SEA FISHING-BOATS.

8. In these regulations the term "boat" or "boats" shall mean and include all boats or vessels used or intended to be used for taking fish or oysters for sale.

9. The ports or places set forth in the first column of the First Schedule hereto shall be ports or places of registry for boats, and the letter or letters set forth in the second column of that Schedule shall be the distinguishing letter or letters for those ports or places respectively.

10. A register of boats in the form set forth in the Second Schedule hereto, or in such other form as may be from time to time prescribed by the Governor-General in Council, with a consecutive series of numbers, shall be kept by the Superintendent at the port or place to which such boats belong, or at the port nearest to such place.

11. The owner of any boat shall make application to the Superintendent to have such boat entered on the register, and shall obtain for every boat belonging to him a certificate of registry in accordance with these regulations.

12. The application in the form set forth in the Third Schedule hereto, and with the particulars therein indicated, shall be made to the Superintendent of the port or place of registry to which the boat belongs, or from which she hails, or at which she is for the time being employed, or nearest thereto.

13. The Superintendent, on the receipt of the application, shall register the boat in accordance with the particulars contained in the application, appoint a number for it, and issue the certificate of registry to the applicant. The certificate shall be in the form set forth in the Fourth Schedule hereto, and the letter or letters to be inserted in the certificate shall be the distinguishing letter or letters of the port or place of registry.

14. At least once in every year the owner of any boat shall submit the certificate of registry of his boat for examination to a Superintendent, and shall report any alteration respecting the boat or her employment.

15. The Superintendent to whom the certificate is submitted shall endorse his name thereon and the date of examination. If he is not the Superintendent at the port of registry, he shall report the examination to the Superintendent at the port of registry, and in the case of any change being reported respecting the boat he shall forward the certificate of registry to the Superintendent at the port of registry for correction, and the Superintendent shall forthwith make such alterations as may be necessary in the register and certificate of registry.

16. The Superintendent shall forward annually to the Secretary, Marine Department, Wellington, a list of all boats on the register at his port on the 31st December.

17. After registration no change shall be made in the name of any boat unless the Marine Department is satisfied that the application for such change of name is made on reasonable and sufficient grounds and directs that the name may be changed. In the event of such direction being given, the name of the boat may be changed, and the register and certificate altered accordingly. In all cases of change of name the former name shall also appear on the register and on the certificate: Provided that if any boat is registered under Part IV of the Imperial Act known as the Merchant Shipping Act, 1894, or any Act in force in the Dominion in place thereof, her name shall not be altered except in accordance with the provisions of that Act.

18. On a change of ownership of any registered boat—

(a) The new owner shall make application for the registry of the boat in the manner prescribed by these regulations:

(b) The previous owner shall deliver up the certificate of registry to the Superintendent at the port or place of registry, and the Superintendent shall thereupon cancel the certificate and note the cancellation in the register against the registry of the boat.

19. On the transfer of any boat to another port or place of registry the owner of the boat shall apply in writing to the Superintendent at the port or place to which the boat belongs to transfer the registry of the boat from that port or place, and shall deliver up the existing certificate of registry for cancellation, or account for the same to the satisfaction of the Superintendent; and the Superintendent shall transmit

the application, together with all necessary particulars relating to the boat, to the Superintendent at the port or place at which it is desired the boat shall be registered. The last named Superintendent shall thereupon enter the boat in the register at his port or place, and shall grant a fresh certificate of registry, and the previous registry shall cease to have effect.

20. In the event of a registered boat being either actually or constructively lost, burnt, or broken up, or ceasing to be a sea-fishing boat, the owner shall immediately give notice thereof to the Superintendent at her port or place of registry, and shall deliver up to the Superintendent the certificate of registry, or account for the same to the satisfaction of the Superintendent. The Superintendent shall thereupon cancel the certificate, and note the cancellation in the register against the registry of the boat.

21. If from any representation made by the owner or otherwise the Marine Department is satisfied that any boat has ceased to exist as a sea fishing-boat, although the owner may have omitted or been unable to give notice of the same, it may direct that the registration of such boat shall be cancelled.

22. When the owner of a boat applies to and proves to the satisfaction of the Superintendent at the port or place of registry that the certificate of registry has been lost or destroyed the Superintendent may upon payment of a fee of 2s. 6d. grant the owner a copy of the certificate of registry certified under the Superintendent's hand to be a true copy, and that copy shall have all the effect of the original.

23. The registered owner of each boat shall paint or cause to be painted thereon the name of such boat and that of the port or place of registry, in white oil colour on a black ground, or in black on a white ground, on each bow and on the stern of the boat, in letters which shall be not less than 3 in. in height and  $\frac{1}{4}$  in. in breadth.

24. Within seven days after the registration of any boat the registered owner thereof shall in the following manner mark or cause to be marked such boat with the letter or letters and the number to be assigned to her in the register:—

- (a) The letters shall precede the number.
- (b) The letters and numbers shall be placed on each bow of the boat 3 in. or 4 in. below the gunwale, so as to be clearly visible.
- (c) In the case of steamers the letters and numbers shall, in addition, be placed in a similar manner on each quarter, and of a conspicuous size, on the funnel 12 in. from the top, and as far as possible on the foremost half of the circumference.
- (d) The letters and number shall be painted in white oil colour on a black ground, or in black oil colour on a white ground.

Provided that in the case where the hulls are painted an intermediate shade a black or white ground shall be provided for the letters and numbers, and the letters and numbers shall be of the opposite colour to the ground.

25. The provisions of section 24 herein shall not apply to regular coastal trading-vessels duly registered and licensed in accordance with the provisions of these regulations.

26. (1) The same letters and number shall be painted in oil colour on each side of the centre cloth or cloths of the mainsail of the boat immediately above the close reef, and in such a manner as to be plainly visible; or the same may be painted in oil colour on separate pieces of canvas or other suitable material, which shall be sewn on each side of the sail in the position herein described. They shall be painted on white sails in black, and on black sails in white, and where the sails are of an intermediate shade the said letters and number shall be painted in black on sails of light shade and in white on sails of dark shade.

(2) Provided that in case of a lug-sail boat the letters and number shall be placed on the sail which is commonly used when the boat is engaged in fishing.

(3) Whenever the Superintendent at the port or place of registry reports to the Marine Department that he is in doubt as to the effectiveness for the purposes of these regulations of the colour of the letters and number in the case of a boat having any sail of intermediate shade, or whenever any question arises as to the effectiveness for the purposes of these regulations of the colour of the letters and number for any sail of intermediate shade, the letters and number shall be painted in black or white, as the Marine Department may in each case direct.

27. (1) The letters and numbers shall be on the hulls 6 in. at least in height and  $\frac{1}{4}$  in. at least in breadth, and on the sails one-third larger every way.

(2) Provided that in boats which have a "bend-piece" or "rubbing-streak" the letters and numbers shall be as high as the space above it will admit. In boats where the space between the gunwale and water-line is not sufficient for the prescribed height, the letters and numbers shall be as high as the space will permit.

(3) In all cases a space equal to one-third of the height of the letters shall be left between every two letters and every two figures forming the number, and the letters shall be separated from the number by twice the same space.

28. The names, letters, and numbers herein prescribed shall at all times be effectively kept up and renewed by the registered owner of the boat when required, and a boat shall not have either on its outside or on its sails any letters or numbers other than those herein prescribed:

Provided that in the case of any boat only temporarily engaged in fishing for the purposes of sale so much of these regulations as requires that letters and numbers shall be permanently affixed to the hull and sails or funnel shall not apply if such letters and numbers are temporarily affixed thereto during the whole period of fishing by means of board, canvas, or iron in a manner otherwise provided for according to these regulations.

29. No person shall efface, alter, make illegible, cover, or conceal in any manner whatsoever the names, letters, or numbers, or be a party or privy to so doing.

30. All small boats carried by or attached to sea fishing-boats as tenders or otherwise shall be marked with the same letters and numbers as the boats to which they belong.

31. Fishing vessels or boats which are registered under Part XII of the Shipping and Seamen Act, 1908, shall for the purposes of the Fisheries Act, 1908, be deemed to be of the register tonnage shown by their certificates of registry issued under the aforesaid Shipping and Seamen Act, 1908.

32. The register tonnage of boats not registered under Part XII of the Shipping and Seamen Act, 1908, shall for the purposes of the Fisheries Act, 1908, be determined as follows:—

$$L \times B \times D \times 0.45 = \text{approximate tonnage under deck.}$$

- L = Length. Measure the length from fore part of head of stem to after part of head of stern-post, or after part of transom or tuck in case of a transom or tuck stern without post on same at upper part.
- B = Breadth. Measure extreme breadth of boat outside.
- D = Depth. Measure depth amidships.

In the case of decked boats the measurement shall be from the under side of deck to the upper side of floor timbers at side of keelson, deducting thickness of ceiling. If this depth cannot be taken owing to fixed ballast, measure depth down the pump-well and deduct 1 in. per foot from same on account of depth of floor and thickness of ceiling.

In the case of a break or breaks above the line of deck multiply together the length, breadth, and height of the space or spaces, divide each product by 100, and add to the tonnage under deck.

All measurements are to be taken in feet and tenths of a foot.

From the tonnage so ascertained a deduction of 25 per cent. is to be made for engine-space in the case of vessels propelled by steam or other mechanical power than steam.

33. All fishing-boats which are employed in the home-trade or in river or extended-river limits and which are not required by the Shipping and Seamen Act, 1908, to be registered shall, at the owner's election, for the purpose of registry be measured for gross tonnage either under Regulation 31 or 32 of these regulations, or as follows:—

(1) Measure the length on the uppermost deck from the outside of the outer plank at the stem to the aft side of the stern-post, deducting therefrom the distance between the aft side of the stern-post and the rabbet of the stern-post at the point where the counter-plank crosses it; measure also the greatest breadth of the ship to the outside of the outer planking or wales, and then, having first marked on the outside of the ship, on both sides thereof, the height of the upper deck at the ship's sides, girth the ship at the greatest breadth in a direction perpendicular to the keel from the height so marked on the outside of the ship on the one side to the height so marked on the other side by passing a chain under the keel; to half the girth thus taken, add half the main breadth; square the sum; multiply the result by the length of the ship taken as aforesaid; then multiply this product by the factor 0.0018 (eighteen ten-thousandths) in the case of ships built of wood, and 0.0021 (twenty-one ten-thousandths) in the case of ships built of iron, and the product shall be deemed the gross tonnage of the ship.

(2) If there be a break, a poop, or other closed-in space on the upper deck the tonnage of that space shall be ascertained by multiplying together the main length, breadth, and depth of the space, and dividing the product by 100, and the quotient so obtained shall be deemed to be the tonnage of the space, and shall be added to the tonnage of the ship ascertained as aforesaid.

34. In the case of any such boats that are propelled by any mechanical power an allowance shall be made in respect of propelling-space of 25 per cent. of such gross tonnage

35. An allowance shall also be made from such gross tonnage in respect of any space or spaces in such boats appropriated solely to the use of the master or the crew thereof. The tonnage of such space or spaces shall be ascertained in accordance with the rules for measuring crew-spaces made under the Shipping and Seamen Act, 1908.

36. Every space deduction for which it is claimed under the last preceding regulation shall be inspected by a Surveyor of Ships, and shall be constructed, lighted, and ventilated to his satisfaction, and be certified by such Surveyor accordingly, and also similarly as being sufficient in extent for the purpose of accommodating the said master or crew, taking into consideration the class of boat and the limits within which she is employed. No deduction from tonnage shall be allowed in respect of any such crew-space unless so approved and certified.

37. Every space for which deduction of tonnage is made shall be used solely for the specific purpose respectively hereinbefore mentioned, and shall at all times be kept free from goods, fish, or stores (except the personal property of the master or crew), and shall be marked over the doorway or entrance thereto in a permanent manner and to the satisfaction of the Surveyor of Ships denoting the purpose for which the space is used and the number of men each space is certified to accommodate.

38. If any such crew-space is not so kept clear of goods, fish, or stores, then the provisions of clause 4 of section 122 of the Shipping and Seamen Act, 1908, shall apply to such case.

39. For the purpose of determining the register tonnage of fishing-boats referred to in Regulation 33 hereof, the allowances aforesaid shall be deducted from the gross tonnage ascertained as aforesaid, and the balance then remaining shall be the register tonnage of such boats.

40. The owner of every boat measured under these regulations shall before the issue of certificate of registry pay a measurement fee of £1 to the Superintendent.

41. The owner of any such boat may appeal to the Minister of Marine as to the disallowance hereunder of any crew-space, and the Minister's decision as to allowance of such space or otherwise shall be final and conclusive. Any cost which may be incurred by the Minister in connection with such appeal shall be borne by the owner of the boat, and the Minister may require a deposit for such expense before dealing with the appeal.

42. No alteration in any space as aforesaid shall be made without the consent first obtained of a Superintendent, and if made without such consent the certificate of registry shall thereupon be deemed to be cancelled and void for any purpose whereby tonnage of fishing-boats is considered or used.

43. The register tonnage as determined under these regulations shall be cut in on the main beam or such other portion of the boat as the Superintendent may determine.

44. Every person commits an offence who—

- (a) Takes any fish for sale from any vessel or boat other than a duly licensed fishing-boat; or
- (b) Sells or offers or exposes for sale any fish which he knew or had reasonable cause to believe to have been taken (whether for sale or not) from any vessel or boat other than a duly licensed fishing-boat; or
- (c) Has on board any licensed fishing-boat explosives of any description whatever without the written consent of a Superintendent; or
- (d) Has on board any firearms, unless authorized to do so in writing by the Superintendent, who may, if satisfied that firearms are required for a legitimate purpose, grant such permission; or
- (e) Has a dog on board any licensed fishing-boat when out of the port to which the boat belongs.

45. The owner of any licensed fishing-boat shall be responsible for the good conduct of the crew of the boat, and shall not employ or allow to be employed or to go on board of his boat any person known to the police to be a thief or a person of dissolute habits or bad character.

46. The owner of every licensed fishing-boat shall, within fourteen days after the end of every month, forward to the Secretary, Marine Department, Wellington, a return, in the form prescribed in the Fifth Schedule hereto, of all fish caught by such boat during the immediately preceding calendar month.

In case of dispute or doubt a ½ lb. weight shall be slung or attached to one knot of the mesh in order to produce a fair strain or extension, and the space between the top and bottom knot shall be measured forthwith while the mesh remains extended. If the net to be measured is dry, the part to be measured shall be soaked either in fresh or salt water for not less than ten minutes, and the mesh so soaked shall then be measured.

64. The size of mesh of trawl-net shall be ascertained by measuring the length between knot and knot of opposite corners with the mesh closed, the net being first wetted and stretched, and being tanned, tarred, or otherwise prepared for use. In case of dispute or doubt, a 1 lb. weight shall be slung or attached to one knot of a mesh in order to produce a fair strain or extension, and the space between the top and bottom knots shall be measured forthwith while the mesh remains extended. If the net to be measured is dry, the part to be measured shall be soaked either in fresh or salt water for not less than ten minutes, and the mesh so soaked shall then be measured.

69. When a person is lawfully engaged in setting or placing his nets for the purpose of taking indigenous fish, no other person shall impede him by the process known as "blocking," whereby another person sets or places his nets outside or round or partly round the nets of the person first setting or placing his nets so as to prevent fish getting through to such last-mentioned nets.

70. It shall be lawful for any fishery officer to seize and take possession of all fish unlawfully taken, and also all baskets, nets, receptacles, gear, tackle, or other apparatus which are being used, or which in the opinion of such officer are intended to be used, in contravention of the provisions of the said Act or any regulations made thereunder; and the production by such officer of his warrant of appointment shall be a sufficient authority for his so acting in any of the cases aforesaid.

(3) All nets used for taking fish for market shall be marked with a distinguishing brand. In the case of set nets one float cork at each end of each net shall have plainly branded on it in legible figures the registered number of the boat of the fisherman to whom it belongs; and in the case of seine or hauling nets the registered number of the boat of the fisherman to whom the net belongs shall be branded in plain figures on the first cork at each end of each net.

$$L \times B \times D \times 0.45 = \text{approximate tonnage under deck.}$$

100

L = Length: Measure the length from fore part of head of stem to after part of head of stern-post, or after part of transom or tuck in case of a transom or tuck stern without post on same at upper part.

B = Breadth: Measure extreme breadth of boat outside.

D = Depth: Measure depth amidships.

In the case of decked vessels the measurement shall be from the under side of deck to the upper side of floor timbers at side of keelson, deducting thickness of ceiling. If this depth cannot be taken owing to fixed ballast, measure depth down the pump-well and deduct 1 in. per foot from same on account of depth of floors and thickness of ceiling.

In the case of a break or breaks above the line of deck, multiply together the length, breadth, and height of the space or spaces, divide each product by 100, and add to the tonnage under deck. All measurements are to be taken in feet and tenths of a foot. From the tonnage so ascertained a deduction of 25 per cent. is to be made for engine-space in the case of vessels propelled by steam or other mechanical power than steam.

137. The Superintendent at each port shall, immediately after the 31st day of December in each year, forward to the Secretary, Marine Department, Wellington, a list of whaling-vessels to which licenses have been issued during the year.

A printed form for the purpose will be supplied by the Superintendent with the license for the year. The Superintendent may withhold the renewal of the license for the following year until such return is supplied.

139. Every application for such license shall be in the form prescribed in the said Ninth Schedule hereto. Every license issued by a Superintendent for the establishment and use of a floating whale-factory shall be in the form prescribed in the Ninth Schedule hereto.

140. Every person licensed to use or occupy any part of any foreshore or other Crown land adjacent thereto as a site for a shore factory shall take all reasonable precautions, to the satisfaction of the Minister or of any person appointed by the Minister for that purpose, to prevent any nuisance arising from the drying of the blubber or from any other operation of such factory. A breach of this regulation will render the licensee liable to the cancellation of his license.

The fees payable for licenses to occupy foreshore or Crown land for the establishment of shore whaling-factories shall be such as may be prescribed by the Governor-General in Council when granting the license in each case.

The position of each groyne or trench shall, before construction, be approved by the Superintendent or by an Inspector of Fisheries, and no groyne or trench shall be moved to another position without the approval of the Superintendent or an Inspector.

(2) Each person shall, during the whitebait season, use his groyne or trench at least four days a week, unless prevented by illness, floods, or other reason which the Superintendent or Inspector considers sufficient, failing which his right to the use of the said groyne or trench shall be forfeited.
