If he desires to make any request to the Board, or submit any matters for consideration, he shall do so by means of a signed memorandum attached to the report.

- (b) Absenting himself without sufficient excuse from any drill or practice ordered by the Superintendent, or from any false alarm or fire.

LEAVE OF ABSENCE.

11. (a) Leave of absence for any period not exceeding fourteen days may, on the application of any member of the brigade, be granted by the Superintendent, who shall record same in his occurrence-book.

(b) Any member of the brigade desiring leave of absence for a longer period than fourteen days shall apply in writing addressed to the Superintendent, who shall forward such application to the Secretary of the Board with such recommendation as he may think fit, and leave of absence for such longer period shall only be granted by the Board.

(c) Change of Address.—It shall be the duty of any member changing his address to notify the Secretary of such change.

BRIGADE MAY MAKE RULES.

12. Subject to the approval of the Board, and provided they in no way conflict with any provision of these by-laws, the brigade may make rules and regulations for its own government.

BRIGADE PREMISES NOT TO BE ABUSED.

13. Betting or gambling shall not be permitted on any part of the brigade premises, nor shall any noisy recreation be indulged in therein or thereabout, and no property other than that of the brigade shall be brought into or left on the premises.

15. Stores required for use of the brigade, and repairs required to any of the premises or gear, shall only be obtained or carried out by direction of the Board on requisition signed by the Superintendent. Neither the Superintendent nor other officer for the time being in control of the brigade shall have any authority to purchase on behalf of the Board nor to in any way pledge the Board's credit for repairs or material.

MEMBERS OF BRIGADE NOT TO WRITE TO THE PRESS ON FIRE-BRIGADE MATTERS.

16. No member of the brigade shall under any circumstances write any letters or furnish information to the press on matters connected with the Board or brigade, save that the Superintendent or Deputy Superintendent or, in the event of no such superior officer being present, the senior on duty may give particulars regarding any fire which has been attended.

FIRE POLICE AND SALVAGE CORPS.

17. The members of the force established by the Board under the authority of section 62 of the Fire Brigades Act, 1926, for the purpose of attending at fires and saving properties shall be enrolled by the Secretary as a fire police and salvage corps. The control of such corps shall vest in and be exercised by the officer elected to be captain by the members and approved by the Board. The duty of such fire police shall be to attend at any fire to aid and assist the regular Police Force, to watch over any properties saved, to preserve order, and carry out any instruction which may be given by the Superintendent or Deputy Superintendent or such other officer of the fire brigade in command on the spot. Such instructions to be conveyed as far as possible through the captain or officer in charge of the fire police.

GRATUITIES FOR VOLUNTEER OR OTHER SERVICES.

18. For the performance of any volunteer or special services rendered by any person, whether a member of any brigade or not, in respect of any fire there may be paid out of the funds of the Board such sum as the Board or any committee authorized by the Board may direct.

ELECTRIC FIRE-ALARM CIRCUITS.

19. The Board may establish or contract with any person or corporation for the establishment of an electric fire-alarm circuit, or may take over any such circuit now or hereafter established by the Port Chalmers Borough Council, and may from time to time extend such circuit and provide for the connection therewith of street alarms and public and private buildings and premises. All connections of alarms installed in public or private buildings or premises, and alterations to the same shall be carried out to the approval of the Board at the cost of the owner of the property to be connected, and the cost of maintenance and of the periodical examination and testing of such connections shall be borne by the owner of the property connected, and all such connections shall be efficiently maintained to the satisfaction of the Board or the officer appointed by the Board for that purpose. With the consent of the owner such cost may be commuted to the payment of such annual sum as may be agreed on between the Board and the owner.

IN RESPECT OF FIRES ON BOARD ANY SHIP OR VESSEL.

20. If any brigade or any portion of any brigade established and maintained by the Board attends and performs any services at a fire taking place on board any ship or vessel, then the owner of such ship or vessel shall pay to the Board for such attendance and service the undermentioned rates as fixed by the Board not exceeding:—

Superintendent or officer in charge of brigade: First hour, £1 1s.; each succeeding hour, 10s. 6d.

Each fireman: First hour, 5s.; each succeeding hour 2s. 6d.

The said charges to be reckoned as from the time the brigade leaves the station until it returns to the station.

NOTE.—The weather during the month was seasonable, but the average mean temperature was below normal. Precipitation was 42 per cent. below the average, and it was the driest August since 1915. Total bright sunshine, 134-7 hours, 41 per cent. of the possible, and four sunless days. Frost was recorded on the grass on six mornings. A few flakes of snow were seen on the 4th. Hail fell on the 4th and 12th, lightning was seen on the 9th, and fog was in evidence on four days. Mean dew-point at 9 hrs., 41-5°; and mean vapour pressure, 0-261 in.

SUMMARY FOR THE MONTH OF AUGUST, 1931.

General.—There were several brief periods of stormy weather during August, but, on the whole, there was a considerable improvement in conditions over those of the two preceding winter months. Temperatures were again below normal over the greater part of the Dominion. Cold frosty nights were frequent but, on the other hand, many mild spring-like days were experienced and, as a result, there was a moderate growth of pasture. Stock have kept in fair condition, although a considerable amount of supplementary feeding had to be resorted to in parts of the East Coast districts, where the growth of grass had been retarded through a deficiency of rain combined with below-normal winter temperatures.

Rainfall.—The total rain for the month was below the average over the greater portion of the North Island, a slight excess only being recorded in parts of the Taranaki district. In the South Island, Marlborough and North Canterbury experienced less than the normal, while the remaining districts nearly all had above-normal aggregates, the excess in many cases being considerable.

The storms recorded during the month were in very few cases responsible for any particularly heavy rains except at a few isolated places, chiefly in western districts, the falls generally being more of a showery nature.

Pressure Systems.—During the first four days a very intense and extensive westerly depression was situated over and to the east of New Zealand, and stormy west to south-west winds prevailed, which in some districts developed almost hurricane force at times. They were accompanied by occasional heavy showers and, in places, hail. Snow also fell during this period on much of the high country, and on the 4th there was quite a heavy fall of snow in Central Hawke's Bay. Much damage resulted from this storm in various parts of the country. At Ohai, in Southland, the roofs of several houses were lifted, some chimneys were blown down, and trees uprooted.

From the 5th to the 11th, except for some scattered showers, the weather was mainly fine under the influence of an anti-cyclone which moved gradually across the Dominion. On the 11th, however, barometers commenced to fall with the approach of a steep westerly depression, and on the 12th a widespread north-west gale blew and heavy rain fell in the western districts. The nor-wester was an extremely fierce one in Canterbury, causing damage to telegraph wires through falling trees. In Christchurch many sheds were unroofed and fences blown down.

The next important disturbance was again one of the westerly type, but it developed a centre in its southern portion, the latter crossing the southern districts during the night of the 16th. Beneficial rain set in with the southerly change on

the night of the 16th in Canterbury and Otago, and continued throughout the 17th. Although the falls were not heavy they relieved the situation in these districts where the land was showing the detrimental effect of the continued dry weather and strong westerly winds.

Another depression, but of moderate intensity, which crossed over the country between the 23rd and 26th, brought rain of a scattered nature. Some heavy falls, however, occurred in Westland about this time, but very little fell in Canterbury, and practically none in Hawke's Bay. On the afternoon of the 24th, while the low centre connected with this disturbance was situated off the west coast of Otago, a waterspout passed in the vicinity of Westport.

During the last three days of the month the weather was affected by an extensive double-centred cyclone. The first centre passed in the south on the night of the 29th, while the following one moved up the west coast and eventually crossed the northern districts during the night of the 31st. Unsettled, dull, misty weather was associated with this depression, and rain fell at times in nearly all parts of the Dominion.

In addition to the depressions already mentioned, there were three occasions when cyclones moved down from the north-east and passed to the east of East Cape. Their nearest approach to the latter point occurred on the 15th, 22nd, and 28th respectively, and their effects were confined chiefly to the East Cape and Gisborne areas. About these dates strong southerly winds blew in these districts, but unfortunately the accompanying rains were only light and scattered along the east coast of the North Island, where relatively dry conditions persisted throughout the month.
