(3) Subject to the foregoing provisions of this clause, and to the express wish of any holder who desires to have the maturity date of his securities postponed, the maturity dates of the new securities shall as nearly as practicable be in the same chronological order as the maturity dates of the existing securities in conversion of which they are respectively issued.

CONSOLIDATED SINKING FUND FOR NEW SECURITIES.

20. (1) In order to provide funds for the repayment of the new securities the local authority shall forthwith make provision for the creation, pursuant to a resolution of the local authority, of a consolidated sinking fund, of which the Public Trustee shall be the Commissioner.

(2) For such purpose the local authority shall permanently appropriate and shall pay to the Commissioner of the consolidated sinking fund on each of the maturity dates specified in the Third Schedule hereto, a contribution of seven hundred and ninety-eight pounds, increased in respect of each contribution by a sum equal to four and one-quarter per centum of the aggregate amount of new securities redeemable up to and including the maturity date immediately preceding that on which such contribution is payable, and reduced by the aggregate of the sums which during the twelve months preceding the date of payment of such contribution have, pursuant to the provisions of the next succeeding clause, been paid to any sinking fund for unconverted securities.

(3) The provisions of subsections four, five, and six of section ninety-five of the Local Bodies' Loans Act, 1926, shall apply with respect to such sinking fund:

SINKING FUND FOR UNCONVERTED SECURITIES.

21. (1) If dissent is signified in accordance with the provisions of this Order from the conversion of any existing securities issued in respect of any loan in the First Schedule hereto for which a sinking fund was provided, the local authority, in order to provide funds for the repayment of the unconverted securities issued in respect of such loan, shall forthwith make provision for the creation, pursuant to a resolution of the local authority, of a sinking fund, of which the persons who at the date of conversion were Sinking Fund Commissioners in respect of such loan shall be the first Commissioners.

(2) For such purpose the local authority shall permanently appropriate a sum which bears the same proportion to the annual contribution payable, before the date of conversion, to the existing sinking fund of such loan as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the existing securities in respect of which such existing sinking fund is held, and shall pay such sum to the Commissioners yearly and every year until the maturity date of such unconverted securities, or until the Commissioners are satisfied that the accumulations of sinking fund will suffice to redeem such securities at maturity.

(3) The first of such yearly payments shall be made not later than one year after the date on which the last annual contribution payable before the date of conversion to the existing sinking fund of such loan was payable.

(4) Subject to the provisions of this Order, the provisions of sections forty to forty-four of the Local Bodies' Loans Act, 1926, shall, so far as applicable and with all necessary modifications, apply with respect to such sinking fund:

Provided that nothing in the said sections or in this Order shall authorize the removal or suspension of the Public Trustee as Commissioner of any sinking fund.

APPLICATION OF EXISTING SINKING FUNDS.

22. The existing sinking fund of the Municipal Buildings Supplementary Loan of £900 referred to in the First Schedule hereto shall be applied by the Commissioners thereof, so far as it will extend, in or towards making the following payments, in the following order of priority, namely:—

- (a) First, in transferring to the Commissioners of the sinking fund herein-before required to be created for the unconverted securities issued in respect of such loan a sum which bears the same proportion to the amount of such existing sinking fund at the date of conversion as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the securities in respect of which such sinking fund is held; and

- (b) Secondly, in transferring the balance on or before the first day of February, one thousand nine hundred and thirty-seven, to the Public Trustee as Commissioner of the consolidated sinking fund hereinbefore required to be created for the new securities, to be held as part of that sinking fund.

23. For the purposes of the next two succeeding clauses the sinking fund of every loan in the First Schedule hereto (other than the loan referred to in the preceding clause twenty-two hereof) some only of the existing securities issued in respect of which are held by the Public Trustee shall be divided into two parts the first of which shall bear to the second the same proportion which the amount of the existing securities so held by the Public Trustee bears to the amount of the existing securities held by persons other than the Public Trustee. The said parts shall be applied as follows:—

(a) The first part of such sinking fund shall be applied by the Commissioner thereof in accordance with the provisions of clause twenty-four hereof as if the existing securities issued in respect of the loan and held by the Public Trustee were a separate loan to which that clause applies and such first part of the sinking fund were the sinking fund of such separate loan.

(b) The second part of such sinking fund shall be applied by the Commissioner thereof in accordance with the provisions of clause twenty-five hereof as if the existing securities issued in respect of the loan and held by persons other than the Public Trustee were a separate loan to which that clause applies and such second part of the sinking fund were the sinking fund of such separate loan.

24. (1) Subject to the provisions of clause twenty-three hereof, the existing sinking fund of every loan in the First Schedule hereto (other than the loan referred to in the preceding clause twenty-two hereof) the securities issued in respect of which are held by the Public Trustee, shall be applied by the Commissioner thereof, so far as it will extend, in or towards making the following payments, in the following order of priority, namely:—

(a) First, in transferring to the Commissioner of the sinking fund hereinbefore required to be created for the unconverted securities issued in respect of such loan a sum which bears the same proportion to the amount of such existing sinking fund at the date of conversion as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the securities in respect of which such sinking fund is held;

(b) Secondly, as far as it will extend to the nearest multiple of five pounds, in repayment as at the date of conversion of the principal secured by the existing securities issued in respect of such loan and held by the Public Trustee; and

(c) Thirdly, in transferring the balance to the Commissioner of the consolidated sinking fund hereinbefore required to be created for the new securities, to be held as part of that sinking fund.

(2) Interest up to the date of conversion on any existing securities so repaid in accordance with paragraph (b) of the last preceding subclause shall be paid by the local authority out of the local fund.

25. Subject to the provisions of clause twenty-three hereof, the existing sinking fund of every loan referred to in the First Schedule hereto (other than the loans referred to in the preceding clauses twenty-two and twenty-four hereof) shall be applied by the Public Trustee as Commissioner thereof, so far as it will extend, in or towards making the following payments, in the following order of priority, namely:—

(a) First, in transferring to the Commissioner of the sinking fund hereinbefore required to be created for the unconverted securities issued in respect of such loan a sum which bears the same proportion to the amount of such existing sinking fund at the date of conversion as the aggregate amount of principal secured by such unconverted securities bears to the aggregate amount of principal secured by all the securities in respect of which such sinking fund is held;

(b) Secondly, in payment, in accordance with the directions of the local authority, of any cash premium payments to which any holder is entitled on the conversion of any existing securities to which this Order applies (whether issued in respect of such loan or of any other loan referred to in the First Schedule hereto);

(c) Thirdly, in payment, in accordance with the directions of the local authority, of the costs and charges (not exceeding in the aggregate one hundred pounds) of and incidental to the conversion of existing securities to which this Order applies (whether issued in respect of the said loan or of any other loan referred to in the First Schedule hereto); and

(d) Fourthly, in transferring the balance to the Commissioner of the consolidated sinking fund hereinbefore required to be created for the new securities, to be held as part of that sinking fund.

CONSOLIDATED SPECIAL RATE.

26. (1) As a security for the new securities and the unconverted securities the local authority shall forthwith, by resolution gazetted (in the form numbered (4) in the Second Schedule hereto), make and levy a special rate over the whole of the district of the local authority to provide for the payment of interest, sinking fund, and other charges in respect of such securities.

(2) Subject to the provisions of this Order, the provisions of the Local Bodies' Loans Act, 1926, and of any other Act shall, so far as applicable and with all necessary modifications, apply with respect to such special rate, and with respect to the interest and other charges in respect of such securities, as if such special rate were made and levied in respect of a special loan raised under Part I of the said Local Bodies' Loans Act, 1926.

(3) Upon the making of such special rate every special rate theretofore made in respect of any existing securities to which this Order applies shall cease to be a security for such existing securities.

SECURITIES HELD BY TRUSTEES.

27. The provisions of sections twenty-two, twenty-three, and twenty-four of the New Zealand Debt Conversion Act, 1932-33 (relating to the adjustment of premiums as between capital and income and to the powers of trustees and other persons in relation thereto), shall apply with respect to existing securities converted into new securities in accordance with this Order in the same way as they apply with respect to securities converted under that Act, save that the references in the said section twenty-two to the first day of April, one thousand nine hundred and thirty-three, shall be construed as references to the day following the date of conversion.

BROKERAGE.

28. The local authority shall not, in respect of the conversion into new securities of any existing securities to which this Order applies, enter into any contract for the payment of brokerage at a rate exceeding one-quarter per centum of the amount of such existing securities.

(b) Where such supply is not being charged for by meter the hose when in use must be held by hand.

(c) If water is used in any such garden contrary to this by-law the Department shall have the power to install a meter, and charge according to the consumption as an extraordinary supply.

15. Fire hydrants: Special fire-hydrant connections may be taken off the mains direct to any private premises, and water shall not be charged for, provided it is used exclusively for the purpose of fire-extinguishing or fire practice.

16. Vacant buildings: (a) In every case where a dwelling, shop, office, or other premises remains actually vacant and unoccupied for a period of not less than three months continuously, and the person liable to pay for the supply thereto gives to the Department notice in writing that the premises became vacant and unoccupied and again became occupied on dates specified in such notice subject to the provisions of clause (b), such person shall not be liable to pay for supply during such period of vacancy or unoccupancy. No credit shall be allowed for any period less than three months, or for fractions of a month.

(b) Written application for credit on account of vacant and unoccupied premises must be received by the local controlling officer within the period of the ordinary water-supply accounts immediately following the accounts period during which such premises became vacant and unoccupied—e.g., application for credit for unoccupied premises during six-monthly period ending 31st March must be received on or before the following 30th September. Full charges are due in respect of vacant and unoccupied premises for which application for credit is not received within the specified period.

17. Interfering with meters: No person other than an authorized officer of the Department shall remove or interfere with any meter or break any seal thereof.

18. Testing meters: (a) Meters will be maintained free of charge. If the accuracy of a meter is questioned by a consumer the Department will arrange for a test to be made, provided the sum of 10s. is deposited at the office of the local controlling officer. If such meter be found, after testing, to register within 5 per cent. of the quantity passing through it the meter shall be deemed to be correct, and the deposit aforementioned shall be forfeited.

(b) If the meter is found to be incorrect, the deposit of 10s. shall be refunded and an adjustment will be made in the consumer's account for six months only, on a basis of the average consumption during the preceding three corresponding six-monthly periods.

19. Work to be done by licensed plumbers: (a) No person other than a duly licensed plumber shall install any supply or connect any pipe with the waterworks, or make any alteration or addition or repairs to any pipe, tap, or other water-fitting.

(b) Two days' notice in writing shall be given by the licensed plumber of the day and hour he proposes to make any such connection, alteration, or addition, or repairs to the office of the Department's local controlling officer, and permission be obtained therefrom before any such connection, additions, alterations, or repairs are put in hand.

(c) Licensed plumbers shall be responsible to the Department for all injury done by them or their works to the mains or to any property of the Department.

20. Plumbers' reports: All licensed plumbers shall furnish monthly reports for each calendar month to the Department's local controlling officer of all new services, and all such alterations and additions and repairs carried out by them during the month.

21. Uninterrupted supply not guaranteed—Cisterns: The Department does not guarantee an uninterrupted supply of water nor a minimum pressure, and, in particular, no allowance or compensation will be made on account of the water being shut off for any cause. Consumers to whom a constant supply is of importance should therefore provide cisterns in case of such emergency.

22. (a) Cutting off supplies on emergency: In cases of emergency necessitating the reduction of the supply of water, the Department's local controlling officer, on giving such public or other notice as may be possible, may cut off as many services as he may deem necessary for such period as is required, and no allowance or compensation shall be made on account of water thus being cut off.

(b) In the event of any shortage, or possible shortage, of water, or threatened failure in any way whatsoever of the water-supply through circumstances unforeseen, the local controlling officer is empowered to restrict the use of the supply in any way he may deem to be considered fit and necessary to safeguard the interests of consumers and the

community generally. No allowance or compensation shall be made on account of any such restriction in the supply of water.

23. Inspection: (a) Any person acting under the authority of the Department may, at any time, enter into any land or building supplied with water from the waterworks, to see if such water is being wasted or misused.

(b) If such person is refused admittance or obstructed in such examination, the Department may stop the supply of water in any manner it thinks fit.

24. Notice of removal of pipe to be given: (a) Any pipe or other apparatus on any property may be removed after giving the Department seven days' notice in writing of such intention, and of the time of such removal. Such work must be done by a licensed plumber, but the owner shall be liable for all damage done to any part of the waterworks thereby.

(b) Disconnection of such pipes from and at the main shall be done by the Department only.

(c) If any person removes any such pipe or apparatus without giving such notice he shall be liable to a penalty of not more than £20, and to pay for all damage done to the waterworks by such removal.

25. Penalties for offences against waterworks: If any person—

(b) Not having agreed to be supplied with water from the waterworks, takes any such water from the supply furnished to another person;

(c) Being supplied with water from the waterworks, supplies another person who has not agreed to be so supplied with, or permits him to take, any such water;

he shall be liable to a penalty of not more than £20 for each such offence, and to a further sum equal to the cost incurred by the Department in repairing the injury done to any part of the waterworks by any such act.

26. Agreement to pay water charges: (a) Every sum of money expressed in these by-laws to be payable for ordinary and extraordinary supplies shall be recoverable by the Department in any Court of competent jurisdiction as a debt.

(b) Every person who, after the coming into operation of these by-laws, shall be supplied with water from the waterworks (whether such supply was originally granted before such coming into operation or shall thereafter be granted, and whether originally granted to such person or to some previous owner or occupier of the premises) shall sign an agreement in the form subjoined to these by-laws.

(c) No new service (ordinary or extraordinary) shall be laid on until such agreement has been signed by the applicant for same.

(d) Where any ordinary or extraordinary service shall be actually laid on (whether it was laid on before or shall have been laid on since the commencement of these by-laws) and no such agreement shall have been signed in respect thereof, the person supplied shall sign an agreement within three days after being required so to do by the Department's local controlling officer, and in default thereof the service may be cut off.

NOTE.—The sunniest August experienced in Wellington since records commenced in 1907. Total bright sunshine amounted to 63 per cent. of the possible, and there was only one day on which the sun did not shine at all. Approximate mean temperature was 0.5° F. above normal. Rainfall was 13 per cent. below the average. There was a heavy fall of snow on the Taranauas on the 1st, and the Orongorongos also received a light coating on the 1st and 21st. A severe thunderstorm, accompanied by heavy hail, occurred on the night and early morning of the 16th–17th. Mean dew-point at 9 a.m., 39.8°; mean vapour pressure, 0.245 in.

NOTES ON THE WEATHER FOR AUGUST, 1935.

General.—August was subject to the effects of several intense storm areas, and unsettled squally conditions were frequently experienced, but there were various individual days as well as three more prolonged intervals when fine and mild weather prevailed. The generally fine spells covered the periods from the 1st to the 4th, 8th to the 13th, and the 22nd to the 28th, although in the latter period western areas had occasional showers. The month was remarkable for the early advent of strong westerly winds, and on this account the finest and mildest weather was experienced in districts east of the main ranges. There was little growth of pasture in parts of the east coast districts on account of the unusual dryness, but over most of the Dominion feed is plentiful and stocks have generally fared very well through the winter. On the other hand, the constant wet weather during the middle of the month in the Wairarapa and other parts of the North Island was detrimental to lambing. Fortunately, however, there were no unduly protracted or severe cold spells and no serious losses are reported.

Temperatures.—At a few places in the central portion of the North Island the mean temperature was very slightly below normal, but over the rest of the Dominion the normal was exceeded. The departures were greatest in the eastern half of the South Island where they ranged from 1° to as much as 3° F. above. Frosts were less frequent than usual and generally less severe.

Rainfall.—The total rainfall was again considerably below the average in the east coast districts of the South Island, and it was also below, but to a less extent, in the east coast areas of the North Island between East Cape and Cook Strait. Most of the remainder of the country had more than the average. Nelson, with more than double, reports the largest excess, but parts of Taranaki and the central districts of the North Island also had a very wet month.

Sunshine.—The amount of bright sunshine fell below the average for August on the west coast of the South Island and in Taranaki and the Auckland provinces in the North Island, while the eastern districts had more than normal. The greatest amounts recorded were 212 hours at Blenheim, 209 at Napier, and 204 hours at Wellington. At the latter place it was the sunniest August since sunshine records were first taken in 1907.

Pressure Systems.—The month opened with fine weather which continued until the 4th under the influence of a slight anticyclone. On the latter day the front of an intense westerly depression moved on to the Dominion and strong northerly winds set in and were accompanied by heavy rain in western districts during the night of the 4th and on the 5th and 6th with thunderstorms in places. The northerly wind was particularly severe about this time in the Taranaki district where some minor damage to sheds, gardens, and fences occurred. The rear of this storm crossed the Dominion during the night of the 6th when a general change to cold southerly winds took place and heavy snow fell in the National Park area. In the east coast districts of the South Island only light and scattered rain occurred with the southerly change, and by the morning of the 7th the weather had improved over the whole of the South Island, the improvement extending over the North Island on the 8th. The general effects of this disturbance were less severe than might have been expected from its extent and intensity. In the Tasman Sea, for instance, very stormy conditions were associated with it for several days and the s.s. "Wanganella" in her crossing to Australia experienced a severe buffeting.

From the 8th to the 13th, while an intense anticyclone was situated over New Zealand, mild and pleasant conditions prevailed throughout the Dominion.

The next important disturbance was again one of the westerly type and was even more intense than the previous one, besides being more prolonged. It first appeared on the 13th, and until the 21st a series of intense waves connected with it continued to cross the Dominion. During this period strong and squally winds from some westerly quarter prevailed, accompanied by heavy rain at times in districts with a westerly aspect. Thunderstorms, accompanied by hail, occurred at many places in the North Island and northern portion of the South Island on the night of the 16th. There were considerable snowfalls on the ranges while the storm lasted, and during the night of the 20th and the morning of the 21st, while a south-westerly wind blew, snow showers fell at a few low level places on the east coast areas of the South Island. A blizzard, with heavy snow, was experienced at this time in the National Park, snow also falling in parts of Taranaki.

From the 22nd to the close of the month an anticyclone covered the Tasman Sea with its centre over the northern portion, but pressure remained low to the south and east of New Zealand. Consequently, winds between westerly and south-westerly predominated, occasionally rising to gale force in places. A particularly violent gale, the worst experienced for many years, swept central Hawke's Bay on the morning of the 24th and again on the 29th. On both these occasions extensive damage was done to power lines, telephone communications, sheds, and trees. Otago and Southland suffered some damage in a south-west gale on the 24th, the gale being accompanied by heavy rain and hail in places. On the whole, however, during the period referred to, although strong winds were experienced in most districts, what rain fell was of a showery and scattered nature only and confined chiefly to western areas, very little falling in districts with an easterly aspect, but on the 31st a boisterous south-westerly brought a few heavy showers to Canterbury and some light snow in places.

On the 6th a tornado swept from seaward across part of Bell Block in Taranaki and damaged a milking-shed and a small building, besides uprooting a number of macaranga trees. Another one occurred at Morgantown on the 24th, but, fortunately, its path lay mostly over open country and little damage resulted from it.

1. All instalment-payments shall be secured by "on demand" promissory notes made and endorsed to the satisfaction of the Commissioner of State Forests, and interest at the rate of 1 per cent. per annum in excess of current bank overdraft rates will be charged on all notes overdue from the date of maturity to the date of payment.

2. The right to cut and remove the timber will be sold in accordance with the provisions of the Forests Act, 1921-22, the regulations in force thereunder, and these conditions.

3. The aforementioned qualities, quantities, and kinds as to the said timber shall be taken as sufficiently accurate for the purposes of this sale, and no contract for the purchase shall be voidable, nor shall the successful purchaser be entitled to any abatement in price, by reason of the said timber being of less quantity, quality, or kind as stated herein or in any advertisement having reference to the said timber.

4. The attention of all tenderers is drawn to the fact that the local controlling body may require the successful tenderer to pay any claims or charges which may be made by that body for the maintenance of the road over which the timber may be transported, and before a sawmill license is issued a letter indicating that satisfactory arrangements have been made in this connection must be produced to the undersigned.

5. A return giving the number of logs cut of each species and their contents must be made quarterly by the licensee on the last days of March, June, September, and December respectively in each year. A return must also be made on the same dates showing the output of sawn timber of each species. These returns may be ascertained and verified by inspection of the books of the mill, or by such other means as the Conservator may require, and for this purpose the accounts and books shall be open to the inspection of the Conservator, a Forest Ranger, or other duly authorized officer.

6. Intending tenderers are expected to visit the locality and to satisfy themselves in every particular on all matters relative to the sale.

7. Each tenderer must state the total price that he is prepared to pay for the timber. The highest or any tender will not necessarily be accepted, and the timber described is submitted for sale subject to the final acceptance of the tender by the Commissioner of State Forests.

8. The right is reserved to the Commissioner of State Forests to withdraw from sale any or all of the said timber either before or after the closing date for receipt of tenders.

9. If no tender is accepted for the timber herein mentioned it will remain open for application at the upset price for three months from the closing date of tenders.

10. Tenders should be on the special form obtainable from any office of the State Forest Service, and should be enclosed in envelopes addressed "Conservator of Forests, Rotorua," and endorsed "Tender for Timber."

The conditions which will be inserted in the license to be issued to the purchaser and further particulars may be obtained on application to the undersigned or to the Director of Forestry, Wellington.
