PURSUANT to the Unemployment Act, 1930, His Excellency the Administrator of the Government, acting by and with the advice and consent of the Executive Council, doth hereby revoke (subject as hereinafter appearing) the Unemployment-relief Tax Regulations, 1932, and in lieu thereof doth hereby make the regulations hereinafter set forth, and doth hereby declare that such revocation shall take effect and the regulations hereby made shall come into force on the day following the publication hereof in the *Gazette*.

REGULATIONS.

REGULATION 1.—PRELIMINARY.

(1) These regulations may be cited as the Unemployment-relief Tax Regulations, 1935.

(2) These regulations apply only with respect to the emergency unemployment charge levied on income other than salary and wages.

(3) Notwithstanding the revocation of the Unemployment-relief Tax Regulations, 1932, every liability or obligation which has arisen under those regulations to furnish any declaration or to pay any emergency unemployment charge and which has not been discharged or complied with on the coming into force of these regulations shall continue as if such liability or obligation had arisen under these regulations.

(4) In these regulations—

“Authorized officer” includes every Postmaster and every other Postal officer authorized in the course of his duties to receive payments of the emergency unemployment charge, and also includes every person who may be specially authorized by the Commissioner of Unemployment to receive payments of the emergency unemployment charge :

“The general unemployment levy” means the annual levy of twenty shillings payable as provided in the Unemployment Amendment Act, 1931 :

“The emergency unemployment charge” means the emergency unemployment charge on income payable as provided in the Unemployment Amendment Act, 1931, as amended by the Unemployment Amendment Act, 1932, and by the Unemployment Amendment Act, 1934, with reference particularly to the charge on income other than salaries and wages.

REGULATION 2.—DECLARATIONS AS TO INCOME.

(1) Every male person who is not wholly exempt from liability for the general unemployment levy (whether or not in receipt of income other than salary or wages), and every male Native who has attained the age of twenty years (notwithstanding that he may not have elected to become liable for the general unemployment levy), and who is in receipt of income other than salary or wages, or who is expressly required by the Commissioner to furnish a declaration, shall from time to time furnish declarations as to his income in accordance with this regulation.

(2) Every woman (including Native women) ordinarily resident in New Zealand and not exempt from liability in respect of the emergency unemployment charge on income other than salary or wages, and whose income from any source (other than salary or wages) for the financial year ending on the 31st day of March, 1935, or the corresponding date in any financial year thereafter, is more than £50, shall furnish declarations as to her income in accordance with this regulation.

(3) Every person referred to in the two last preceding clauses shall, in his or her discretion, either furnish to the Director-General of the Post and Telegraph Department a declaration of income other than salary or wages in the form No. U.B. 55 in the Schedule hereto, or furnish to the Commissioner of Unemployment a declaration of such income in the form No. U.B. 55A in the said Schedule.

(4) Except as provided in Regulation (3) hereof (with respect to persons whose annual balance of accounts is on a date other than the 31st day of March in any year), a declaration as to income for the financial year ending on the 31st day

of March, 1935, shall be furnished as aforesaid not later than the 31st day of May, 1935, and a declaration as to income for every subsequent financial year shall be furnished not later than the 31st day of May next after the end of such financial year.

(5) Every declaration addressed to the Director-General of the Post and Telegraph Department shall be delivered to an authorized officer at a money-order office, and every declaration addressed to the Commissioner of Unemployment shall be delivered to him at the Taxation Branch of his office in Wellington, or shall be forwarded to such office by letter properly stamped.

(6) Every person who at any time after the 1st day of May in any year and before the 1st day of March in the next succeeding year becomes liable for the emergency unemployment charge shall, on making the first payment thereof for which such person so becomes liable, furnish the declaration of income other than salary or wages hereinbefore described.

REGULATION 3.—SUBSTITUTED BALANCE DATE.

(1) Where any person liable to make a declaration of income under Regulation 2 hereof satisfies the Commissioner that he is accustomed to prepare for a financial year ending on some date (hereinafter referred to as “the balance date”) other than the 31st day of March, such accounts as may be necessary to show his annual income the provisions of this regulation shall apply :

Provided that a balance date once selected (whether before or after the coming into force of these regulations) shall not thereafter be varied except in a special case and with the express permission of the Commissioner.

(2) Such person may make a declaration of income derived for the financial year ending on the balance date, and such declaration shall be furnished within two months after the balance date.

(3) Where the balance date is any day between the 1st day of April and the 29th day of September (both dates inclusive), then the income of the declarant derived for the financial year ending on such balance date shall be deemed to be his income derived for the year ended on the last preceding 31st day of March.

(4) Where the balance date is the 30th day of September, then the income of the declarant derived for the financial year ending on such balance date shall, at the option of the declarant, be deemed to be his income derived for the year ended on the last preceding 31st day of March or for the year ending on the next succeeding 31st day of March :

Provided that an option once exercised (whether before or after the coming into force of these regulations) shall not thereafter be varied.

(5) Where the balance date is any day between the 1st day of October and the next succeeding 30th day of March (both dates inclusive), then the income of the declarant derived for the financial year ending on such balance date shall be deemed to be his income derived for the year ending on the next succeeding 31st day of March.

(6) For the purposes of a declaration under this regulation, the forms numbered respectively U.B. 55 and U.B. 55A in the Schedule hereto shall be used with any necessary modification.

(1) In any of the following cases, namely—

(a) Where the balance date is any day between the 1st day of April and the 29th day of September (both dates inclusive) ;

(b) Where the balance date is the 30th day of September and the income derived for the financial year ending on that date is deemed to be the income derived for the year ended on the last preceding 31st day of March ;

(c) Where such accounts as may be necessary to show the annual income of any person have not been completely prepared by the 31st day of May in any year—

then the person affected shall, on or before the 31st day of May, make a declaration as to his income derived (or, as the case may be, deemed pursuant to Regulation 3 hereof to be derived) for the year ended on the 31st day of March of the last preceding year.

(2) In any case to which the last preceding clause applies, instalments of the emergency unemployment charge shall (subject to adjustment as provided in this regulation) be assessed, in the first place, on the amount of income disclosed in the declaration furnished pursuant to the last preceding clause hereof.

(3) Every person who has made a declaration pursuant to clause 1 of this regulation shall on completion of his annual accounts forthwith make the declaration as to income required by Regulation 2 hereof or Regulation 3 hereof, as the case may be.

(4) When in any of the cases set out in clause (1) of this regulation the further declaration required by Regulation 2 hereof or Regulation 3 hereof has been made, then if the amount of income disclosed in such last-mentioned declaration is in excess of the amount on which instalments of the emergency unemployment charge were theretofore assessed—

(a) The additional amount payable in respect of instalments of the emergency unemployment charge which have theretofore fallen due shall be paid by the declarant forthwith;

(b) Instalments of the emergency unemployment charge subsequently falling due shall be increased so as to be payable according to the amount of income disclosed in the later declaration.

(5) If in any such case the amount of income disclosed in the later declaration is less than the amount on which instalments of the emergency unemployment charge were theretofore assessed, then emergency unemployment charge theretofore paid in excess shall be credited towards payments thereafter to be made or may be refunded on application in that behalf made by the declarant.

REGULATION 5.—FURTHER INFORMATION.

(1) For the purpose of the proper assessment of the emergency unemployment charge, in accordance with these regulations, every person required to make a declaration in accordance with the foregoing provisions of these regulations, or any other person, shall, upon a written request from an authorized officer, or from the Commissioner of Unemployment, or from an Unemployment Tax Inspector furnish such further declaration or information as may in such written request be required.

(2) The Commissioner may, by notice in writing given to any person (whether liable for unemployment-relief tax or not), require such person to make a declaration setting out all moneys paid or payable by such person to any other person named in the notice during any period stated in the notice so far as such moneys comprise or might be deemed to comprise income of the other person named in such notice with the respective dates on which such moneys were paid or became payable, and the nature, purpose, and circumstances attending every payment or liability for payment, and every person to whom such a notice is given shall, within ten days thereafter, or within such longer period as the Commissioner may in such notice or any further notice think fit to specify, deliver to the Commissioner a declaration setting out the matters aforesaid.

(3) Any person authorized in that behalf by the Unemployment Board and bearing evidence of such authority in writing under the hand of the Commissioner of Unemployment may at all reasonable times inspect any wages-books or other documents with a view to determining whether or not any person has complied with the obligations of the Unemployment Act, 1930, and its amendments, and may require any person having the custody of any such books or documents to produce the same to him for such inspection.

(4) No person shall obstruct or hinder a person authorized as aforesaid in the exercise of his powers under the last preceding clause hereof.

(3) If one-fourth only of such total amount of the charge is paid at the time when the declaration is made, the balance of such amount shall be payable by equal quarterly instalments on the first day of each of the months of August, November, and February thereafter:

Provided that with any quarterly instalment the person making such payment may, if he thinks fit, pay any one or more of the next instalments.

(4) Upon the receipt by an authorized officer or by the Commissioner of Unemployment of any payment of the emergency unemployment charge under these regulations, he shall give a receipt for such payment in a form to be provided for the purpose.

(5) In any case where the total amount of the charge in respect of the income for any year is not paid in one sum, the form of receipt shall disclose—

(a) The amount of the declared income for the year:

(b) The amount of the charge paid:

(c) The due date and the amount of the next instalment—and, unless such receipt is produced on the payment of such next instalment, the person liable therefor shall be required to make a new declaration as to his income for that year.

(6) If any emergency unemployment charge under these regulations is paid in excess or is paid in error, an adjustment may be made at the time of any subsequent payment, or a refund of any amount that has been so paid in excess or in error may be paid out of the Unemployment Fund:

Provided that no adjustment or refund shall be made unless application in that behalf is made to the Commissioner of Unemployment or to the Director-General of the Post and Telegraph Department within three years after the end of the month on the first day of which the payment thereof became due (or would in the absence of error have become due).

NOTES ON THE WEATHER FOR FEBRUARY, 1935.

General.—February saw a continuance of the abnormally warm weather which had been experienced during the preceding three months but also the break of the drought which had accompanied it in most districts. The beginning of the month was very dry, but after the first week humid weather prevailed. Rain became more frequent and widespread and drought conditions were gradually dissipated. Northern districts were the first to be relieved, but the rain gradually extended southwards and culminated in the heavy and general rains which fell between the 19th and the 24th. Further rain is still needed in North Canterbury and especially on the Wairau Plains in Marlborough. In most districts the grass is coming away well again and in the North Island there has been luxuriant growth. Stock are in good condition and the milk yield is recovering somewhat. The rain was too late to give a good wheat yield or to save some of the fodder crops. All crops and fruits are maturing early.

Rainfall.—There was a large excess of rainfall over the whole of the North Island, many places having more than double the average fall. In the South Island, most of Nelson and Westland, the Alps, and the eastern foothills had more than the average, but elsewhere there was still a deficit. This was large in parts of Marlborough and southern Otago and Southland.

Temperatures.—Temperatures were much above normal, the departures ranging approximately between 2.5° and 5° F., those on the west coast being the greatest. There were continuously high temperatures until the 23rd, when a cold spell set in and lasted till the 27th. The four months from November to February have been by far the hottest in the history of the Dominion, and this is true of all parts. Other occasions when the same months were very warm were the 1894-95, 1909-10, 1916-17, and 1923-24 seasons. On the present occasion, however, the average excess above normal is almost double the next hottest. Very few places have, however, experienced their hottest individual temperature. Auckland is one of the few that has.

Sunshine.—Sunshine was considerably below normal in most eastern districts but above it in the west. Hokitika had the remarkable record of 270.2, New Plymouth 247.9, and Alexandra 237.2 hours.

Storm Systems.—From the Meteorologist's point of view the breaking of the drought was a rather tame affair. As regards pressure and wind there was no storm of note during the month. There is no doubt, however, that in the continued hot weather great quantities of moisture had been taken up into the atmosphere and it required only a slight disturbance to cause heavy precipitation. In the early part of the month the unstable conditions were shown by the frequency of thunderstorms and heavy local downpours. These continued until the last week, but in the later stages were associated with more general rains. Severe local flooding resulted in a number of places. Several small tornadoes and waterspouts were recorded.

Some heavy rains occurred in North Auckland at the end of the first week of the month in association with several shallow depressions which were unproductive over most of the remainder of the Dominion.

A second and rather similar series of depressions in the middle of the month caused heavy rains over most of the North Island, especially on the 15th. On this day a very sudden and severe flood occurred in Auckland City.

The wettest period in the month commenced in a similar way on the 19th and continued till the 24th. On the 22nd the rains were general and the greater part of the country recorded very heavy falls. Portions of the eastern districts of the South Island, however, again escaped lightly. On the 19th Hokitika had the worst flood it had ever recorded. The same fate was experienced by Taranaki and parts of North Auckland on the 22nd. The heavy rains during this period were associated with a strong invasion of cold air from the south which forced up the warm and damp air over the Dominion, causing it to drop a large part of its moisture.

High pressures again ruled to the east of the Dominion throughout most of the month, but there was a considerable fall on the 15th and again on the 23rd in association with the disturbances which produced the most rainfall.

From the 8th to the 12th the Cook Islands experienced continuous gales which frequently rose to hurricane force. These were associated with two tropical cyclones of which the second was the more violent. The storms were unusually extensive, and this accounted for the persistence of the gales. Very serious damage resulted.

COMMUNICATION BETWEEN AIRCRAFT AND SHIPS.

MARINERS are hereby advised that the following procedure, recommended by the International Commission for Aerial Navigation, for establishing communication between aircraft and ships in circumstances not already envisaged in the International Code of Signals, has been provisionally adopted in New Zealand.

1. An aircraft wishing to attract the attention of a ship, when unable to establish communication by radio-electric or daylight signalling apparatus, should fly low round the ship.

2. In case of urgency, it should, in addition, if it has the means of doing so, fire a succession of green pyrotechnical lights or make a succession of green flashes.

3. An aircraft wishing to call the ship to the assistance of another ship or aircraft in distress should, after having flown round the ship as provided for in paragraph 1, proceed in the direction of the aircraft or ship in distress.

4. Civil aircraft should avoid flying low round ships, except when they have a message to pass or some specific duty to perform.

Masters are requested to acknowledge receipt of the above signals by sending a succession of "T's" in the code or, by day, hoisting the answering pendant.
