giving notice in writing to the owner of his intention so to do, to exact full compliance with any requirement so waived:

Provided also that the powers hereby conferred shall not be exercised so as to permit any of the following matters:—

- (a) The provision at an access of a door or window arranged so as to open vertically contrary to clause 27 hereof or otherwise than by swinging outwards or sliding laterally (except where permitted under the provisoes to the said clause 27).
- (b) The substitution of a fire-escape in the form of a ladder with rungs in any case where this by-law requires a fire-escape to be provided in the form of a stairway.
- (c) The use for the purposes of a fire-escape or any part thereof of rope or any other perishable material.

BOARD MAY ASSUME POWERS OF SUPERINTENDENT.

51. Where by this by-law power is given to the Superintendent to decide any matter, exercise any discretion or power, waive any requirements, or approve anything, the Board may of its own motion, and either before or after the Superintendent has taken action thereon, take such matter into its own consideration, and the opinion or discretion of the Board shall be substituted for that of the Superintendent, and the action of the Board shall be substituted for any action theretofore taken by the Superintendent.

OWNER'S RIGHT OF APPEAL.

52. Where by this by-law power is given to the Superintendent to decide any matter, exercise any discretion or power, waive any requirements, or approve anything, and action has been taken accordingly by the Superintendent, or by the Board in place of the Superintendent, any person

affected thereby may, by notice in writing addressed to the Board or the Secretary and delivered at the office of the Board, apply to the Board to reconsider such action, and the Board shall thereupon take the matter into its consideration, and after the person affected has been afforded a reasonable opportunity of submitting to the Board any relevant matters of fact or opinion and any evidence thereon, the Board shall either confirm, modify, reverse, or otherwise deal with the action previously taken.

PART IX.—OFFENCES AND PENALTIES.
