CONDITIONS.

1. REGULATIONS.

THIS license is subject to the Electrical Supply Regulations, 1927, the Electrical Wiring Regulations, 1927, and to any regulations made or to be made in amendment or amplification thereof or in substitution thereof.

2. PLANS.

The licensee shall forward for the approval of the Minister of Public Works (hereinafter referred to as "the Minister")—

This license shall terminate on the day when an electric-power Board is prepared to contract with the licensee to supply electrical energy to all buildings on the licensee's property then supplied from the installation hereby licensed at the same unit rates as the Board charges other consumers generally, and without requiring the licensee to contract to pay more than the price of such electrical energy as may from time to time be used on his premises; but unless it is sooner terminated or revoked in accordance with this license or the Electrical Supply Regulations or the Public Works Act, it shall continue in force for a period of twenty-one years from the date hereof. Upon the expiry of the said term, or upon the sooner termination of this license by revocation or otherwise, all rights hereby granted to the licensee shall thereupon cease and determine, but such expiration or determination shall not relieve the licensee of any liability theretofore incurred under this license.

The generator at present installed is rated at one kilowatt 230 volts direct current.

9. GRANTING OF OTHER WATER-RIGHTS.

Nothing herein shall prevent the Governor-General in Council or the Minister from granting to any person or body corporate other than the licensee a license or permit to take water from any portion of the said stream, except at the place where the licensee is by this license empowered to take it: Provided that no such license or permit shall so operate as to enable such person or body corporate to reduce the natural fall between the headworks and tail-water, or the volume of the water which the licensee is by this license authorized to take from the said stream.

If the licensee fails or neglects so to remove the said plant within twelve months after being required so to do, such equipment, machinery, buildings, poles, lines, and other plant shall, without payment of compensation, vest in and become the property of the Crown.

12. SYSTEM OF SUPPLY.

The system of supply shall be as described in paragraph (c) of clause 5 of the Electrical Supply Regulations. The generating and transmission voltage shall be approximately 230 volts between the terminals.

13. CROWN NOT LIABLE TO PAY COMPENSATION.

Nothing in this license shall be held to impose any liability upon His Majesty the King, or upon the Government of New Zealand, to pay compensation to any person, corporate body, or local authority by reason of the exercise by the licensee of the authority hereby granted; but the licensee shall be liable for any loss or damage which any person, corporate body, or local authority may sustain as the result of the exercise by the licensee of any of the powers granted by this license.

14. BED OF STREAM NOT LEASED.

Nothing herein shall be held to constitute a lease from the Crown of the bed of the stream shown on the said plan, nor shall the provisions of Part IX of the Property Law Act, 1908, apply to this license.

15. DEFAULT.

If the licensee fails or neglects to observe any of the conditions or obligations imposed by this license, then and in any such case the provisions of clauses 229 and 230 of the Electrical Supply Regulations shall apply to the breach of any such condition or obligation.

16. ALTERATIONS TO WORKS.

18. CONTRACT BETWEEN LICENSEE AND CROWN.

This license shall be deemed to constitute a contract as between the licensee and His Majesty the King, and may be enforced by and against either party accordingly.

THE RIGHT HON. G. W. FORBES PRESIDING IN COUNCIL.

IN pursuance and exercise of the powers conferred by the Electric-power Boards Act, 1925, Public Works Act, 1928, and of all other powers in anywise enabling him in this behalf, His Excellency the Governor-General of the Dominion of New Zealand, acting by and with the advice and consent of the Executive Council of the said Dominion, doth—subject to the conditions set forth in the Schedule hereto, and to the regulations made under section two of the Public Works Amendment Act, 1911, on the eleventh day of July, one thousand nine hundred and twenty-seven, and published in the *New Zealand Gazette* of the twelfth day of the same month, or any regulations hereafter made in amendment thereof or in substitution therefor (such regulations which are deemed to be incorporated herein, being hereinafter collectively referred to as "the regulations")—hereby grant to the Grey Electric-power Board, being an electric-power Board duly constituted under the provisions of the Electric-power Boards Act, 1925 (hereinafter with its successors and assigns referred to as "the licensee"), a license to take and use from Arnold River (hereinafter referred to as "the said river"), in the Westland Land District, for the purposes hereinafter set forth, a stream of water (hereinafter referred to as "the said water") not exceeding one thousand two hundred cubic feet per second respectively at any one time; and also to erect and use electric lines for power,

lighting, heating, or other uses within that portion of the Grey Electric-power District (as at present constituted) as shown on plans marked P.W.D. 61807 and 61808 (hereinafter referred to as "the said plans"), and deposited in the office of the Minister of Public Works at Wellington, such electric lines at present proposed to be used being indicated on the said plans by white lines. Nothing herein shall be held to guarantee that the said river contains sufficient water to supply the volume of water hereinbefore referred to; and all rights hereby granted shall be subject to all existing rights heretofore granted under the Mining Acts or otherwise.

SCHEDULE.

1. PLANS.

The licensee shall forward to the Minister of Public Works (hereinafter referred to as "the Minister")—

- (a) Full detailed drawings and specifications of the diverting weirs:
- (b) Drawings showing how and in what manner the water diverted is to be returned to the said river:
- (c) Contour-plans showing difference in level of water due to the construction of the headworks:
- (d) Drawings giving full particulars of any tunnels, aqueducts, and pipe-lines used in conveying the water from the headworks to the power-station.
- (e) Drawings showing the arrangement of the generating, switching, and transforming plant in the power-station.

2. UTILIZATION OF THE WATER.

The said water (less such volume of water as is otherwise authorized to be used for mining purposes) shall be used solely for the purpose of generating electricity, and the whole of such water shall be conveyed to the Arnold River at or near the power-house.

3. LOCATION OF HEADWORKS.

The said water shall be taken from the said river at the headworks as indicated on plan marked P.W.D. 74931.

4. GENERAL DESCRIPTION OF WORKS.

The licensee is hereby authorized, subject to the conditions herein contained, to construct, maintain, and use the following works for the purposes of this license, the position of the said works being indicated on the said plan P.W.D. 74931.

- (a) Headworks consisting of weirs and necessary intakes:
- (b) Races, penstocks, and pipe-lines leading from such weirs to the power-house hereinafter referred to; also tail-race from the power-house to the Arnold River:
- (c) Power-house with all necessary equipment, including water-turbines, generators, transformers, lightning-arresters, switchboards, switches, exciters, and other appliances for generating electricity:
- (d) Transmission and other lines over the routes shown on the plans P.W.D. 61807 and 61808 after compliance with the provisions of clause 18 hereof:
- (e) Such further transmission and other lines within the area of supply as may from time to time be required within such area of supply. Any extensions or alterations of lines pursuant to this paragraph shall be made only after compliance with the provisions of clause 21 of the regulations.

5. MAINTENANCE OF WORKS.

The licensee shall maintain the works used under this license in proper working order during the continuance of such license.

6. DURATION OF LICENSE.

This license shall, unless sooner determined in accordance with the provisions hereinafter expressed, continue in force for a period of thirty years from the date hereof. Upon the expiry of the said term, or upon the sooner determination of this license by revocation or otherwise, all rights hereby granted to the licensee shall thereupon cease and determine, but such expiration or determination shall not relieve the licensee of any liability theretofore incurred under this license.

7. RENTAL.

The licensee shall, in respect of this license, pay to the Public Works Engineer for the district, or otherwise as the Minister may from time to time require, a rental at the rate of 2s. 6d. per annum per kilowatt of maximum output, as recorded by the watt-hour meter to be installed by the licensee at the power-house; payment to be made yearly on the 31st day of March in each year, the first payment to be made on the 31st day of March, 1935. For the purpose of this clause "maximum output" means twice the number of units generated and recorded in the half-hour during which the output is the

maximum for the year. Watt-hour-meter readings shall be recorded half-hourly throughout each day, but if generating-station is operated part time unattended, then the watt-hour meter shall be fitted with a maximum demand indicator. The minimum rental shall be £10 per annum.

8. GRANTING OF OTHER WATER-RIGHTS.

Nothing herein shall prevent the Governor-General in Council from granting to any person or body corporate other than the licensee a license to take water from any portion of the said river, except at the place where the licensee is by this license empowered to take it: Provided that no such license shall so operate as to authorize any such person or body corporate to reduce the natural fall between the headworks and tail-water, or the volume of the water which the licensee is by this license authorized to take from the said river.

9. VARIATION IN CONDITIONS OF LICENSE.

The terms and conditions of this license may from time to time, at the request or with the consent in writing of the licensee, be altered by the Governor-General by Order in Council.

10. SURRENDER OF LICENSE.

The licensee may at any time, with the consent of the Minister, surrender this license, and shall thereupon remove from the ground (if so required by the Minister) all removable equipment, machinery, buildings, poles, transmission-lines, and other plant herein authorized to be installed or provided. If the licensee fails or neglects so to remove the said plant within twelve months after being required so to do, such equipment, machinery, buildings, poles, lines, and other plant shall, without payment of compensation, vest in and become the property of the Crown.

11. SYSTEM OF SUPPLY.

The system of supply shall be as described in paragraph (e) of clause 5 of the Electrical Supply Regulations, 1927.

The generating voltage shall be approximately 3,300 between phases and transformed to 33,000 volts for transmission. Primary distribution voltage shall be approximately 11,000 volts between phases.

12. CHARGES FOR ELECTRICAL ENERGY.

The charges for electrical energy shall not exceed 1s. per unit for lighting purposes (including the operation of motor-generators for lighting purposes), and 6d. per unit for motor-power, heating, or cooking purposes: Provided that, if accounts be paid within fourteen days of due date the charges shall not exceed 9d. per unit for lighting and 4½d. per unit for motor-power, heating, or cooking. In the case of wholesale supply the charge shall not exceed £16 per kilovolt-ampere per annum, plus ¾d. per unit. "Wholesale supply" for this purpose shall be held to be a supply in respect of which the consumer shall guarantee to pay not less than £180 per annum. Supply may be given to wholesale consumers at 11,000 volts.

Notwithstanding anything in the foregoing provisions of this clause, if not less than 25 per centum of the consumers at any time represent to the Minister that the licensee is charging for the supply of electrical energy at a rate which is returning an excessive profit, after allowing for the creation of a reasonable reserve fund, the Minister shall have power to cause such inquiry and investigation of the licensee's books and accounts as he may deem necessary; and if, after such inquiry and investigation, he is of opinion that unreasonably high profits are being made, having regard to all surrounding circumstances and conditions and to the nature of the undertaking, the Governor-General may, on the recommendation of the Minister, from time to time reduce or otherwise amend the rates permitted to be charged to consumers under this license.

13. INTERCHANGE OF SUPPLY OF ELECTRICAL ENERGY.

(1) In the event of the Minister establishing within or outside the area of supply a hydro-electric-power scheme of a frequency of 50 cycles per second on the three-phase-alternating-current system, he may require the licensee to connect that system with the licensee's electrical system in such a manner that an interchange of electrical energy between the two systems may be made from time to time when required by either the licensee or the Minister, up to at least one-half of the total capacity of the plant installed at the licensee's power-house.

(2) The licensee shall erect and maintain in good order, at the expense of the licensee, the necessary transmission-lines between the licensee's power-house and a point, to be determined by the Minister, not beyond the boundary of the area of supply.

(3) The Minister shall erect and maintain in good order, at the expense of the Minister, the necessary transmission-lines outside the area of supply for the purpose of connecting the two systems at the point mentioned in the last preceding subclause.

(4) The licensee and the Minister respectively shall, on demand, and from time to time as and when required, supply to each other so much of the surplus electrical energy as is then required and is available, but not in excess of one-half of the capacity of the plant installed in the licensee's power-house.

(5) The price to be paid by the licensee or the Minister shall not exceed the following rates:—

Between the hours of 8 a.m. and 8 p.m. daily: 1d. per unit.
Between the hours of 8 p.m. and 8 a.m. daily: $\frac{1}{4}$ d. per unit;
to be measured in each case at the point fixed pursuant to subclause (2) hereof.

(6) For the purpose of this clause, either the licensee or the Minister may have the units measured in kilovolt-ampere hours instead of kilowatt hours.

14. INTERCHANGE OF ELECTRICAL ENERGY.

Notwithstanding anything contained in this license, the licensee is hereby authorized to use electrical energy purchased from any other electrical-supply authority in lieu of or in addition to the electrical energy generated by the licensee's hydro-electric works.

15. CROWN NOT LIABLE TO PAY COMPENSATION.

Nothing in this license shall be held to impose any liability upon His Majesty the King or upon the Government of New Zealand to pay compensation to any person, corporate body, or local authority by reason of the exercise by the licensee of the authority hereby granted; but the licensee shall be liable for any loss or damage which any person, corporate body, or local authority may sustain as the result of the exercise by the licensee of any of the powers granted by this license.

16. BED OF STREAM NOT LEASED.

Nothing herein shall be held to constitute a lease from the Crown of the beds of rivers or streams, nor shall the provisions of Part IX of the Property Law Act, 1908, apply to this license.

17. DEFAULT.

If the licensee fails or neglects to observe any of the conditions or obligations imposed by this license, then, and in any such case, the provisions of clause 229 of the Electrical Supply Regulations, 1927, shall apply to the breach of any such condition or obligation, whether the breach be of the provisions relating to the use of water, the generation of electricity, or the erection or use of electric lines.

18. LOCATION OF OVERHEAD LINES.

Notwithstanding anything hereinbefore contained, one side of every road or street shall be left free by the licensee for telegraph lines. Lines shall not be erected on both sides of a road or street unless the permission of the Minister of Telegraphs or the Post and Telegraph Department is first obtained in accordance with clause 9 of the Electrical Supply Regulations, 1927. Except at crossing-places the distance between any pole carrying a telephone line and a pole carrying high or extra-high tension circuits shall be not less than the height of the taller pole: Provided that where the minimum separation is unobtainable the licensee shall bear the cost of any special protection deemed to be necessary by the Minister for Telegraphs. The erection of power-lines on or adjacent to the route of the high-pressure or extra-high-pressure lines shall be subject to arrangement made on the spot by the licensee's engineer to the satisfaction of the Telegraph Engineer.

19. ALTERATIONS TO WORKS.

In the event of the licensee at any time desiring to make alterations to the work involving a departure from the location or type of construction shown on the approved plans, it shall first submit for the Minister's approval plans showing such new location and [or] type of construction as it is proposed to adopt, and with such approval the alterations may be carried out.

20. INSPECTION OF WORKS.

The Inspecting Engineer of the Public Works Department or any other person empowered in that behalf by the Minister shall at all times, both during and after the construction of the works, have free access to and liberty to inspect such works so as to ensure that the provisions of this license are given due effect to.

21. CONTRACT BETWEEN LICENSEE AND CROWN.

This license shall be deemed to constitute a contract as between the licensee and His Majesty the King, and may be enforced by and against either party accordingly.

22. CONVERSION OF LINES FROM EARTH-WORKING TO METALLIC.

Notwithstanding anything herein contained the licensee shall bear the cost of converting the Railway or Post and Telegraph Departments' lines which are now erected from earth-working to metallic, if such conversion is required by the Minister of Railways or the Minister of Telegraphs owing to electrical interference arising from the licensee's lines.

23. RAILWAY AND TELEGRAPH DEPARTMENTS' LINES.

The licensee shall rectify to the satisfaction of the Minister of Railways or the Minister of Telegraphs, as the case may be, any interference or disturbance caused by the erection or operation of the licensee's system that affects the satisfactory working of telegraph lines which are the property of the Railway Department or the Telegraph Department, and which were erected prior to the licensee's lines.

24. RIGHT TO ENTER LANDS, ETC.

The licensee shall have the right at any time or times during the continuance of this license, with the consent of the Minister given subject to such conditions as he may think fit to impose, to enter upon any road or other land, whether vested in or occupied by the Crown or any other person or body corporate, and there to construct, erect, lay down, maintain, renew, or repair all such cables, wires, and other things as are required for the transmission of electricity between the power-house hereinbefore referred to and any place to which the licensee is authorized to transmit electricity in pursuance of this license.

25. REMOVAL OF EXISTING POST AND TELEGRAPH LINES FROM PUBLIC ROADS.

Where it is necessary to remove existing Post and Telegraph lines from public roads in consequence of the erection of electric-power lines, the obtaining of way leaves where necessary to enter upon and erect Post and Telegraph lines on private property shall be arranged by the licensee.

26. PURCHASE OF INSTALLATION.

At any time during the currency of this license the Crown shall have the right to purchase and take over the licensee's installation, with or without the electric lines in the licensee's area of supply, at a valuation to be agreed upon between the Grey Electric-power Board and the Minister of Public Works, and, failing such agreement, at a valuation to be fixed by a single arbitrator, to be appointed pursuant to the provisions of the Arbitration Act, 1908, and thereupon the Governor-General may by Order in Council purchase and take over the licensee's installation.

27. PROTECTION OF RAILWAY WORKS.

The licensee shall at all times indemnify the Railways Department against damage caused by the exercise of the powers hereinbefore conferred, and if in the opinion of the Chief Engineer of the Railways Department it shall become advisable to construct works, or alter existing works, for the purpose of protecting the railway from damage which he shall consider likely to result from the operations of the licensee the cost of such protective works shall be borne by the licensee.

WHEREAS by the Dairy Industry Act, 1908, and its amendments, and the Dairy-produce Export Control Act, 1923, and its amendments, statutory provisions have been made relating to the carrying-on of the dairy industry in New Zealand and to the marketing of dairy-produce: And whereas a crisis has arisen in the affairs of the industry by reason in part of the cost of production and in part of a reduction in the price obtainable overseas for butter and cheese produced in New Zealand: And whereas it is contemplated that further legislation in amendment of the enactments hereinbefore recited or in addition thereto should be passed in order that the industry may be maintained and developed: And whereas by the Commissions of Inquiry Act, 1908, authority is conferred on the Governor-General in Council to appoint any person or persons to be a Commission to inquire into and report upon any question arising out of the working of any existing law or regarding the necessity or expediency of any proposed legislation: And whereas it is deemed advisable to appoint such a Commission in relation to the dairy industry and the enactments hereinbefore referred to:

Now, therefore, I, Charles, Baron Bledisloe, the Governor-General of the Dominion of New Zealand, in pursuance and exercise of the powers conferred on me as aforesaid by the Commissions of Inquiry Act, 1908, and of all other powers and authorities enabling me in this behalf, and acting by and with the advice and consent of the Executive Council of the said Dominion, do hereby constitute and appoint you, the said

- (3) The desirability or otherwise of varying the proportions existing between the different classes of manufactured dairy-produce produced for local or for overseas markets:
- (4) The economic practicability of the utilization of raw dairy-products for purposes other than the manufacture of butter or cheese:
- (5) The desirability or otherwise of reducing the total output of dairy-produce by the utilization for other purposes of lands that are now being used or are intended to be used for dairy-farming:

(6) The methods generally followed in the industry in the production of raw products or of manufactured products, and any practicable improvements of those methods or any of them that could be adopted with advantage :

(7) The sufficiency or otherwise of the monetary returns for the use of capital or labour received by persons directly or indirectly engaged in the industry :

(8) The manner in which charges on the proceeds of the industry can best be reduced, having regard to the interests of dairy-farmers and of workers engaged in the industry in the production of raw products, of persons engaged in the manufacture of dairy-produce, and of persons having capital invested by way of mortgage or otherwise in the industry or in any enterprise associated with the industry :

(9) The desirability or otherwise of affording further assistance for the maintenance and reasonable development of the industry, and the means by which any such assistance can best be afforded :

(10) The methods that should be adopted for the purpose of securing proper co-operation between persons engaged in New Zealand in the production, manufacture, sale, or distribution of dairy-produce and of persons similarly engaged elsewhere :

(11) Methods that may reasonably be adopted for promoting an increased consumption in New Zealand or elsewhere of raw or of manufactured dairy-produce :

(12) The adequacy of the provisions of the Dairy Industry Act, 1908, and the Dairy-produce Export Control Act, 1923, having regard to the special conditions now affecting the industry.

And with the like advice and consent I do further appoint you,

Francis Vernon Frazer,

to be Chairman of the said Commission :

And for the better enabling you, the said Commission, to carry these presents into effect, you are hereby authorized and empowered to make and conduct any inquiry under these presents at such places as you may deem advisable and at such times as you may deem expedient, with power to adjourn from time to time and from place to place as you think fit, and to call before you and examine on oath or otherwise, as may be allowed by law, such person or persons as you think capable of affording information in the premises ; and you are also empowered to call for and examine all such books or records as you deem likely to afford you the fullest information on the subject-matter of the inquiry hereby directed to be made, and to inquire of and concerning the premises by all lawful means whatsoever :

And, using all diligence, you are required to submit a report to me under your hands and seals not later than the sixteenth day of June, one thousand nine hundred and thirty-four, of your opinion as to the aforesaid matters :

And you are hereby strictly charged and directed that you shall not at any time publish or otherwise disclose, save to me in pursuance of these presents or by my direction, the contents or purport of any report so made or to be made by you :

And it is hereby declared that these presents shall continue in full force and virtue although the inquiry is not regularly continued from time to time or from place to place by adjournment.
