## MATURITY DATES.

16. (1) Every new security shall be redeemable at par on such one of the maturity dates set out in the Third Schedule hereto as is specified in that behalf in the security.

(2) The local authority shall so fix the respective maturity dates of the new securities that the aggregate amount of principal secured by the new securities maturing on each of such dates shall, if practicable, be a multiple of one hundred pounds, and, subject thereto, shall, as nearly as may be, bear the same proportion to the aggregate amount of principal secured by all the new securities as the sum set opposite that date in the Third Schedule hereto bears to the total amount specified in that Schedule.

(3) Subject to the foregoing provisions of this clause and to the express wish of any holder who desires to have the maturity date of his securities postponed, the maturity dates of the new securities shall as nearly as practicable be in the same chronological order as the maturity dates of the existing securities in conversion of which they are respectively issued.

## PREMIUMS.

17. (1) The holder of any existing securities bearing interest at a rate which, as reduced in accordance with Part I of the Act, does not exceed the rate of interest payable on the new securities shall on the conversion of such securities be entitled to receive new securities for the same aggregate amount of principal as is secured by the existing securities.

(2) The holder of any existing securities bearing interest at a rate which, as reduced in accordance with Part I of the Act, exceeds the rate of interest payable on the new securities shall on the conversion of such securities be entitled to receive new securities for the same aggregate amount of principal as is secured by the existing securities, and, in addition thereto, shall be entitled to receive a premium on such principal computed in accordance with the Fourth Schedule hereto.

18. (1) Subject to the provisions of this clause as to payment in cash, every premium to which any person is entitled under the last preceding clause shall be satisfied by issuing to him additional new securities for the amount of such premium, or so much thereof as is not paid in cash, as the case may be.

(2) The local authority shall pay in cash such portion (if any) of the aggregate amount of premiums to which any person is entitled as may be required to reduce to the nearest multiple of five pounds the aggregate amount of principal represented by the new securities (including new securities issued by way of premium) to which such person is entitled, and may, if it thinks fit, pay in cash the whole or any part of the balance of any such aggregate amount of premium.

(3) All payments of cash in accordance with the last preceding subclause that are not made out of moneys raised pursuant to the authority conferred by the next succeeding clause or out of any sinking fund pursuant to the provisions of this Order in that behalf shall be made by the local authority out of the local fund, and charged to the appropriate account.

(4) The power of the local authority to issue new securities in accordance with this Order shall be deemed to include the power to issue any additional new securities required for the purposes of this clause.

19. (1) For the purpose of providing for cash premium payments the local authority may create, issue, and sell at a price which shall not be below par new securities for an aggregate amount not exceeding three thousand pounds, redeemable at par on such one or more of the maturity dates set out in the Third Schedule hereto as may be determined by the local authority. The rate of interest payable on any new security issued pursuant to the authority conferred by this clause shall, notwithstanding anything to the contrary contained in clause fourteen of this Order, be such rate not exceeding four and one-quarter per centum per annum as may be determined by the local authority.

(2) Pending the raising of the moneys by the sale of any such new securities the local authority may borrow the said sum of three thousand pounds or any part thereof by the hypothecation of such new securities at a rate of interest not exceeding five per centum per annum.

#### PLACE FOR PAYMENT OF PRINCIPAL AND INTEREST.

20. The principal and interest in respect of new securities shall be payable in New Zealand.

#### CONSOLIDATED SINKING FUND FOR NEW SECURITIES.

21. (1) In order to provide funds for the repayment of the new securities the local authority shall forthwith make provision for the creation, pursuant to a resolution of the local authority, of a consolidated sinking fund, of which the Public Trustee shall be the Commissioner.

(2) For such purpose the local authority shall permanently appropriate and shall pay to the Commissioner of the consolidated sinking fund on each first day of October following the date of conversion up to and including the first day of October, one thousand nine hundred and sixty-four, a contribution of two thousand one hundred pounds, increased in respect of each contribution by a sum equal to four and one-quarter per centum of the aggregate amount of new securities redeemable up to and including the first day of October preceding the date on which such contribution is payable, and reduced by the aggregate of the sums which during the twelve months preceding the date of payment of such contribution have, pursuant to the provisions of the next succeeding clause, been paid to any sinking fund for unconverted securities.

(3) The provisions of subsections four, five, and six of section ninety-five of the Local Bodies' Loans Act, 1926, shall apply with respect to such sinking fund:

Provided that in respect of any securities transferred to the Public Trustee by the Commissioners of any existing sinking fund pursuant to the provisions of clause twenty-seven hereof the Public Trustee may, pending the repayment of the moneys secured by such securities, make such charges for the collection of interest payable thereunder and otherwise for the management of such securities as are for the time being prescribed in that behalf by regulations under the Public Trust Office Act, 1908.

#### SINKING FUND FOR UNCONVERTED SECURITIES.

22. (1) If dissent is signified in accordance with the provisions of this Order from the conversion of any existing securities issued in respect of any loan in the First Schedule hereto for which a sinking fund was provided, the local authority, in order to provide funds for the repayment of the unconverted securities issued in respect of such loan, shall forthwith make provision for the creation, pursuant to a resolution of the local authority, of a sinking fund, of which the persons who at the date of conversion were Sinking Fund Commissioners in respect of such loan shall be the first Commissioners.

(2) For such purpose the local authority shall permanently appropriate a sum which bears the same proportion to the annual contribution payable, before the date of conversion, to the existing sinking fund of such loan as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the existing securities in respect of which such existing sinking fund is held, and shall pay such sum to the Commissioners yearly and every year until the maturity date of such unconverted securities, or until the Commissioners are satisfied that the accumulations of sinking fund will suffice to redeem such securities at maturity.

(3) The first of such yearly payments shall be made not later than one year after the date on which the last annual contribution payable before the date of conversion to the existing sinking fund of such loan was payable.

(4) Subject to the provisions of this Order the provisions of sections forty to forty-four of the Local Bodies' Loans Act, 1926, shall, so far as applicable and with all necessary modifications, apply with respect to such sinking fund:

Provided that nothing in the said sections or in this Order shall authorize the removal or suspension of the Public Trustee as Commissioner of any sinking fund.

#### APPLICATION OF EXISTING SINKING FUNDS.

23. Where the whole of the securities issued in respect of any loan specified in the first column of the First Schedule hereto and outstanding at the date of conversion are not existing securities to which this Order applies, the existing sinking fund of such loan shall be divided into two parts, the first of which shall bear to the second the same proportion which the amount of the outstanding securities to which this Order applies bears to the amount of the outstanding securities to which this Order does not apply. The first part of such sinking fund shall be applied by the Commissioners thereof in accordance with the provisions of clause twenty-six hereof as if those existing securities issued in respect of

the loan to which this Order applies were a separate loan to which that clause applies, and such first part of the sinking fund were the sinking fund of such separate loan, and the second part of such sinking fund shall be retained by the Commissioners as a sinking fund for those securities issued in respect of the loan to which this Order does not apply.

24. For the purposes of the next two succeeding clauses the sinking fund of every loan in the First Schedule hereto some only of the existing securities issued in respect of which are held by the Public Trustee shall be divided into two parts the first of which shall bear to the second the same proportion which the amount of the existing securities so held by the Public Trustee bears to the amount of the existing securities held by persons other than the Public Trustee. The said parts shall be applied as follows:—

- (a) The first part of such sinking fund shall be applied by the Commissioner thereof in accordance with the provisions of clause twenty-five hereof as if the existing securities issued in respect of the loan and held by the Public Trustee were a separate loan to which that clause applies and such first part of the sinking fund were the sinking fund of such separate loan.
- (b) The second part of such sinking fund shall be applied by the Commissioner thereof in accordance with the provisions of clause twenty-six hereof as if the existing securities issued in respect of the loan and held by persons other than the Public Trustee were a separate loan to which that clause applies and such second part of the sinking fund were the sinking fund of such separate loan.

25. (1) Subject to the provisions of the preceding clauses twenty-three and twenty-four hereof, the existing sinking fund of every loan in the First Schedule hereto, of which the Public Trustee is Sinking Fund Commissioner and the securities issued in respect of which are held by the Public Trustee, shall be applied by the Public Trustee as such Commissioner, so far as it will extend, in or towards making the following payments, in the following order of priority, namely:—

- (a) First, in transferring to the Commissioner of the sinking fund hereinbefore required to be created for the unconverted securities issued in respect of such loan a sum which bears the same proportion to the amount of such existing sinking fund at the date of conversion as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the securities in respect of which such sinking fund is held;
- (b) Secondly, as far as it will extend to the nearest multiple of five pounds, in repayment as at the date of conversion of the principal secured by the existing securities issued in respect of such loan and held by the Public Trustee; and
- (c) Thirdly, in transferring the balance to the Commissioner of the consolidated sinking fund hereinbefore required to be created for the new securities, to be held as part of that sinking fund.

(2) Interest up to the date of conversion on any existing securities so repaid in accordance with paragraph (b) of the last preceding subclause shall be paid by the local authority out of the local fund.

26. Subject to the provisions of the preceding clauses twenty-three and twenty-four hereof, the existing sinking fund of every loan referred to in the First Schedule hereto of which the Public Trustee is Sinking Fund Commissioner (other than the loans referred to in the last preceding clause) shall be applied by the Public Trustee as such Commissioner, so far as it will extend, in or towards making the following payments, in the following order of priority, namely:—

- (a) First, in transferring to the Commissioners of the sinking fund hereinbefore required to be created for the unconverted securities issued in respect of such loan a sum which bears the same proportion to the amount of such existing sinking fund at the date of conversion as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the securities in respect of which such sinking fund is held; and
- (b) Secondly, in payment, in accordance with the directions of the local authority, of any cash payments (but not exceeding in the aggregate the sum of two hundred pounds) required by this Order to be made in respect of premiums to which any holder is entitled on the conversion of any existing securities to which this Order applies (whether issued in respect of such loan or of any other loan referred to in the First Schedule hereto); and
- (c) Thirdly, in payment, in accordance with the directions of the local authority, of the costs and charges (not exceeding in the aggregate two hundred pounds) of and incidental to the conversion of existing securities to which this Order applies (whether issued in respect of the said loan or of any other loan referred to in the First Schedule hereto); and
- (d) Fourthly, in transferring the balance to the Commissioner of the consolidated sinking fund hereinbefore required to be created for the new securities, to be held as part of that sinking fund.

27. Subject to the provisions of clause twenty-three hereof, the existing sinking fund of every loan referred to in the First Schedule hereto (other than any such loans in respect of which the Public Trustee is Sinking Fund Commissioner) shall be applied by the Commissioners thereof, so far as it will extend, in or towards making the following payments, in the following order of priority, namely:—

- (a) First, in transferring to the Commissioners of the sinking fund hereinbefore required to be created for the unconverted securities issued in respect of such loan a sum which bears the same proportion to the amount of such existing sinking fund at the date of conversion as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the securities in respect of which such sinking fund is held; and
- (b) Secondly, in transferring the balance to the Public Trustee as Commissioner of the consolidated sinking fund hereinbefore required to be created for the new securities, to be held as part of that sinking fund.

#### CONSOLIDATED SPECIAL RATE.

28. (1) As a security for the new securities and the unconverted securities the local authority shall forthwith, by resolution gazetted (in the form numbered (4) in the Second Schedule hereto), make and levy a special rate over the whole of the district of the local authority to provide for the payment of interest, sinking fund, and other charges in respect of such securities.

(2) Subject to the provisions of this Order, the provisions of the Local Bodies' Loans Act, 1926, and of any other Act shall, so far as applicable and with all necessary modifications, apply with respect to such special rate, and with respect to the interest and other charges in respect of such securities, as if such special rate were made and levied in respect of a special loan raised under Part I of the said Local Bodies' Loans Act, 1926.

(3) Upon the making of such special rate every special rate theretofore made in respect of any existing securities to which this Order applies shall cease to be a security for such existing securities.

#### SECURITIES HELD BY TRUSTEES.

29. The provisions of sections twenty-two, twenty-three, and twenty-four of the New Zealand Debt Conversion Act, 1932-33 (relating to the adjustment of premiums as between capital and income and to the powers of trustees and other persons in relation thereto), shall apply with respect to existing securities converted into new securities in accordance with this Order in the same way as they apply with respect to securities converted under that Act, save that the references in the said section twenty-two to the first day of April, one thousand nine hundred and thirty-three, shall be construed as references to the day following the date of conversion.

#### BROKERAGE.

30. The local authority shall not, in respect of the conversion into new securities of any existing securities to which this Order applies, enter into any contract for the payment of brokerage at a rate exceeding one-quarter per centum of the amount of such existing securities.

(2) For such purpose the local authority shall permanently appropriate a sum which bears the same proportion to the annual contribution payable, before the date of conversion, to the existing sinking fund of such loan as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the existing securities in respect of which such existing sinking fund is held, and shall pay such sum to the Commissioners yearly and every year until the maturity date of such unconverted securities, or until the Commissioners are satisfied that the accumulations of sinking fund will suffice to redeem such securities at maturity.

(3) The first of such yearly payments shall be made not later than one year after the date on which the last annual contribution payable before the date of conversion to the existing sinking fund of such loan was payable.

(4) Subject to the provisions of this Order, the provisions of sections forty to forty-four of the Local Bodies' Loans Act, 1926, shall, so far as applicable and with all necessary modifications, apply with respect to such sinking fund:

22. Where in respect of any loan specified in the First Column of the First Schedule hereto the whole of the securities issued in respect thereof and outstanding at the date of conversion are not existing securities to which the Act applies, the existing sinking fund of such loan shall be divided into two parts, the first of which shall bear to the second the same proportion which the amount of the

outstanding existing securities to which the Act applies bears to the amount of the outstanding existing securities to which the Act does not apply. The first part of such sinking fund shall be applied by the Commissioners thereof in accordance with the provisions of clause twenty-five hereof as if those existing securities issued in respect of the loan to which the Act applies were a separate loan to which that clause applies, and such first part of the sinking fund were the sinking fund of such separate loan, and the second part of such sinking fund shall be retained by the Commissioners as a sinking fund for those existing securities issued in respect of the loan to which the Act does not apply.

23. For the purposes of the next two succeeding clauses where the sinking fund of any loan in the First Schedule hereto is held by the Public Trustee and some only of the existing securities issued in respect of such loan are held by the Public Trustee such sinking fund shall be divided into two parts the first of which shall bear to the second the same proportion which the amount of the existing securities so held by the Public Trustee bears to the amount of the existing securities held by persons other than the Public Trustee. The said parts shall be applied as follows:—

- (a) The first part of such sinking fund shall be applied by the Commissioner thereof in accordance with the provisions of clause twenty-four hereof as if the existing securities issued in respect of the loan and held by the Public Trustee were a separate loan to which that clause applies and such first part of the sinking fund were the sinking fund of such separate loan.
- (b) The second part of such sinking fund shall be applied by the Commissioner thereof in accordance with the provisions of clause twenty-five hereof as if the existing securities issued in respect of the loan and held by persons other than the Public Trustee were a separate loan to which that clause applies and such second part of the sinking fund were the sinking fund of such separate loan.

24. (1) Subject to the provisions of clause twenty-three hereof, where the existing sinking fund of any loan in the First Schedule hereto is held by the Public Trustee as Commissioner thereof and the securities issued in respect of such loan are held by the Public Trustee, such sinking fund shall be applied by the Commissioner, so far as it will extend, in or towards making the following payments, in the following order of priority, namely:—

- (a) First, in transferring to the Commissioner of the sinking fund hereinbefore required to be created for the unconverted securities issued in respect of such loan a sum which bears the same proportion to the amount of such existing sinking fund at the date of conversion as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the securities in respect of which such sinking fund is held; and
  - (b) Secondly, as far as it will extend in repayment as at the date of conversion of the principal secured by the existing securities issued in respect of such loan and held by the Public Trustee.
- (2) Interest up to the date of conversion on any existing securities so repaid in accordance with paragraph (b) of the last preceding subclause shall be paid by the local authority out of the local fund.

25. Subject to the provisions of clause twenty-three hereof, the existing sinking fund of every loan referred to in the First Schedule hereto (other than the loans referred to in the last preceding clause) shall be applied by the Commissioners thereof, so far as it will extend, in or towards making the following payments, in the following order of priority, namely:—

22. (1) If dissent is signified in accordance with the provisions of this Order from the conversion of any existing securities issued in respect of any loan in the First Schedule hereto for which a sinking fund was provided, the local authority, in order to provide funds for the repayment of the unconverted securities issued in respect of such loan, shall forthwith make provision for the creation, pursuant to a resolution of the local authority, of a sinking fund, of which the persons who at the date of conversion were Sinking Fund Commissioners in respect of such loan shall be the first Commissioners.

(2) For such purpose the local authority shall permanently appropriate a sum which bears the same proportion to the annual contribution payable, before the date of conversion, to the existing sinking fund of such loan as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the existing securities in respect of which such existing sinking fund is held, and shall pay such sum to the Commissioners yearly and every year until the maturity date of such unconverted securities, or until the Commissioners are satisfied that the accumulations of sinking fund will suffice to redeem such securities at maturity.

(3) The first of such yearly payments shall be made not later than one year after the date on which the last annual contribution payable before the date of conversion to the existing fund of such loan was payable.

(4) Subject to the provisions of this Order, the provisions of sections forty to forty-four of the Local Bodies' Loans Act, 1926, shall, so far as applicable and with all necessary modifications, apply with respect to such sinking fund:

Provided that nothing in the said sections or in this Order shall authorize the removal or suspension of the Public Trustee as Commissioner of any sinking fund.

## APPLICATION OF EXISTING SINKING FUNDS.

23. (1) The existing sinking fund of every loan in the First Schedule hereto shall be applied by the Public Trustee as Commissioner thereof, so far as it will extend, in or towards making the following payments, in the following order of priority, namely:—

- (a) First, in transferring to the Commissioner of the sinking fund hereinbefore required to be created for the unconverted securities issued in respect of such loan a sum which bears the same proportion to the amount of such existing sinking fund at the date of conversion as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the securities in respect of which such sinking fund is held;
- (b) Secondly, as far as it will extend to the nearest multiple of five pounds, in repayment as at the date of conversion of the principal secured by the existing securities issued in respect of such loan and held by the Public Trustee;
- (c) Thirdly, in payment, in accordance with the directions of the local authority, of any cash payments required by this Order to be made in respect of premiums to which any holder is entitled on the conversion of any existing securities to which this Order applies (whether issued in respect of such loan or of any other loan referred to in the First Schedule hereto); and
- (d) Fourthly, in transferring the balance to the Commissioner of the consolidated sinking fund hereinbefore required to be created for the new securities, to be held as part of that sinking fund.

(2) Interest up to the date of conversion on any existing securities so repaid in accordance with paragraph (b) of the last preceding subclause shall be paid by the local authority out of the local fund.

## CONSOLIDATED SPECIAL RATE.

24. (1) As a security for the new securities and the unconverted securities the local authority shall forthwith, by resolution gazetted (in the form numbered (4) in the Second Schedule hereto), make and levy a special rate over the whole of the district of the local authority to provide for the payment of interest, sinking fund, and other charges in respect of such securities.

(2) Subject to the provisions of this Order, the provisions of the Local Bodies' Loans Act, 1926, and of any other Act shall, so far as applicable and with all necessary modifications, apply with respect to such special rate, and with respect to the interest and other charges in respect of such securities, as if such special rate were made and levied in respect of a special loan raised under Part I of the said Local Bodies' Loans Act, 1926.

(3) Upon the making of such special rate every special rate theretofore made in respect of any existing securities to which this Order applies shall cease to be a security for such existing securities.

## SECURITIES HELD BY TRUSTEES.

25. The provisions of sections twenty-two, twenty-three, and twenty-four of the New Zealand Debt Conversion Act, 1932-33 (relating to the adjustment of premiums as between capital and income and to the powers of trustees and other persons in relation thereto), shall apply with respect to existing securities converted into new securities in accordance with this Order in the same way as they apply with respect to securities converted under that Act, save that the references in the said section twenty-two to the first day of April, one thousand nine hundred and thirty-three, shall be construed as references to the day following the date of conversion.

## BROKERAGE.

26. The local authority shall not, in respect of the conversion into new securities of any existing securities to which this Order applies, enter into any contract for the payment of brokerage at a rate exceeding one-quarter per centum of the amount of such existing securities.

(b) Secondly, as far as it will extend in repayment as at the date of conversion of the principal secured by the existing securities issued in respect of such loan and held by the Public Trustee.

(3) Upon the making of such special rate every special rate theretofore made in respect of any existing securities to which this Order applies shall cease to be a security for such existing securities so far as any such last-mentioned special rate affects any rateable property within the Opotiki County.

REGISTER OF LICENSES ISSUED UNDER THE AUCTIONEERS ACT, 1928.

NOTE.—The Register is arranged alphabetically under the names of holders of licenses; but when an individual holds a license on behalf of a firm or registered company, the name of such firm or company, and not the name of the holder of the license, is placed in its alphabetical order.

Further, where an individual holder of a license trades under a particular name, the trade-name appears in its alphabetical order.

*Notice to Mariners No. 20 of 1935.*

Marine Department,  
Wellington, N.Z., 29th May, 1935.

NEW ZEALAND.—COOK STRAIT.—STEPHENS ISLAND.

*Direction-finding Signals.*

*Position:* Lat. 40° 40' S., long. 174° 01' E. (approx.).

*Details:* On and after 17th June, 1935, direction-finding signals will, on request, be sent from Stephens Island Light-house Radio-station at midnight, 4, 8, 9.15 a.m., noon, 4, 4.25, and 8 p.m., New Zealand time.

As Stephens Island Radio-station does not communicate with ships, masters requiring signals should apply to Wellington Radio-station (ZLW) stating the time for which signals are required and forward their request, on week-days (including holidays), before 4.15 p.m. for the 4.25, 8 p.m., midnight, 4, and 8 a.m. signals, and before 9 a.m. for 9.15 a.m., noon, and 4 p.m. signals. On Sundays, as no communication is held with the island after 9.10 a.m., all requests for signals between 9.15 a.m. and 8 a.m. the following morning should be made before 9 a.m.

Signals will be sent continuously for five minutes at the rate of about six words per minute and consist of the signal group ZLOD sent three times, 1 to 5 dots for the number of minute, a series of the letter D and a long dash of about seven seconds' duration at the end of each minute, thus—

1st minute ZLOD 3 times, ·, — · — ·, &c., — — — —  
5th minute ZLOD 3 times, · · · ·, — · — ·, &c., — — — —

The signals are of type B, wave-length 300 kc./s. (1000 m.), and should be effective at a distance of about 50 miles.

A charge of 5s. will be made by the Post and Telegraph Department for the request messages.

NOTE.—An approximate calibration of this station within a distance of 12 miles in a sector, 130° to 300° through south, bearings were found to be reliable until about 3 miles off. Within this distance errors, which increased to about 3° at a mile off, were found.

No information is available as to the accuracy of the bearings elsewhere.

NOTES ON THE WEATHER FOR APRIL, 1935.

General.—April was a very mild month with comparatively little stormy weather. The rainfall was irregularly distributed, some districts having much more and some much less than the average. There were, however, few places in which a shortage of moisture gave trouble. There was exceptionally good growth of grass for the time of year, and the country looks very green. The milk yield has been well maintained, and stock are in good condition. Some facial eczema in sheep is still reported from Poverty Bay. In Canterbury and a few localities on the east coast of the North Island where there was a good deal of cloudy weather the new feed is still soft, but elsewhere, particularly in the North Island, the high temperatures and ample sunshine have enabled it to harden, and in many cases the condition of pastures resembles that of a good spring month.

Rainfall.—Parts of western Taranaki and most of the Wellington Province had less than the average rain, but over practically all the remainder of the North Island there was a considerable excess. Many places in the Bay of Plenty and Hawke's Bay had more than double the average. At Napier more than three times the average was recorded.

In the South Island much of Nelson and Marlborough and parts of Southland had more than the average rainfall, but elsewhere it was a dry month. Parts of south Westland and the interior had deficits of over 50 per cent.

Temperatures.—For the sixth month in succession mean temperatures were everywhere considerably above normal. The departures were highest in the northern and western parts of the North Island, where they were in the neighbourhood of 3° F. In the South Island, and especially eastern districts, they were not so high. There were few frosts and no severe ones.

Sunshine.—Sunshine was below normal in Hawke's Bay, Canterbury, and Central Otago, but above it elsewhere. Nelson reports 230.8, Tauranga 207.5, and New Plymouth 194.9 hours.

Storm Systems.—The weather was slightly disturbed during the first few days of the month, and during the 3rd and 4th the passing of a westerly depression was accompanied by heavy rain in western and far southern districts.

After a spell of fine weather with anticyclonic conditions ruling there was a stormy period from the 10th to the 14th, especially over the North Island. The pressure distribution was complicated, but towards the end of the period there was a deep and slow-moving cyclone off East Cape. At the beginning there were north-easterly gales in the Auckland Province, while at the end southerly gales blew over the North Island. Heavy rains were practically general. In many parts of the North Island there was flooding, Hawke's Bay suffering most. Some severe thunderstorms occurred, and snow fell on the mountain-tops.

The next stormy period was from the 21st to the 24th. A depression developed off the west coast of the North Island and moved eastward only very slowly. North-easterly gales again blew in the north. Except in parts of the Wellington Province and eastern districts of the South Island heavy rain was general. Some exceptionally heavy falls were recorded in the Waikato and Bay of Plenty districts, several places having more than 7 in. in twenty-four hours. High floods occurred in these districts, and Taranaki and North Auckland also suffered to some extent. Severe thunderstorms were reported, especially from Taranaki.

Further widespread rains occurred in connection with depressions passing between the 26th and 28th, but there were not many heavy falls. The mountain-tops again received a coating of snow.
